Memory storage

Your menu settings are stored permanently and in the event of a power failure will not be lost. Temporary settings (for example, Contrast) will be lost. During a power failure the machine will retain the date and time for up to 60 hours.

Automatic Daylight Saving Time

You can set the machine to change automatically for Daylight Saving Time. It will set itself forward one hour in the Spring, and back one hour in the Autumn.

1. Press Menu, 6, 1, 2.
2. Press ▲ or ▼ to choose On or Off. Press OK.
3. Press Stop/Exit.
Ecology features

**Toner Save**

You can save toner using this feature. When you set Toner Save to On, prints appear lighter. The default setting is Off.

1. Press Menu, 1, 3, 1.
2. Press ▲ or ▼ to choose On or Off. Press OK.
3. Press Stop/Exit.

| Note | We do not recommend Toner Save for printing Photo or Greyscale images. |

**Sleep Time**

The Sleep mode setting can reduce power consumption. When the machine is in Sleep mode (Power Save mode) it acts as though it is turned off. The machine will wake up and start printing when it receives a print job.

You can choose how long the machine must be idle before it goes into Sleep mode. When the machine receives a print job or makes a copy, the timer will be reset. The default setting is 3 minutes.

While the machine is in Sleep mode the LCD will show sleep.

1. Press Menu, 1, 3, 2.
2. Enter the length of time (0-90 minutes) the machine is idle before entering Sleep mode. Press OK.
3. Press Stop/Exit.

**Deep Sleep mode**

If the machine is in Sleep mode and does not receive any jobs for a certain length of time, the machine will go into Deep Sleep mode automatically and the LCD will show Deep Sleep. Deep Sleep mode uses less power than Sleep mode. The machine will wake up when it receives a print job.
Power Down mode

If the machine is in Deep Sleep mode for 4 hours, it will then go into Power Down mode automatically and the LCD will show Power Down. Power Down mode is the lowest power consumption mode, which achieves a power consumption of approximately 0.26 W. To start printing, press any key on the control panel and then send the print data.

You can enable or disable the Power Down mode feature by following these steps:

1. Press Menu, 1, 3, 3.

If you use a Lower Tray, DO NOT carry the machine with the Lower Tray as you may be injured or cause damage to the machine because it is not attached to the Lower Tray.

---

**Note**

If for any reason you must ship your machine, carefully repack the machine in the original packaging to avoid any damage during transit. The machine should be adequately insured with the carrier.

1. Turn off the machine. Leave the machine turned off for at least 10 minutes to cool down.
2. Disconnect all the cables, and then unplug the power cord from the electrical socket.
3. Put the packing material (1) into the carton.
4 Wrap the machine in a plastic bag. Put the machine on the packing material (1).

5 Put the two packing material pieces (1) into the carton matching the right of the machine to the “RIGHT” mark on one of the packing material pieces, and the left of the machine to the “LEFT” mark on the other packing material pieces. Put the AC power cord and printed materials in the original carton as shown in the illustration.

6 Close the carton and tape it shut.
