Registration Under the Nijyu-Maru Project

April 2018, April 18, 2019, September 28, 2023 and September 26, 2024

Under the Nijyu-maru Project, citizen groups, companies, local governments, etc. declare contributions to the Aichi Biodiversity Targets (Nijyu-maru declaration) within the scope of their efforts and register their declaration. The project is administered by the Japan Committee for IUCN.*

The Brother Group, developing business on a global basis, agreed with this project to connect with global efforts toward the achievement of Aichi Biodiversity Targets, and promotes the registration. A total of 12 biodiversity conservation activities have been registered by the Brother Group, including 3 new activities registered in April 2019.

The Brother Group's major projects registered under the Nijyu-maru Project and Registration Certificates

Project name	Name of business site
Mie Brother's Saiku Kobushi-no-Mori —Resource circulation manufacturing facility in harmony with nature, etc.	Mie Brother Precision Industries, Ltd. (BIL)
