The Company issues stock acquisition rights in the form of stock options for a stock-based compensation plan to Directors (excluding outside Directors and part-time Directors) and Executive Officers (excluding Executive Officers who concurrently serve as Directors) with the purpose of linking the compensation system for Directors and Executive Officers with the share price of the Company’s shares and of increasing their incentives to be committed to the long-term enhancement of business performance and corporate value.

The adjustment, however, shall be made only to the number of shares to be issued upon exercise of those stock acquisition rights which have not yet been exercised at the time.
