2. Reasons for paying dividends from surplus earnings

The Company’s basic policy is to provide stable and continuous returns to shareholders while comprehensively taking into consideration the need to secure the internal reserves necessary for future growth and the status of cash flows.

Under the Medium-Term Business Strategy “CS B2024” ended in FY2024, while making prior investments for the future, we have set the minimum annual dividend at 68 yen per share, and have considered additional shareholder returns, including an increase in the dividend level, depending on performance and other factors.

Based on the above policy, the Company determined the year-end dividend per share of 50 yen for the fiscal year ended March 31, 2025. As a result, the annual dividend for the fiscal year ended March 31, 2025 will become 100 yen per share with the 50 yen dividend for the end of the second quarter, which had already been paid.
