Second Quarter Financial Results

Brother Industries, Ltd.

November 8, 2021

Information on this report, other than historical facts, refers to future prospects and performance, and has been prepared by our Management on the basis of information available at the time of the announcement. This covers various risks, including, but not limited to, economic conditions, customer demand, foreign currency exchange rates, tax rules, regulation and other factors. As a result, actual future performance may differ from any forecasts contained on this report.

Results for FY2021 Q2 (Jul.-Sep.)

Revenue increased, due mainly to strong performance of the Machinery business in addition to positive FX effects

Business segment profit reached to the same level as the previous year, which was an all-time high for Q2

◆ **Sales revenue** **176.5 billion yen/ +12.5% (year-on-year)**

- ✓ In the P&S business, despite supply restrictions, revenue increased due to strong demand for hardware products for people working from home, firm performance of consumables, and positive FX effects.
- ✓ The Machinery business recorded a substantial increase in revenue, mainly as a result of strong performance by machine tools in China and recovery of demand for capital investment in industrial sewing machines among apparel manufacturers.

◆ **Business segment profit** **23.2 billion yen/ -0.6% (year-on-year)**

- ✓ Despite higher gross profit in the Machinery and P&S businesses and positive FX effects, business segment profit was flat year-on-year due to high logistics costs and parts and materials costs.

Forecast for FY2021

The forecast for each measure of profit has been revised upward in response to positive FX effects and higher profit in the P&S business, mainly in Q2

"Brother Group Global Charter" is the foundation of all activities by the global Brother Group.

In addition to changes in society, the business environment surrounding Brother is also changing.

Changes in society

- Values, including workstyles, have changed significantly.
- The changes have been accelerated by the COVID-19 pandemic.
- As there has been growing demand for sustainability, the trend toward questioning the raison d'être and social value of companies has spread globally.

Changes in the business environment

- Digitalization and remote work
- Diversification of purchasing behavior
- Growing demand for mass customization
- Acceleration of automation and networking at manufacturing facilities
- Growing risks in the supply chain due to disasters, infectious diseases, geopolitical risks, etc.
