nstalling the Driver & Software

Before you can use the MFC, you must set up the hardware and install the driver. To help you get started in setting up the machine and installing the driver and software, please read this "Setup Guide" and follow the simple instructions.

#### Step 1

### **Setting Up the Machine**

**Installing the Driver & Software** 

### **Setup is Complete!**

For the latest drivers and to find the best solution for your problem or question, access the Brother Solutions Centre directly from the driver or go to **http://solutions.brother.com**Keep this "Quick Setup Guide", User's Guide and supplied CD-ROM in a convenient place for quick and easy reference at all times.

must be observed to prevent possible personal injury.

Indicates cautions that must be observed to use the MFC properly or to prevent damage to the MFC.

Indicates notes and useful tips to remember when using the MFC.

Hint

**User's Guide** 

Indicates reference to the User's Guide.

### **■** Getting Started

### **Carton Components**

Carton components may differ from one country to another. Save all packing materials and the carton.

- You must use the appropriate USB cable.
- The interface cable is not a standard accessory. Please purchase an appropriate USB interface cable.
- Use only a USB interface cable that is no longer than 2 meters.

### **Control Panel**

1. Photo key	5. Mode keys	9. Navigation keys
2. Copy keys (Temporary Settings)	6. Stop/Exit	10. Liquid Crystal Display (LCD)
3. Fax and telephone keys	7. Start keys	11. Print key
4. Dial Pad	8. Power Save key	

For the details of the control panel, see "Control panel overview" in Chapter 1 of the User's Guide.

### **Setting Up the Machine**

- Removing the Protective Parts
- Remove the protective tape and paper in the ADF.

Do NOT connect the USB cable. Connecting the USB cable is done when installing the driver.

2 Open the scanner cover by lifting it up.

3 Pull the protective yellow bar out of the machine.

Do not throw away the protective yellow bar. You will need it in the future to transport the machine.

4 Close the scanner cover.

## Attaching the Paper Tray and Support

1 Insert the paper tray from above into the back of the MFC.

Attach the output paper support to the paper output slot, and then pull out the extension.

### 3 Loading Paper

You can load up to 100 sheets of 80 gsm paper.

For more details, see "Paper Capacity of the Paper Tray" in Chapter 2 of the User's Guide.

1 Fan the stack of paper well to avoid paper jams and misfeeds.

Press and slide the paper guide to fit the paper width.

Gently insert the paper.
Make sure the print side is towards you and the paper is below the maximum paper mark.

## Install Phone Line and Power Cord

Connect the power cord.

Connect the telephone line cord. Connect one end of the telephone line cord to the socket on the MFC marked LINE and the other end to a modular wall socket.

Do not connect the USB cable yet.

#### Warning

- The MFC must be grounded using a 3-prong plug.
- Since the MFC is grounded through the power outlet, you can protect yourself from potentially hazardous electrical conditions on the telephone network by keeping the power to your MFC on when you connect it to a telephone line. Similarly, you can protect yourself when you want to move your MFC by disconnecting the telephone line first and then the power cord.

Continued...

### Step 1

### **Setting Up the Machine**

If you are sharing one phone line with an external telephone, connect it as shown below

If you are sharing one phone line with an external telephone answering machine, connect it as shown below.

Please set the Receive Mode to "External TAD" if you have an external answering machine. For more details, see "Connecting the machine" in Chapter 1 of the User's Guide.

#### Set Your Country (For Australia / New Zealand Customer only)

#### Warning

You must set your country so that the machine works correctly.

1 Check that the power is turned on (by plugging in the power cord)
The LCD shows;

Press Menu/Set.
The LCD shows;

- 3 Press or to select the country (AUSTRALIA or NEWZEALAND).
- Press Menu/Set when the LCD shows your country.
- 5 The LCD prompts you to make sure of the country again

6 Press 1 to go to step 7.

Press 2 to go back to step 1 to select the country again.

7 After the LCD shows Accepted for two seconds, it shows; Please Wait After about 30 seconds, the LCD shows;

Check Cartridge

8 Go to step 6 "Installing the lnk Cartridges".

### 6

## Installing the Ink Cartridges

#### Warning

If ink gets in your eyes irrigate them with water immediately, and if irritation occurs consult a doctor.

1 Make sure that the power is turned on. The LCD shows;

Check Cartridge

Open the scanner cover by lifting it up. The print heads will move to the ink replacement position.

3 Push the four coloured ink cartridge covers one at a time so they pop up.

4 Remove the white shipping cover by pulling it towards you.

- The bottom of the white shipping cover is wet with ink that will cause stains, so wipe it clean before you place it down.
- Do not throw away the white shipping cover. You will need it when you transport the machine.
- 5 Take out the black ink cartridge.

6 Carefully remove the sealing tape from the ink cartridge.

To prevent spilling ink and staining your hands and clothing, peel the sealing tape gently and slowly.

 Do not touch the ink opening on the cartridge or removed tape.

Continued...

### Step 1

### **Setting Up the Machine**

7 Gently insert the black ink cartridge in the black ink position.

8 Press the cover down until it clicks.

- 9 Repeat Steps 5 to 8 to install each colour ink cartridge. Match the colours of the ink to the cartridge covers.
- Close the scanner cover. The MFC will enter a head cleaning cycle for approximately four minutes.

Cleaning
Please Wait

- DO NOT remove ink cartridges if you do not need to replace them. If you do so, it may reduce the ink quantity and the MFC will not know the quantity of ink left in the cartridge.
- DO NOT shake the ink cartridges.
  If ink stains your body or
  clothing, wash with soap or
  detergent immediately.
- Brother strongly recommends that you do not refill the ink cartridges provided with your machine. We also strongly recommend that you continue to use only Genuine Brother Brand replacement ink cartridges. Using or attempting to use potentially incompatible inks and/or cartridges in your machine may cause damage to the machine itself and/or it may result in unsatisfactory print quality. Our warranty coverage does not apply to any problem that was caused by the use of unauthorized third party ink and/ or cartridges. To protect your investment and guarantee your print quality please continue to replace consumed ink cartridges with only Genuine Brother **Branded Supplies.**

- If you mix the colours by installing an ink cartridge in the wrong position, you must clean the print head by running several cleaning cycles after correcting the cartridge installation. (See "Cleaning the print head" on page 13-12 of the User's Guide.)
- Once you open an ink cartridge, install it in the MFC and use it up within six months of installation. Use unopened ink cartridges by the expiration date written on the cartridge package.
- If Ink Empty shows on the LCD after you install the ink cartridges, check to make sure the ink cartridges are installed correctly.

## 7 Colour Block Quality and Alignment Check

After the cleaning cycle is finished, the LCD shows;

Set Paper and
Press Start

Make sure the paper is loaded in the paper tray.

Press Colour Start.

The MFC starts printing the PRINT QUALITY CHECK SHEET (only during initial ink cartridge installation).

### Step A: Colour Block Quality Check

The LCD shows:

Check the quality of the four colour blocks formed by the short lines printed on the sheet.

(BLACK/CYAN/YELLOW/MAGENTA)

2 If all lines are clear and visible, press on the dial pad to go to STEP B: Alignment Check.

---OR----

If you can see missing short lines, press on the dial pad and go to 3.

3 The LCD asks you if the print quality is OK for each colour. Press 1 or 2 on the dial pad.

```
Black OK?

1.Yes 2.No
```

When you have finished selecting

(YES) or (NO) for each colour, the LCD shows:

```
Start Cleaning?
1.Yes 2.No
```

Press (YES), and then MFC starts cleaning the colours.

After cleaning is finished, press **Colour Start**. The MFC starts printing the PRINT QUALITY CHECK SHEET again and goes back to the first step of STEP A.

Continued...

### Step 1

### **Setting Up the Machine**

#### **Step B: Alignment Check**

1 The LCD shows:

```
( Is Step "B" OK? 1.Yes 2.No
```

Check the 600 dpi and 1200 dpi test print to see if **No.5** most closely matches the OK sample (**No.0**). Press if **No.5** matches it.

If another test print number is a better match for either 600 dpi or 1200 dpi, press to select NO and go to 2.

2 For 600 dpi, select the number from 1 to 8 that most closely matches the **No.0** sample and enter it using the dial pad.

```
600dpi Adjust
Select Best #
```

3 For 1200 dpi, enter the number from 1 to 8 that most closely matches the **No.0** sample.

```
C 1200dpi Adjust
Select Best #
```

The Quality check is now complete.

### 8 Setting the Date and Time

The MFC displays the date and time, and prints it on every fax you send.

- 1 Press Menu/Set.
- Press .
- 3 Press 2.
- 4 Enter the last two digits of the year on the dial pad, and then press **Menu/Set**.

Year:200<u>4</u>

(e.g. Enter 0, 4 for 2004.)

5 Enter the two digits for the month on the dial pad, and then press **Menu/Set**.

Month:03

(e.g. Enter 0, 3 for March.)

6 Enter the two digits for the day on the dial pad, and then press **Menu/Set**.

Day:0<u>1</u>

(e.g. Enter 0, 1.)

7 Enter the time in 24-hour format on the dial pad, and then press **Menu/Set**.

Time:15:2<u>5</u>

(e.g. Enter 1, 5, 2, 5 for 3:25 P.M.)

8 Press Stop/Exit.

If you want to repeat from step1, press **Stop/Exit**.

### Step 1

### **Setting Up the Machine**

### 9 Setting Your Station ID

You should store your name and fax number to be printed on all fax pages that you send.

- 1 Press Menu/Set.
- 2 Press 0.
- 3 Press 3.
- 4 Enter your fax number (up to 20 digits) on the dial pad, and then press **Menu/Set**.

5 Use the dial pad to enter your name (up to 20 characters), and then press **Menu/Set**.

Name:\_

- Refer to the following chart for entering your name.
- If you need to enter a character that is on the same key as the previous character,

press > to move the cursor to the right.

Press	One	Two	Three	Four
key	time	times	times	times
2	Α	В	С	2
3	D	E	F	3
4	G	Н	I	4
5	J	K	L	5
6	М	N	0	6
7	Р	Q	R	S
8	Т	U	V	8
9	W	Х	Y	Z

For more details, see "Setting the Station ID" in Chapter 4 of the User's Guide.

6 Press Stop/Exit.

If you want to repeat from step1, press **Stop/Exit**.

### **Selecting a Receive Mode**

Are you connecting an external telephone or external telephone answering device to the MFC? ↓ No Are you using the voice message Fax Only function of your external telephone answering device? The MFC automatically No answers every call as a Do you want the MFC to answer fax calls only? ►Fax/Tel The MFC controls the line and automatically answers every call. If the call is not a fax, the phone will ring for you to pick up the call.

No

Yes

Your external telephone answering device (TAD) automatically answers every call. Voice messages are stored on the external TAD. Fax messages are printed.

You control the phone line and must answer every call yourself.

▶External TAD

Manual

There are four possible receive modes: Fax Only, Fax/Tel, Manual and External TAD.

- Press Menu/Set.
- Press .
- Press 1.
- Press or to select the mode.
- Press Menu/Set.
- Press Stop/Exit.

For more details, see "Setup Receive" in Chapter 5 of the User's Guide.

> Go to Next page to install the driver

### **Installing the Driver & Software**

### **Supplied CD-ROM (MFL-Pro Suite)**

The CD-ROM includes the following items:

#### Windows®

Macintosh<sup>®</sup>

On-Line Registration

#### **Install Software**

You can install printer, PC-FAX Send/Receive, scanner drivers and the various utility items, including PaperPort® and TextBridge® OCR.

#### **On-Line Registration**

You will be pointed to the Brother Product Registration Web Page for quick registration of your MFC.

#### **Documentation**

View the User's Guide and other documentation in PDF format. (Viewer included)

### Brother Solutions Centre

You can access the Brother Solutions Centre which is a Web site offering information about your Brother product including FAQs, User's Guides, Driver updates and Tips for using your machine.

#### Help

Helpful hints.

#### **Start Here**

You can install the printer driver, scanner driver, PC-FAX Send and Presto! PageManager® for Mac OS® 8.6 - 9.2

#### **Documentation**

View the User's Guide and other documentations in PDF format.

#### **Start Here OSX**

You can install the printer driver, scanner driver, PC-Fax Send, remote setup program and Presto! PageManager® for Mac OS® 10.1/10.2.1 or greater (Scanning is not supported in Mac OS® 10.1).

#### **Brother Solutions Centre**

You can access the Brother Solutions Centre which is a Web site offering information about your Brother product including FAQs, User's Guides, Driver updates and Tips for using your machine.

#### ReadMe!

You can get important information and troubleshooting tips.

#### **On-Line Registration**

You will be pointed to the Brother Product Registration Web Page for quick registration of your MFC.

### Step 2

### Installing the Driver & Software

Follow the instructions on this page for your operating system and interface cable.

### **Installing the Driver & Software**

## Make sure that you have completed the instructions from Step 1 "Setting Up the Machine" on pages 4 - 13.

### If you are using Windows<sup>®</sup> 2000 Professional:

To access the PhotoCapture Centre<sup>™</sup> features from your PC you may have to install a Windows<sup>®</sup> 2000 update first.

Install the Windows<sup>®</sup> 2000 update from the MFL-Pro Suite installer.

You can install it by following the steps below:

- 1. Follow the installation steps from 1 to 6.
- 2. Click **OK** to start installation of the update.
- 3. Click **OK** to restart your PC.
- 4. After the PC restarts, the installation will automatically continue.

If the installation does not continue automatically, please open the MFL-Pro Suite installer menu again by double-clicking the **setup.exe** program on the Brother CD-ROM, and continue from Step 4 to install the MFL-Pro Suite.

Make sure any media cards are not inserted into the media drive of the MFC.

1 Turn off and unplug the MFC from the AC outlet and disconnect it from your computer, if you already connected an interface cable.

- 2 Turn on your computer. (For Windows<sup>®</sup> 2000 Professional/XP, you must be logged on as the administrator.)
- 3 Insert the supplied CD-ROM into your CD-ROM drive. If the model name screen appears, select your machine. If the language screen appears, select your language.

The CD-ROM main menu will appear. Click Install Software.

If this window does not appear, use Windows<sup>®</sup> Explore to run the **setup.exe** program from the root directory of the Brother CD-ROM.

6 Click MFL-Pro Suite in Main Application.

MFL-Pro Suite includes Printer Driver, Scanner Driver, ScanSoft® PaperPort®, ScanSoft® TextBridge®, PC-FAX software, Remote Setup and True Type fonts. PaperPort® is a document management application for viewing scanned originals. ScanSoft® TextBridge®, which is integrated into PaperPort®, is an OCR application that converts an image into text and inserts it into your default word processor.

6 Click Install.

If you see the following screen, click **OK** to install the Windows<sup>®</sup> updates. After the updates are installed your PC may restart. Note: If it does the installation will automatically continue.

If the installation does not continue automatically, please open the installer menu again by double-clicking the **setup.exe** program from the root directory of the Brother CD-ROM, and continue from Step 4.

When the PaperPort<sup>®</sup> 8.0 SE Setup window is displayed, click **Next**.

8 After reading and accepting the ScanSoft® License Agreement, enter your user information and click **Next**.

9 Select **Typical** and click **Next**.

Click Install and PaperPort<sup>®</sup> will start installing on your computer.

Continued...

### **Step 2** Installing the Driver & Software

11 When the ScanSoft® Registration screen is displayed, make your selection and follow the on-screen instructions.

Click **Finish** to complete installation.

(13) When the Brother MFL-Pro Suite Installation window appears, click Next.

If an error message appears at this point in the installation process, you will first have to uninstall it. From the Start menu, select Programs, Brother, MFL-Pro Suite, Uninstall, and then follow the instructions on the screen.

14 When the Brother Software License Agreement window appears, click Yes, if you agree to the Software Licence Agreement.

Select **Local Interface**, and then click **Next**.

**16** Select **Standard**, and then click **Next**. The application files will be copied and installed to your computer.

### For Windows® 98/98SE/Me Users Only

#### Make sure that you followed the instructions in 1 to 6 on pages 16 - 18.

When this screen appears, connect the USB interface cable to your PC, and then connect it to the MFC.

Turn on the MFC by plugging in the power cord.

It will take a few seconds for the installation screen to appear.

The installation of the Brother drivers will automatically start. Follow the instructions on the screen.

8 Select BRUSB: USB Printer Port, and then click Next.

19 Accept the default Printer name by selecting **Yes**, and then click **Next**.

Select **Yes (recommended)**, and then click **Finish**. A test page will be printed so you can check the print quality.

21 If the test page is printed correctly, click Yes. If you click No, follow the prompts on the screen to correct the problem.

If the README file shown in step 22 appears, close the README file and then click **Finish** after printing the test page.

Continued...

### Installing the Driver & Software

The README file will be displayed.

Please read this file for troubleshooting information and then close the file to continue installation.

Click Finish to restart your computer.

After the computer restarts, click **Yes** to have the Control Centre load each time Windows<sup>®</sup> is started. The Control Centre will appear as an icon in the task tray. If you click **No** the Scan keys on the MFC will be disabled.

Even if you select **No**, later you will be able to launch the Brother Control Centre to use the **Scan** key by double clicking the Smart UI icon on the desktop. This loads the Brother Control Centre to the task tray. See AutoLoad the Brother Control Centre, Chapter 4 in the Documentation (Software User's Guide) located on the CD-ROM.

The Brother PC-FAX, Printer and Scanner drivers have been installed and the installation is now complete.

### For Windows® 2000 Professional Users Only

Make sure that you followed the instructions in 1 to 6 on pages 16 - 18.

When this screen appears, connect the USB interface cable to your PC, and then connect it to the MFC.

Turn on the MFC by plugging in the power cord.

It will take a few seconds for the installation screen to appear.

The installation of the Brother drivers will automatically start. Follow the instructions on the screen.

18 If the **Digital Signature Not Found** dialog boxes appear, click **Yes** to install the driver.

19 The README file will be displayed.

Please read this file for troubleshooting information and then close the file to continue installation.

Olick Finish to restart your computer.

Continued...

### Step 2

### **Installing the Driver & Software**

After the computer restarts, click **Yes** to have the Control Centre load each time Windows<sup>®</sup> is started. The Control Centre will appear as an icon in the task tray. If you click **No** the Scan keys on the MFC will be disabled.

Even if you select **No**, later you will be able to launch the Brother Control Centre to use the **Scan** key by double clicking the Smart UI icon on the desktop. This loads the Brother Control Centre to the task tray. See AutoLoad the Brother Control Centre, Chapter 4 in the Documentation (Software User's Guide) located on the CD-ROM.

### For Windows® XP Users Only

### Make sure that you followed the instructions in 1 to 6 on pages 16 - 18.

When this screen appears, connect the USB interface cable to your PC, and then connect it to the MFC.

Turn on the MFC by plugging in the power cord.

It will take a few seconds for the installation screen to appear.

The installation of the Brother drivers will automatically start. The installation screens appear one after another, please wait for a while.

18 The README file will be displayed.

Please read this file for troubleshooting information and then close the file to continue installation.

19 Click **Finish** to restart your computer.

The Brother PC-FAX, Printer and Scanner drivers have been installed and the installation is now complete.

### **Step 2** Installing the Driver & Software

#### Make sure that you have completed the instructions from Step 1 "Setting Up the Machine" on pages 4 - 13.

Connect the network cable to the MFC, and then connect it to a free port on your hub. Turn on the MFC by plugging in the power

- Turn on your computer. (For Windows® 2000 Professional/XP, you must be logged on as the administrator.)
- Insert the supplied CD-ROM into your CD-ROM drive. If the model name screen appears, select your machine. If the language screen appears, select your language.

The CD-ROM main menu will appear. Click Install Software.

If this window does not appear, use Windows® Explore to run the setup.exe program from the root directory of the Brother CD-ROM.

Click MFL-Pro Suite in Main Application.

MFL-Pro Suite includes Network Printer Driver, Network Scanner Driver, ScanSoft® PaperPort<sup>®</sup>, ScanSoft<sup>®</sup> TextBridge<sup>®</sup>, Network PC-FAX Send software and True Type fonts. PaperPort® is a document management application for viewing scanned originals. ScanSoft® TextBridge®, which is integrated into PaperPort®, is an OCR application that converts an image into text and inserts it into your default word processor.

Click Install.

If you see the following screen, click **OK** to install the Windows® updates. After the updates are installed your PC may restart. Note: If it does the installation will automatically continue.

If the installation does not continue automatically, please open the installer menu again by double-clicking the setup.exe program from the root directory of the Brother CD-ROM, and continue from Step 4.

When the PaperPort<sup>®</sup> 8.0 SE Setup window is displayed, click **Next**.

8 After reading and accepting the ScanSoft® License Agreement, enter your user information and click **Next**.

Select Typical and click Next.

Olick **Install** and PaperPort® will start installing on your computer.

When the ScanSoft® Registration screen is displayed, make your selection and follow the on- screen instructions.

Click **Finish** to complete installation.

When the Brother MFL-Pro Suite Installation window appears, click **Next**.

If an error message appears at this point in the installation process, you will first have to uninstall it. From the **Start** menu, select **Programs**, **Brother**, **MFL-Pro Suite**, **Uninstall**, and then follow the instructions on the screen.

Continued...

### **Step 2** Installing the Driver & Software

For Network Interface Cable Users (For Windows® 98/98SE/Me/2000 Professional/XP)

When the Brother Software License Agreement window appears, click Yes, if you agree to the Software Licence Agreement.

Select **Network Interface**, and then click Next.

Select Standard, and then click Next. The application files will be copied to your computer.

**17** Select **Search the network for devices** and choose from a list of discovered devices, and then click Next.

If you see the following screen, click **OK**.

18 If the MFC is un-configured for your network: Select APIPA or the un-configured device from the list and then click **Next**.  $\rightarrow$  **Go to** (9)

If the MFC is configured for your network: Select the MFC from the list and then click Next.  $\rightarrow$  Go to  $\bigcirc$ 

Click Configure IP Address.

Enter the proper IP Address information for your network, and then click OK.

(e.g. Enter 192.168.0.105 for IP Address)

21 Click Next.

See the Network User's Guide located on the CD-ROM for more network configuration information.

Select yes and then click Next.

Click **Next** or enter the name you want displayed on the LCD for your PC and then click **Next**. The default name is the name of your PC.

You can avoid receiving unwanted documents by setting a 4-digit PIN Number.

Please wait for the window to open.

The README file will be displayed.

Please read this file for troubleshooting information and then close the file to continue installation.

25 Click Finish restart your computer.

Windows® 98/98SE/Me/2000 Users follow step 26.

- For Windows® XP Users Only
  The Brother Network PC-FAX Send,
  Network Printer, Network Scanner
  drivers and Network PhotoCapture
  Centre have been installed and the
  installation is now complete.
- After the computer restarts, click **Yes** to have the Control Centre load each time Windows<sup>®</sup> is started. The Control Centre will appear as an icon in the task tray. If you click **No**, the Scan keys on the MFC will be disabled.

Even if you select **No**, later you will be able to launch the Brother Control Centre to use the **Scan** key by double clicking the Smart UI icon on the desktop. This loads the Brother Control Centre to the task tray. See AutoLoad the Brother Control Centre, Chapter 4 in the Documentation (Software User's Guide) located on the CD-ROM.

For Windows® 98/Me/2000 Users
The Brother Network PC-FAX Send,
Network Printer, Network Scanner
drivers and Network PhotoCapture
Centre have been installed and the
installation is now complete.

### **Step 2** Installing the Driver & Software

### For USB Interface Cable Users

### For Mac OS® 8.6 to 9.2 Users

Make sure that you have completed the instructions from Step 1 "Setting Up the Machine" on pages 4 - 13.

Turn off and unplug the MFC from the AC outlet and disconnect it from your Macintosh® if you already connected an interface cable.

- Turn on your Macintosh®.
- Insert the supplied CD-ROM into your CD-ROM drive.

Double-click the Start Here icon to install the printer, scanner and PC-FAX Send drivers. If the language screen appears, select your language.

Click MFL-Pro Suite to install.

Follow the on-screen instructions, and restart your Macintosh®.

Connect the USB interface cable to your Macintosh®, and then connect it to the MFC.

Do not connect the MFC to a USB port on a keyboard or a non powered USB hub.

Turn on the MFC by plugging in the power

9 From the Apple® menu, open the Chooser.

Installing the Driver & Software

Olick the **Brother Ink** icon you installed. On the right side of the **Chooser**, select the printer to which you want to print. Close the **Chooser**.

- The Brother PC-FAX Send, Printer and Scanner drivers have been installed.
- 11 To install Presto! PageManager<sup>®</sup>, click the **Presto! PageManager**<sup>®</sup> icon and follow the on screen instructions.

You can easily scan, share and organize photos and originals using Presto! PageManager<sup>®</sup>.

Presto! PageManager<sup>®</sup> has been installed and the installation is now complete.

### **Step 2** Installing the Driver & Software

#### For USB Interface Cable Users

### For Mac OS® X 10.1/10.2.1 or greater Users

Make sure that you have completed the instructions from Step 1 "Setting Up the Machine" on pages 4 - 13.

Turn off and unplug the MFC from the AC outlet and disconnect it from your Macintosh® if you already connected an interface cable.

- Turn on your Macintosh®.
- Insert the supplied CD-ROM into your CD-ROM drive.

Double-click the Start Here OSX icon to install the printer driver, Scanner driver, Brother PC-FAX Send and Remote Setup program. If the language screen appears, select your language.

Click MFL-Pro Suite to install.

Follow the on-screen instructions, and restart your Macintosh®.

Connect the USB interface cable to your Macintosh<sup>®</sup>, and then connect it to the MFC.

Do not connect the MFC to a USB port on a keyboard or a non powered USB hub.

Turn on the MFC by plugging in the power

Select **Applications** from the **Go** menu.

10 Open the **Utilities** folder.

11 Open the Print Centre icon.

Click Add Printer....

13 Select USB.

4 Select MFC-3820CN, and then click Add.

Select Quit Print Centre from the Print Centre menu.

- The Brother Printer driver, Scanner driver, Brother PC-FAX Send and Remote Setup Program have been installed and the installation is now complete.
- To install Presto! PageManager<sup>®</sup>, click the **Presto! PageManager**<sup>®</sup> icon and follow the on screen instructions.

You can easily scan, share and organize photos and originals using Presto! PageManager<sup>®</sup>.

Presto! PageManager<sup>®</sup> has been installed and the installation is now complete.

### **Step 2** Installing the Driver & Software

**For Network Interface Cable Users** 

### For Mac OS® 8.6 to 9.2 Users

Make sure that you have completed the instructions from Step 1 "Setting Up the Machine" on pages 4 - 13.

Turn off and unplug the MFC from the AC outlet and disconnect it from your Macintosh® if you already connected an interface cable.

- Turn on your Macintosh®.
- Insert the supplied CD-ROM into your CD-ROM drive.

Turn on the MFC by plugging in the power cord.

Double-click the Start Here icon to install the printer, scanner and PC-FAX Send drivers. If the language screen appears, select your language.

Open the **Chooser** from the **Apple** menu.

Click MFL-Pro Suite to install.

6 Follow the on-screen instructions, and restart your Macintosh®.

Olick the **Brother Ink (IP)** icon, and then select **BRN\_xxxxxx**.
Close the **Chooser**.

xxxxxx are the last six digits of the Ethernet address.

Network User's Guide Chapter 5 on the CD-ROM.

The setup is now complete.

### **Step 2** Installing the Driver & Software

For Network Interface Cable Users

### For Mac OS® X 10.2.4 or greater Users

Make sure that you have completed the instructions from Step 1 "Setting Up the Machine" on pages 4 - 13.

Turn off and unplug the MFC from the AC outlet and disconnect it from your Macintosh® if you already connected an interface cable.

- Turn on your Macintosh®.
- Insert the supplied CD-ROM into your CD-ROM drive.

Double-click the Start Here OSX folder to install the printer driver and Remote Setup program. If the language screen appears, select your language.

Click MFL-Pro Suite to install.

6 Follow the on-screen instructions, and restart your Macintosh®.

Connect the network interface cable to the printer, and then connect it to a free port on your hub.

Turn on the MFC by plugging in the power cord.

Select **Applications** from the **Go** menu.

10 Open the **Utilities** folder.

11 Open the **Print Centre** icon.

12 Click the Add Printer... button.

Select Rendezvous.

Select Brother MFC-3820CN (BRN\_xxxxxx\_P1), and then click the Add button.

xxxxxx are the last six digits of the Ethernet address.

Network User's Guide Chapter 5 on the CD-ROM.

Select Quit Print Centre from the Print Centre menu.

OK! The setup is now complete.

Please see Network User's Guide Chapter 5 on the CD-ROM for more information about using Rendezvous.

### **■ For Network Users**

This section is for using the machine on a network. An administrator should set up the machine using the following steps.

### **Network User's Guide Chapter Map**

Windows <sup>®</sup> 98/ME	Peer-to-Peer	TCP/IP	Chapter 4	Network Printing from Windows®
	Brother Internet Print	TCP/IP	Chapter 7	Configuring Internet Print for Windows®
Windows® 2000/XP	Peer-to-Peer	TCP/IP	Chapter 4	Network Printing from Windows®
	Brother Internet Print	TCP/IP	Chapter 7	Configuring Internet Print for Windows®
Macintosh <sup>®</sup>		TCP/IP	Chapter 5	Network Printing from Macintosh®
OS2 Warp Server, LA	N Server	TCP/IP	Chapter 4	Network Printing from Windows®

If you want to reset the network configuration to factory default settings, please refer to page 3-19, of the Network User's Guide on the CD-ROM.

## Installing the BRAdmin Professional Configuration Utility (Windows® Users Only)

The BRAdmin Professional utility is designed to manage your Brother network connected devices such as network-ready Multifunction devices and/or network-ready printers in a Local Area Network (LAN) environment.

BRAdmin Professional can also be used to manage devices from other manufacturers whose products support SNMP (Simple Network Management Protocol).

For more information on BRAdmin Professional go to http://solutions.brother.com

Insert the supplied CD-ROM into your CD-ROM drive. The opening screen will appear automatically.

Follow the on-screen instructions.

Click the Install Software icon on the menu screen.

3 Click Network Applications.

4 Click **BRAdmin Professional** and follow the on-screen instructions.

### **■ For Advanced Use**

# Setting your IP Address, Subnet Mask and Gateway using BRAdmin Professional (Windows® Users Only)

1 Start BRAdmin Professional, and select TCP/IP.

Select Search Active Devices from the Devices menu.
BRAdmin will search for new devices

3 Double-click the new device.

4 Enter the IP Address, Subnet Mask and Gateway, and then click the OK button.

The address information will be saved to the machine.
