Quick Setup Guide

DCP-8020
DCP-8025D

Before you can use the DCP, you must set up the hardware and install the driver.
To help you get started in setting up the machine and installing the driver and software,
please read this "Setup Guide" and follow the simple instructions.

Step 1

Setting Up the Machine

Step 2

Installing the Driver & Software

Setup is Complete!

For the latest drivers and to find the best solution for your problem or question, access the Brother
Solutions Center directly from the driver or go to **http://solutions.brother.com**
Keep this "Quick Setup Guide", User's Guide and supplied CD-ROM in a convenient place for
quick and easy reference at all times.

Carton components may differ from one country to another.
Save all packing materials and the carton.

> ■ *The interface cable is not a standard accessory. Please purchase the appropriate interface cable for the interface you intend to use (Parallel or USB).*
> ■ *For Parallel use a bi-directional shield interface cable that is IEEE 1284-compliant, and not longer than 6 feet (2 meters).*
> ■ *For USB use a Hi-Speed USB 2.0 interface cable that is not longer than 6 feet (2 meters).*
> ■ *Please make sure that you use a Hi-Speed USB 2.0 certified cable if your computer uses a Hi-Speed USB 2.0 interface.*
> ■ *Even if your computer has a USB 1.1 interface, you can connect the DCP.*

Control Panel
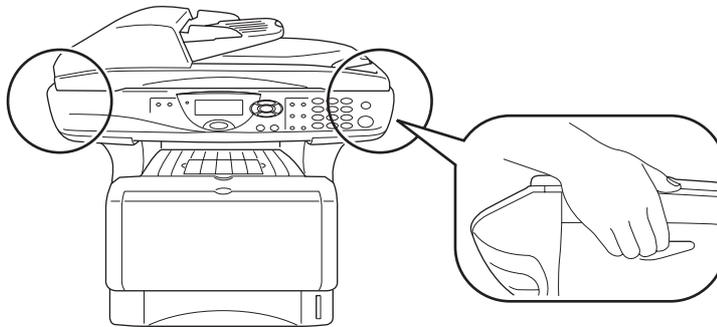

DCP-8020 and DCP-8025D have similar control panel keys.
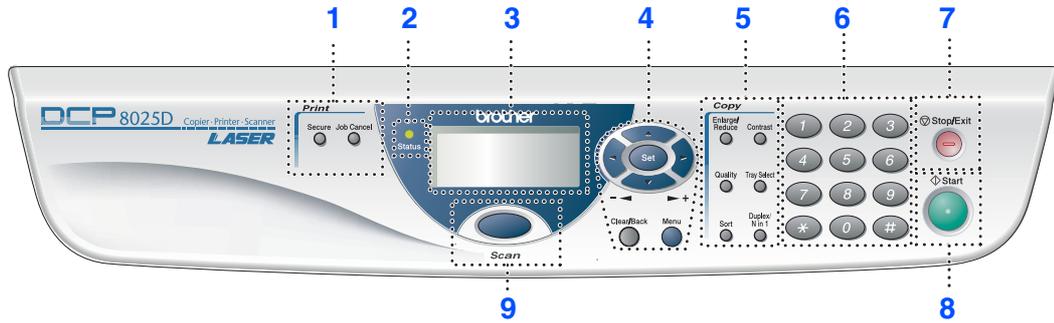

1. Print keys	**4**. Navigation keys	**7**. Stop/Exit
2. Status LED (Light-Emitting Diode)	**5**. Copy keys (Temporary Settings)	**8**. Start
3. 5-Line Liquid Crystal Display (LCD)	**6**. Numeric keys	**9**. Scan key

For the details of the control panel, see "Control panel overview" in Chapter 1 of the User's Guide.

⚠ *Warning*

When you move the DCP, grasp the side handholds that are under the scanner. Do NOT carry the DCP by holding it at the bottom.

⚠ **Warning**	🚫	📝 **Hint**	📖 **User's Guide**
Indicates warnings that must be observed to prevent possible personal injury.	Indicates cautions that must be observed to use the DCP properly or to prevent damage to the DCP.	Indicates notes and useful tips to remember when using the DCP.	Indicates reference to the User's Guide.

Step 1 > Setting Up the Machine

1 Install the Automatic Document Feed (ADF) Support

🚫 **Do NOT connect the interface cable. Connecting the interface cable is done when installing the driver.**
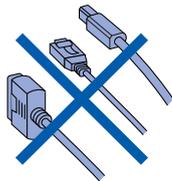

1 Open the ADF cover.
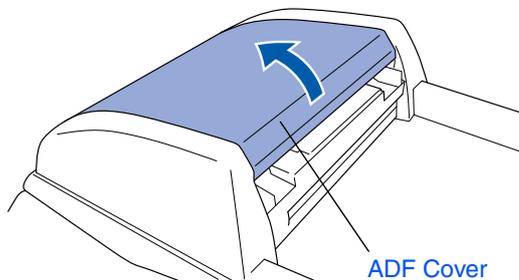

ADF Cover

2 Insert the tabs of ADF support into the holes of the ADF one side at a time.

Tab

Hole

Tab
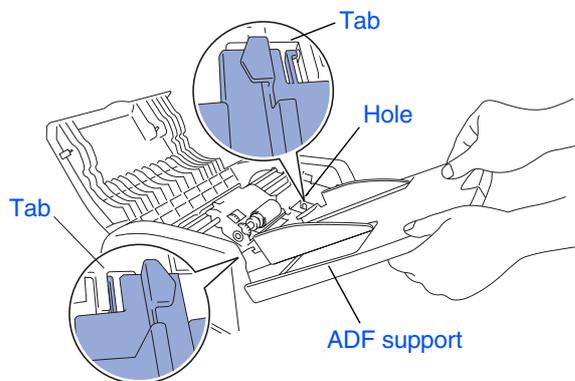

ADF support

3 Push ADF Support down until it latches in place.
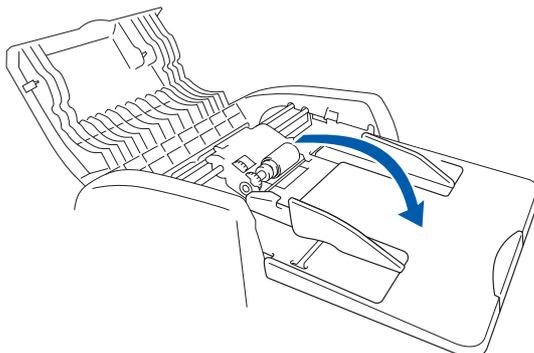

4 Close the ADF cover.
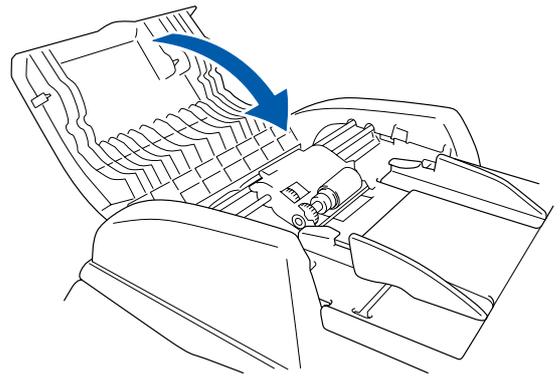

2 Install the Drum Unit Assembly

1 Open the front cover by pressing the front cover release button.

Front Cover Release Button

Front Cover
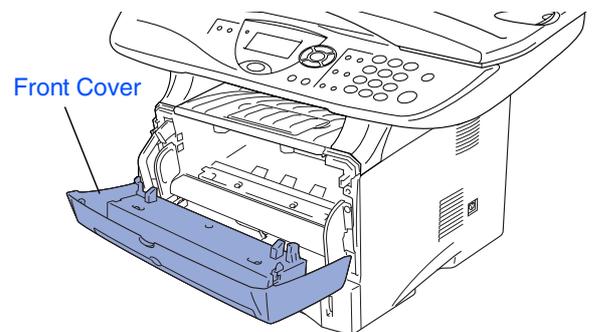

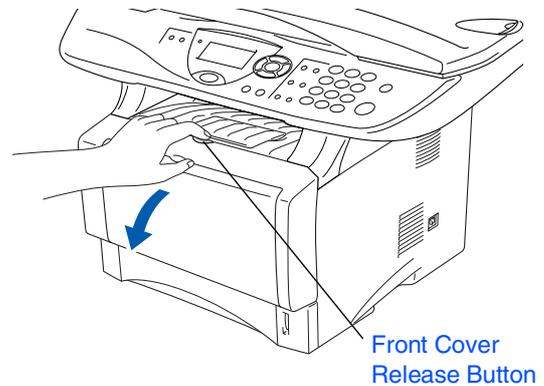

2 Unpack the drum unit assembly. Remove the protective part.

Drum Unit Assembly

Protective part
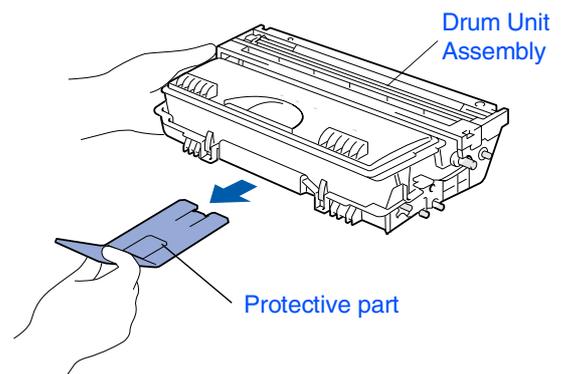

③ Rock it from side to side several times to distribute the toner evenly inside the assembly.
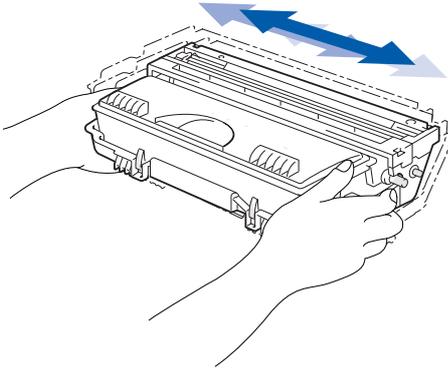

④ Push the drum unit assembly into the machine (until it snaps into place).
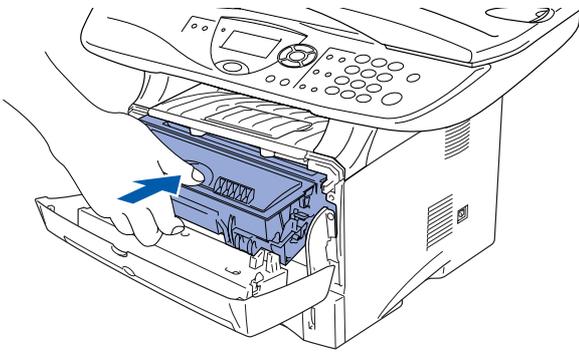

⑤ Close the front cover of the machine.
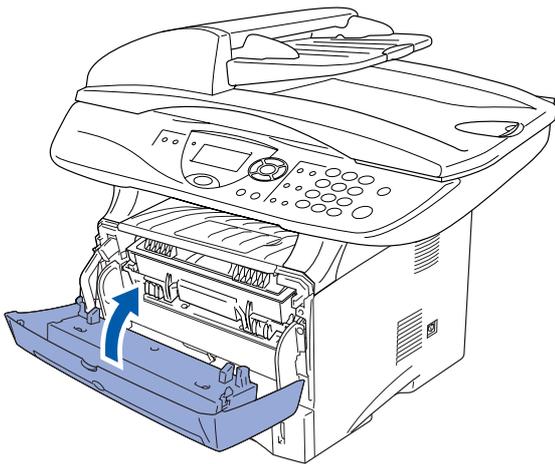

3 Load Paper in the Paper Tray

① Pull the paper tray completely out of the machine.
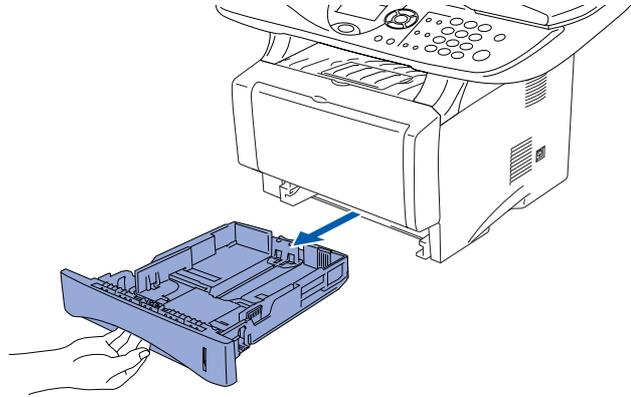

② While pressing the paper guide release lever, slide the adjusters to fit the paper size. Check that the guides are firmly in the slots on the tray.
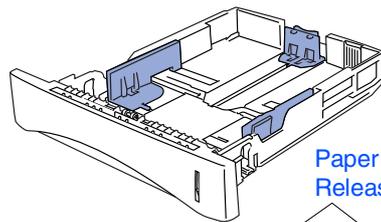

Paper Guide Release Lever
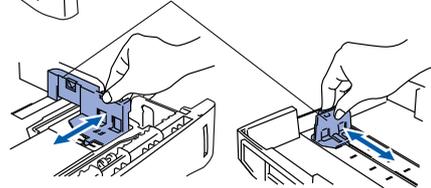

✎ *For Legal size paper, press the universal guide release button and pull out the rear of the paper tray.*

3
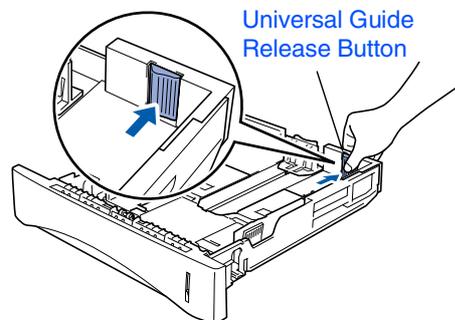

❸ Fan the stack of paper well to avoid paper jams and misfeeds.
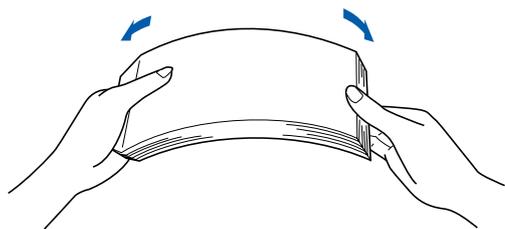

❹ Put paper in the paper tray.
Check that the paper is flat in the tray and below the maximum paper mark.

Up to here.
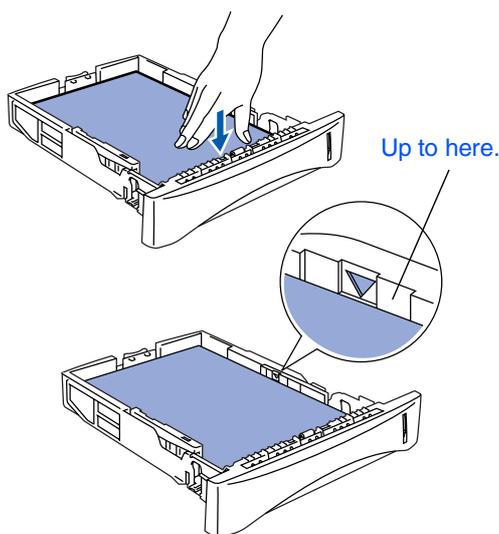

❺ Put the paper tray firmly back in the machine and unfold the Support flap before you use the machine.

Support Flap
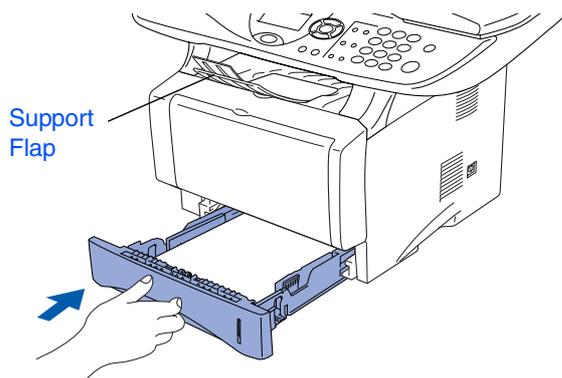

📖 *For details on supported paper specifications, see "Paper "in Chapter 2 of the User's Guide.*

4 Release the Scanner Lock

❶ Push the lever up to unlock the scanner. (The gray scanner lock lever is located at the back left under side of the document cover.)

Scanner Lock Lever
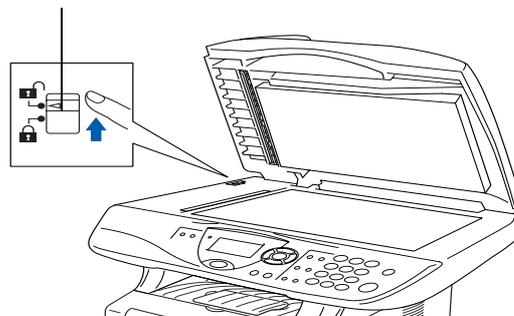

5 Install Power Cord

🚫 **Do not connect the Parallel or USB cable yet.**

❶ Make sure that the power switch is off. Connect the AC power cord to the machine.
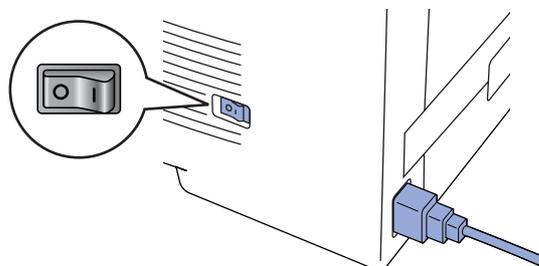

❷ Plug the AC power cord into an AC outlet. Turn the power switch on.

📝 *If `Check Scan Lock` appears on the LCD, immediately release the scanner lock and press **Stop/Exit**.*

6 Selecting Your Country (Not Language)

Norway, Sweden, Finland and Denmark only.
You must set your country so that the DCP works correctly. (This function is not available on UK, Asia and Oceania machine.)

1 Check that the power is turned on by plugging in the power cord and turn the power switch on.
Press **Set**.

```
Set Country

Press Set Key
```

2 Press ⌃ or ⌄ to select the country (NORWAY, SWEDEN, FINLAND or DENMARK). (Make sure you set your country, not your language.)

```
Set Country
▲Norway
  Sweden
▼Finland
Select ▲▼ & Set
```

3 Press **Set** when the LCD shows your country.

4 The LCD prompts you to make sure of the country again.

```
Set Country
   Norway
     1.Yes
     2.No
Enter Number
```

5 If the LCD shows the correct country, press **1** to go to Step 6.
—**OR**—
Press **2** to go back to Step 1 to select the country again.

6 After the LCD shows Accepted for two seconds, it shows Vennligst vent.

```
Set Country
   Norway
     1.Yes
     2.No
Accepted
```

📖 *If you select "NORWAY" in step 4, the LCD shows Norwegean messages.*

7 After the LCD returns to the copy mode, turn the power switch off, and then turn it on again.

7 Selecting Your Language

You can change LCD Language. (This function is not available on UK, Asia and Oceania machine.)

1 Press the **Menu** key.

2 Press the 1 key.

3 Press the 0 key.

4 Press ⌃ or ⌄ to select your language, and then press the **Set** key.

5 Press the **Stop/Exit** key.

Go to Next page to install the driver

7

For USB Interface Cable Users
(For Windows® 98/98SE/Me/2000 Professional/XP)

Make sure that you have completed the instructions from Step 1 "Setting Up the Machine" on pages 2 - 5.

1 Switch off and unplug the DCP from the AC outlet and disconnect it from your computer, if you already connected an interface cable.

2 Turn on your computer.
(For Windows® 2000 Professional/XP, you must be logged on as the administrator.)

3 Insert the supplied CD-ROM for Windows® into your CD-ROM drive. If the model name screen appears, select your machine. If the language screen appears, select your language.

4 The CD-ROM main menu will appear. Click **Install Software**.

*If this window does not appear, use Windows® Explore to run the **setup.exe** program from the root directory of the Brother CD-ROM.*

5 Click **MFL-Pro Suite** in Main Application.

MFL-Pro Suite includes Printer Driver, Scanner Driver, ScanSoft® PaperPort®, ScanSoft® TextBridge® and True Type fonts. PaperPort® is a document management application for viewing scanned documents. ScanSoft® TextBridge®, which is integrated into PaperPort®, is an OCR application that converts an image into text and inserts it into your default word processor.
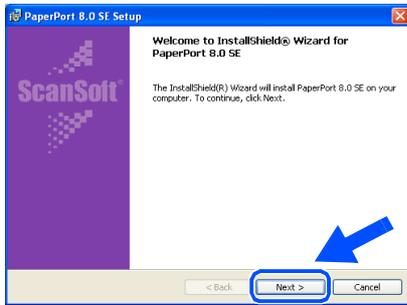

6 Click **Install**.

*If you see the following screen, click **OK** to install the Windows® updates. After the updates are installed your PC may restart. Note: If it does the installation will automatically continue.*
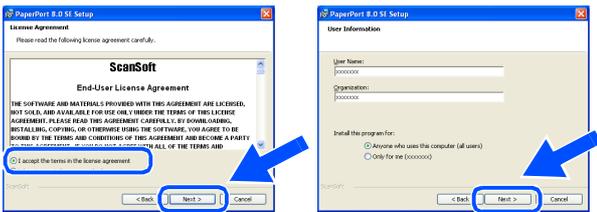

*If the installation does not continue automatically, please open the installer menu again by double-clicking the **setup.exe** program from the root directory of the Brother CD-ROM, and continue from Step 4.*
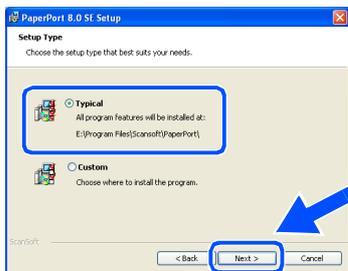

**7** When the PaperPort® 8.0 SE Setup window is displayed, click **Next**.

8 After reading and accepting the ScanSoft® License Agreement, enter your user information and click **Next**.

**9** Select **Typical** and click **Next**.

**10** Click **Install** and PaperPort® will start installing on your computer.

11 When the ScanSoft® Registration screen is displayed, make your selection and follow the on-screen instructions.

12 Click **Finish** to complete installation.

13 When the Brother MFL-Pro Suite Installation window appears, click **Next**.

*If an error message appears at this point in the installation process, or if you have previously installed the MFL-Pro Suite, you will first have to uninstall it. From the **Start** menu, select **Programs**, **Brother**, **Brother MFL-Pro Suite**, **Uninstall**, and then follow the instructions on the screen.*
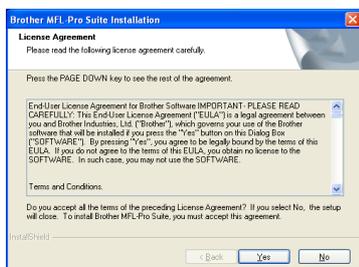

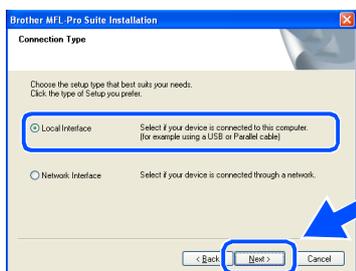

Continued ...

**For USB Interface Cable Users
(For Windows® 98/98SE/Me/2000 Professional/XP)**
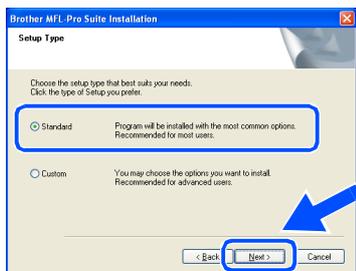

⑭ When the Brother Software License Agreement window appears, click **Yes**.

⑮ Select **Local Interface**, and then click **Next**.

⑯ Select **Standard**, and then click **Next**. The application files will be copied and installed to your computer.

If you want to install the PS driver, select **Custom** *and then follow the on-screen instructions. When the* **Select Components** *screen appears, check* **PS Printer Driver**, *and then continue following the on-screen instructions.*

Windows® 98/98SE/Me Users
→ Go to page 11
Windows® 2000 Professional Users
→ Go to page 13
Windows® XP Users
→ Go to page 17

For Windows® 98/98SE/Me Users Only

Make sure that you followed the instructions in ❶ to ⓰ on pages 8 - 10.

⓱ When this screen appears, connect the USB interface cable to your PC, and then connect it to the DCP.
Turn on the DCP by plugging in the power cord. Turn the power switch on.
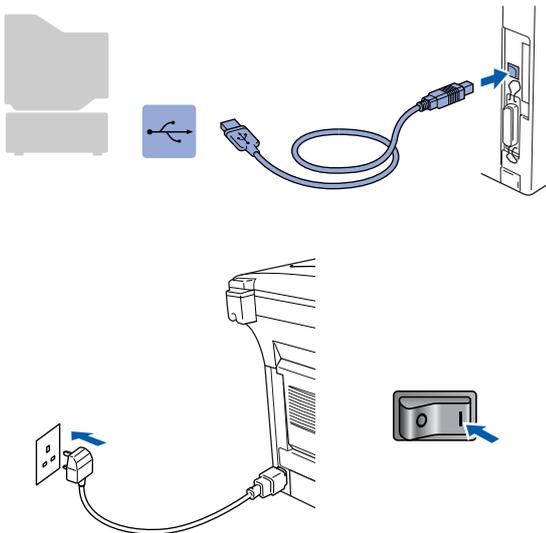

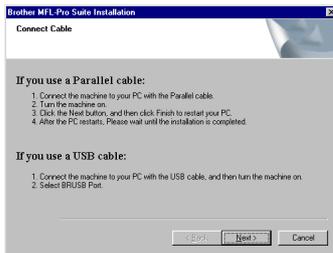

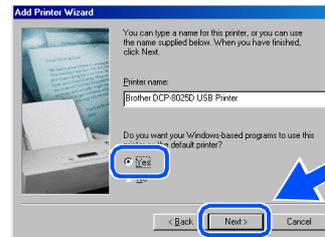

It will take a few seconds for the installation screen to appear.
The installation of the Brother drivers will automatically start. Follow the instructions on the screen.

⓲ Select **BRUSB: USB Printer Port**, and then click **Next**.
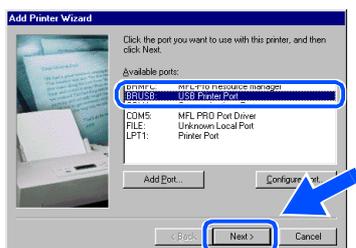

⓳ Accept the default Printer name by selecting **Yes**, and then click **Next**.

⓴ Select **Yes (recommended)**, and then click **Finish**. A test page will be printed so you can check the print quality.

㉑ If the test page is printed correctly, click **Yes**. If you click **No**, follow the prompts on the screen to correct the problem.

> 📝 *If the README.WRI file shown in step ㉒ appears, close the README.WRI file and then click **Finish** after printing the test page.*

㉔ Browse the CD-ROM and highlight your language folder and click **Open**. Highlight the **WXP** folder and click **Open**. Highlight the **Addprt** folder and click **Open**.

㉕ Click **Open**.

㉖ Make sure **X:\ENG\WXP\Addprt** is displayed in the window and click **OK** (X:\ is the drive letter of your CD-ROM).

For Parallel Interface Cable Users
(For Windows® 95/98/98SE/Me/2000 Professional/XP)

27 Highlight the model you are installing from the list of machines and click **Next**.

✎ *Make sure you do not select a USB printer.*

28 The model you are installing will be listed in the window. Select **Yes** or **No** if you want this driver to be your default printer.

29 If this screen appears, select **Do not share this printer** and **Next**.

30 Select **Yes** and **Next** to print a test page.

31 When this screen appears, click **Finish**.

32 When the Windows Logo testing screen appears, click **Continue Anyway**.

✎ *There will be two Brother printer drivers listed in the Printers selection.*
The driver with "Printer" after the model name (ex. Brother DCP-8025D Printer) is the Brother Native Driver.

OK! **The Brother Native Drivers have been installed and the installation is now complete.**

For Windows NT® Workstation Version 4.0 Users

Make sure that you followed the instructions from Step 1 "Setting Up the Machine" on pages 2 - 5.

1 Turn on your computer.
You must be logged on as the Administrator.

2 Connect the parallel interface cable to your computer, and then connect it to the DCP.

3 Make sure you turn on the DCP by plugging in the power cord, and turning Power Switch on.

4 Insert the Supplied CD-ROM for Windows® into your CD-ROM drive. If the model name screen appears, select your machine. If the language screen appears, select your language.
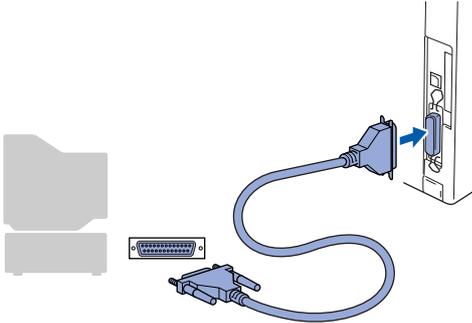

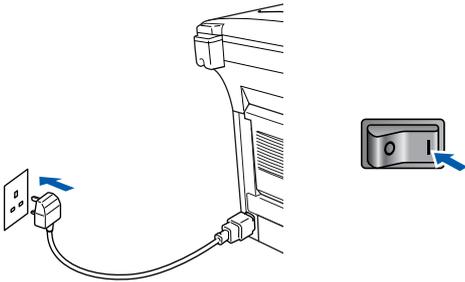

5 The CD-ROM main menu will appear. Click **Install Software**.

*If this window does not appear, use Windows® Explore to run the **setup.exe** program from the root directory of the Brother CD-ROM.*

6 Click **MFL-Pro Suite** in Main Application.

MFL-Pro Suite includes Printer Driver, Scanner Driver, ScanSoft® PaperPort®, ScanSoft® TextBridge® and True Type fonts. PaperPort® is a document management application for viewing scanned documents. ScanSoft® TextBridge®, which is integrated into PaperPort®, is an OCR application that converts an image into text and inserts it into your default word processor.

7 Click **Install**.

*If you see the following screen, click **OK** to install the Windows® updates. After the updates are installed your PC may restart. Note: If it does the installation will automatically continue.*

*If the installation does not continue automatically, please open the installer menu again by double-clicking the **setup.exe** program on the Brother CD-ROM, and continue from Step ⑤.*

Continued ...

31

For Windows NT® Workstation Version 4.0 Users

8 When the PaperPort® 8.0 SE Setup window is displayed, click **Next**.

9 After reading and accepting the ScanSoft® License Agreement, enter your user information and click **Next**.
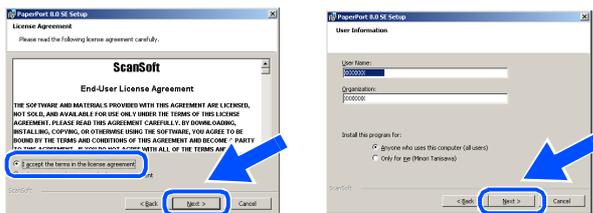

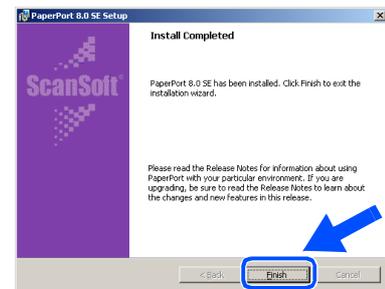

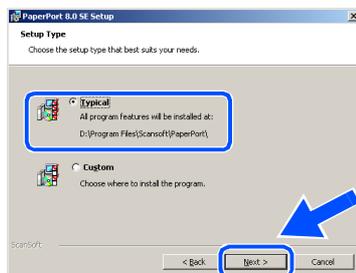

10 Select Typical and click **Next**.

11 Click **Install** and PaperPort® will start installing on your computer.

12 When the ScanSoft® Registration screen is displayed, make your selection and follow the on screen instructions.

13 Click **Finish** to complete installation.

14 When the Brother MFL-Pro Suite Installation window appears, click **Next**.
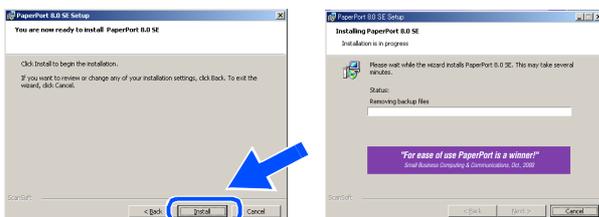

*If an error message appears at this point in the installation process, or you have previously installed MFL-Pro Suite, you will first have to uninstall it. From the **Start** menu, select **Programs**, **Brother**, **Brother MFL-Pro Suite**, **Uninstall**, and then follow the instructions on the screen.*

15 When the Brother Software License
Agreement window appears, click **Yes** If
you agree to it and go to next screen.
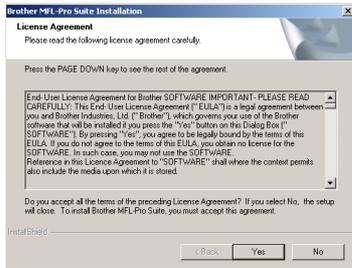

16 Select **Local Interface**, and then click **Next**.

17 When the Setup Type window appears,
select **Standard**, and then click **Next**.
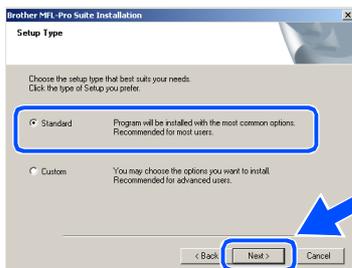

*If you want to install the PS driver, select
Custom and then follow the on-screen
instructions. When the Select Components
screen appears, check PS Printer Driver,
and then continue following the on-screen
instructions.*

18 The README.WRI file will be displayed.
Please read this file for troubleshooting
information and then close the file to
continue installation.
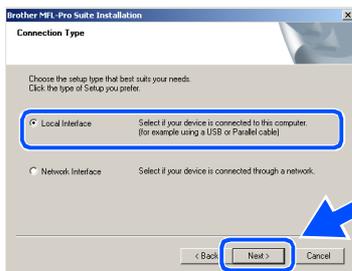

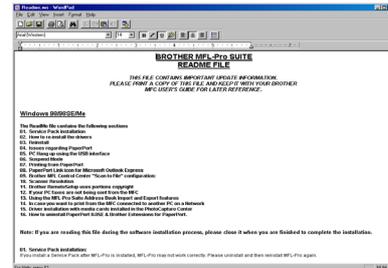

19 Click **Finish** to restart your computer.

20 After the computer restarts, click **Yes** to
have the Control Center load each time
Windows® is started. The Control Center
will appear as an icon in the task tray.
If you click **No** the Scan keys on the DCP
will be disabled.

*Even if you select NO, you will be able to
launch the Brother Control Center later to
use the Scan key by double clicking the
Smart UI icon on the desktop. This loads the
Brother Control Center to the task tray. See
AutoLoad the Brother Control Center,
Chapter 9 in the Documentation (User's
Guide) located on the CD-ROM.*

OK! **The Brother Printer and Scanner
drivers have been installed and the
installation is now complete.**

33

For Network Interface Cable Users
(For Windows® 95/98/98SE/Me/NT/2000 Professional/XP)

Make sure that you have completed the instructions from Step 1 "Setting Up the Machine" on pages 2 - 5.

1 Make sure that the NC-9100h (Network Print/Fax Server) is installed into the DCP. *(See Optional accessories in Chapter 15 of the User's Guide.)*

2 Connect the network cable to the DCP, and then connect it to a free port on your hub. Turn on the DCP by plugging in the power cord. Turn the Power Switch on.
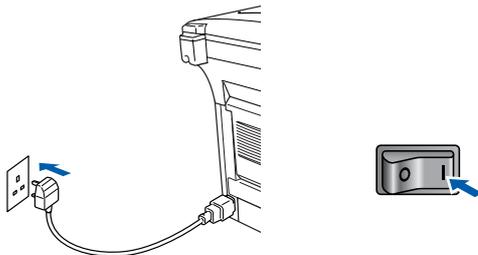

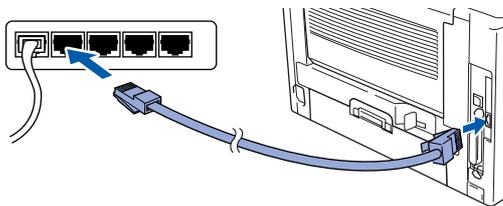

3 Turn on your computer.
(For Windows® 2000 Professional/XP, you must be logged on as the administrator.)

4 Insert the supplied CD-ROM for Windows® into your CD-ROM drive. If the model name screen appears, select your machine. If the language screen appears select your language.

5 The CD-ROM main menu will appear.
Click **Install Software**.

*If this window does not appear, use Windows® Explore to run the **setup.exe** program from the root directory of the Brother CD-ROM.*

6 Click **MFL-Pro Suite** in Main Application.

MFL-Pro Suite includes Printer Driver, Scanner Driver, ScanSoft® PaperPort®, ScanSoft® TextBridge® and True Type fonts. PaperPort® is a document management application for viewing scanned documents. ScanSoft® TextBridge®, which is integrated into PaperPort®, is an OCR application that converts an image into text and inserts it into your default word processor.

7 Click **Install**.

*If you see the following screen, click **OK** to install the Windows® updates. After the updates are installed your PC may restart. Note: If it does the installation will automatically continue.*
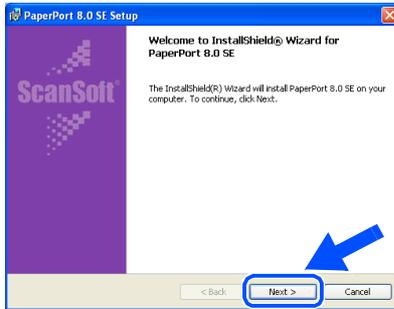

*If the installation does not continue automatically, please open the installer menu again by double-clicking the **setup.exe** program from the root directory of the Brother CD-ROM, and continue from Step 5.*

34

8 When the PaperPort® 8.0 SE Setup window is displayed, click **Next**.

9 After reading and accepting the ScanSoft® License Agreement, enter your user information and click **Next**.

0 Select **Typical** and click **Next**.

A Click **Install** and PaperPort® will start installing on your computer.

B When the ScanSoft® Registration screen is displayed, make your selection and follow the on screen instructions.

C Click **Finish** to complete installation.

D When the Brother MFL-Pro Suite Installation window appears, click **Next**.

✎ *If an error message appears at this point in the installation process, you will first have to uninstall it. From the **Start** menu, select **Programs**, **Brother**, **Brother MFL-Pro Suite**, **Uninstall,** and then follow the instructions on the screen.*

For Network Interface Cable Users
(For Windows® 95/98/98SE/Me/NT/2000 Professional/XP)

⑮ When the Brother Software License Agreement window appears, click **Yes**.

⑯ Select **Network Interface**, and then click **Next**.

⑰ Select **Standard**, and then click **Next**. The application files will be copied to your computer.

If you want to install the PS driver, select Custom and then follow the on-screen instructions. When the Select Components screen appears, check PS Printer Driver, and then continue following the on-screen instructions.

⑱ Select **Search the network for devices and choose from a list of discovered devices**, and then click **Next**.
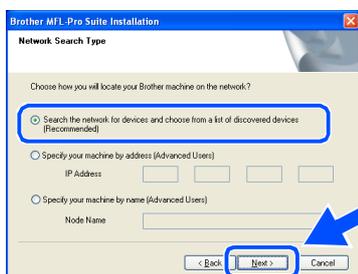

If you see the following screen, click OK.

⑲ If the DCP is un-configured for your network:

Select the APIPA or un-configured device from the list and then click **Next**. → **Go to** ⑳

If the DCP is configured for your network:

Select the DCP from the list and then click **Next**. → **Go to** ㉓
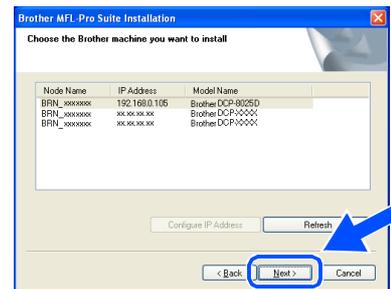

⑳ Click **Configure IP Address**.
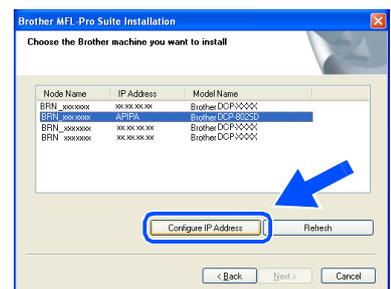

㉑ Enter the proper IP Address information for your network, and then click **OK**.
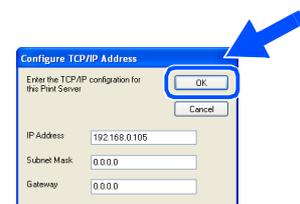

(e.g. Enter 192.168.0.105 IP Address)

22 Click **Next**.

✎ *See the For Administrator section of this guide or the NC-9100h User's Guide located on the CD-ROM for more network configuration information.*

23 **Windows® 95/NT Users** → Go to 26
Windows® 98/98SE/Me/2000/XP Users:
Select **Yes, I want to register this PC to "Scan To" button.** and then click **Next**.

24 Click **Next** or enter the name you want displayed on the LCD for your PC and then click **Next**.
The default name is the name of your PC.

✎ *You can avoid receiving unwanted documents by setting a 4-digit PIN Number.*

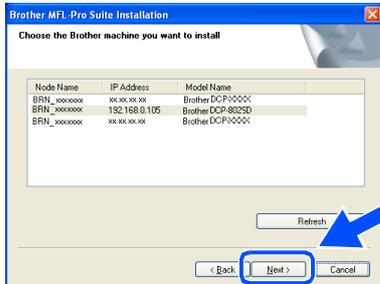

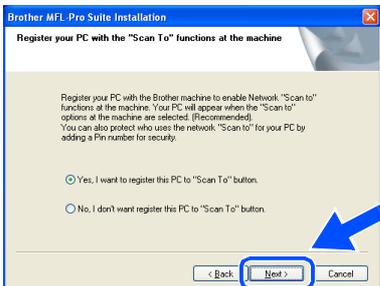

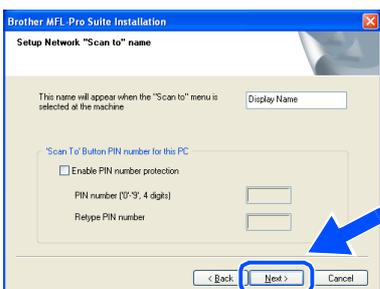

Please wait for the window to open.

25 The README.WRI file will be displayed.
Please read this file for troubleshooting information and then close the file to continue installation.

26 Click **Finish** to restart your computer.

Windows® 95/98/98SE/Me/NT/2000 Users follow step 27.

✎ *The Network Scanning feature is not supported in Windows® 95 or NT.*

OK! **For Windows® XP Users Only**
The Brother Printer and Scanner drivers have been installed and the installation is now complete.

27 After the computer restarts, click **Yes** to have the Control Center load each time Windows® is started. The Control Center will appear as an icon in the task tray.
If you click **No** the Scan keys on the DCP will be disabled.

✎ *Even if you select NO, you will be able to launch the Brother Control Center later to use the Scan key by double clicking the Smart UI icon on the desktop. This loads the Brother Control Center to the task tray. See AutoLoad the Brother Control Center, Chapter 9 in the Documentation (User's Guide) located on the CD-ROM.*

OK! **For Windows® 98/98SE/Me/2000 Users**
The Brother Printer and Scanner drivers have been installed and the installation is now complete.

For Windows® 95/NT Users
The Brother Printer driver has been installed and the installation is now complete.

For USB Interface Cable Users

For Mac OS® 8.6 to 9.2

Make sure that you have completed the instructions from Step 1 "Setting Up the Machine" on pages 2 - 5.

1 Switch off and unplug the DCP from the AC outlet and disconnect it from your Macintosh if you already connected an interface cable.
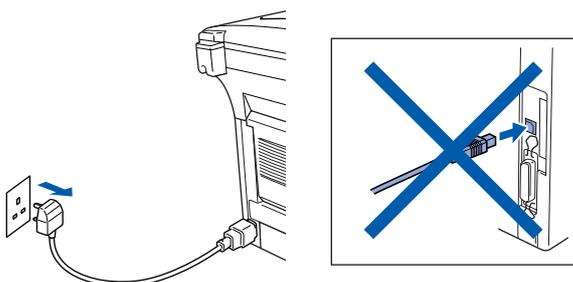

2 Turn on your Macintosh®.

3 Insert the supplied CD-ROM for Macintosh® into your CD-ROM drive.

4 Double-click the **Start Here** icon to install the printer and scanner drivers. If the language screen appears, select your language.

5 Click **Install** next to the MFL-Pro Suite for your country.

6 Select **USB Interface**, and then click **Install**.

7 After the installation is completed, restart your Macintosh®.

8 Connect the USB interface cable to your Macintosh®, and then connect it to the DCP.
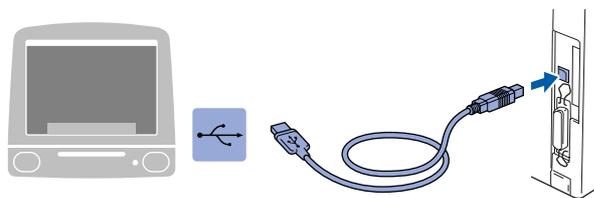

🚫 **Do not connect the DCP to a USB port on a keyboard or a non powered USB hub.**

9 Turn on the DCP by plugging in the power cord. Turn the Power Switch on.
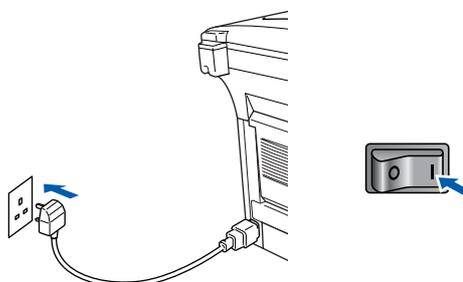

10 From the Apple® menu, open the **Chooser**.

38

⓫ Click the **Brother Laser** icon you installed.
On the right side of the **Chooser**, select the
printer to which you want to print.
Close the **Chooser**.

OK! **The Brother Printer and Scanner
drivers have been installed.**

⓬ To install Presto!® PageManager®, click
Install next to the Presto!® PageManager®
and follow on the Screen instructions.

✎ *You can easily scan, share and organize
photos and documents using Presto!®
PageManager®.*

OK! **Presto!® PageManager® has been
installed and the installation is now
complete.**

Installing the BRAdmin Professional Configuration Utility (Windows® Users Only)

The BRAdmin Professional software utility is designed to manage your Brother network connected devices such as network-ready printers and/or network-ready Multifunction devices in a Local Area Network (LAN) environment.
BRAdmin Professional can also be used to manage devices from other manufacturers whose products support SNMP (Simple Network Management Protocol).
For more information on BRAdmin Professional go to http://solutions.brother.com

1 Insert the supplied CD-ROM for Windows® into your CD-ROM drive. The opening screen will appear automatically.
Follow the on-screen instructions.
2 Click the **Install Software** icon on the menu screen.

3 Click Network Applications for Optional NC-9100h.

**4** Click **BRAdmin Professional** and follow the on-screen instructions.

Web BRAdmin (Windows® Users Only)

Brother has also developed Web BRAdmin, an enterprise network software utility that enables management of Brother and other SNMP compliant devices in larger LAN/WAN environments.

This software is Web server based and requires the installation of Microsoft's Internet Information Server and Sun's Java client software. To learn more about the Web BRAdmin software or to download it, please go to http://solutions.brother.com/webbradmin

# Setting your IP Address, Subnet Mask and Gateway using BRAdmin Professional (Windows® Users Only)
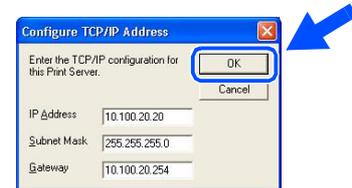

① Start BRAdmin Professional, and select **TCP/IP**.
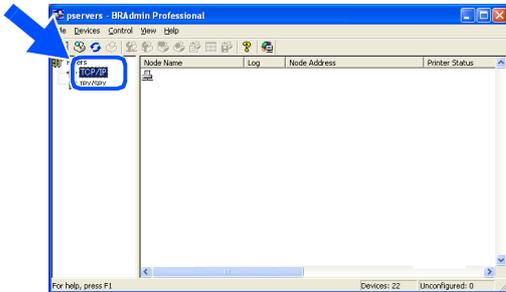

③ Double-click the new device.
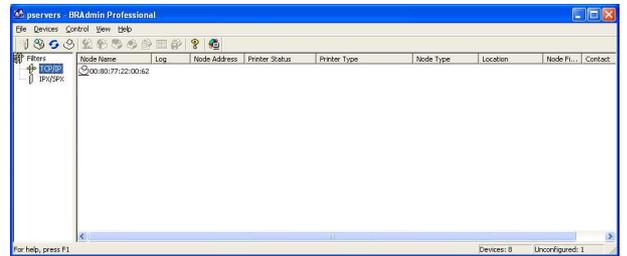

② Select **Search Active Devices** from the **Devices** menu.
BRAdmin will search for new devices automatically.

④ Enter the **IP Address**, **Subnet Mask** and **Gateway**, and then click the **OK** button.
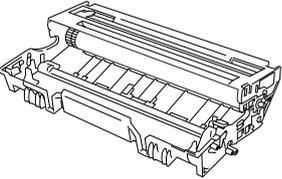

⑤ The address information will be saved to the printer.

48

Options

The DCP has the following optional accessories. You can expand the capabilities of the DCP by adding these items.

Lower Tray Unit	DIMM Memory	Network Print/Fax Server
LT-5000		NC-9100h
Second lower paper tray expands total input capacity by another up to 250 sheets to a total input capacity of up to 500 sheets.	For more details, see "Memory Board" in Chapter 15 (User's Guide).	The optional Network Print Server (NC-9100h) transforms your DCP into a Network Multi Function Center, offering Network Printing and Network Scanning capability.

Replacement Consumables

Drum Unit	Toner
DR-7000	TN-7300/TN-7600
Up to 20,000 A4/Letter pages 5% coverage	TN-7300: up to 3,300 A4/Letter pages 5% coverage TN-7600: up to 6,500 A4/Letter pages 5% coverage
