Carton components may differ from one country to another.
Save all packing materials and the carton.

 *The interface cable is not a standard accessory. Please purchase the appropriate interface cable for the interface you intend to use (Parallel, USB or Network).*

Do NOT connect the interface cable at this time.

Connecting the interface cable is done during the software installation process.

■ **USB interface cable**

Please make sure you use a USB 2.0 interface cable that is no longer than 2 metres.

■ **Parallel interface cable**

Please make sure you use a Parallel interface cable that is no longer than 2 metres.

Use a shielded interface cable that is IEEE 1284-compliant.

*¹ The toner cartridges that come supplied with this machine are starter toners. Starter toners are toner cartridges that give approximately half the page yield of the standard toner cartridge: 5000 pages (Black) and 3000 pages (Cyan, Magenta and Yellow) at approximately 5% print coverage (A4 or Letter size).

*² Repacking kit is to be used ONLY for moving or shipping the machine.

Step 1

Setting Up the machine

1 Install the Toner cartridges

Do NOT connect the interface cable. Connecting the interface cable is done during the software installation process.

- 1 Remove the protective tape.

- 2 Open the front cover.

- 3 Remove the protective part.

- 4 Take out all four toner cartridges from the machine.

- 5 Carefully pull the red protective paper out of the machine.

- 6 Rock the toner cartridge 3 to 4 times.

- 7 Pull off the tape labelled REMOVE, and then remove the orange protective cover.

Go to the next page

- 8 Install the toner cartridge by sliding it into the correct guide. Do not try to push or lock the toner cartridge in; it must rest loosely in the guide rails and will automatically be positioned properly when the front cover is closed. Match the cartridge color label to the corresponding label on the machine.

- 9 Repeat steps 6 through 8 for the remaining toner cartridges.

- 10 Close the front cover.

2 Attaching the Control Panel

- 1 Lift the document cover. Remove the sheet from the scanner glass.

- 2 Remove the protective sheet from LCD. Attach the control panel to the machine.

- 3 Close the document cover.

3 Remove the protective parts of the Fusing Unit

- 1 Open the back cover (1) and the scanner unit (2) of the machine.

- 2 Pull out the protective parts from both sides of the fusing unit.

- 3 Close the scanner unit and the back cover.

Step 1

Setting Up the machine

4 Install the OPC Belt Cartridge

Do NOT touch the green surface of the OPC belt.

Do NOT expose the OPC belt cartridge to bright room light or sunlight for more than two minutes to avoid damaging the belt. Leave the cartridge in its packaging until immediately before installing.

- 1 Lift the Scanner Unit.

- 2 Lift the Inside cover so that it latches under the scanner unit.

- 3 Remove the orange belt tension release pins from both sides of the OPC belt cartridge. Remove the protective sheet.

- 4 Put the OPC belt cartridge into the machine guides with the flat side facing you.

- 5 Lock the belt cartridge lock levers.

- 6 Close the Inside cover and then close the Scanner Unit.

5

Load Paper in the Paper Tray

- 1 Pull the paper tray completely out of the machine.

- 2 While pressing the paper guide release lever, slide the adjusters to fit the paper size. Check that the guides are firmly in the slots.

- 3 Fan the stack of paper well to avoid paper jams and misfeeds.

- 4 Put the paper in the paper tray. Check that the paper is flat in the tray and below the maximum paper mark.

- 5 Put the paper tray firmly back in the machine.

 For details on supported paper specifications, see "Acceptable paper and other media" in Chapter 2 of the User's Guide.

Step 1

Setting Up the machine

6 Install the Power Cord and Phone Line

DO NOT connect the parallel or USB cable yet.

- 1 Make sure that the power switch is off. Connect the AC power cord to the machine.

- 2 Plug the AC power cord into an AC outlet. Turn the power switch on.

- 3 Connect one end of the telephone line cord to the socket on the machine marked **LINE** and the other end to a modular wall socket.

Warning

- The machine must be fitted with an earthed plug.
- Since the machine is grounded through the power outlet, you can protect yourself from potentially hazardous electrical conditions on the telephone network by keeping the power cord connected to your machine when you connect it to a telephone line. Similarly, you can protect yourself when you want to move your machine by disconnecting the telephone line first and then the power cord.

If you are sharing one phone line with an external telephone, connect it as shown below.

If you are sharing one phone line with an external telephone answering machine, connect it as shown below.

Please set the receive mode to **External TAD** if you have an external answering machine. For more details, see "Connecting an external telephone answering device (TAD)" in Chapter 3 of the User's Guide.

7 Set Your Country

You must set your country so that the machine works correctly on local telecommunication lines in each country.

- 1 Check that the power is turned on by plugging in the power cord and turn the power switch on.

Press **Menu/Set**.

```
Set Country
Press Set Key
```

- 2 Press  or  to select the country.

```
UK
Select ▲▼ & Set
```

Press **Menu/Set** when the LCD shows your country.

- 3 The LCD prompts you to make sure of the country again.

```
UK?
1.Yes 2.No
```

- 4 If the LCD shows the correct country, press 1 to go to Step 5.

—OR—

Press 2 to go back to Step 1 to select the country again.

- 5 After the LCD shows **Accepted** for two seconds, it shows **Please Wait**.

```
UK?
Accepted
```

8 Setting the Date and Time

The machine displays the date and time, and prints it on every fax you send.

- 1 Press **Menu/Set**.
- 2 Press 0.
- 3 Press 2.
- 4 Enter the last two digits of the year on the dial pad, and then press **Menu/Set**.

```
Date/Time
Year:2005
```

(e.g. Enter 0, 5 for 2005.)

- 5 Enter the two digits for the month on the dial pad, and then press **Menu/Set**.

```
Date/Time
Month:03
```

(e.g. Enter 0, 3 for March)

- 6 Enter the two digits for the day on the dial pad, and then press **Menu/Set**.

```
Date/Time
Day:01
```

(e.g. Enter 0, 1.)

- 7 Enter the time in 24-hour format on the dial pad, and then press **Menu/Set**.

```
Date/Time
Time:15:25
```

(e.g. Enter 1, 5, 2, 5 for 3:25 P.M.)

- 8 Press **Stop/Exit**.

If you make a mistake, press **Stop/Exit** to start from Step 1.

Step 1

Setting Up the machine

9 Setting your Station ID

You should store your name and fax number so it will print on all fax pages you send.

- 1 Press **Menu/Set**.
- 2 Press **0**.
- 3 Press **3**.
- 4 Enter your fax number (up to 20 digits) on the dial pad, and then press **Menu/Set**.

Station ID
Fax:

- 5 Enter your telephone number (up to 20 digits) on the dial pad, and then press **Menu/Set**.
(If your telephone number and fax number are the same, enter the same number again.)

Station ID
Tel:

- 6 Use the dial pad to enter your name (up to 20 characters), and then press **Menu/Set**.

Station ID
Name:

- 7 Press **Stop/Exit**.

- Refer to the following chart for entering your name.
- If you need to enter a character that is on the same key as the previous character, press **→** to move the cursor to the right.

Press key	One time	Two times	Three times	Four times
2	A	B	C	2
3	D	E	F	3
4	G	H	I	4
5	J	K	L	5
6	M	N	O	6
7	P	Q	R	S
8	T	U	V	8
9	W	X	Y	Z

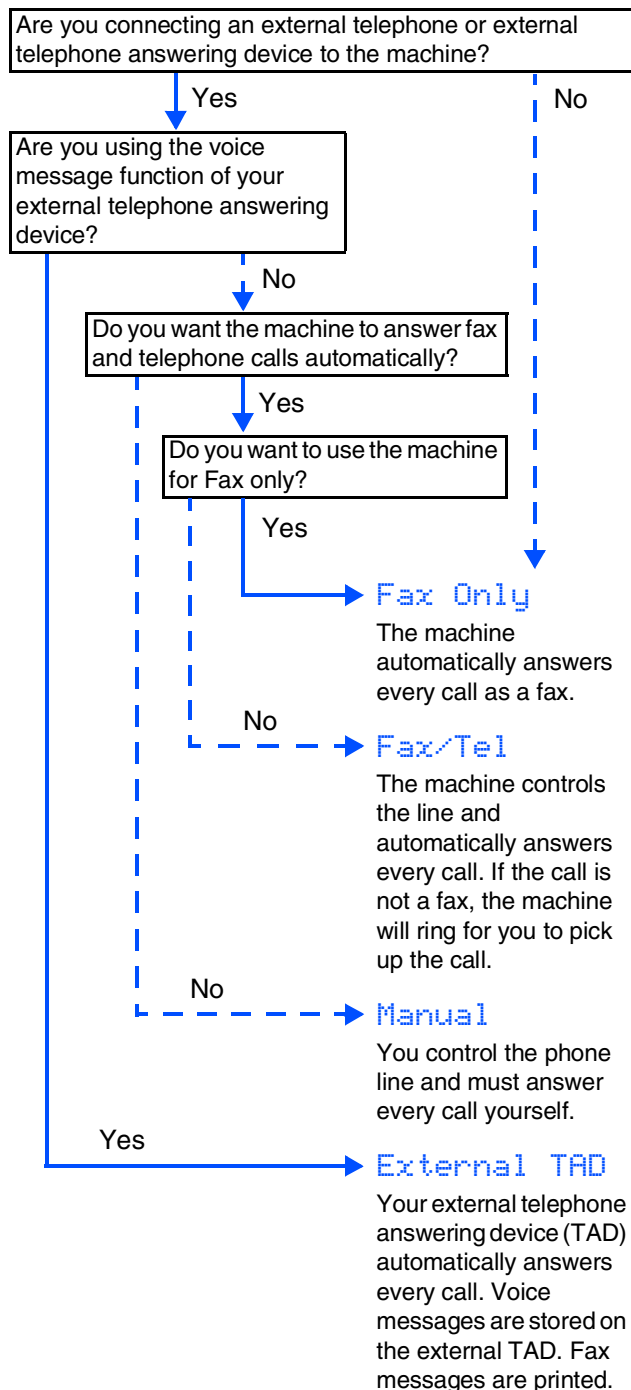

For more details, see "Entering Text" in Appendices B of the User's Guide.

10 Selecting a Receive Mode

There are four possible receive modes: **Fax Only**, **Fax/Tel**, **Manual** and **External TAD**.

Choose the **Receive Mode** which best suits your needs.

- 1 Press **Menu/Set**.
- 2 Press **0**.
- 3 Press **1**.
- 4 Press  or  to select the mode.
Press **Menu/Set**.
- 5 Press **Stop/Exit**.

For more details, see “Receiving a fax” in Chapter 6 of the User’s Guide.

11 Setting the LCD Contrast

You can change the contrast to help the LCD look lighter or darker.

- 1 Press **Menu/Set**.
- 2 Press **1**.
- 3 Press **7**.
- 4 Press  to increase the contrast.
—OR—
Press  to decrease the contrast.
Press **Menu/Set**.
- 5 Press **Stop/Exit**.

Go to Next page to
install the drivers & software

Supplied CD-ROM “MFL-Pro Suite”

The CD-ROM includes the following items:

Windows®

The MFL-Pro Suite includes Printer Driver, Scanner Driver, Brother ControlCenter2, ScanSoft® PaperPort® 9.0SE, ScanSoft® OmniPage® and True Type® fonts. PaperPort® 9.0SE is a document management application for viewing scanned documents. ScanSoft® OmniPage®, which is integrated into PaperPort® 9.0SE, is an OCR application that converts an image into text and inserts it into your default word processor.

Macintosh®

Install MFL-Pro Suite

You can install the MFL-Pro Suite and multifunction drivers.

Install Optional Applications

You can install additional MFL-Pro Suite software utilities.

Documentation*¹

View the User's Guide and other documentation in PDF format (Viewer included).

On-Line Registration

You will be pointed to the Brother Product Registration Web page for quick registration of your machine.

Brother Solutions Center

Brother contact information and web site links offering the latest news and support information.

Repair MFL-Pro Suite

(For USB and Parallel cable users only.)

If you experience errors while installing the MFL-Pro Suite, you can use this function to automatically repair and re-install the software.

Start Here OS 9.1-9.2

You can install the printer driver, scanner driver and Presto!® PageManager® for Mac OS® 9.1 - 9.2.

Start Here OSX

You can install the printer driver, scanner driver, Brother ControlCenter2 and Presto!® PageManager® for Mac OS® 10.2.4 or greater.

Readme.html

You can get important information and troubleshooting tips.

Documentation*¹

View the User's Guide and other documentation in PDF format.

Brother Solutions Center

You can access the Brother Solutions Center, a Web site offering information about your Brother product including FAQs, User's Guides, Driver updates and Tips for using your machine.

On-Line Registration

You will be pointed to the Brother Product Registration Web Page for quick registration of your machine.

*¹ The User's Guide on the CD-ROM includes the Software and Network User's Guide for features available when connected to a computer (e.g. Printing and scanning).

Step 2

Installing the Drivers & Software

Follow the instructions on this page for your operating system and interface cable.

For the latest drivers and to find the best solution for your problem or question, access the Brother Solutions Center directly from the driver or go to <http://solutions.brother.com>

Step 2

Installing the Drivers & Software

For USB Interface Cable Users

(For Windows® 98/98SE/Me/2000 Professional/XP)

Make sure that you have completed the instructions from Step 1 “Setting Up the machine” on pages 4 - 11.

Please close any applications running before installing the MFL-Pro Suite.

- 1 Disconnect the machine from the power socket (and from your computer, if you have already connected an interface cable).

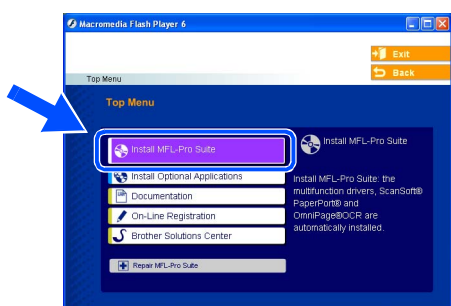

- 2 Turn on your computer.
(For Windows® 2000 Professional/XP, you must be logged on with Administrator rights.)

- 3 Insert the supplied CD-ROM for Windows® into your CD-ROM drive. If the language screen appears, select your language.

- 4 The CD-ROM main menu will appear. Click **Install MFL-Pro Suite**.

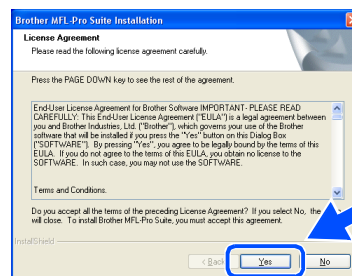

*If this window does not appear, use Windows® Explorer to run the **setup.exe** program from the root directory of the Brother CD-ROM.*

- 5 After reading and accepting the ScanSoft® PaperPort® 9.0SE License Agreement, click **Yes**.

- 6 The installation of PaperPort® 9.0SE will automatically start and is followed by the installation of MFL-Pro Suite.

- 7 When the Brother MFL-Pro Suite Software License Agreement window appears, read the agreement, then click **Yes** if you agree to its terms.

- 8 Select **Local Connection**, and then click **Next**.
The installation will continue.

*If you want to install the PS driver (BR-Script 3 printer driver), select **Custom Install** and then follow the on-screen instructions. When the **Select Components** screen appears, check **PS Printer Driver**, and then continue following the on-screen instructions.*

- 9 When this screen appears, connect the USB interface cable to your PC, and then connect it to the machine.

(For Windows® XP)

(For Windows® 98/98SE/Me/2000)

Brother recommends that you connect the machine directly to your computer.

DO NOT connect the machine to a USB port on a keyboard or a non-powered USB hub.

- 10 Plug in the power cord and turn on the machine.

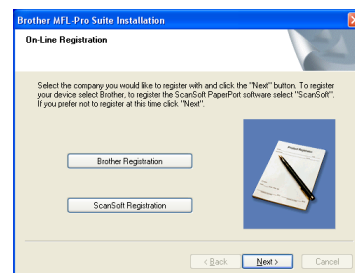

It will take a few seconds for the installation screen to appear.

The installation of the Brother drivers will automatically start. The screens appear one after another. Please wait, it will take a few seconds for all the screens to appear.

DO NOT try to cancel any of the screens during this installation.

- 11 When the On-Line Registration screen is displayed, make your selection and follow the on-screen instructions.

Continued ...

Step 2

Installing the Drivers & Software

For USB Interface Cable Users

(For Windows® 98/98SE/Me/2000 Professional/XP)

- 12 Click **Finish** to restart your computer.
(After restarting the computer, for Windows® 2000 Professional/XP, you must be logged on with Administrator rights.)

After restarting the computer, the **Installation Diagnostics** will run automatically. If the installation is unsuccessful, the installation results window will be shown. If the **Installation Diagnostics** shows a failure, please follow the on-screen instruction or read on-line help and FAQ's in **Start/All Programs/Brother/MFL-Pro Suite MFC-9420CN**.

The MFL-Pro Suite, Brother Printer Driver and Scanner driver have been installed and the installation is now complete.

For Parallel Interface Cable Users (For Windows® 98/98SE/Me/2000 Professional/XP)

Make sure that you have completed the instructions from Step 1 “Setting Up the machine” on pages 4 - 11.

Please close any applications running before installing the MFL-Pro Suite.

- 1 Disconnect the machine from the power socket (and from your computer, if you have already connected an interface cable).

- 2 Turn on your computer.
(For Windows® 2000 Professional/XP, you must be logged on with Administrator rights.)

- 3 Insert the supplied CD-ROM for Windows® into your CD-ROM drive. If the language screen appears, select your language.

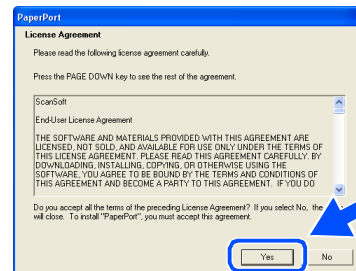

- 4 The CD-ROM main menu will appear. Click **Install MFL-Pro Suite**.

*If this window does not appear, use Windows® Explorer to run the **setup.exe** program from the root directory of the Brother CD-ROM.*

- 5 After reading and accepting the ScanSoft® PaperPort® 9.0SE License Agreement, click **Yes**.

- 6 The installation of PaperPort® 9.0SE will automatically start and is followed by the installation of MFL-Pro Suite.

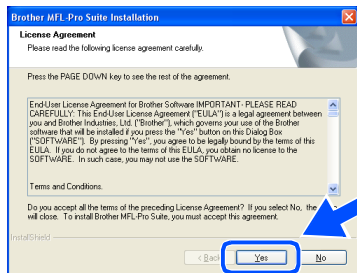

Continued ...

Step 2

Installing the Drivers & Software

For Parallel Interface Cable Users (For Windows® 98/98SE/Me/2000 Professional/XP)

- 7 When the Brother MFL-Pro Suite Software License Agreement window appears, read the agreement, then click **Yes** if you agree to its terms.

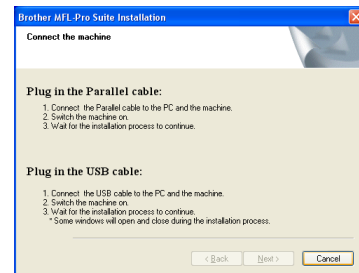

- 8 Select **Local Connection**, and then click **Next**.
The installation will continue.

If you want to install the PS driver (BR-Script 3 printer driver), select **Custom Install** and then follow the on-screen instructions. When the **Select Components** screen appears, check **PS Printer Driver**, and then continue following the on-screen instructions.

- 9 When this screen appears, connect the parallel interface cable to your PC, and then connect it to the machine.

(For Windows® XP)

(For Windows® 98/98SE/Me/2000)

DO NOT plug in the power cord before connecting the parallel interface cable. It may cause damage to your machine.

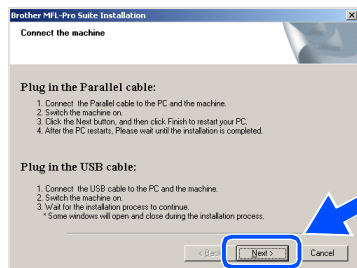

Brother recommends that you connect the machine directly to your computer.

- 10 Plug in the power cord and turn on the machine.

- 11 For Windows® 98/98SE/Me/2000 Professional users, click **Next**.

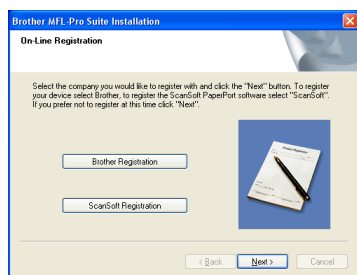

Windows® XP users should wait for a while; installation of the Brother drivers will start automatically. The screens appear one after another.

DO NOT try to cancel any of the screens during this installation.

- 12 When the On-Line Registration screen is displayed, make your selection and follow the on-screen instructions.

- 13 When the following screen appears, click **Finish** and wait as the PC restarts Windows® and continues the installation.

- 14 After the computer restarts, the installation of the Brother drivers will automatically start. Follow the instructions on the screen. (For Windows® 2000 Professional/XP, you must be logged on with Administrator rights.)

- 15 For Windows® 2000 Professional users, if the **Digital Signature Not Found** dialog boxes appear, click **Yes** to install the drivers.

After restarting the computer, the **Installation Diagnostics** will run automatically. If the installation is unsuccessful, the installation results window will be shown. If the **Installation Diagnostics** shows a failure, please follow the on-screen instruction or read on-line help and FAQ's in **Start/All Programs/ Brother/MFL-Pro Suite MFC-9420CN**.

The MFL-Pro Suite, Printer driver and Scanner driver have been installed and the installation is now complete.

Step 2 Installing the Drivers & Software

For Windows NT® Workstation Version 4.0 Users

Make sure that you have completed the instructions from Step 1 “Setting Up the machine” on pages 4 - 11.

Please close any applications running before installing the MFL-Pro Suite.

- 1 Disconnect the machine from the power socket.
- 2 Turn on your computer.
You must be logged on with Administrator rights.

DO NOT plug in the power cord before connecting the parallel interface cable. It may cause damage to your machine.

- 3 Connect the parallel interface cable to your computer, and then connect it to the machine.

Brother recommends that you connect the machine directly to your computer.

- 4 Plug in the power cord and turn on the machine.

- 5 Insert the supplied CD-ROM for Windows® into your CD-ROM drive. If the language screen appears, select your language.

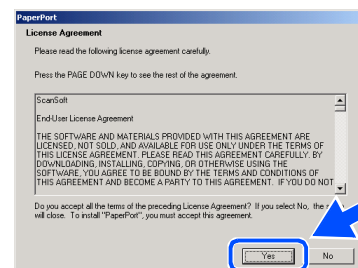

- 6 The CD-ROM main menu will appear. Click **Install MFL-Pro Suite**.

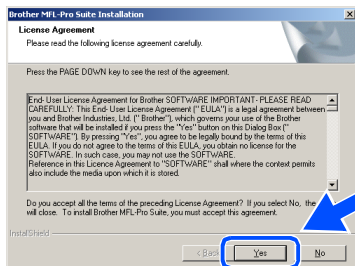

*If this window does not appear, use Windows® Explorer to run the **setup.exe** program from the root directory of the Brother CD-ROM.*

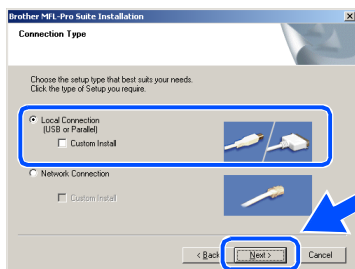

- 7 After reading and accepting the ScanSoft® PaperPort® 9.0SE License Agreement, click **Yes**.

- 8 The installation of PaperPort® 9.0SE will automatically start and is followed by the installation of MFL-Pro Suite.
- 9 When the Brother MFL-Pro Suite Software License Agreement window appears, read the agreement, then click **Yes** if you agree to its terms.

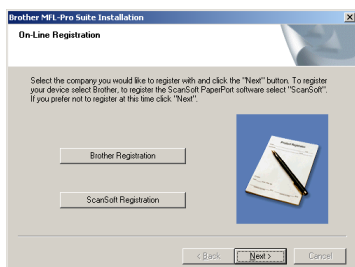

- 10 Select **Local Connection**, and then click **Next**. The installation will continue.

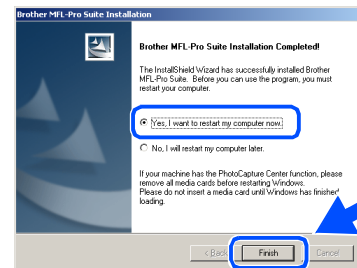

-  If you want to install the PS driver (BR-Script 3 printer driver), select **Custom Install** and then follow the on-screen instructions. When the **Select Components** screen appears, check **PS Printer Driver**, and then continue following the on-screen instructions.

- 11 When the On-Line Registration screen is displayed, make your selection and follow the on-screen instructions.

- 12 When the following screen appears, click **Finish** and wait as the PC restarts Windows® and continues the installation. (You must be logged on with Administrator rights.)

After restarting the computer, the **Installation Diagnostics** will run automatically. If the installation is unsuccessful, the installation results window will be shown. If the **Installation Diagnostics** shows a failure, please follow the on-screen instruction or read on-line help and FAQ's in **Start/All Programs/Brother/MFL-Pro Suite MFC-9420CN**.

The MFL-Pro Suite, Printer driver and Scanner driver have been installed and the installation is now complete.

Step 2

Installing the Drivers & Software

For Network Interface Cable Users (For Windows® 98/98SE/Me/NT/2000 Professional/XP)

Make sure that you have completed the instructions from Step 1 “Setting Up the machine” on pages 4 - 11.

- 1 Disconnect the machine from the power socket.
- 2 Connect the network cable to the machine, and then connect it to a free port on your hub.

- 3 Plug in the power cord and turn on the machine.

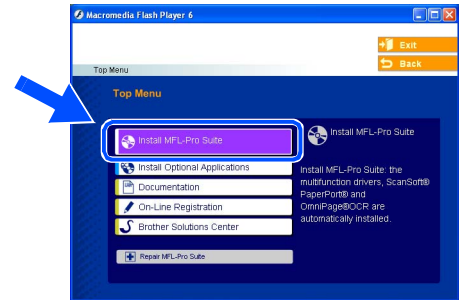

- 4 Turn on your computer.
(For Windows® 2000 Professional/XP/Windows NT® 4.0, you must be logged on with Administrator rights.) Close any applications running before installing the MFL-Pro Suite.

 Before installation, if you are using Personal Firewall software, disable it. Once you are sure that you can print after the installation, re-start your Personal Firewall software.

- 5 Insert the supplied CD-ROM for Windows® into your CD-ROM drive. If the language screen appears, select your language.

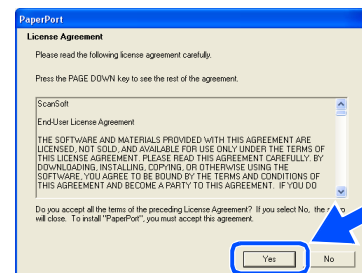

- 6 The CD-ROM main menu will appear. Click **Install MFL-Pro Suite**.

 If this window does not appear, use Windows® Explorer to run the **setup.exe** program from the root directory of the Brother CD-ROM.

- 7 After reading and accepting the ScanSoft® PaperPort® 9.0SE License Agreement, click **Yes**.

- 8 The installation of PaperPort® 9.0SE will automatically start and is followed by the installation of MFL-Pro Suite.

- 9 When the Brother MFL-Pro Suite Software License Agreement window appears, read the agreement, then click **Yes** if you agree to its terms.

- 10 Select **Network Connection** and then click **Next**.

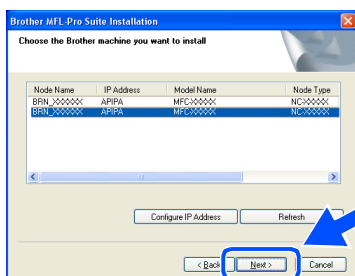

*If you want to install the PS driver (Brother's BR-Script Driver), select **Custom Install** and then follow the on-screen instructions. When the **Select Components** screen appears, check **PS Printer Driver**, and then continue following the on-screen instructions.*

- 11 The installation of the Brother drivers will automatically start. The installation screens appear one after another. Please wait, it will take a few seconds for all the screens to appear.

DO NOT try to cancel any of the screens during this installation.

- 12 If the machine is configured for your network, select your machine from the list and then click **Next**.

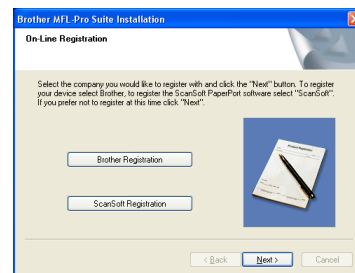

This window will not appear if there is only one of this Brother model connected to your network. The installer will select the machine automatically.

- 13 If the machine is not yet configured for use on your network, the following screen appears.

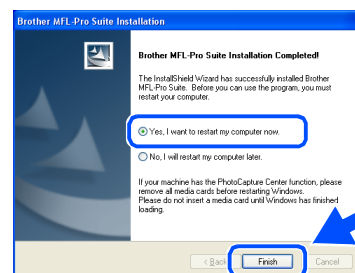

Click **OK**. The **Configure IP Address** window will appear. Enter the IP address information appropriate to your network by following the on-screen instructions.

- 14 When the On-Line Registration screen is displayed, make your selection and follow the on-screen instructions.

- 15 When the following screen appears, click **Finish** and wait as the PC restarts Windows® and continues the installation. (For Windows® 2000 Professional/XP/Windows NT® 4.0, you must be logged on with Administrator rights.)

- OK!** The MFL-Pro Suite, Network Printer driver, Network Scanner driver have been installed and the installation is now complete.

- For Network installations, the **Repair MFL-Pro Suite** selection from the main menu is not supported.
- Network Scanning is not supported in Windows NT® 4.0.

For Mac OS® 9.1 to 9.2

Make sure that you have completed the instructions from Step 1 “Setting Up the machine” on pages 4 - 11.

- 1 Disconnect the machine from the power socket (and from the Macintosh®, if you have already connected an interface cable).

- 2 Turn on your Macintosh®.
- 3 Insert the supplied CD-ROM for Macintosh® into your CD-ROM drive.

- 4 Double-click the **Start Here OS 9.1-9.2** icon to install the printer and scanner drivers. If the language screen appears, select your language.

- 5 Click **MFL-Pro Suite** to install.

- 6 Follow the on-screen instructions, and restart your Macintosh®.

- 7 Connect the USB interface cable to your Macintosh®, and then connect it to the machine.

DO NOT connect the machine to a USB port on a keyboard or a non-powered USB hub.

- 8 Plug in the power cord and turn on the machine.

- 9 Open the **Chooser** from the **Apple** menu.

- 10 Click the **Brother Color** icon. On the right side of the **Chooser**, select the machine to which you want to print. Close the **Chooser**.

- OK! The **MFL-Pro Suite**, **Printer driver** and **Scanner driver** have been installed.

 *ControlCenter2 is not supported in Mac OS® 9.1 to 9.2.*

- 11 To install Presto!® PageManager®, click the **Presto! PageManager** icon and follow the on-screen instructions.

 You can easily scan, share and organize photos and documents using Presto!® PageManager®.

- OK! **Presto!® PageManager®** has been installed and the installation is now complete.

For USB Interface Cable Users

For Mac OS® X 10.2.4 or greater

Make sure that you have completed the instructions from Step 1 “Setting Up the machine” on pages 4 - 11.

For Mac OS® X 10.2.0 to 10.2.3 users, please upgrade to Mac OS® X 10.2.4 or greater. (For the latest information on Brother's Mac OS® X support, please visit at: <http://solutions.brother.com>)

- 1 Disconnect the machine from the power socket (and from the Macintosh®, if you have already connected an interface cable).

- 2 Turn on your Macintosh®.
- 3 Insert the supplied CD-ROM for Macintosh® into your CD-ROM drive.

- 4 Double-click the **Start Here OSX** icon to install the drivers and MFL-Pro Suite. If the language screen appears, select your language.

- 5 Click **MFL-Pro Suite** to install.

- 6 Follow the on-screen instructions, and restart your Macintosh®.
- 7 After the **DeviceSelector** window appears, connect the USB interface cable to your Macintosh® and then to the machine.

The **DeviceSelector** window will not appear if you have also connected a USB interface cable to the machine before restarting your Macintosh® or if you are overwriting a previously installed version of the Brother software. If you encounter this problem continue with the installation but skip step 9. You should then select your Brother machine from the Model pull-down list in the main screen of ControlCenter2. (You can also see the Software User's Guide for details on selecting which machine ControlCenter2 will connect with.)

DO NOT connect the machine to a USB port on a keyboard or a non-powered USB hub.

- 8 Plug in the power cord and turn on the machine.

- 9 Select **USB** and then click **OK**.

- 10 Select **Applications** from the **Go** menu.

- 11 Open the **Utilities** folder.

- 12 Open the **Printer Setup Utility** icon.

For Mac OS® 10.2.X users, open the **Print Center** icon.

- 13 Click **Add**.

For Mac OS® X 10.2.4 to 10.3.X users
→ Go to 14

For Mac OS® X 10.4 users → Go to 15

Continued ...

Step 2

Installing the Drivers & Software

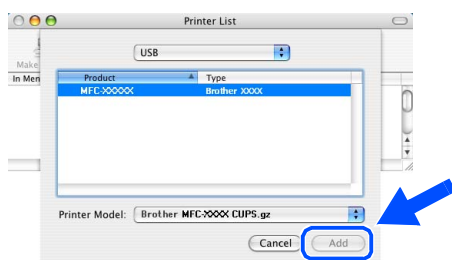

For USB Interface Cable Users

- 14 Select **USB**.

- 15 Select **MFC-9420CN**, and then click **Add**.

(Mac OS® X 10.2.4 - 10.3.X)

(Mac OS® X 10.4)

- 16 Select **Quit Printer Setup Utility** from the **Printer Setup Utility** menu.

- OK!** The MFL-Pro Suite, Printer driver, Scanner driver and ControlCenter2 have been installed.

- 17 To install Presto!® PageManager®, click the **Presto! PageManager** icon and follow the on-screen instructions.

When Presto!® PageManager® is installed OCR capability is added to the Brother ControlCenter2. You can also easily scan, share, and organize photos and documents using Presto!® PageManager®.

- OK!** Presto!® PageManager® has been installed and the installation is now complete.

For Network Interface Cable Users

For Mac OS® 9.1 to 9.2

Make sure that you have completed the instructions from Step 1 “Setting Up the machine” on pages 4 - 11.

- 1 Disconnect the machine from the power socket (and from the Macintosh®, if you have already connected an interface cable).

- 2 Turn on your Macintosh®.
- 3 Insert the supplied CD-ROM for Macintosh® into your CD-ROM drive.

- 4 Double-click the **Start Here OS 9.1-9.2** icon to install the printer driver. If the language screen appears, select your language.

- 5 Click **MFL-Pro Suite** to install.

- 6 Follow the on-screen instructions, and restart your Macintosh®.
- 7 Connect the network interface cable to the machine, and then connect it to a free port on your hub.

- 8 Plug in the power cord and turn on the machine.

- 9 Open the **Chooser** from the **Apple** menu.

Continued ...

For Network Interface Cable Users

- 10 Click the **Brother Color (IP)** icon, and then select **BRN_XXXXXX**.
Close the **Chooser**.

XXXXXX are the last six digits of the Ethernet address.

The MFL-Pro Suite and Printer driver have been installed.

ControlCenter2 and Network Scanning are not supported in Mac OS® 9.1 to 9.2.

For Mac OS® X 10.2.4 or greater

Make sure that you have completed the instructions from Step 1 “Setting Up the machine” on pages 4 - 11.

- 1 Disconnect the machine from the power socket and from the Macintosh®.

- 2 Turn on your Macintosh®.
- 3 Insert the supplied CD-ROM for Macintosh® into your CD-ROM drive.

- 4 Double-click the **Start Here OSX** icon to install the printer and scanner drivers. If the language screen appears, select your language.

- 5 Click **MFL-Pro Suite** to install.

- 6 Follow the on-screen instructions, and restart your Macintosh®.
- 7 After the **DeviceSelector** window appears, connect the network interface cable to the machine, and then connect it to a free port on your hub.

The **DeviceSelector** window will not appear if you have also connected a USB interface cable to the machine before restarting your Macintosh® or if you are overwriting a previously installed version of the Brother software. If you encounter this problem continue with the installation skipping steps 9 to 11. You should then select your Brother machine from the Model pull-down list in the main screen of ControlCenter2. (You can also see the Software User's Guide for details on selecting which machine ControlCenter2 will connect with.)

Continued ...

Step 2

Installing the Drivers & Software

For Network Interface Cable Users

- 8 Plug in the power cord and turn on the machine.

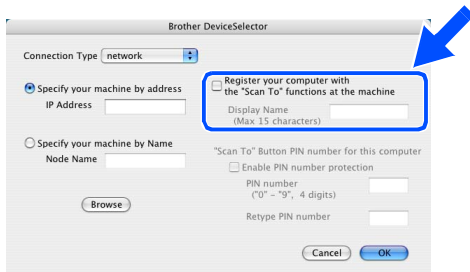

- 9 Select **Network** and then click **OK**.

- 10 If you want to use the **Scan** key on the machine, you must check **Register your computer with the "Scan To" functions at the machine** box and enter a name you want to use for your Macintosh® in **Display Name**.

The name can be any name you want up to 15 characters.

(For more information on network scanning, see Chapter 10 of the Software User's Guide on the CD-ROM.)

- 11 Click **Browse**.

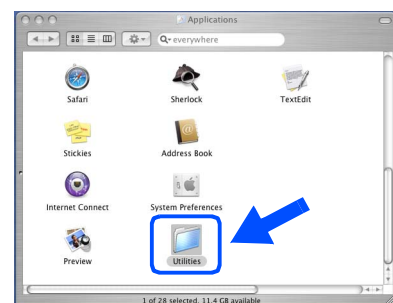

- 12 Select your model name, and then click **OK**. Click **OK** again to close the **DeviceSelector**.

- 13 Select **Applications** from the **Go** menu.

- 14 Open the **Utilities** folder.

- 15 Open the **Printer Setup Utility** icon.

*For Mac OS® X 10.2.4 users, open **Print Center** icon.*

- 16 Click **Add**.

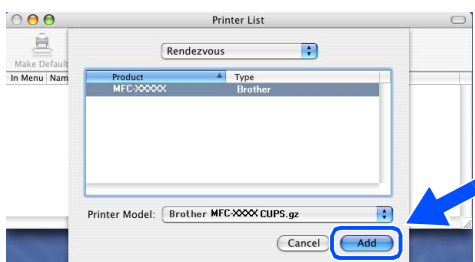

*For Mac OS® X 10.2.4 to 10.3.X users
→ Go to 17*

For Mac OS® X 10.4 users → Go to 18

- 17 Make the selection shown below.

- 18 Select **Brother MFC-9420CN** and then click **Add**.

(Mac OS® X 10.2.4 - 10.3.X)

(Mac OS® X 10.4)

- 19 Select **Quit Printer Setup Utility** from the **Printer Setup Utility** menu.

- OK!** The **MFL-Pro Suite**, **Printer driver**, **Scanner driver** and **ControlCenter2** have been installed.

- 20 To install **Presto!® PageManager®**, click the **Presto! PageManager** icon and follow the on-screen instructions.

*When **Presto!® PageManager®** is installed **OCR** capability is added to the **Brother ControlCenter2**. You can also easily scan, share, and organize photos and documents using **Presto!® PageManager®**.*

- OK!** **Presto!® PageManager®** has been installed and the installation is now complete.

Installing the BRAdmin Professional Configuration Utility

The BRAdmin Professional utility for Windows® is designed to manage your Brother network connected devices such as network-ready Multifunction devices and/or network-ready printers in a Local Area Network (LAN) environment.

For Macintosh® users, please visit the Brother Solutions Center (<http://solutions.brother.com>) to download BRAdmin Light for Macintosh®.

BRAdmin Professional can also be used to manage devices from other manufacturers whose products support SNMP (Simple Network Management Protocol).

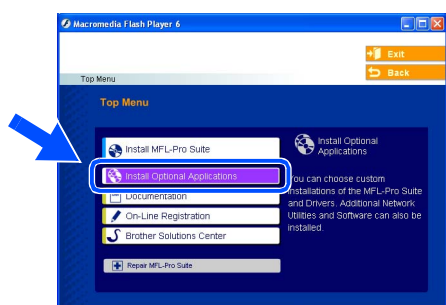

For more information on BRAdmin Professional and BRAdmin Light, go to <http://solutions.brother.com>

For Windows® users

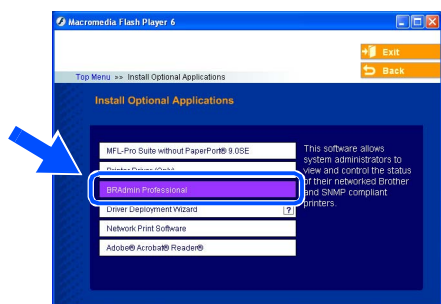

- 1 Insert the supplied CD-ROM into your CD-ROM drive.
The opening screen will appear automatically.
Follow the on-screen instructions.

- 2 Click the **Install Optional Applications** icon on the main menu screen.

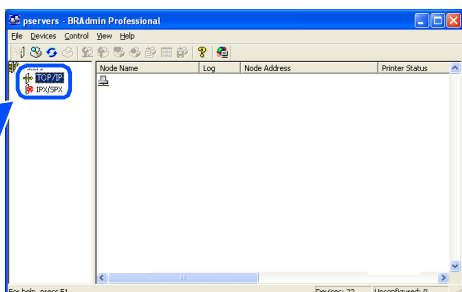

- 3 Click **BRAdmin Professional** and follow the on-screen instructions.

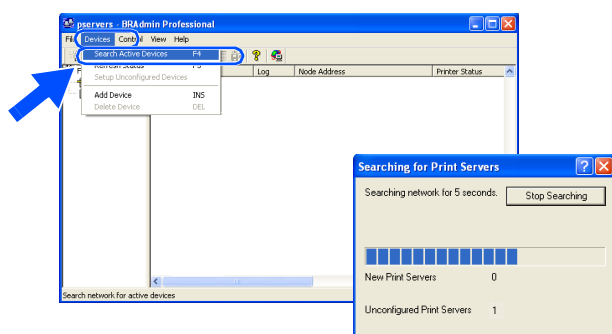

The default password for the print server is **access**. You can use BRAdmin Professional or a web browser to change this password.

Setting your IP Address, Subnet Mask and Gateway using BRAdmin Professional (For Windows® Users)

- 1 Start BRAdmin Professional, and select TCP/IP.

- 2 Select **Search Active Devices** from the **Devices** menu. BRAdmin will search for new devices automatically.

- 3 Double-click the new device.

- 4 Enter the **IP Address**, **Subnet Mask** and **Gateway**, and then click the **OK** button.

- 5 The address information will be saved to the machine.

For more information on network administration, please see the Network User's Guide in the programs menu or go to <http://solutions.brother.com>
