Setting Up the machine

Step 1

Load Paper in the Paper Tray Pull the paper tray completely out of the 3 Fan the stack of paper well to avoid paper jams and misfeeds. machine. Put paper in the paper tray. 4 Check that the paper is flat in the tray and below the maximum paper mark (1). 2 While pressing the paper guide release lever (1), slide the adjusters to fit the paper size. Check that the guides are firmly in the (1) slots. (1) 5 Put the paper tray firmly back into the machine and unfold the output tray support flap (1) before you use the machine. (1) For details on supported paper specifications, see "Acceptable paper and other media" in Chapter 2 of the User's Guide.

Step 1 Setting Up the machine

Release the Scanner Lock

Push the lever (1) up to unlock the scanner. (The gray scanner lock lever is located at the back left side, under the document cover **(2)**.)

Install the Power Cord 4 and Phone Line

Do not connect the Parallel or USB cable yet.

1 Make sure that the power switch is off. Connect the AC power cord to the machine.

2 Plug the AC power cord into an AC outlet. Turn the power switch on.

- - If Scanner Locked appears on the LCD, immediately release the scanner lock and press Stop/Exit.
- Connect one end of the telephone line cord to the socket on the machine marked LINE and the other end to a modular wall socket.

Warning

- The machine must be fitted with an earthed plug.
- Since the machine is grounded through the power outlet, you can protect yourself from potentially hazardous electrical conditions on the telephone network by keeping the power cord connected to your machine when you connect it to a telephone line. Similarly, you can protect yourself when you want to move your machine by disconnecting the telephone line first and then the power cord.

If you are sharing one phone line with an external telephone, connect it as shown below.

If you are sharing one phone line with an external telephone answering device. connect it as shown below.

Please set the receive mode to External TAD.

For more details, see "Connecting an external TAD" in Chapter 7 of the User's Guide.

Set Your Country 5 (For Australia / New Zealand **Customer Only**)

You must set your country so that the machine works correctly on local telecommunication lines in each country.

- Check that the power is turned on by plugging in the power cord and turn the power switch on.
- Press or to select the country (AUSTRALIA or NEW Zealand).

Se	t Cou	Intr	'ny		
	Austr NEW 2			d	
Se	lect		8	OK	

Press **OK** when the LCD shows your country.

The LCD prompts you to make sure of the country again.

Set Country
Australia
1.Yes
2.No
Enter Number

If the LCD shows the correct country, press 1 to go to Step 5.

-OR-

Press 2 to go back to Step 2 to select the country again.

After the LCD shows Accepted for two seconds, it shows Please Wait.

Network

Step 1 Setting Up the machine

- Enter the two digits for the day on the dial pad, and then press OK.
- 02.Date/Time XX/03/2006 Day: 25 Enter & OK Key

(e.g. Enter 2, 5.)

- Enter the time in 24-hour format on the dial pad, and then press OK. 02.Date/Time 25/03/2006 Time:15:25 Enter & OK Key (e.g. Enter 1, 5, 2, 5 for 3:25 P.M.)
- 8 Press Stop/Exit.

If you make a mistake, press Stop/Exit to start from Step 1.

Setting your Station ID

You should store your name and fax number to be printed on all fax pages that you send.

1	Press Menu
2	Press 0 .

3 Press 3.

Enter your fax number (up to 20 digits) on the dial pad, and then press OK.

03.Sta	ID		
Fax:			
Enter	8	ОK	Key

5 Enter your telephone number (up to 20 digits) on the dial pad, and then press **OK**. (If your telephone number and fax number are the same, enter the same number again.)

```
03.Station ID
Fax:+44XXXXXXXX
Tel:_
Enter & OK Key
```

6 Use the dial pad to enter your name (up to 20 characters), and then press **OK**.

03.Station ID						
Fax:+44XXXXXXXX						
Tel:+44XXXXXXXX						
Name:_						
Enter & OK Key						

- Refer to the following chart for entering your name.
- If you need to enter a character that is on the same key as the previous character, press b to move the cursor to the right.
- If you entered a letter incorrectly and want to change it, press to move the cursor under the incorrect character, press Clear/Back.

Press key	One time	Two times	Three times	Four times

Select the company you would like to register you device select Brother, to register the Scare If you prefer not to register at the time click. "W	Soft PaperPort software select "ScanSoft".
ScanSoft Registration	(Back New) Cancel

 Click Finish to restart your computer. (For Windows[®] 2000 Professional/XP/ XP Professional x64 Edition/ Windows NT[®] 4.0, you must be logged on with Administrator rights.)

- The MFL-Pro Suite (including Brother Network Printer driver and Network Scanner driver) has been installed and the installation is now complete.
- After restarting the computer, the Installation Diagnostics will run automatically. If the installation is unsuccessful, the installation results window will be shown. If the Installation Diagnostics shows a failure, please follow the on-screen instruction or read on-line help and FAQ's in Start/All Programs (Programs)/Brother/MFL-Pro Suite MFC-XXXX (where XXXX is your model name).
- Once you are sure that you can print after the installation, restart your Firewall software.

- Firewall settings on your PC may reject the necessary network connection for Network Scanning and PC-Fax. Follow the instructions below to configure your Windows Firewall. If you are using a personal Firewall software, see the User's Guide for your software or contact the software manufacturer.
- Windows[®] XP SP2 users:
 - Click the Start button, Control Panel and then Windows Firewall. Make sure that Windows Firewall on the General tab is set to On.
 - 2 Click the **Advanced** tab and **Settings...** button.

- 3 Click the Add button.
- 4 To add port 54925 for network scanning, enter the information below:
 - 1) In **Description of service:** Enter any description, for example "Brother Scanner" (without the inverted commas).
 - 2) In Name or IP address (for example 192.168.0.12) of the computer hosting this service on your network: - Enter "Localhost" (without the inverted commas).
 - 3) In External Port Number for this service: Enter "54925" (without the inverted commas).
 - 4) In Internal Port number for this service: Enter "54925" (without the inverted commas).
 - 5) Make sure UDP is selected.
 - 6) Click **OK**.

- 5 Click the Add button.
- 6 To add port 54926 for Network PC-Fax, enter the information below:
 - 1) In **Description of service:** Enter any description, for example "Brother PC-Fax" (without the inverted commas).
 - 2) In Name or IP address (for example 192.168.0.12) of the computer hosting this service on your network: - Enter "Localhost" (without the inverted commas).
 - 3) In External Port Number for this service: Enter "54926" (without the inverted commas).
 - 4) In Internal Port number for this service: Enter "54926" (without the inverted commas).
 - 5) Make sure UDP is selected.6) Click OK.
- 7 If you still have trouble with your network connection, click the **Add** button.
- 8 To add port 137 for both network scanning and Network PC-Fax receiving, enter the information below:
 - 1) In **Description of service:** Enter any description, for example "Brother PC-Fax Receiving" (without the inverted commas).
 - 2) In Name or IP address (for example 192.168.0.12) of the computer hosting this service on your network: - Enter "Localhost" (without the inverted commas).
 - 3) In External Port Number for this service: Enter "137" (without the inverted commas).
 - 4) In Internal Port number for this service: Enter "137" (without the inverted commas).
 - 5) Make sure UDP is selected.6) Click OK.
- 9 Make sure that the new settings are added and are checked, and then click **OK**.

For Network installations, the Repair MFL-Pro Suite selection from the main menu is not supported.

- Network Scanning, Network Remote Setup, Network PC-FAX Receiving are not supported in Windows NT[®] 4.0.
- For configuration of advanced network functions such as LDAP, Scan to FTP and Fax to Server, see the Software and Network User's Guides located on the CD-ROM.

Installing the Drivers & Software

For USB Interface Cable Users

For Mac OS[®] 9.1 to 9.2

Make sure that you have finished the instructions from Step 1 "Setting Up the machine" on pages 4 - 11.

 Switch off the machine and disconnect the machine from the power socket (and from the Macintosh[®], if you have already connected an interface cable).

- 2 Turn on your Macintosh[®].
- Insert the supplied CD-ROM for Macintosh[®] into your CD-ROM drive.

Double-click the **Start Here OS 9.1-9.2** icon to install the printer and scanner drivers. If the language screen appears, choose your language.

5 Click MFL-Pro Suite to install.

- 6 Follow the on-screen instructions, and restart your Macintosh[®].
- Connect the USB interface cable to your Macintosh[®], and then connect it to the machine.

0

DO NOT connect the machine to a USB port on a keyboard or a non-powered USB hub.

8 Plug in the power cord and turn on the machine.

9 From the Apple[®] menu, click **Chooser**.

Macintosh®

 Click the Brother Laser icon. On the right side of the Chooser, choose the machine to which you want to print. Close the Chooser.

BRAdmin Light configuration utility (For Mac OS[®] X users)

The Brother BRAdmin Light software is a Java[™] application that is designed for the Apple Mac OS[®] X environment. It supports some of the features of the Windows BRAdmin Professional software. For example, using the BRAdmin Light software, you can change some network settings on Brother's network ready printers and multifunction devices.

The BRAdmin Light software will be installed automatically when you install the MFL-Pro Suite. If you have already installed the MFL-Pro Suite, you don't have to install it again. For more information on BRAdmin Light, visit us at http://solutions.brother.com.

Setting your IP address, Subnet Mask and Gateway using BRAdmin Light

The address information will be saved to the printer.

IOptions and Consumables

Options

The machine has the following optional accessories. You can expand the capabilities of the machine by adding these items.

Replacement Consumables

When the time comes to replace consumables, an error message will be indicated on the LCD. For more information about the consumables for your machine, visit http://solutions.brother.com or contact your local Brother re-seller.
