Before you install

For Windows®

1. Make sure that your computer is ON and you are logged on with Administrator rights.

2. Insert the supplied CD-ROM into your CD-ROM drive. Choose your language.

3. If the Brother screen does not appear automatically, go to My Computer/Computer, double-click the CD-ROM icon, and then double-click start.exe.

4. The CD-ROM main menu will appear. Choose your language and then click Additional Applications.

Note

- The computer must be connected to the Internet.
- The machine must be ON and connected to the computer.

Install Optional Applications supported by Reallusion, Inc

1. Download the FaceFilter Studio software from the Reallusion website.

2. Install FaceFilter Studio on your computer.

3. Open the application and choose the desired options.

Install FaceFilter Studio Help

1. Go to Start/All Programs/Reallusion/FaceFilter Studio on your computer.

2. Click the Help button on the upper right corner of the screen.

Connect the power cord

a. Connect the power cord.

b. When the On-Line Registration screen appears, make your selection and follow the on-screen instructions.

Finish and restart

a. Click Finish to restart your computer.

b. Click OK.

Install MFL-Pro Suite

a. Insert the supplied CD-ROM into your CD-ROM drive. Choose your language.

b. Unplug the machine.

c. Click the Finish button to install Brother MFL-Pro Suite.

d. Close the Finish dialog box.

Install MFL-Pro Suite Help

1. Go to Start/All Programs/Reallusion/FaceFilter Studio on your computer.

2. Click the Help button on the upper right corner of the screen.

3. Close FaceFilter Studio, double-click the downloaded file from the folder you specified, and then follow the on-screen instructions to install.

Connect the USB cable

For Mac OS® X

1. Make sure your computer is ON and you are logged on with Administrator rights.

2. Install MFL-Pro Suite.

3. Connect the USB cable to the USB socket marked with a symbol. The USB socket is inside the machine as shown.

4. Lift the scanner cover until it locks securely into the open position.

5. Connect the USB cable to the USB socket on the back of the machine.

6. Gently push the scanner cover support down and close the scanner cover.

Install MFL-Pro Suite

a. Insert the supplied CD-ROM into your CD-ROM drive.

b. Double-click the Start Here OS X icon.

c. Carefully route the USB cable through the cable channel and out the back of the machine.

d. Connect the cable to your computer.

e. Lift the scanner cover to release the lock. Gently push the scanner cover support down and close the scanner cover.

Install Presto!® PageManager®

When Presto!® PageManager® is installed, OCR capability is added to Brother ControlCenter2. With Presto!® PageManager®, you can easily scan, share and organize photos and documents.

For Mac OS® X 10.2.4 to 10.3.8 users, go to step 12.

1. Choose your model name, and then click Add.

2. Close the Presto!® PageManager® icon and follow the on-screen instructions.

Note

- The installation is now complete.
