CE

MFC-5490CN

Before you can use the machine, read this Quick Setup Guide for the correct setup and installation.

| ⚠ WARNING	Warnings tell you what to do to prevent possible personal injury.

Important

DO NOT connect the USB cable yet (if you are using a USB cable).

1 Unpack the machine and check the components

	Inbox Ink Cartridges [x4]	Black Yellow Cyan Magenta (Approx. 65% yield of the replacement cartridge) For details, see Consumable items in the User's Guide.	Quick Setup Guide
User's Guide	CD-ROM	Power Cord	Telephone Line Cord	One Touch Labels

1	2	3
4	5	6

⚠ WARNING

Plastic bags are used in the packaging of your machine. To avoid danger of suffocation, please keep these bags away from babies and children.

a Remove the protective tape and film covering the scanner glass.

b Make sure you have all components.

📝 **Note**

- *The components included in the box may differ depending on your country.*
- *Save all packing materials and the box in case for any reason you must ship your machine.*
- *You need to purchase the correct interface cable for the interface you want to use (for USB or network connection).*
USB cable
Please make sure you use a USB 2.0 cable (Type A/B) that is no more than 2 metres long.
Network cable
Use a straight-through Category5 (or greater) twisted-pair cable for 10BASE-T or 100BASE-TX Fast Ethernet Network.

UK/IRE/GEN/SAF Version 0

2 Load plain A4 paper

a Pull the paper tray ① completely out of the machine.

**b** Open the paper tray cover ①.

c With both hands, gently press and slide the paper side guides ① and then the paper length guide ② to fit the paper size.

Make sure that the triangular marks ③ on the paper side guides ① and paper length guide ② line up with the mark for the paper size you are using.
d Fan the stack of paper well to avoid paper jams and misfeeds.

e Gently put the paper into the paper tray print side down and top edge first. Check that the paper is flat in the tray.
> **Important**
>
> **Do not push the paper in too far.**

f Gently adjust the paper side guides to the paper with both hands. Make sure that the paper side guides touch the edges of the paper.

g Close the paper tray cover. Check that the paper is flat in the tray and below the maximum paper mark ①.
h *Slowly* push the paper tray completely into the machine.

i While holding the paper tray in place, pull out the paper support ❶ until it clicks, and then unfold the paper support flap ❷.

3 Connect the power cord and telephone line

a Connect the power cord.
⚠ WARNING

The machine must be fitted with an earthed plug.

b Connect the telephone line cord. Connect one end of the telephone line cord to the socket on the machine marked **LINE** and the other end to a telephone wall socket.

Since the machine is grounded through the power outlet, you can protect yourself from potentially hazardous electrical conditions on the telephone network by keeping the power cord connected to your machine when you connect it to a telephone line. Similarly, you can protect yourself when you want to move your machine by disconnecting the telephone line first and then the power cord.

Important

The telephone line cord MUST be connected to the socket on the machine marked LINE.

📝 **Note**

If you are sharing one telephone line with an external telephone, connect it as shown below.

1   *Extension telephone*
2   *External telephone*
Please make sure you use an external telephone with a cable no more than 3 metres long.

📝 **Note**

If you are sharing one telephone line with an external telephone answering machine, connect it as shown below.

🔍 *Set the receive mode to* External TAD *if you have an external answering machine. See Choose a Receive Mode on page 6. For additional details, see Connecting an external TAD (telephone answering device) in Chapter 7 of the User's Guide.*
4 Install the ink cartridges

⚠ **WARNING**

If ink gets in your eyes, wash them out with water at once, and if irritation occurs consult a doctor.
a Make sure that the power is turned on. The LCD shows:

```
No Cartridge
Open ink cartridge...
```

b Open the ink cartridge cover ①.

c Remove the green protective part ①.

📝 **Note**
Do not throw away the green protective part. You will need it if you transport the machine.
d Unpack the ink cartridge.

e Turn the green knob on the protective yellow cap clockwise until it clicks to release the vacuum seal, then remove the cap ①.
f Take care to match the colour of the lever ① with the cartridge colour ②, as shown in the diagram below.

BK Y C M

g Install each ink cartridge in the direction of the arrow on the label.

h Gently push the ink cartridge until it clicks. After all the ink cartridges are installed close the ink cartridge cover.

✎ **Note**

The machine will prepare the ink tube system for printing. This process will take approximately four minutes. Do not turn off the machine.

5 Check the print quality

a When the preparation process has finished, the LCD shows this message

```
Set Paper and
Press Start
```

Press **Colour Start**.

b Check the quality of the four colour blocks ① on the sheet. (black/yellow/cyan/magenta)

Print Quality Check

Check that the dotted lines forming the four colour blocks are all visible with no gaps. If OK select (Yes) on the control panel.
If gaps are visible select (No) on the control panel to start the cleaning process and follow the prompts on the LCD.
**c** If all lines are clear and visible, press **1** (Yes) on the dial pad to finish the quality check.

OK

If you can see missing short lines, press **2** (No) on the dial pad and go to **d**.

Poor

d The LCD asks you if the print quality is OK for black and colour. Press **1** (Yes) or **2** (No) on the dial pad.

```
Black OK?
1.Yes 2.No
```

After pressing **1** (Yes) or **2** (No) for both black and colour, the LCD shows:

```
Start Cleaning?
1.Yes 2.No
```

e Press **1** (Yes), the machine will then start cleaning the colours.

f After cleaning is finished, press **Colour Start**. The machine starts printing the Print Quality Check Sheet again. Go back to **b**.

---

6 Choose a Receive Mode

There are four possible receive modes: Fax Only, Fax/Tel, Manual and External TAD.

Do you want to use the telephone features of your machine (if available) or an external telephone or external telephone answering device connected on the same line as the machine?

↓ Yes   No

Are you using the voice message function of an external telephone answering device?

↓ No

Do you want the machine to answer fax and telephone calls automatically?

Fax Only
Your machine automatically answers every call as a fax.

Yes →
Fax/Tel
Your machine controls the line and automatically answers every call. If the call is not a fax, the telephone will ring for you to pick up the call.

No →
Manual
You control the telephone line and must answer every call yourself.

Yes →
External TAD
Your external telephone answering device (TAD) automatically answers every call. Voice messages are stored on the external TAD. Fax messages are printed.

a Press **Menu**.

b Press **0**.

c Press **1**.

d Press ▲ or ▼ to choose the receive mode. Press **OK**.
e Press **Stop/Exit**.

🔍 *For details, see Using receive modes in Chapter 6 of the User's Guide.*
7 Set the LCD contrast (If needed)

If you are having difficulty reading the LCD from your position, try changing the contrast setting.

a Press **Menu**.

b Press **1**.

c Press **7**.

d Press ▲ or ▼ to choose Light or Dark.

```
Select ▲▼ & OK
Light
```

```
LCD Contrast
Dark
```

e Press **OK**.

f Press **Stop/Exit**.

8 Set the date and time

The machine displays the date and time, and if you set up the station ID, it will add it to each fax you send.

a Press **Menu**.

b Press **0**.

c Press **2**.

d Enter the last two digits of the year on the dial pad, and then press **OK**.

```
Date/Time
Year:2008
```

(e.g. Enter **0 8** for 2008.)

e Repeat for Month and Day, and Hours and Minutes in 24-hour format.

f Press **Stop/Exit**.

9 Enter personal information (station ID)

You should store your name and fax number to be printed on all fax pages that you send.

a Press **Menu**.

b Press **0**.

c Press **3**.

d Enter your fax number (up to 20 digits) on the dial pad, and then press **OK**. To enter a "+" for international codes, press ∗. For example, to enter the UK dialling code "+44", press ∗, **4**, **4** and then the rest of your number.

e Enter your name (up to 20 characters) using the dial pad, and then press **OK**.

📝 Note

- *See the following chart for entering your name.*
- *If you need to enter a character that is on the same key as the last character, press ▶ to move the cursor to the right.*
- *If you entered a letter incorrectly and want to change it, press ◀ or ▶ to move the cursor to the incorrect character, press **Clear/Back**.*

Press key	One time	Two times	Three times	Four times
2	A	B	C	2
3	D	E	F	3
4	G	H	I	4
5	J	K	L	5
6	M	N	O	6
7	P	Q	R	S
8	T	U	V	8
9	W	X	Y	Z

f Press **Stop/Exit**.

📝 Note

*If you make a mistake and want to start again, press **Stop/Exit** and go back to **a**.*

🔍 *For details, see Entering Text in Appendix C of the User's Guide.*

10 Set tone or pulse dialling mode

Your machine comes set for Tone dialling service. If you have Pulse dialling service (rotary), you need to change the dialling mode.

a Press **Menu**.

b Press **0**.

c Press **4**.

d Press ▲ or ▼ to choose `Pulse` (or `Tone`). Press **OK**.

e Press **Stop/Exit**.

11 Set the telephone line type

If you are connecting the machine to a line that features PBX or ISDN to send and receive faxes, it is necessary to change the telephone line type accordingly by completing the following steps.

a Press **Menu**.

b Press **0**.

c Press **6**.

d Press ▲ or ▼ to choose `Normal`, `PBX` or `ISDN`. Press **OK**.

e Press **Stop/Exit**.

PBX and TRANSFER
The machine is initially set to Normal, which lets the machine connect to a standard PSTN (Public Switched Telephone Network) line. However, many offices use a central telephone system or Private Branch Exchange (PBX). Your machine can be connected to most types of PBX. The machine's recall feature supports timed break recall only (TBR). TBR will work with most PBX systems allowing you to gain access to an outside line, or transfer calls to another extension. The feature works when the **Tel/R** key is pressed.

For USB Interface Users
## (For Windows® 2000 Professional/XP/XP Professional x64 Edition/ Windows Vista®)

13 Before you install

a Make sure that your computer is ON and you are logged on with Administrator rights.

Important

- **DO NOT connect the USB cable yet.**
- **If there are any programs running, close them.**
- **Make sure there are no memory cards or a USB Flash memory drive inserted.**
- **The screens may differ depending on the operating system.**
- **The supplied CD-ROM includes ScanSoft™ PaperPort™ 11SE. This software supports Windows® 2000 (SP4 or greater), XP (SP2 or greater), XP Professional x64 Edition and Windows Vista®. Update to the latest Windows® Service Pack before installing MFL-Pro Suite.**

b Disconnect the machine from the power socket and from your computer, if you already connected an interface cable.

14 Install MFL-Pro Suite

a Put the supplied CD-ROM into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

📝 Note

If the Brother screen does not appear automatically, go to My Computer (Computer), double-click the CD-ROM icon, and then double-click start.exe.

b The CD-ROM main menu will appear. Click **Initial Installation**.

**c** Click **Install MFL-Pro Suite**.

Note

• *If this screen appears, click **OK** and restart your computer.*

• *If the installation does not continue automatically, open the main menu again by ejecting and then reinserting the CD-ROM or double-click the **start.exe** program from the root folder, and continue from **b** to install MFL-Pro Suite.*

• *For Windows Vista®, when the **User Account Control** screen appears, click **Allow**.*

d When the ScanSoft™ PaperPort™ 11SE **License Agreement** window appears, click **Yes** if you agree to the Software **License Agreement**.

e The installation of ScanSoft™ PaperPort™ 11SE will automatically start and is followed by the installation of MFL-Pro Suite.

f When the Brother MFL-Pro Suite Software **License Agreement** window appears, click **Yes** if you agree to the Software **License Agreement**.

g Choose **Local Connection**, and then click **Next**. The installation continues.
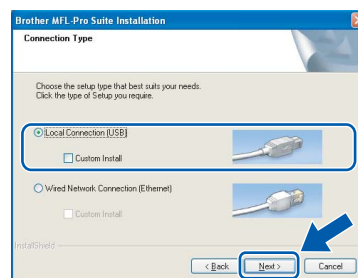

h When this screen appears, go to the next step.

Windows® USB Macintosh®

11
15 Connect the USB cable

Important

- **DO NOT connect the machine to a USB port on a keyboard or a non-powered USB hub.**
- **Connect the machine directly to your computer.**

a Lift the scanner cover until it locks securely into the open position.
b Connect the USB cable to the USB socket marked with a ⟨⟩ symbol. You will find the USB socket inside the machine on the right as shown below.

c Carefully guide the USB cable through the trench as shown below, following the trench around and toward the back of the machine. Then connect the cable to your computer.
Important

Make sure that the cable does not restrict the cover from closing, or an error may occur.

d Lift the scanner cover to release the lock ①. Gently push the scanner cover support down ② and close the scanner cover ③ using both hands.
16 Connect the power cord

a Connect the power cord.
The installation will continue automatically.

The installation screens appear one after another.
> **Important**
>
> **DO NOT cancel any of the screens during the installation. It may take a few seconds for all screens to appear.**
> 🖉 **Note**
>
> *For Windows Vista®, when this screen appears, click the check box and click Install to complete the installation correctly.*
b When the **On-Line Registration** screen is displayed, make your selection and follow the on-screen instructions.

17 Finish and restart

a Click **Finish** to restart your computer.
After restarting the computer, you must be logged on with Administrator rights.
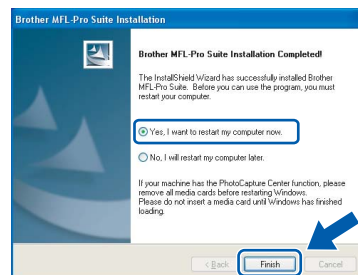

> 🖉 **Note**
>
> *If an error message appears during the software installation, run the **Installation Diagnostics** located in **Start/All Programs/Brother/MFC-XXXX** (where MFC-XXXX is your model name).*

Finish — **The installation is now complete.**

Now go to

Proceed to Install Optional Applications on page 26.

For USB Interface Users (For Mac OS® X 10.2.4 or greater)

13 Before you install

a Make sure your machine is connected to the power and your Macintosh® is ON. You must be logged on with Administrator rights.

Important

- **For Mac OS® X 10.2.0 to 10.2.3 users, upgrade to Mac OS® X 10.2.4 or greater. (For the latest information for Mac OS® X, visit http://solutions.brother.com/)**

- **Make sure there are no memory cards or a USB Flash memory drive inserted.**

14 Connect the USB cable

Important

- **DO NOT connect the machine to a USB port on a keyboard or a non-powered USB hub.**

- **Connect the machine directly to your Macintosh®.**

a Lift the scanner cover until it locks securely into the open position.
b Connect the USB cable to the USB socket marked with a ⟵ symbol. You will find the USB socket inside the machine on the right as shown below.
c Carefully guide the USB cable through the trench as shown below, following the trench around and toward the back of the machine. Then connect the cable to your Macintosh®.

Important

Make sure that the cable does not restrict the cover from closing, or an error may occur.

d Lift the scanner cover to release the lock ①. Gently push the scanner cover support down ② and close the scanner cover ③ using both hands.
15 Install MFL-Pro Suite

**a** Put the supplied CD-ROM into your CD-ROM drive.

b Double-click the **Start Here OSX** icon to install.

**✎ Note**

Please wait, it will take a few seconds for the software to install. After the installation, click Restart to finish installing the software.

c The Brother software will search for the Brother device. During this time the following screen will appear.
d When this screen appears, click **OK**.

OK! **For Mac OS® X 10.3.x or greater, the installation of MFL-Pro Suite is now complete.**
Go to step 16 on page 16.

e For Mac OS® X 10.2.4 to 10.2.8 users, click **Add**.

**f** Choose **USB**.

g Choose **XXX-XXXX** (where XXX-XXXX is your model name), and then click **Add**.
h Click **Print Center**, then **Quit Print Center**.

OK! **The installation of MFL-Pro Suite is now complete.**
Go to step 16 on page 16.

Windows®
USB
Macintosh®

16 Install Presto!® PageManager®

When Presto!® PageManager® is installed OCR capability is added to Brother ControlCenter2. You can easily scan, share and organize photos and documents using Presto!® PageManager®.

**a** Double-click the **Presto! PageManager** icon and follow the on-screen instructions.

For Mac OS® X 10.2.4 to 10.3.8 users, when this screen appears, click **Go** to download the software from the Brother Solutions Center website.

Finish **The installation is now complete.**

16

For Wired Network Interface Users
(For Windows® 2000 Professional/XP/XP Professional x64 Edition/Windows Vista®)

13 Before you install

**a** Make sure that your computer is ON and you are logged on with Administrator rights.

Important

• **If there are any programs running, close them.**

• **Make sure there are no memory cards or a USB Flash memory drive inserted.**

• **The screens may differ depending on the operating system.**

• **The supplied CD-ROM includes ScanSoft™ PaperPort™ 11SE. This software supports Windows® 2000 (SP4 or greater), XP (SP2 or greater), XP Professional x64 Edition and Windows Vista®. Update to the latest Windows® Service Pack before installing MFL-Pro Suite.**

Important

Before installation, if you are using personal firewall software (other than Windows® Firewall), anti-spyware or antivirus applications, temporarily disable them.

**b** Disconnect the machine from the power socket.
14 Connect the network cable

**a** Lift the scanner cover until it locks securely into the open position.

b Connect the network cable to the LAN socket marked with a 🖧 symbol. You will find the LAN socket inside the machine on the left as shown below.

17
c Carefully guide the network cable to the trench as shown below, following the trench around and toward the back of the machine. Then, connect the cable to your network.

📝 **Note**

If both USB and LAN cables are being used, guide both cables through the trench with one on top of the other.

Important

**Make sure that the cable does not restrict the cover from closing, or an error may occur.**

d Lift the scanner cover to release the lock ①. Gently push the scanner cover support down ② and close the scanner cover ③ using both hands.

# 15 Connect the power cord

a Connect the power cord.

16 Install MFL-Pro Suite

a Put the supplied CD-ROM into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

📝 **Note**

If the Brother screen does not appear automatically, go to My Computer (Computer), double-click the CD-ROM icon, and then double-click start.exe.

**b** The CD-ROM main menu will appear. Click **Initial Installation**.

**c** Click **Install MFL-Pro Suite**.

🖉 **Note**

- *If this screen appears, click **OK** and restart your computer.*

- *If the installation does not continue automatically, open the main menu again by ejecting and then reinserting the CD-ROM or double-click the **start.exe** program from the root folder, and continue from **b** to install MFL-Pro Suite.*

- *For Windows Vista®, when the **User Account Control** screen appears, click **Allow**.*

d When the ScanSoft™ PaperPort™ 11SE **License Agreement** window appears, click **Yes** if you agree to the Software **License Agreement**.

e The installation of ScanSoft™ PaperPort™ 11SE will automatically start and is followed by the installation of MFL-Pro Suite.

f When the Brother MFL-Pro Suite Software **License Agreement** window appears, click **Yes** if you agree to the Software **License Agreement**.

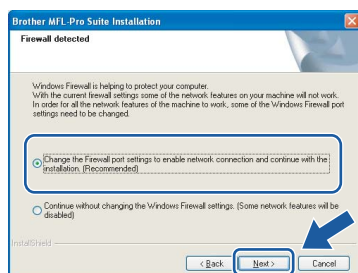

g Choose **Wired Network Connection**, and then click **Next**.

Windows®
Wired Network
Macintosh®

19

h For Windows® XP SP2/Windows Vista® users, when this screen appears, choose **Change the Firewall port settings to enable network connection and continue with the installation. (Recommended)** and click **Next**.

If you are using a firewall other than Windows® Firewall or Windows® Firewall is off, this screen may appear.

See the instructions provided with your firewall software for information on how to add the following network ports.

■ For network scanning, add UDP port 54925.
■ For network PC-Fax receiving, add UDP port 54926.
■ If you still have trouble with your network connection, add UDP port 137.

Note

• If the machine is configured for your network, choose the machine from the list, and then click **Next**.
This window will not appear if there is only one machine connected on the network, it will be chosen automatically.
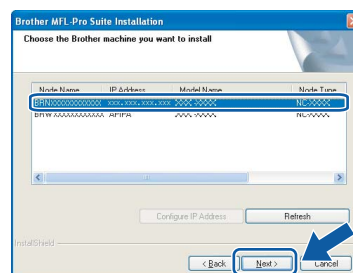

If your machine shows **APIPA** in the **IP Address** field, click **Configure IP Address** and enter an IP address for your machine that is suitable for your network.

• If the machine is not yet configured for use on your network, the following screen appears.

Click **OK**.
The **Configure IP Address** window will appear. Enter an IP address for your machine that is suitable for your network by following the on-screen instructions.

i The installation of the Brother drivers will automatically start. The installation screens appear one after another.
Important

DO NOT cancel any of the screens during the installation. It may take a few seconds for all screens to appear.
Note

*For Windows Vista®, when this screen appears, click the check box and click **Install** to complete the installation correctly.*

j When the **On-Line Registration** screen is displayed, make your selection and follow the on-screen instructions.

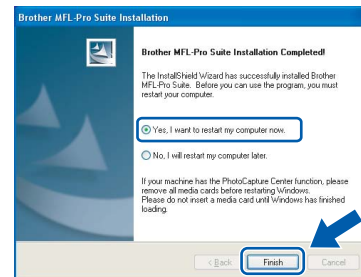

17 Finish and restart

a Click **Finish** to restart your computer. After restarting the computer, you must be logged on with Administrator rights.

Note

*If an error message appears during the software installation, run the **Installation Diagnostics** located in **Start/All Programs/Brother/MFC-XXXX** (where MFC-XXXX is your model name).*

18 Install MFL-Pro Suite on additional computers (If needed)

If you want to use your machine with multiple computers on the network, install MFL-Pro Suite on each computer. Go to step **16** on page 18. Also see step **13**-**a** on page 17 before you install.

Note

This product includes a PC license for up to 2 Users.
This license supports the installation of the MFL-Pro Suite including ScanSoft™ PaperPort™ 11SE on up to 2 PCs on the network.
*If you want to use more than 2 PCs with ScanSoft™ PaperPort™ 11SE installed, please buy the Brother NL-5 pack which is a multiple PC license agreement pack for up to 5 additional users. To buy the NL-5 pack, contact your Brother dealer.*

Finish The installation is now complete.

Now go to

Proceed to Install Optional Applications on page 26.

Windows® Wired Network   Macintosh®

17 Install MFL-Pro Suite on additional computers (If needed)

If you want to use your machine with multiple computers on the network, install MFL-Pro Suite on each computer. Go to step **15** on page 23. Also see step **13**-**a** on page 22 before you install.

Finish **The installation is now complete.**

1 Install FaceFilter Studio supported by Reallusion, Inc

FaceFilter Studio is an easy-to-use borderless photo printing application. FaceFilter Studio also lets you edit your photo data and add photo effects such as red eye reduction or skin tone enhancement.

> **Important**
>
> • **The machine must be ON and connected to the computer.**
>
> • **The computer must be connected to the Internet.**

a Open the main menu again by ejecting and then reinserting the CD-ROM or by double-clicking the **start.exe** program from the root folder.

b The CD-ROM main menu will appear. Choose your language and then click **Additional Applications**.

c Click the **FaceFilter Studio** button to install.
2 Install FaceFilter Studio Help

To get instructions on how to use FaceFilter Studio, download and install FaceFilter Studio Help.

a To run FaceFilter Studio, go to **Start**/**All Programs**/**Reallusion**/ **FaceFilter Studio** on your computer.

b Click the [?] button on the upper right corner of the screen.

c Click **Check for updates** to go to the Reallusion update web page.

d Click the **Download** button and choose a folder to save the file in.

e Close FaceFilter Studio before you start the installer for FaceFilter Studio Help. Double-click the downloaded file from the folder you specified and follow the on-screen instructions for installation.

> 📝 **Note**
>
> *To view the complete FaceFilter Studio Help, choose Start/All Programs/Reallusion/ FaceFilter Studio/FaceFilter Studio Help on your computer.*

3 Install BookScan&Whiteboard Suite supported by Reallusion, Inc

You can install **BookScan&Whiteboard Suite**. The **BookScan Enhancer** software can correct your scanned book images automatically. The **Whiteboard Enhancer** software cleans up and enhances text and images from photos taken of your whiteboard. (Internet access required.)

Important
• **The machine must be ON and connected to the computer.**
• **The computer must be connected to the Internet.**

a Open the main menu again by ejecting and then reinserting the CD-ROM or by double-clicking the **start.exe** program from the root folder.

b The CD-ROM main menu will appear. Choose your language and then click **Additional Applications**.

c Click the **BookScan&Whiteboard Suite** button to install.
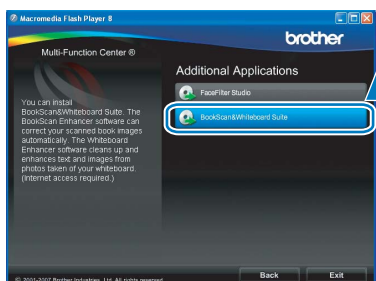

BRAdmin Light utility (For Windows® users)

BRAdmin Light is a utility for initial setup of Brother network connected devices. It also can search for Brother products on your network, view the status and configure basic network settings, such as IP address.
For more information on BRAdmin Light, visit us at http://solutions.brother.com/.

Note

If you require more advanced printer management, use the latest Brother BRAdmin Professional utility version that is available as a download from http://solutions.brother.com/.

Install the BRAdmin Light configuration utility

a Click **Network Utilities** on the menu screen.
b Click **BRAdmin Light** and follow the on-screen instructions.

Set your IP address, Subnet Mask and Gateway using BRAdmin Light

Note

If you have a DHCP/BOOTP/RARP server in your network, you don't have to do the following operation. The machine will automatically obtain its own IP address.

a Start BRAdmin Light. It will search for new devices automatically.
b Double-click the unconfigured device.
Note

The default password for the machine is 'access'. You can use BRAdmin Light to change this password.

c Choose **STATIC** for the **Boot Method**. Enter the **IP Address**, **Subnet Mask** and **Gateway**, and then click **OK**.
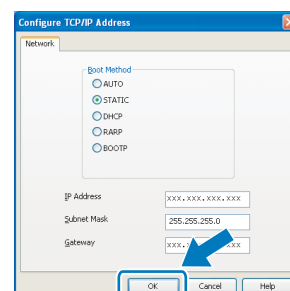

d The address information will be saved to the machine.

BRAdmin Light utility (For Mac OS® X users)

BRAdmin Light is a utility for initial setup of Brother network connected devices. It also can search for Brother products on your network, view the status and configure basic network settings, such as IP address from a computer running Mac OS® X 10.2.4 or greater.
The BRAdmin Light software will be installed automatically when you install the printer driver. If you have already installed the printer driver, you don't have to install BRAdmin Light again. For more information on BRAdmin Light, visit us at http://solutions.brother.com/.

Set your IP address, Subnet Mask and Gateway using BRAdmin Light

Note
- *If you have a DHCP/BOOTP/RARP server in your network, you don't have to do the following operation. The machine will automatically obtain its own IP address.*
- *Make sure that version 1.4.1_07 or later of Java™ client software is installed on your computer.*
- *The default password for the machine is 'access'. You can use BRAdmin Light to change this password.*

a Double-click the **Macintosh HD** icon on your desktop.
b Choose **Library**, **Printers**, **Brother** and then **Utilities**.
c Double-click the file **BRAdmin Light.jar** and run the software. BRAdmin Light will then search for new devices automatically.
d Double-click the unconfigured device.
e Choose **STATIC** for the **Boot Method**. Enter the **IP Address**, **Subnet Mask** and **Gateway**, and then click **OK**.

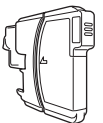

f The address information will be saved to the machine.

Consumables

Replacement consumables

When the time comes to replace ink cartridges, an error message will be indicated on the LCD. For more information about the ink cartridges for your machine, visit http://www.brother.com/original/ or contact your local Brother re-seller.
