Consumables and Options

options	31
consumables	31

Getting Started

The mains plug supplied with this machine is a side grounded two pin plug. Make sure that the AC socket will accept this side grounded two pin plug. This machine must be grounded, If in doubt, call a qualified electrician.

- To ensure safe operation the supplied plug must be inserted only into a standard power outlet that is properly grounded through the standard electrical wiring. Non grounded equipment may cause an electrical shock hazard, and may cause excessive electrical noise radiation.
- The interface cable is not a standard accessory. Please purchase the appropriate interface cable for the interface you intend to use (USB or Network).
- Do NOT connect the interface cable at this time. Connecting the interface cable is done during the software installation process.
- USB interface cable

Please make sure you use a USB 2.0 interface cable that is no longer than 2 metres. When you use a USB cable, make sure you connect it to the USB port of your computer and not to a USB port on a keyboard or non-powered USB hub.

Network cable

Use a straight-through Category5 (or greater) twisted-pair cable for 10BASE-T or 100BASE-TX Fast Ethernet Network.

Getting Started

Control panel

MFC-9440CN and MFC-9450CDN have similar control keys.

- 1 One Touch keys
- 2 LCD (Liquid Crystal Display)
- 3 Data LED
- 4 Menu keys
- 5 Dial Pad
- 6 Stop/Exit key

- 7 Start keys
- 8 Mode keys
- 9 Copy keys
- 10 Fax and Telephone keys
- 11 Print keys

For the details of the control panel, see Control panel overview in Chapter 1 of the User's Guide.

Note

Q

This machine is heavy and weighs 33.0 kg (72.8 lb). To prevent injuries use at least two people to lift the machine. Be careful not to pinch your fingers when you set the machine back down.

STEP 1 Setting Up the Machine

Remove the packing materials from the machine

Important

Save all packing materials and the carton in case you have to ship your machine.

N Improper Setup

DO NOT plug in the AC power cord yet.

- 1 Remove the packing tape from the outside of the machine.
- Press the front cover release button and open the front cover.

3

Remove the four pieces of orange packing material as shown in the illustration below.

4 Hold the green handle of the drum unit. Lift the drum unit up and then pull it out until it stops.

5

Remove the orange packing material as shown in the illustration below.

STEP 1 Setting Up the Machine

Installing the toner cartridges

1 Unpack the toner cartridges and rock each toner cartridge from side to side 5 to 6 times.

2

3

Pull off the protective cover.

Hold the handle of the toner cartridge and slide it into the drum unit. Make sure that you match the toner cartridge colour to the same colour label on the drum unit, and make sure that you fold down the toner cartridge handle (1) once the toner cartridge is in place.

K — Black

- 4 Repeat steps 1 through 3 for the remaining toner cartridges.
- **5** Put the drum unit back into the machine.

Close the front cover of the machine.

Setting Up the Machine

3 Load paper in the paper tray

N Improper Setup

DO NOT connect the interface cable. Connecting the interface cable is done during the software installation process.

Pull the paper tray completely out of the machine.

2 While pressing the green paper-guide release lever (1), slide the paper guides to fit the paper size. Make sure that the guides are firmly in the slots.

- 3
- Fan the stack of paper well to avoid paper jams and misfeeds.

4. Put paper in the paper tray. Make sure that the paper is flat in the tray and below the maximum paper mark.

5

Put the paper tray firmly back into the machine.

Install the power cord and phone line

Make sure that the machine's power switch is off. Remove the label covering the AC power inlet.

2 Connect the AC power cord to the machine.

Plug the AC power cord into an AC outlet. Turn the power switch on.

4 Connect one end of the telephone line cord to the socket on the machine marked **LINE** and the other end to a modular wall socket.

A Warning

- The machine must be fitted with an earthed plug.
- Since the machine is grounded through the power outlet, you can protect yourself from potentially hazardous electrical conditions on the telephone network by keeping the power cord connected to your machine when you connect it to a telephone line. Similarly, you can protect yourself when you want to move your machine by disconnecting the telephone line first and then the power cord.

🖉 Note

If you are sharing one phone line with an external telephone, connect it as shown below.

2 External telephone

Note

If you are sharing one phone line with an external telephone answering device, connect it as shown below.

Q

Please set the receive mode to External TAD.

For more details, see Choosing the correct Receive Mode on page 10 and Connecting an external TAD in Chapter 7 of the User's Guide.

Setting Up the Machine

5 Set Your Country (For Australia / New Zealand Customer Only)

You must set your country so that the machine works correctly on local telecommunication lines in each country.

1 Check that the power is turned on by plugging in the power cord and turn the power switch on. Press **OK**.

> Set Country Press OK Key

Australia Select **▲V** or OK

3 Press **OK** when the LCD shows your country.

4 The LCD prompts you to make sure of the country again.

Australia? 1.Yes 2.No

If the LCD shows the correct country, press 1 to go to step 6.
 Or press 2 to go back to step 2 to choose the

country again.

After the LCD shows Accepted, the machine will restart automatically. After the restart, the LCD shows Please Wait.

Setting the date and time

The machine displays the date and time, and if you set up the station ID it will add it to each fax you send.

- 1 Press Menu.
- 2 Press 0.
- Press 2.

(e.g. Enter **0**, **9** for 2009.)

Enter the two digits for the month on the dial pad, and then press **OK**.

Date&Time Month:03

(e.g. Enter 0, 3 for March.)

Date&T	ime
Day:25	

(e.g. Enter 2, 5.)

7 Enter the time in 24-hour format on the dial pad, and then press **OK**.

Date&Time Time:15:25

(e.g. Enter 1, 5, 2, 5 for 3:25 P.M.)

🖉 Note

5

If you make a mistake, press **Stop/Exit** to start from step **1**.

Setting your station ID

You should store your name and fax number to be added on all fax pages that you send.

- Press Menu.
- 2 Press 0.

1

3

- Press 3.
- 4. Enter your fax number (up to 20 digits) on the dial pad, and then press **OK**.

Station ID Fax:

5 Enter your tel number (up to 20 digits) on the dial pad, and then press OK. To enter a "+" for international, press *.

Station ID Tel:+44XXXXXXXXX

STEP 1 Setting Up the Machine

Use the dial pad to enter your name (up to 20 characters), and then press **OK**.

Station ID Name:

🖉 Note

- Refer to the following chart for entering your name.
- If you need to enter a character that is on the same key as the previous character, press to move the cursor to the right.
- If you entered a letter incorrectly and want to change it, press to move the cursor to the incorrect character, press Clear/Back.

Press key	One time	Two times	Three times	Four times	Five times
2	А	В	С	2	А
3	D	E	F	3	D
4	G	Н	I	4	G
5	J	К	L	5	J
6	М	N	0	6	М
7	Р	Q	R	S	7
8	Т	U	V	8	Т
9	W	Х	Y	Z	9

For more details, see Entering Text in the User's Guide.

Press Stop/Exit.

8 Tone and pulse dialling mode (Not available in New Zealand)

Your machine comes set for Tone dialling service. If you have Pulse dialling service (rotary), you need to change the dialling mode.

1	Press Menu.
2	Press 0.
3	Press 4.
4	Press or to select Pulse (or Tone). Press OK.
5	Press Stop/Exit.

9 Choosing the correct Receive Mode

There are four possible receive modes: Fax Only, Fax/Tel, Manual and External TAD. Choose the Receive Mode which best suits your needs.

Setting Up the Machine

10 Dial Prefix

The dial prefix setting will automatically dial a predefined number before every fax number you dial. For example: If your phone system requires a 9 to dial an outside number this setting will automatically dial 9 for every fax you send.

- If the pulse dialing mode is on, # and * are not available to use.
- 7 Press Stop/Exit.

Setting the LCD contrast

You can change the contrast to help the LCD look lighter or darker.

1	Press Menu.
2	Press 1.
3	Press 8.
4	Press to increase the contrast.
	OR
	Press to decrease the contrast.
	Press OK.
5	Press Stop/Exit.

Supplied CD-ROM 'MFL-Pro Suite'

Supplied CD-ROM 'MFL-Pro Suite'

Windows[®]

🔯 Install MFL-Pro Suite

You can install the MFL-Pro Suite software and multifunction drivers.

Install Other Drivers or Utilities

You can install additional MFL-Pro Suite software utilities, install without ScanSoft™ PaperPort™ 11SE with OCR by NUANCE or install the driver only.

Documentaion

View the User's Guide, Software User's Guide and Network User's Guide in HTML format. You can also view the manuals in PDF format by accessing the Brother Solutions Center. (Internet access required) The Software User's Guide and Network User's Guide include instructions for features available when connected to a computer. (eg. printing, scanning and networking details)

On-Line Registration

Register your machine on the Brother product Registration Page.

Brother Solutions Center

Access the Brother Solutions Center for FAQs, User's Guide, driver updates and tips for using your machine. (Internet access required)

Supplies Information

Visit our site for original/genuine Brother supplies at http://www.brother.com/original/.

Repair MFL-Pro Suite (For USB users only)

If an error occurred during the installation of the MFL-Pro Suite, use this selection to automatically repair and re-install the MFL-Pro Suite.

🖉 Note

MFL-Pro Suite includes the Printer Driver, Scanner Driver, Brother ControlCenter3 and ScanSoft[™] PaperPort[™] 11SE. ScanSoft[™] PaperPort[™] 11SE is a document management application for scanning and viewing documents.

Macintosh[®]

Start Here OSX

You can install the MFL-Pro Suite that includes the printer driver, scanner driver, the Brother

ControlCenter2 and BRAdmin Light for Mac OS® X 10.2.4 or greater.

Documentation

View the User's Guide. Software User's Guide and Network User's Guide in HTML format. You can also view the manuals in PDF format by accessing the Brother Solutions Center. (Internet access required) The Software User's Guide and Network User's Guide include instructions for features available when connected to a computer. Name: ①	
Protocol: <u>ICP</u> <u>(3)</u> <u>UCP</u> <u>(change scope)</u>	OK Cancel

- 7 Click the Add port... button.
- 8 To add port **54926** for Network PC-Fax, enter the information below:
 - 1. In **Name**: Enter any description, for example "Brother PC-Fax".
 - 2. In Port number: Enter "54926".
 - 3. Make sure **UDP** is selected. Then, click **OK**.
- 9 Make sure that the new setting is added and is checked, and then click **OK**.
- 10 If you still have trouble with your network connection such as Network Scanning or Printing, check the **File and Printer Sharing** box in the Exceptions tab and then click **OK**.

For USB Interface Cable Users

For Mac OS[®] X 10.2.4 or greater

Important

Make sure that you have finished the instructions from step 1 *Setting Up the Machine* on pages 5 through 11.

🖉 Note

For Mac $OS^{\mathbb{R}} \times 10.2.0$ to 10.2.3 users, upgrade to Mac $OS^{\mathbb{R}} \times 10.2.4$ or greater. (For the latest information for Mac $OS^{\mathbb{R}} \times$, visit <u>http://solutions.brother.com/</u>)

- Remove the label covering the USB port on the machine. Connect the interface cable to your computer, and then connect it to the machine.

🚫 Improper Setup

DO NOT connect the machine to a USB port on a keyboard or a non-powered USB hub. Brother recommends that you connect the machine directly to your computer.

🖉 Note

Make sure that the machine is turned on by connecting the power cord.

Put the supplied CD-ROM for Macintosh[®] into your CD-ROM drive.

Double-click the **Start Here OSX** icon to install. Follow the on-screen instructions.

Please wait, it will take a few seconds for the software to install. After the installation, click **Restart** to finish installing the software.

🖉 Note

Please see the Software User's Guide on the CD-ROM to install the PS driver.

5 The Brother software will search for the Brother device. During this time the following screen will appear.

00	0	MFL	-Pro	Suite	
	P	lease	e wait		

When this screen appears, click OK.

6

For Mac OS[®] X 10.3.x or greater users: The MFL-Pro Suite, Brother printer driver, scanner driver and Brother ControlCenter2 have been installed and the installation is now complete. Go to step **11**.

Installing the Driver & Software

Macintosh[®]

Macintosh[®] USB

7 For Mac OS[®] X 10.2.4 to 10.2.8 users: Click **Add**.

Choose USB.

9 Choose your model name, and then click Add.

10 Click **Print Center**, then **Quit Print Center**.

The MFL-Pro Suite, Brother printer driver, scanner driver and Brother ControlCenter2 have been installed and the installation is now complete. **11** To install Presto![®]PageManager[®], double-click the **Presto! PageManager** icon and follow the on-screen instructions.

BRAdmin Light utility (For Windows[®] users)

The BRAdmin Light is a utility for initial setup of Brother network connected devices. It also can search for Brother products on your network, view the status and configure basic network settings, such as IP address. For more information on BRAdmin Light, visit us at <u>http://solutions.brother.com/</u>.

🖉 Note

If you require more advanced printer management, use the latest Brother BRAdmin Professional utility version that is available as a download from <u>http://solutions.brother.com/</u>.

Gareway	XXX. Y XXX

The address information will be saved to the machine.

The BRAdmin Light is a utility for initial setup of Brother network connected devices. It also can search for Brother products on your network, view the status and configure basic network settings, such as IP address from a computer running Mac OS[®] X 10.2.4 or greater.

The BRAdmin Light software will be installed automatically when you install the printer driver. If you have already installed the printer driver, you don't have to install it again. For more information on BRAdmin Light, visit us at http://solutions.brother.com/.

Δ

Double-click the unconfigured device.

Setting your IP address, Subnet Mask and Gateway using BRAdmin Light

- 🖉 Note If you have a DHCP/BOOTP/RARP server in your network, you don't have to do the following operation. The print server will automatically obtain its own IP address. • Make sure that version 1.4.1_07 or later of Java™ 5 Choose STATIC for the Boot Method. Enter client software is installed on your computer. the IP Address, Subnet Mask and Gateway, • The default password for the print server is and then click OK. 'access'. You can use BRAdmin Light to change this password. O Configure TCP/IP Address Boot Method O AUTO 1 Double-click the Macintosh HD icon on your STATIC O DHCP RARP BOOTP desktop. IP Address XXX.XXX.XXX.XXX Subnet Mask 255.255.255.0 *** *** *** OK Ca 6 The address information will be saved to the machine. 2 Choose Library, Printers, Brother and then Utilities. ⊖ ⊖ ▶ <mark>88</mark> ≣ □ | ⊉• 3
 - Double-click the file BRAdmin Light.jar and run the software. BRAdmin Light will then search for new devices automatically.

Web Based Management (web browser)

The Brother print server is equipped with a web server that allows you to monitor its status or change some of its configuration settings, using HTTP (Hyper Text Transfer Protocol).

🖉 Note

- The User Name is 'admin' and the default password is 'access'. You can use a web browser to change this password.
- We recommend Microsoft Internet Explorer 6.0[®] (or higher) or Firefox[®] 1.0 (or higher) for Windows[®] and Safari[™] 1.0 for Macintosh[®]. Please also make sure that JavaScript and Cookies are always enabled in whichever browser you use. We recommend you upgrade to Safari[™] 1.2 or higher to enable JavaScript. To use a web browser, you will need to know the IP address of the print server.

1 Open your browser.

Type http:// printer_ip_address /into your browser (Where "printer_ip_address" is the IP address of the printer or the print server name).
 For example http://192.168.1.2/

See Chapter 2 of the Network User's Guide.

To restore all network settings of the internal Print/Scan server to factory default, please follow the steps below.

- 1 Make sure the machine is not in use, then disconnect all the cables from the machine (except power cable).
- **2** Press **Menu**, **7**, **0**.
- **3** Press 1 to select Reset.

5

- 4 Press 1 to select Yes.
 - The machine will restart. Re-connect cables once this is complete.

Instructions on how to uninstall the MFL-Pro Suite software

Uninstalling for Windows

S Improper Setup

DO NOT remove the USB cable (until step 3 of the uninstallation process).

Close all applications and all programs on task tray before uninstalling the MFL-Pro suite.

Start/All Programs/Brother/MFC-XXXX/Uninstall

- 1 Click Uninstall.
- 2 Click OK.

3 Remove the USB cable and click **Finish**.

The MFL-Pro Suite has been uninstalled and the uninstallation is now complete.

Uninstalling for Macintosh

How to uninstall the Printer and Scanner Driver:

- 1 Disconnect the USB cable between the Macintosh and your Brother device.
- 2 Reboot the Mac.
- **3** Log on as an "**Administrator**".
- 4 Run the "Print Center" or "Printer Setup Utility" (from the Macintosh HD/Applications/ Utilities/Print Center or Print Setup Utility folder), then choose the printer you want to remove and remove it by clicking the "Delete" button.
- 5 Click on the model name of your Brother product in the printer list. From the Finder menu, delete the Printer.
- Drag the "Brother" folder (Macintosh HD/Library/Printers/Brother) into the Trash bin.
- 7 Delete the "Brother TWAIN.ds" folder (Macintosh HD/Library/Image Capture/ TWAIN Data Sources/Brother TWAIN.ds).
- Beboot the Mac.
- **9** Log on as an "**Administrator**".
- **10** Empty the trash bin.
- The MFL-Pro SUite, Brother printer driver, scanner driver and Brother ControlCenter2 has been uninstalled and the uninstallation is now complete.

Options

The machine has the following optional accessories. You can expand the capabilities of the machine by adding these items.

Lower Tray Unit	DIMM Memory
LT-100CL	
The lower paper tray unit can hold up to 500 sheets of paper. When the lower tray unit is installed, the machine expands total input capacity up to 800 sheets. Please refer to Chapter B of User's Guide for more details.	You can expand the memory by installing a (144-pin SO-DIMM) memory module. Please refer to Chapter B of User's Guide for more details.

Consumables

When the time comes to replace consumable items, an error message will be indicated on the LCD. For more information about the consumables for your machine, visit us at <u>http://solutions.brother.com/</u> or contact your local Brother reseller.
