brother.

Before you can use the machine, you must set up the hardware and install the driver. Please read this 'Quick Setup Guide' for proper set up and installation instructions.

Keep this 'Quick Setup Guide' and the supplied CD-ROM in a convenient place for quick and easy reference at all times.

Symbols used in this guide

Warning	Electrical Hazard	Hot Surface	Caution
Warnings tell you what to do to prevent possible personal injury.	/arnings tell you what to do prevent possible personal jury. Electrical Hazard icons alert you to a possible electrical shock.		Cautions specify procedures you must follow or avoid to prevent possible damage to the machine.

Name of the setup	Note	User's Guide, Software User's Guide or Network User's Guide
Improper Setup icons alert you to devices and operations that are not compatible with the machine.	Notes tell you how you should respond to a situation that may arise or give tips about how the current operation works with other features.	Indicates reference to the User's Guide, Software User's Guide or Network User's Guide which is on the CD-ROM we have supplied.

Getting Started

Carton components	. 2
Control panel	. 3

STEP 1 – Setting Up the Machine

Remove the packing materials from the machine	. 4
Installing the toner cartridges	. 5
Load paper in the paper tray	. 6
Install the power cord	. 7
Setting the LCD contrast	. 7

STEP 2 – Installing the Driver & Software

Optional memory	26
Consumables	26

Carton components

Carton components may vary from one country to another. Save all packing materials and the carton for any reason you must ship your machine.

- To ensure safe operation the supplied plug must be inserted only into a standard power outlet that is properly grounded through the standard electrical wiring. Non grounded equipment may cause an electrical shock hazard, and may cause excessive electrical noise radiation.
- The interface cable is not a standard accessory. Please purchase the appropriate interface cable for the interface you intend to use (USB or Network).
- Do NOT connect the interface cable at this time. Connecting the interface cable is done during the software installation process.
- USB interface cable

Please make sure you use a USB 2.0 interface cable that is no longer than 2 metres. When you use a USB cable, make sure you connect it to the USB port of your computer and not to a non-powered USB hub.

Network cable

Use a straight-through Category5 (or greater) twisted-pair cable for 10BASE-T or 100BASE-TX Fast Ethernet Network.

Control panel

DCP-9040CN and DCP-9042CDN have similar control panel key.

- 1 Copy keys
- 2 LCD (Liquid Crystal Display)
- 3 Data LED
- 4 Menu keys
- 5 Numeric keys

- 6 Stop/Exit key
- 7 Start keys
- 8 Print keys
- 9 Scan key
- For the details of the control panel, see "Control panel overview" in Chapter 1 of the User's Guide.

Note

Q

This machine is heavy and weighs 72.6 lb (32.8 kg). To prevent injuries use at least two people to lift the machine. Be careful not to pinch your fingers when you set the machine back down.

Remove the packing materials from the machine

Important

Save all packing materials and the carton in case you have to ship your machine.

N Improper Setup

DO NOT plug in the AC power cord yet.

- 1 Remove the packing tape from the outside of the machine.
- Press the front cover release button and open the front cover.

3 Remove the four pieces of orange packing material as shown in the illustration below.

4. Hold the green handle of the drum unit. Lift the drum unit up and then pull it out until it stops.

5

Remove the orange packing material as shown in the illustration below.

Setting Up the Machine

- 2 Installing the toner cartridges
- 1 Unpack the toner cartridges and gently shake each toner cartridge from side to side 5 to 6 times.

2 Pull off the protective cover.

3 Hold the handle of the toner cartridge and slide it into the drum unit. Make sure that you match the toner cartridge colour to the same colour label on the drum unit, and make sure that you fold down the toner cartridge handle (1) once the toner cartridge is in place.

- 1 **C** Cyan
- 2 M Magenta
- 3 Y Yellow
- 4 K Black

- 4 Repeat steps 1 through 3 for the remaining toner cartridges.
- 5

Put the drum unit back into the machine.

Close the front cover of the machine.

STEP 1 Setting Up the Machine

Setting Up the Machine

1 Make sure that the machine's power switch is off. Remove the label covering the AC power inlet.

2 Connect the AC power cord to the machine.

3 Plug the AC power cord into an AC outlet. Turn the power switch on.

5 Setting the LCD contrast

You can change the contrast to help the LCD look lighter or darker.

- 1 Press Menu.
- **2** Press **1**.
- **3** Press **6**.
- 4 Press to increase the contrast.

-OR-Press to decrease the contrast. Press OK.

5 Press Stop/Exit.

- MFL-Pro Suite includes the Network Printer Driver, Network Scanner Driver, Brother ControlCenter3, Presto![®] PageManager[®]. Presto![®] PageManager[®] is a document management application for viewing scanned documents.
- After restarting the computer, the Installation Diagnostics will run automatically. If the installation is unsuccessful, the installation results window will be shown. If the Diagnostics shows a failure, please follow the on-screen instructions or read the on-line help and FAQ's in Start/All Programs /Brother/DCP-XXXX.
- Once you are sure that you can print after the installation, restart your Firewall software.
- Firewall settings on your PC may reject the necessary network connection for Network Scanning.

Follow the instructions on the following page to configure your Windows[®] Firewall. If you are using personal firewall software, see the User's Guide for your software or contact the software manufacturer.

EP 2 Installing the Driver & Software

Firewall settings

Firewall settings on your PC may reject the necessary network connection for Network Scanning and Printing. If you are using the Windows[®] Firewall follow the instructions for Windows[®] XP SP2 or Windows Vista[™]. If you are using personal firewall software, see the User's Guide for your software or contact the software manufacturer.

- For Windows[®] XP SP2 users:
 - Click the Start button, Control Panel, Network and Internet Connections and then Windows Firewall. Make sure that Windows Firewall on the

General tab is set to On.

2 Click the Advanced tab and Settings... button.

- 3 Click the Add button.
- 4 Add port **54925** for network scanning by entering the information below:
 - In Description of service:

 Enter any description, for example "Brother Scanner".
 - In Name or IP address (for example 192.168.0.12) of the computer hosting this service on your network:
 Enter "Localhost".
 - 3. In External Port Number for this service: - Enter "54925".
 - 4. In Internal Port number for this service: - Enter "54925".
 - 5. Make sure UDP is selected.
 - 6. Click OK.

Presto![®] PageManager[®] has been installed and the installation is now complete.

BRAdmin Light utility (For Windows[®] users)

The BRAdmin Light is a utility for initial setup of Brother network connected devices. It also can search for Brother products on your network, view the status and configure basic network settings, such as IP address. For more information on BRAdmin Light, visit us at <u>http://solutions.brother.com</u>.

🖉 Note

If you require more advanced printer management, use the latest Brother BRAdmin Professional utility version that is available as a download from <u>http://solutions.brother.com</u>.

Installing the BRAdmin Light configuration utility

🖉 Note

The default password for the print server is 'access'. You can use BRAdmin Light to change this password.

1

Click **Install Other Drivers or Utilities** on the menu screen.

2

Click **BRAdmin Light** and follow the on-screen instructions.

Setting your IP address, Subnet Mask and Gateway using BRAdmin Light

If you have a DHCP/BOOTP/RARP server in your network, you don't have to do the following operation. The print server will automatically obtain its own IP address.

 Start BRAdmin Light. It will search for new devices automatically.

Searching for Devices		\mathbf{X}
Searching network for 6 seconds.	Stop Searching

µ ^µ Address §ubnet Mask <u>G</u> ateway	255.255.255.0 XXX.1 V XXX

The address information will be saved to the machine.

The BRAdmin Light is a utility for initial setup of Brother network connected devices. It also can search for Brother products on your network, view the status and configure basic network settings, such as IP address from a computer running Mac OS[®] X 10.2.4 or greater.

The BRAdmin Light software will be installed automatically when you install the printer driver. If you have already installed the printer driver, you don't have to install it again. For more information on BRAdmin Light, visit us at http://solutions.brother.com.

4

Double-click the unconfigured device.

Setting your IP address, Subnet Mask and Gateway using BRAdmin Light

- 🖉 Note If you have a DHCP/BOOTP/RARP server in your network, you don't have to do the following operation. The print server will automatically obtain its own IP address. Make sure that version 1.4.1 07 or later of Java[™] 5 Choose STATIC for the Boot Method. Enter client software is installed on your computer. the IP Address, Subnet Mask and Gateway, • The default password for the print server is and then click OK. 'access'. You can use BRAdmin Light to change this password. ⊖ ○ ⊖ Configure TCP/IP Address Boot Method ○ AUTO 1 STATIC
 DHCP Double-click the Macintosh HD icon on your desktop. RARP O BOOTP IP Address XXX.XXX.XXX Subnet Mask 255.255.255.0 XXX.XXX.XXX.XXX OK Cancel 6 The address information will be saved to the machine. 2 Choose Library, Printers, Brother and then Utilities. 3
 - Double-click the file BRAdmin Light.jar and run the software. BRAdmin Light will then search for new devices automatically.

Web Based Management (web browser)

The Brother print server is equipped with a web server that allows you to monitor its status or change some of its configuration settings, using HTTP (Hyper Text Transfer Protocol).

🖉 Note

2

- The User Name is '**admin**' and the default password is '**access**'. You can use a web browser to change this password.
- We recommend Microsoft Internet Explorer 6.0[®] (or higher) or Firefox[®] 1.0 (or higher) for Windows® and Safari[™] 1.0 for Macintosh[®]. Please also make sure that JavaScript and cookies are always enabled in whichever browser you use. We recommend you upgrade to Safari[™] 1.2 or higher to enable JavaScript. To use a web browser, you will need to know the IP address of the print server.

1 Open your browser.

Type http://printer_ip_address / into your browser (Where "printer_ip_address" is the IP address of the printer or the print server name). For example: http://192.168.1.2/

See Chapter 2 of the Network User's Guide on the CD-ROM.

Restoring the network settings to factory default

To restore all network settings of the internal Print/Scan server to factory default, please follow the steps below.

- 1 Make sure the machine is not in use, then disconnect all the cables from the machine (except power cable).
- **2** Press **Menu**, **4**, **0**.
- **3** Press 1 to select Reset.
- **4** Press 1 to select Yes.
- 5 The machine will restart. Re-connect cables once this is complete.

Optional memory

The machine has the following optional accessories. You can expand the capabilities of the machine by adding more memory.

Consumables

When the time comes to replace consumable items, an error message will be indicated on the LCD. For more information about the consumables for your machine, visit us at <u>http://solutions.brother.com</u> or contact your local Brother reseller.
