

Before you can use the machine, please read this Quick Setup Guide for the correct setup and installation.

 WARNING	Warnings tell you what to do to prevent possible personal injury.
 CAUTION	Cautions specify procedures you must follow or avoid to prevent possible minor injuries.

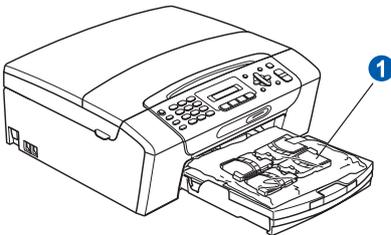

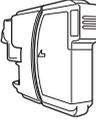

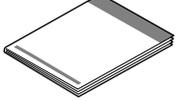

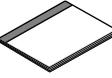

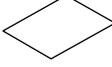

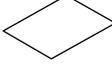

IMPORTANT

DO NOT connect the USB cable yet (if you are using a USB cable).

1

Unpack the machine and check the components

		 <p>Black Yellow Cyan Magenta</p> <p>Starter Ink Cartridges [x4]</p>		 <p>Quick Setup Guide</p>	
 <p>User's Guide</p>	 <p>CD-ROM</p>	 <p>Accessory Order Form</p>	 <p>Product Registration Sheet (USA only)</p>	 <p>Telephone Line Cord</p>	

WARNING

Plastic bags are used in the packaging of your machine. To avoid danger of suffocation, please keep these bags away from babies and children.

■ Most of the illustrations in this Quick Setup Guide show the MFC-255CW.

- a** Remove the protective tape and film covering the machine.
- b** Remove the plastic bag  containing the ink cartridges from on top of the paper tray.
- c** Make sure you have all components.

Note

- The components included in the box may differ depending on your country.
- Save all packing materials and the box in case for any reason you must ship your machine.
- You need to purchase the correct interface cable for the interface you want to use (for USB or network connection).

USB cable

Please make sure you use a USB 2.0 cable (Type A/B) that is no more than 6 feet (2 meters) long (cable not included).

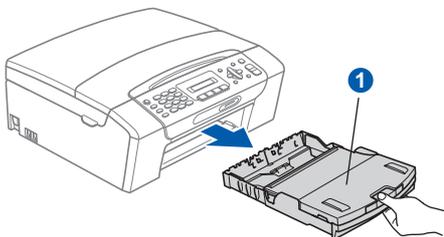

Your machine has a USB interface that is compatible with the USB 2.0 specification. This interface is also compatible with Hi-Speed USB 2.0; however, the maximum data transfer rate will be 12 Mb/s. The machine can also be connected to a computer that has a USB 1.1 interface.

Network cable

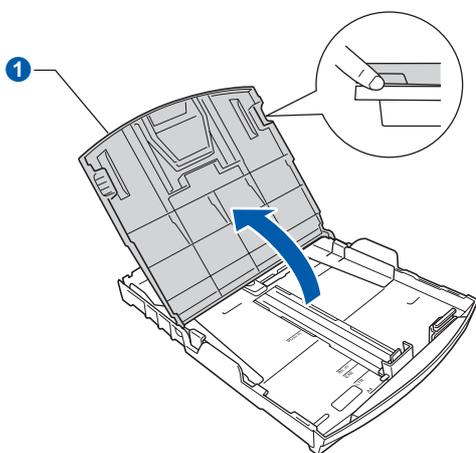

Use a straight-through Category 5 (or greater) twisted-pair cable for 10BASE-T or 100BASE-TX Fast Ethernet Network.

2 Load plain Letter/A4 paper

- a** Pull the paper tray **1** completely out of the machine.

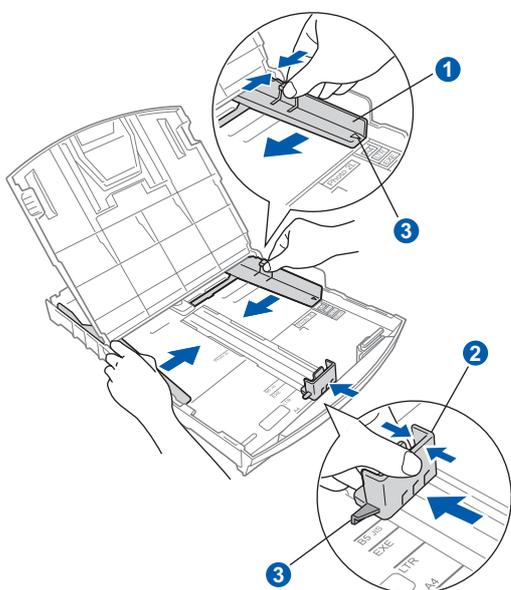

- b** Lift the output paper tray cover **1**.

- c** With both hands, gently press and slide the paper side guides **1** and then the paper length guide **2** to fit the paper size you are loading in the tray.

Make sure that the triangular marks **3** on the paper side guides **1** and paper length guide **2** line up with the mark for the paper size you are using.

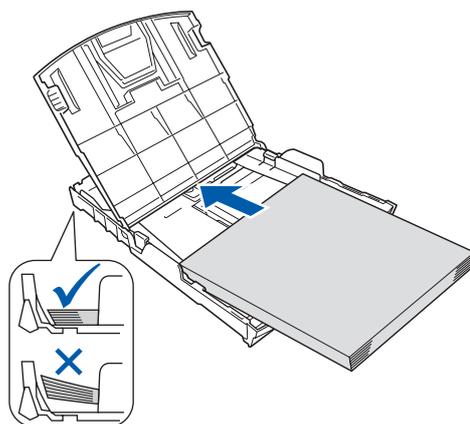

- d** Fan the stack of paper well to avoid paper jams and misfeeds.

- e** Gently put the paper into the paper tray print side down and top edge first. Check that the paper is flat in the tray.

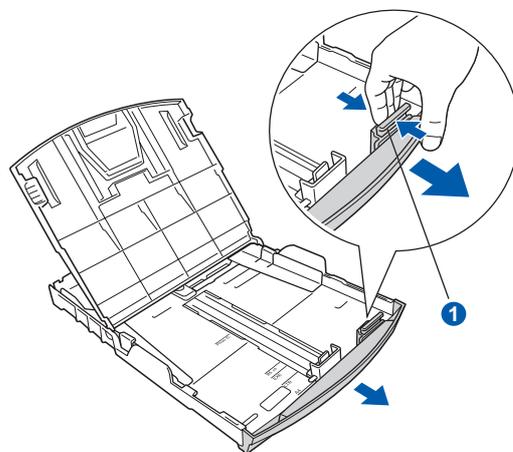

! IMPORTANT

DO NOT push the paper in too far.

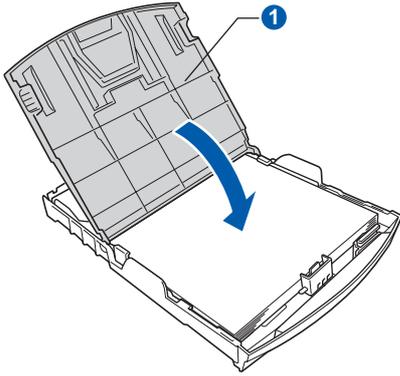

Note

When you use Legal size paper, press and hold the universal guide release button **1** as you slide out the front of the paper tray.

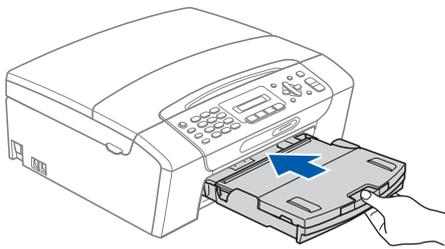

- f** Gently adjust the paper side guides to the paper with both hands. Make sure that the paper side guides touch the edges of the paper.

g Close the output paper tray cover ①.

h Slowly push the paper tray completely into the machine.

i While holding the paper tray in place, pull out the paper support ① until it clicks, and then unfold the paper support flap ②.

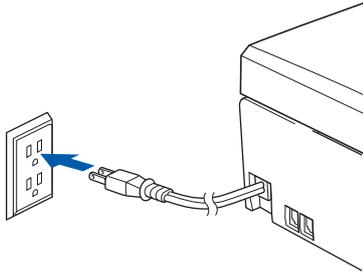

3

Connect the power cord and telephone line

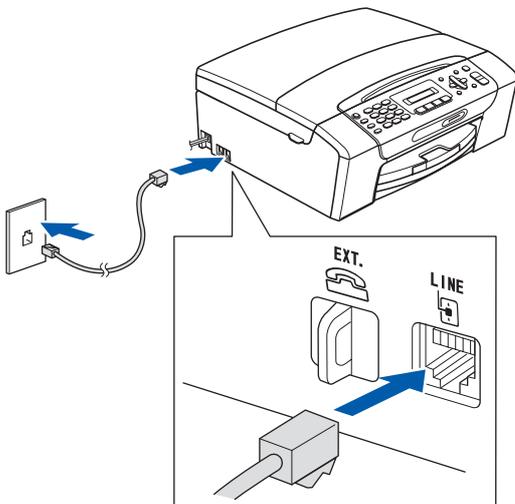

! IMPORTANT

DO NOT connect the USB cable yet (if you are using a USB cable).

- a** Connect the power cord.

- b** Connect the telephone line cord. Connect one end of the telephone line cord to the jack on the machine marked **LINE** and the other end to a modular wall jack.

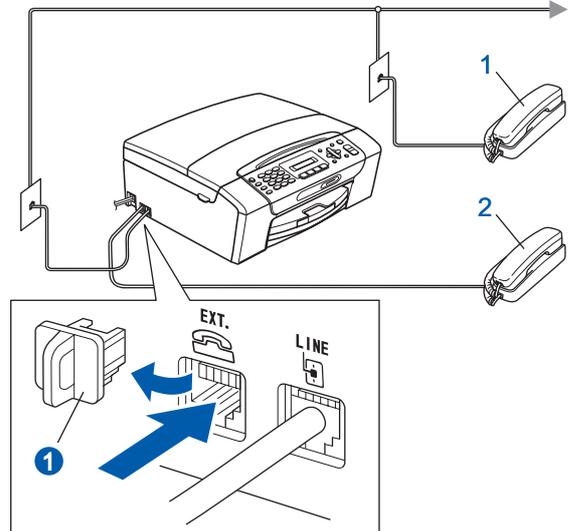

! IMPORTANT

The telephone line cord **MUST** be connected to the jack on the machine marked **LINE**.

Note

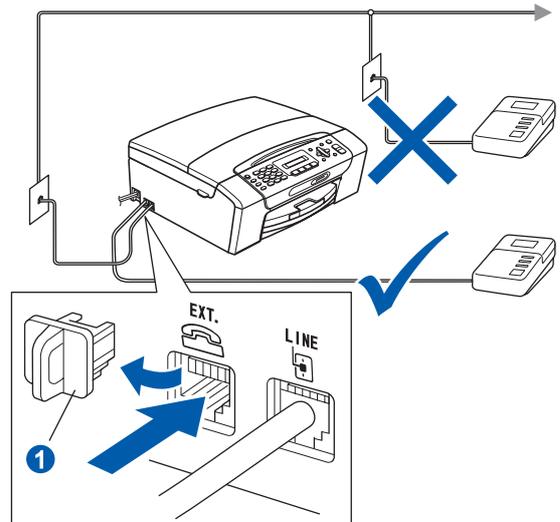

If you are sharing one telephone line with an external telephone, connect it as shown below. Before you connect the external telephone, remove the protective cap 1 from the **EXT.** jack on the machine.

- 1 Extension telephone
- 2 External telephone

Note

If you are sharing one telephone line with an external telephone answering machine, connect it as shown below. Before you connect the external telephone answering machine, remove the protective cap 1 from the **EXT.** jack on the machine.

Set the receive mode to *External TAD* if you have an external answering machine. See Choose the correct Receive Mode on page 8. For additional details, see Connecting an external TAD (telephone answering device) in Chapter 7 of the User's Guide.

4 Install the ink cartridges

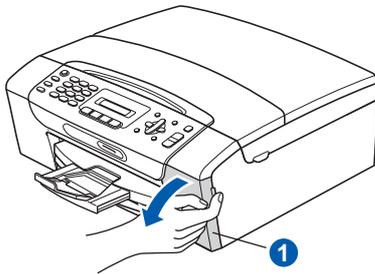

CAUTION

If ink gets in your eyes, wash them out with water at once, and if irritation occurs consult a doctor.

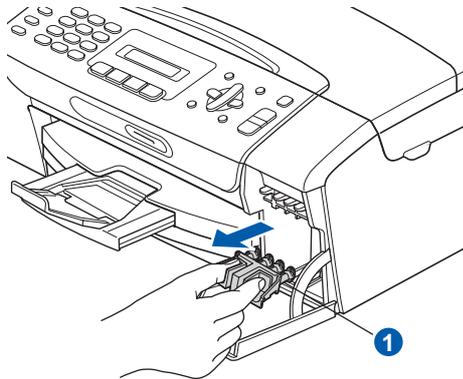

- a Make sure that the power is turned on. The LCD shows:

No Cartridge

- b Open the ink cartridge cover 1.

- c Remove the green protective part 1.

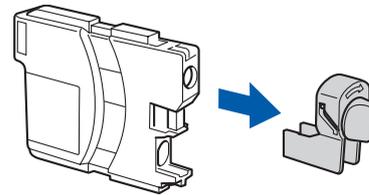

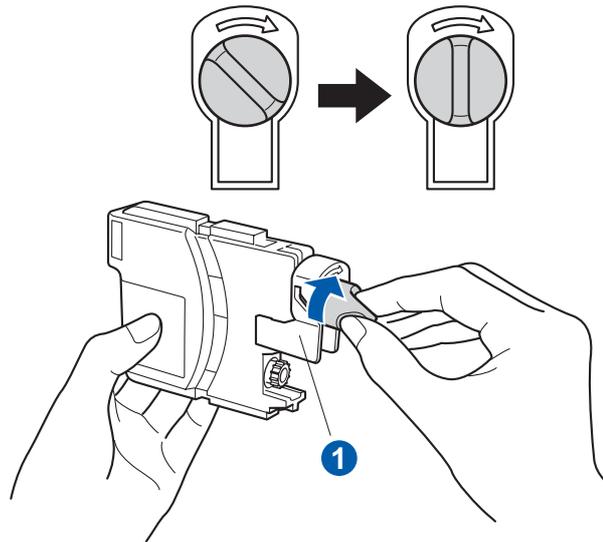

Note

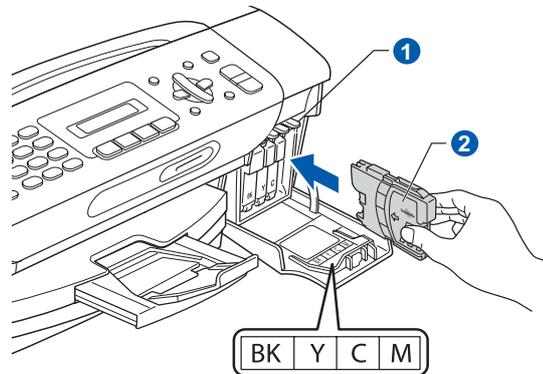

Do not throw away the green protective part. You will need it if you transport the machine.

- d Unpack the ink cartridge.

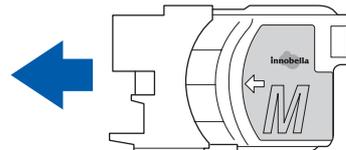

- e Turn the green knob on the protective yellow cap clockwise until it clicks to release the vacuum seal, then remove the cap 1.

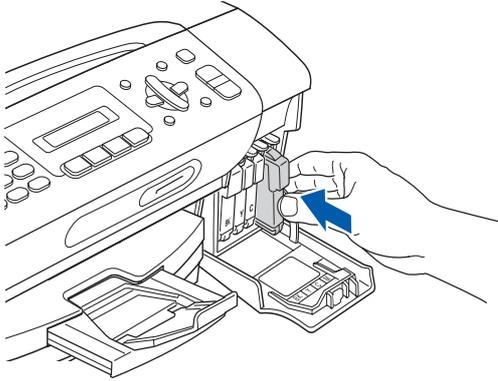

- f Take care to match the color of the lever 1 with the cartridge color 2, as shown in the diagram below.

- g Install each ink cartridge in the direction of the arrow on the label.

- h** Gently push the ink cartridge until it clicks. After all the ink cartridges are installed close the ink cartridge cover.

 **Note**

The machine will prepare the ink tube system for printing. This process will take approximately four minutes. Do not turn off the machine.

 **IMPORTANT**

- **DO NOT** take out ink cartridges if you do not need to replace them. If you do so, it may reduce the ink quantity and the machine will not know the quantity of ink left in the cartridge.
- **DO NOT** shake the ink cartridges. If ink stains your skin or clothing, wash with soap or detergent at once.
- **DO NOT** repeatedly insert and remove the cartridges. If you do so, ink may seep out of the cartridge.
- If you mix the colors by installing an ink cartridge in the wrong position, clean the print head several times after correcting the cartridge installation. (See *Cleaning the print head* in *Appendix B* of the *User's Guide*.)
- Once you open an ink cartridge, install it in the machine and use it up within six months of installation. Use unopened ink cartridges by the expiration date written on the cartridge package.
- **DO NOT** dismantle or tamper with the ink cartridge, this can cause the ink to leak out of the cartridge.
- Brother strongly recommends that you do not refill the ink cartridges provided with your machine. We also strongly recommend that you continue to use only **Genuine Brother Brand** replacement ink cartridges. Use or attempted use of potentially incompatible ink and/or cartridges in the Brother machine may cause damage to the machine and/or may result in unsatisfactory print quality. Our warranty coverage does not apply to any problem that is caused by the use of unauthorized third party ink and/or cartridges. To protect your investment and obtain premium performance from the Brother machine, we strongly recommend the use of **Genuine Brother Supplies**.

5 Check the print quality

a When the preparation process has finished, the LCD shows this message

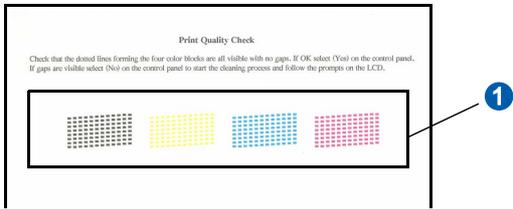

Set Paper and

Press Start

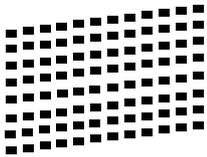

Press **Color Start**.

b Check the quality of the four color blocks **1** on the sheet. (black/yellow/cyan/magenta)

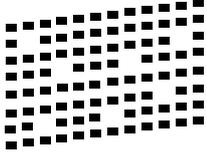

c If all lines are clear and visible, press **1** (Yes) on the dial pad to finish the quality check and go to step **6**.

OK

If you can see missing short lines, press **2** (No) on the dial pad and go to **d**.

Poor

d The LCD asks you if the print quality is OK for black and color. Press **1** (Yes) or **2** (No) on the dial pad.

Black OK?

1.Yes 2.No

Color OK?

1.Yes 2.No

After pressing **1** (Yes) or **2** (No) for both black and color, the LCD shows:

Start Cleaning?

1.Yes 2.No

e Press **1** (Yes), the machine will then start cleaning the colors.

f After cleaning is finished, press **Color Start**. The machine starts printing the Print Quality Check Sheet again. Go back to **b**.

6 Choose your language (if needed)

a Press **Menu, 0, 0**.

0.Local Language

b Press **▲** or **▼** to choose your language. Press **OK**.

c Press **Stop/Exit**.

7

Choose the correct Receive Mode

The correct Receive Mode is determined by the external devices and telephone subscriber services (Voice Mail, Distinctive Ring, etc.) you have (or will be using) on the same line as the Brother machine.

Will you be using a Distinctive Ring number for receiving faxes?

Brother uses the term "Distinctive Ring" but telephone companies may have other names for this service such as Custom Ringing, RingMaster, Personalized Ring, Teen Ring, Ident-A-Call, and Smart Ring. See *Distinctive Ring* in Chapter 7 of the *User's Guide* for instruction on setting up your machine using this feature.

Will you be using Voicemail on the same telephone line as your Brother machine?

If you have Voice Mail on the same telephone line as your Brother machine, there is a strong possibility that Voice Mail and the Brother machine will conflict with each other when receiving incoming calls. See *Voice Mail* in Chapter 7 of the *User's Guide* for instructions on setting up your machine using this service.

Will you be using a Telephone Answering Device on the same telephone line as your Brother machine?

Your external telephone answering device (TAD) will automatically answer every call. Voice messages are stored on the external TAD and fax messages are printed. Choose `External TAD` as your receive mode. See the instructions below.

Will you be using your Brother machine on a dedicated fax line?

Your machine automatically answers every call as a fax. Choose `Fax Only` as your receive mode. See the instructions below.

Will you be using your Brother machine on the same line as your telephone?

Do you want to receive voice calls and faxes automatically?

The `Fax/Tel` receive mode is used when sharing the Brother machine and your telephone on the same line. Choose `Fax/Tel` as your receive mode. See the instructions below.

Important Note: You cannot receive voice messages on either Voice Mail or an answering machine when choosing the `Fax/Tel` mode.

Do you expect to receive very few faxes?

Choose `Manual` as your receive mode. You control the phone line and must answer every call yourself. See the instructions below.

For details, see Using receive modes in Chapter 6 of the *User's Guide*.

a Press **Menu**, **0**, **1**.

1.Receive Mode

b Press **▲** or **▼** to choose the receive mode.
Press **OK**.

c Press **Stop/Exit**.

Note

If the Receive Mode option is not displayed, make sure the Distinctive Ring feature is set to Off. (See Turning off Distinctive Ring in Chapter 7 of the *User's Guide*.)

8 Set the LCD contrast (if needed)

If you are having difficulty reading the LCD from your position, try changing the contrast setting.

- a** Press **Menu**, **1**, **6**.

6.LCD Contrast

- b** Press **▲** or **▼** to choose **Dark** or **Light**.

Contrast:Dark

Contrast:Light

- c** Press **OK**.
d Press **Stop/Exit**.

9 Set the date and time

The machine displays the date and time, and if you set up the station ID the date and time will be added to each fax you send.

- a** Press **Menu**, **0**, **2**.

2.Date&Time

- b** Enter the last two digits of the year on the dial pad, and then press **OK**.

Year:2009

(e.g. Enter **09** for 2009.)

- c** Enter the two digits for the month on the dial pad, and then press **OK**.

Month:03

(e.g. Enter **03** for March.)

- d** Enter the two digits for the day on the dial pad, and then press **OK**.

Day:01

(e.g. Enter **01** for the first day of the month.)

- e** Enter the time in 24-hour format on the dial pad, and then press **OK**.

Time:15:25

(e.g. Enter **15, 25** for 3:25 P.M.)

- f** Press **Stop/Exit**.

10 Set your Station ID

You should store your name and fax number to be printed on all fax pages that you send.

a Press **Menu**, **0**, **3**.

3.Station ID

b Enter your fax number (up to 20 digits) on the dial pad, and then press **OK**.

c Enter your name (up to 20 characters) using the dial pad, and then press **OK**.

Note

- See the following chart for entering your name.
- If you need to enter a character that is on the same key as the last character, press **▶** to move the cursor to the right.
- If you entered a letter incorrectly and want to change it, press **◀** or **▶** to move the cursor to the incorrect character, press **Clear/Back**.

Press key	One time	Two times	Three times	Four times
2	A	B	C	2
3	D	E	F	3
4	G	H	I	4
5	J	K	L	5
6	M	N	O	6
7	P	Q	R	S
8	T	U	V	8
9	W	X	Y	Z

d Press **Stop/Exit**.

Note

If you make a mistake and want to start again, press **Stop/Exit** and go back to **a**.

For details, see Entering Text in Appendix C of the User's Guide.

Note

(USA only)

The Telephone Consumer Protection Act of 1991 makes it unlawful for any person to use a computer or electronic device to send any message via a telephone fax machine unless such messages clearly contain, in a margin at the top or bottom of each transmitted page, or on the first page of the transmission, the date and time it is sent and an identification of the business or other entity or other individual sending the message and the telephone number of the sending machines or such business, other entity or individual.

11 Fax Transmission Report

Your Brother machine is equipped with a Transmission Verification Report that can be used as confirmation that you sent a fax. This report lists the name or fax number of the receiving party, the date, time, and duration of the transmission, the number of pages transmitted, and whether or not the transmission was successful. If you want to use the Fax Transmission Report feature, see *Printing Reports* in Chapter 9 of the User's Guide.

12 Set tone or pulse dialing mode

Your machine comes set for Tone dialing service. If you have Pulse dialing service (rotary), you need to change the dialing mode.

- a** Press **Menu, 0, 4**.

4. Tone/Pulse

- b** Press **▲** or **▼** to choose **Pulse** (or **Tone**).
Press **OK**.

- c** Press **Stop/Exit**.

13 Set the phone line compatibility

If you are connecting the machine to a VoIP service you need to change the compatibility setting.

If you are just using a normal telephone line you can skip this step.

- a** Press **Menu, 0, 6**.

6. Compatibility

- b** Press **▲** or **▼** to choose **Basic** (for **VoIP**).
Press **OK**.

- c** Press **Stop/Exit**.

14 Automatic Daylight Savings Time

You can set the machine to change automatically for daylight savings time. It will reset itself forward one hour in the Spring and backward one hour in the Fall.

- a** Press **Menu, 1, 5**.

5. Auto Daylight

- b** Press **▲** or **▼** to choose **On** (or **Off**).
Press **OK**.

- c** Press **Stop/Exit**.

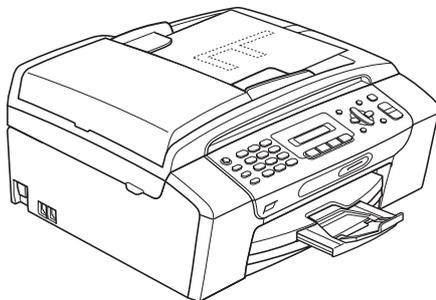

15 Send in the Product Registration Sheet (USA only)

You can also register your product online using the On-Line Registration link from the installation CD-ROM or visit <http://www.brother.com/registration/>.

a Fill out the Product Registration Sheet.

The image shows a 'Brother Product Registration and Test Sheet' form. It contains various sections for user information, product details, and a series of checkboxes for testing different functions of the device. At the bottom, there is a barcode and contact information for registration.

b Put the sheet face down in the ADF (Automatic Document Feeder) or face down on the scanner glass.

(MFC-295CN only)

c Make sure (Fax) is illuminated in Green.

d Enter the toll-free fax number: 1-877-268-9575.

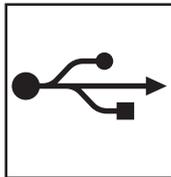

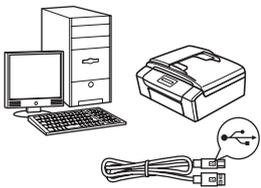

e Press **Black Start**.

Note

You will receive a confirmation fax of your Product Registration.

For USB interface users (Windows® 2000 Professional/XP/ XP Professional x64 Edition/ Windows Vista®)

17 Before you install

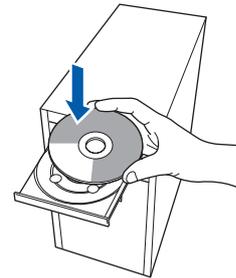

a Make sure that your computer is ON and you are logged on with Administrator rights.

! IMPORTANT

- DO NOT connect the USB cable yet.
- If there are any programs running, close them.
- Make sure there are no memory cards or a USB Flash memory drive inserted into the machine.
- The screens may differ depending on your operating system.
- The supplied CD-ROM includes ScanSoft™ PaperPort™ 11SE. This software supports Windows® 2000 (SP4 or greater), XP (SP2 or greater), XP Professional x64 Edition and Windows Vista®. Update to the latest Windows® Service Pack before installing MFL-Pro Suite.

18 Install MFL-Pro Suite

a Put the supplied CD-ROM into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

Note

*If the Brother screen does not appear automatically, go to **My Computer (Computer)**, double-click the CD-ROM icon, and then double-click **start.exe**.*

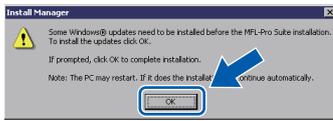

b The CD-ROM Top Menu will appear. Click **Install MFL-Pro Suite**.

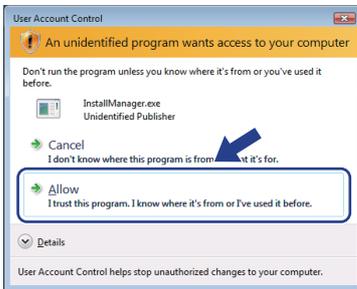

Note

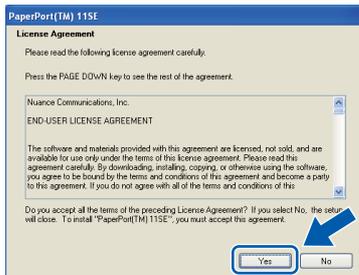

- If this screen appears, click **OK** and restart your computer.

- If the installation does not continue automatically, open the top menu again by ejecting and then reinserting the CD-ROM or double-click the **start.exe** program from the root folder, and continue from **b** to install MFL-Pro Suite.
- For Windows Vista®, when the **User Account Control** screen appears, click **Allow**.

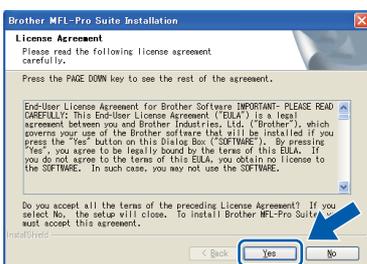

- When the ScanSoft™ PaperPort™ 11SE **License Agreement** window appears, click **Yes** if you agree to the Software License Agreement.

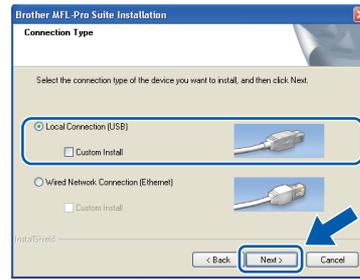

- The installation of ScanSoft™ PaperPort™ 11SE will automatically start and is followed by the installation of MFL-Pro Suite.

- When the Brother MFL-Pro Suite Software **License Agreement** window appears, click **Yes** if you agree to the Software License Agreement.

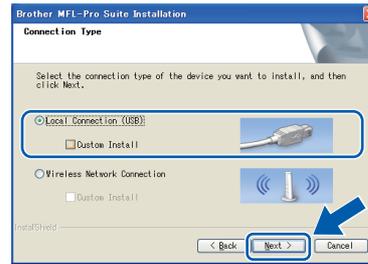

f

Choose **Local Connection**, and then click **Next**. The installation continues.

(MFC-295CN)

(MFC-255CW)

g

When this screen appears, go to the next step.

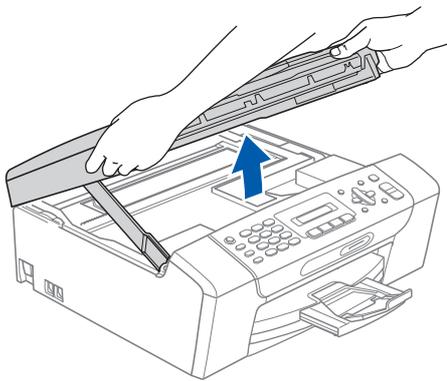

19 Connect the USB cable

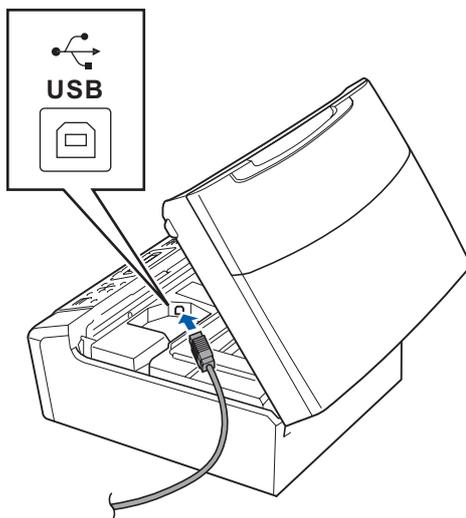

! IMPORTANT

- **DO NOT** connect the machine to a USB port on a keyboard or a non-powered USB hub.
- Connect the machine directly to your computer.

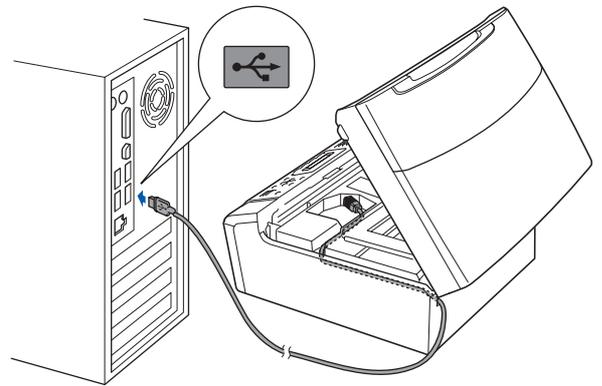

a Using both hands, use the plastic tabs on both sides of the machine to lift the scanner cover until it locks securely into the open position.

b Connect the USB cable to the USB socket marked with a  symbol. You will find the USB socket inside the machine as shown below.

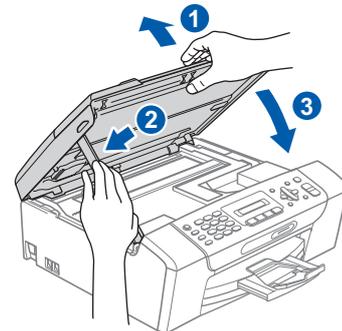

c Carefully route the USB cable through the trench and out the back of the machine as shown below and connect the cable to your computer.

! IMPORTANT

Make sure that the cable does not restrict the cover from closing, or an error may occur.

d Lift the scanner cover to release the lock **1**. Gently push the scanner cover support down **2** and close the scanner cover **3**.

e The installation will continue automatically. The installation screens appear one after another.

! IMPORTANT

DO NOT cancel any of the screens during the installation. It may take a few seconds for all screens to appear.

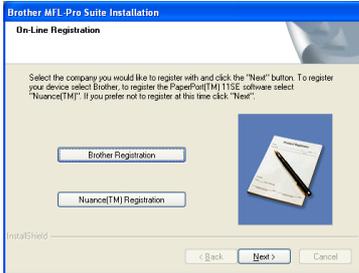

Note

For Windows Vista®, when this screen appears, click the check box and click **Install** to complete the installation correctly.

f When the **On-Line Registration** screen is displayed, make your selection and follow the on-screen instructions. Once you have completed the registration process, close your web browser to return to this window. Then click **Next**.

20 Finish and restart

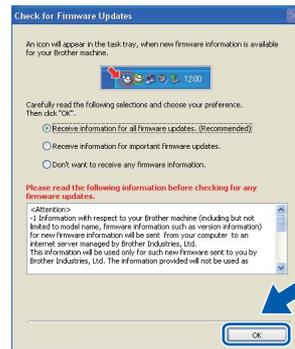

a Click **Finish** to restart your computer. After restarting the computer, you must be logged on with Administrator rights.

Note

- If an error message appears during the software installation, run the **Installation Diagnostics** located in **Start/All Programs/Brother/MFC-XXXX** (where MFC-XXXX is your model name).
- If you are using an antivirus software, a warning window might appear when using the machine. If the warning dialog window appears, allow access to continue.

b Choose the firmware update setting and click **OK**.

Note

Internet access is required for the firmware update.

Finish

The installation is now complete.

Now go to

Proceed to **Install Optional Applications** on page 40.

Note

XML Paper Specification Printer Driver
The XML Paper Specification Printer Driver is the most suitable driver when printing from applications that use the XML Paper Specification documents. Please download the latest driver by accessing the Brother Solutions Center at <http://solutions.brother.com/>.

For USB interface users (Mac OS X 10.3.9 or greater)

17 Before you install

a Make sure your machine is connected to the power and your Macintosh is ON. You must be logged on with Administrator rights.

! IMPORTANT

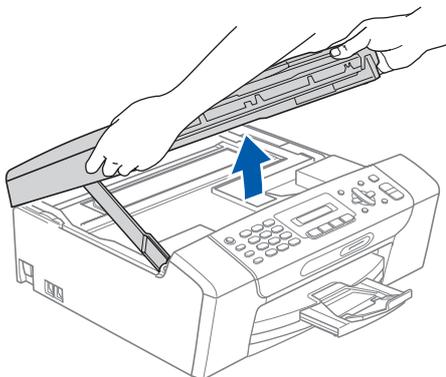

- For the latest drivers and information on the Mac OS X you are using, visit <http://solutions.brother.com/>.
- For Mac OS X 10.3.0 to 10.3.8 users, upgrade to Mac OS X 10.3.9 or greater.
- Make sure there are no memory cards or a USB Flash memory drive inserted into the machine.

18 Connect the USB cable

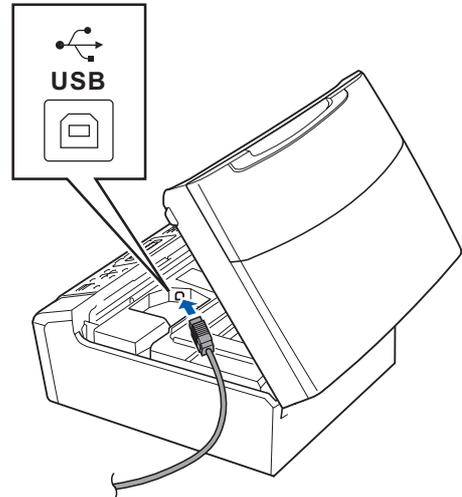

! IMPORTANT

- DO NOT connect the machine to a USB port on a keyboard or a non-powered USB hub.
- Connect the machine directly to your Macintosh.

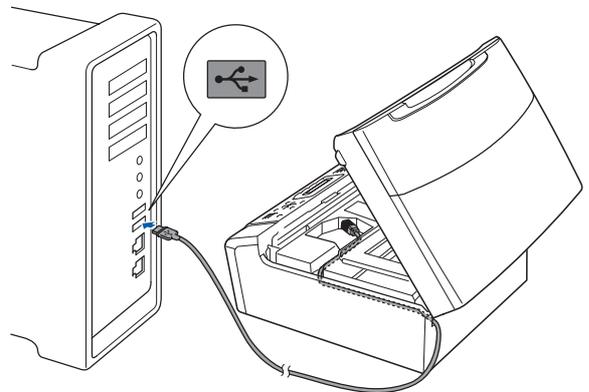

a Using both hands, use the plastic tabs on both sides of the machine to lift the scanner cover until it locks securely into the open position.

b Connect the USB cable to the USB socket marked with a  symbol. You will find the USB socket inside the machine as shown below.

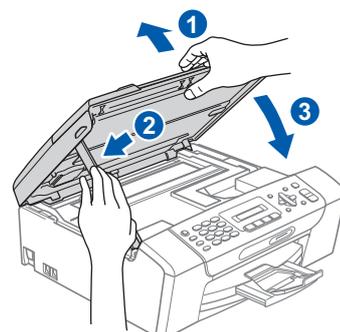

c Carefully route the USB cable through the trench and out the back of the machine as shown below and connect the cable to your Macintosh.

! IMPORTANT

Make sure that the cable does not restrict the cover from closing, or an error may occur.

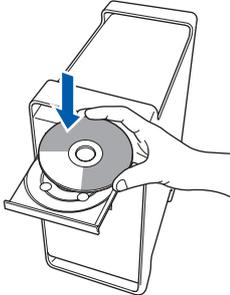

d Lift the scanner cover to release the lock **1**. Gently push the scanner cover support down **2** and close the scanner cover **3**.

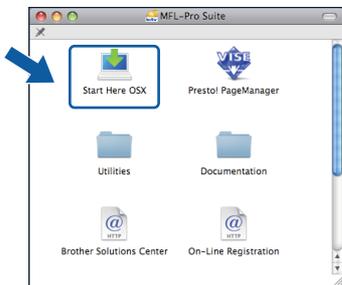

19 Install MFL-Pro Suite

a Put the supplied CD-ROM into your CD-ROM drive.

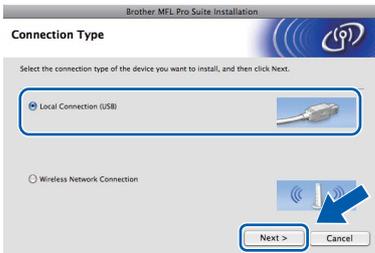

b Double-click the **Start Here OSX** icon to install.

c Choose **Local Connection**, and then click **Next**. Follow the on-screen instructions.

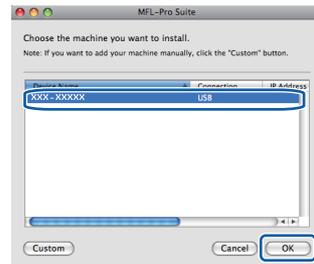

(This screen will not appear for MFC-295CN.)

d Please wait, it will take a few seconds for the software to install. After the installation, click **Restart** to finish installing the software.

e The Brother software will search for the Brother device.

f Choose the machine from the list, and then click **OK**.

g When this screen appears, click **OK**.

OK! The installation of MFL-Pro Suite is now complete. Go to step **20** on page 19.

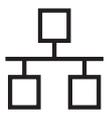

20 Install Presto! PageManager

When Presto! PageManager is installed OCR capability is added to Brother ControlCenter2. You can easily scan, share and organize photos and documents using Presto! PageManager.

a Double-click the **Presto! PageManager** icon and follow the on-screen instructions.

Finish The installation is now complete.

For wired network interface users (MFC-295CN only)
(Windows® 2000 Professional/XP/ XP Professional x64 Edition/
Windows Vista®)

17 Before you install

- a** Make sure that your computer is ON and you are logged on with Administrator rights.

! IMPORTANT

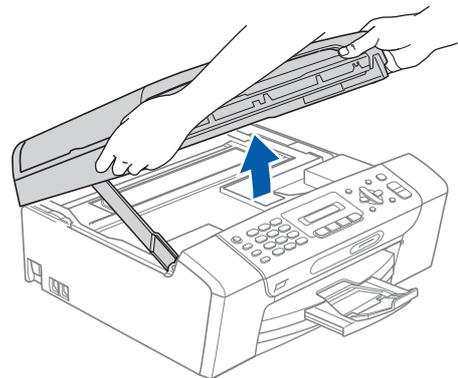

- If there are any programs running, close them.
- Make sure there are no memory cards or a USB Flash memory drive inserted into the machine.
- The screens may differ depending on your operating system.
- The supplied CD-ROM includes ScanSoft™ PaperPort™ 11SE. This software supports Windows® 2000 (SP4 or greater), XP (SP2 or greater), XP Professional x64 Edition and Windows Vista®. Update to the latest Windows® Service Pack before installing MFL-Pro Suite.

! IMPORTANT

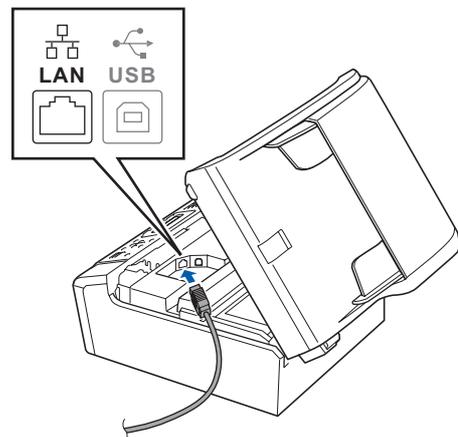

Disable all personal firewall software (other than Windows® Firewall), anti-spyware or antivirus applications for the duration of the installation.

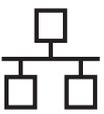

18 Connect the network cable

- a** Using both hands, use the plastic tabs on both sides of the machine to lift the scanner cover until it locks securely into the open position.

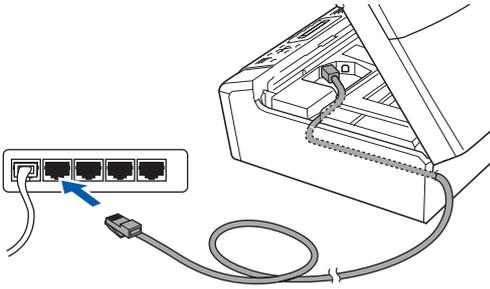

- b** Connect the network cable to the LAN socket marked with a  symbol. You will find the LAN socket inside the machine on the left as shown below.

- c** Carefully route the network cable through the trench and out the back of the machine. Then, connect the cable to your network.

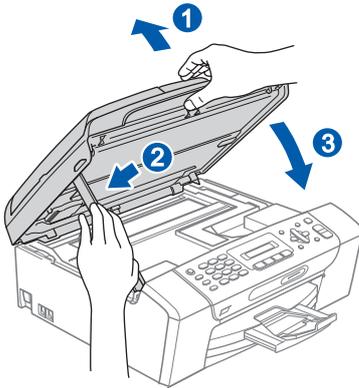

Note

If both USB and LAN cables are being used, guide both cables through the trench with one on top of the other.

! IMPORTANT

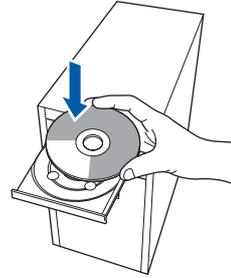

Make sure that the cable does not restrict the cover from closing, or an error may occur.

- d** Lift the scanner cover to release the lock ①. Gently push the scanner cover support down ② and close the scanner cover ③.

19 Install MFL-Pro Suite

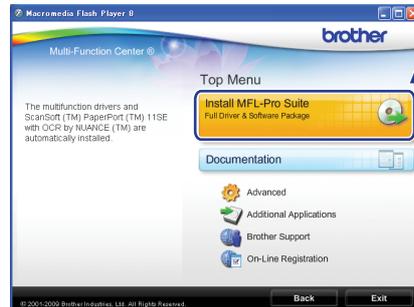

- a** Put the supplied CD-ROM into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

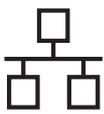

Note

If the Brother screen does not appear automatically, go to **My Computer (Computer)**, double-click the CD-ROM icon, and then double-click **start.exe**.

- b** The CD-ROM Top Menu will appear. Click **Install MFL-Pro Suite**.

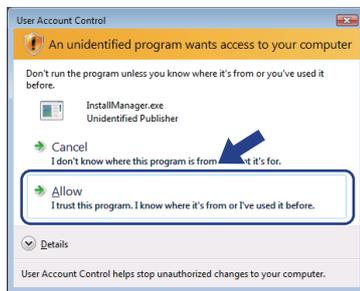

Note

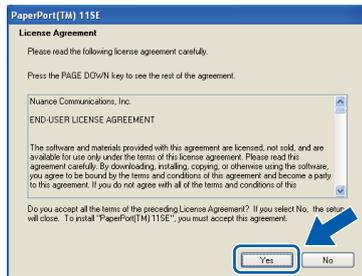

- If this screen appears, click **OK** and restart your computer.

- If the installation does not continue automatically, open the top menu again by ejecting and then reinserting the CD-ROM or double-click the **start.exe** program from the root folder, and continue from **b** to install MFL-Pro Suite.
- For Windows Vista®, when the **User Account Control** screen appears, click **Allow**.

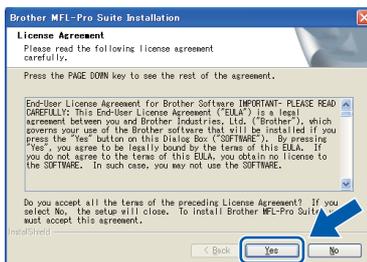

- When the ScanSoft™ PaperPort™ 11SE License Agreement window appears, click **Yes** if you agree to the Software License Agreement.

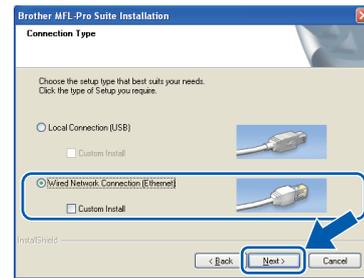

- The installation of ScanSoft™ PaperPort™ 11SE will automatically start and is followed by the installation of MFL-Pro Suite.

- When the Brother MFL-Pro Suite Software License Agreement window appears, click **Yes** if you agree to the Software License Agreement.

f

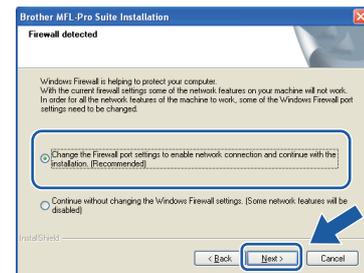

Choose **Wired Network Connection**, and then click **Next**.

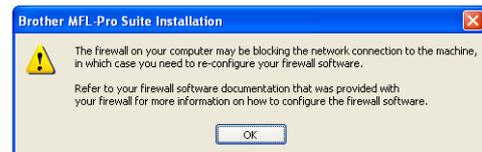

If you are using an antivirus software, a warning window might appear during the installation. If the warning dialog window appears, choose **allow** to continue installing.

g

For Windows® XP SP2 or greater/XP Professional x64 Edition/Windows Vista® users, when this screen appears, choose **Change the Firewall port settings to enable network connection and continue with the installation. (Recommended)** and click **Next**.

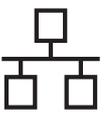

If you are using a firewall other than Windows® Firewall or Windows® Firewall is off, this screen may appear.

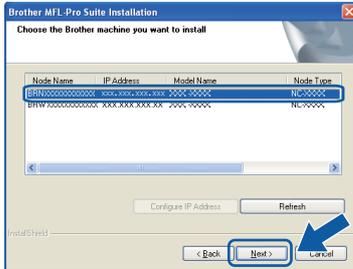

See the instructions provided with your firewall software for information on how to add the following network ports.

- For network scanning, add UDP port 54925.
- If you still have trouble with your network connection, add UDP port 137.

Note

- If there is more than one machine connected to the network, choose your machine from the list, and then click **Next**.
This window will not appear if there is only one machine connected to the network, it will be chosen automatically.

- If your machine is not found over the network, the following screen will appear.

Confirm your settings by following the on-screen instructions.

If you are using antivirus software or a firewall you should temporarily disable it.

- If the IP address of the machine is not yet configured for use on your network, the following screen appears.

Click **OK** and then click **Configure IP Address**. Enter an IP address for your machine that is suitable for your network by following the on-screen instructions. To confirm the IP address, print out the Network Configuration report by pressing **Menu, 6, 6 and Black Start**. (For details, see Printing Reports in Chapter 9 of User's guide.)

- The installation of the Brother drivers will automatically start. The installation screens appear one after another.

IMPORTANT

DO NOT cancel any of the screens during the installation. It may take a few seconds for all screens to appear.

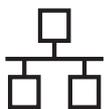

Note

For Windows Vista®, when this screen appears, click the check box and click **Install** to complete the installation correctly.

- When the **On-Line Registration** screen is displayed, make your selection and follow the on-screen instructions. Once you have completed the registration process, close your web browser to return to this window. Then click **Next**.

20 Finish and restart

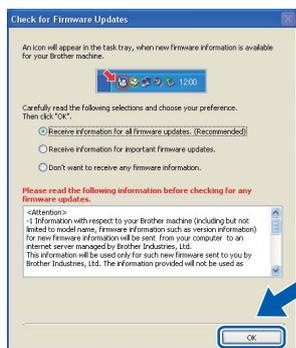

- a** Click **Finish** to restart your computer. After restarting the computer, you must be logged on with Administrator rights.

Note

- If an error message appears during the software installation, run the **Installation Diagnostics** located in **Start/All Programs/Brother/MFC-XXXX** (where MFC-XXXX is your model name).
- If you are using an antivirus software, a warning window might appear when using the machine. If the warning dialog window appears, allow access to continue.

- b** Choose the firmware update setting and click **OK**.

Note

Internet access is required for the firmware update.

21 Install MFL-Pro Suite on additional computers (if needed)

If you want to use your machine with multiple computers on the network, install MFL-Pro Suite on each computer. Go to step **19** on page 21. Also see step **17-a** on page 20 before you install.

Note

Network license (Windows®)

This product includes a PC license for up to 2 Users.

This license supports the installation of the MFL-Pro Suite including ScanSoft™ PaperPort™ 11SE on up to 2 PCs on the network.

If you want to use more than 2 PCs with ScanSoft™ PaperPort™ 11SE installed, please purchase the Brother NL-5 pack which is a multiple PC license agreement pack for up to 5 additional users. To purchase the NL-5 pack, contact your authorized Brother dealer or contact Brother customer service.

Finish

The installation is now complete.

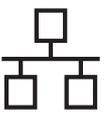

Now go to

Proceed to Install Optional Applications on page 40.

Note

XML Paper Specification Printer Driver

The XML Paper Specification Printer Driver is the most suitable driver when printing from applications that use the XML Paper Specification documents. Please download the latest driver by accessing the Brother Solutions Center at <http://solutions.brother.com/>.

For wired network interface users (MFC-295CN only)
(Mac OS X 10.3.9 or greater)

17 Before you install

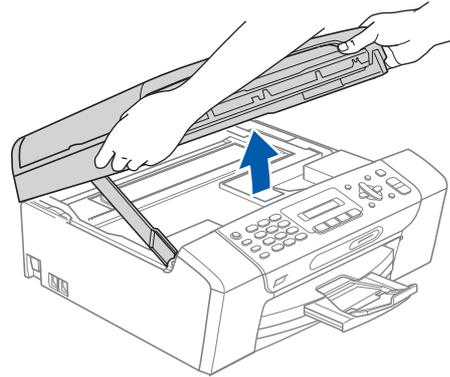

- a** Make sure your machine is connected to the power and your Macintosh is ON. You must be logged on with Administrator rights.

! IMPORTANT

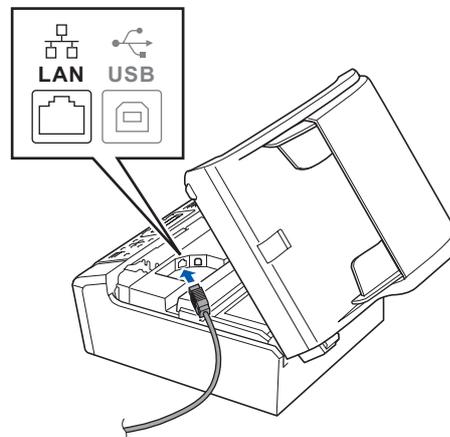

- For the latest drivers and information on the Mac OS X you are using, visit <http://solutions.brother.com/>.
- For Mac OS X 10.3.0 to 10.3.8 users, upgrade to Mac OS X 10.3.9 or greater.
- Make sure there are no memory cards or a USB Flash memory drive inserted into the machine.

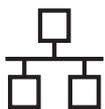

18 Connect the network cable

- a** Using both hands, use the plastic tabs on both sides of the machine to lift the scanner cover until it locks securely into the open position.

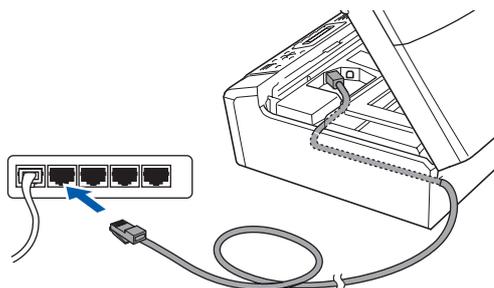

- b** Connect the network cable to the LAN socket marked with a  symbol. You will find the LAN socket inside the machine on the left as shown below.

- c** Carefully route the network cable through the trench and out the back of the machine. Then, connect the cable to your network.

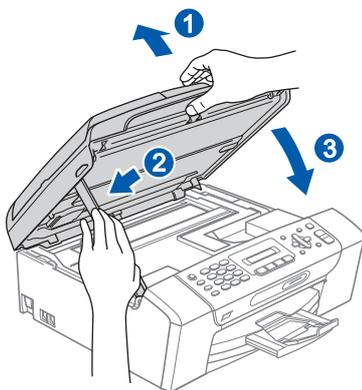

! IMPORTANT

Make sure that the cable does not restrict the cover from closing, or an error may occur.

Note

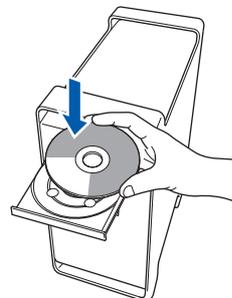

If both USB and LAN cables are being used, guide both cables through the trench with one on top of the other.

- d** Lift the scanner cover to release the lock ①. Gently push the scanner cover support down ② and close the scanner cover ③.

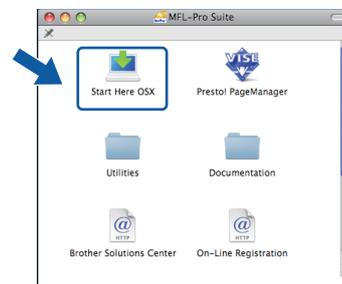

19 Install MFL-Pro Suite

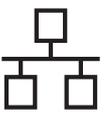

- a** Put the supplied CD-ROM into your CD-ROM drive.

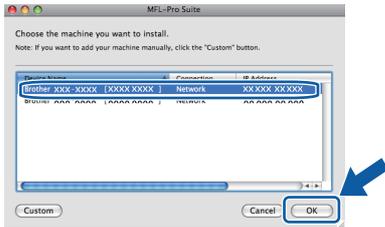

- b** Double-click the **Start Here OSX** icon to install.

- c** Please wait, it will take a few seconds for the software to install. After the installation, click **Restart** to finish installing the software.
- d** The Brother software will search for the Brother device.

- e** If the machine is configured for your network, choose the machine from the list, and then click **OK**.

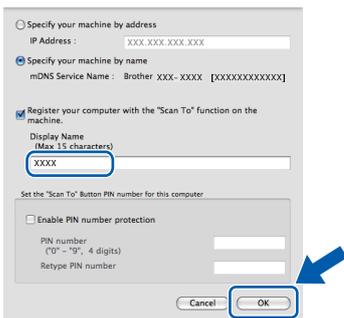

Note

- If your machine is not found over the network, confirm your network settings.
- If this screen appears click **OK**.

Enter a name for your Macintosh in **Display Name** up to 15 characters long and click **OK**. Go to **f**.

The name you enter will appear on the machine's LCD when you press the **Scan** key and choose a scan option. (For more information, see Network Scanning in the Software User's Guide on the CD-ROM.)

- f** When this screen appears, click **OK**.

- OK!** The installation of MFL-Pro Suite is now complete. Go to step **20** on page 27.

20 Install Presto! PageManager

When Presto! PageManager is installed OCR capability is added to Brother ControlCenter2. You can easily scan, share and organize photos and documents using Presto! PageManager.

- a** Double-click the **Presto! PageManager** icon and follow the on-screen instructions.

21 Install MFL-Pro Suite on additional computers (if needed)

If you want to use your machine with multiple computers on the network, install MFL-Pro Suite on each computer. Go to step **19** on page 26. Also see step **17-a** on page 25 before you install.

Finish

The installation is now complete.

For wireless network interface users (MFC-255CW only)

17 Before you begin

First you **must** configure the wireless network settings of your machine to communicate with your network access point/router. After the machine is configured to communicate with your access point/router, computers on your network will have access to the machine. To use the machine from these computers, you will need to install the drivers and software. The following steps will guide you through the configuration and installation process.

To achieve optimum results with normal everyday document printing, place the Brother machine as close to the network access point/router as possible with minimal obstructions. Large objects and walls between the two devices as well as interference from other electronic devices can affect the data transfer speed of your documents.

Due to these factors, wireless may not be the best method of connection for all types of documents and applications. If you are printing large files, such as multi-page documents with mixed text and large graphics, you may want to consider choosing USB for the fastest throughput speed.

! IMPORTANT

If you have previously configured the wireless settings of the machine you must reset the network (LAN) settings before you can configure the wireless settings again.

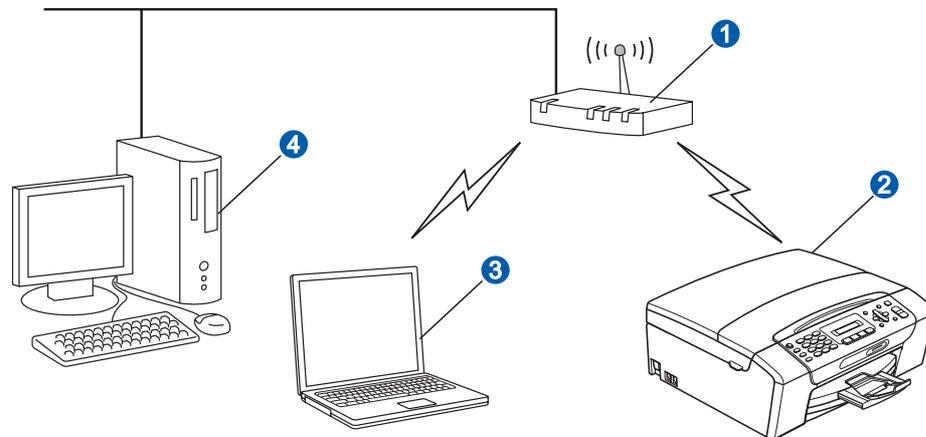

On your machine, press Menu. Press 5 to choose 5.Network.

Press 0 to choose 0.Network Reset.

Press 1 twice to choose Reset and Yes.

The following instructions are for infrastructure mode (connected to a computer through an access point/router).

Infrastructure Mode

- 1 Access point/router
- 2 Wireless Network machine (your machine)
- 3 Wireless capable computer connected to the access point/router
- 4 Wired computer connected to the access point/router

Please make sure the wireless network settings of the machine match the access point/router.

Note

To set up your machine in Ad-hoc mode (connected to a wireless capable computer without an access point/router) you can find instructions in the Network User's Guide on the CD-ROM.

You can view the Network User's Guide by following the instructions below.

1 Turn on your computer. Insert the Brother CD-ROM into your CD-ROM drive.

For Windows®:

2 Choose your model and the language. The CD-ROM top menu will appear.

3 Click **Documentation**, and then click **HTML documents**.

For Macintosh:

2 Double-click **Documentation**, and then double-click your language folder.

3 Double-click **top.html**.

18 Confirm your network environment (Infrastructure Mode)

The following instructions will offer two methods for installing your Brother machine in a wireless network environment. Both methods are for infrastructure mode, using a wireless access point/router that uses DHCP to assign IP addresses. Choose a configuration method and proceed to the page indicated.

- a** If your wireless access point/router does not support SecureEasySetup™, Wi-Fi Protected Setup or AOSS™, **write down the wireless network settings** of your wireless access point/router in the area below.

! IMPORTANT

If you do not know this information (Network Name (SSID/ESSID), and Password (Network Key)), you cannot continue the wireless setup.

How can I find this information (Network Name (SSID/ESSID) and Password (Network Key))

Password (Network Key) may also be described as WEP KEY or passphrase set to the wireless access point/router.

- 1) You should see the documentation provided with your wireless access point/router.
- 2) The initial setting of security information could be the manufactures name or the model name.
- 3) If you do not know the security information, please consult the router manufacture, your system administrator, or internet provider.

Item	Record the current wireless network settings
Network Name: (SSID/ESSID)	
Password: (Network Key)	

Your Brother machine supports the use of the first WEP KEY only. If you are using a router that is using more than one WEP KEY enter the KEY used for the first WEP KEY.

Now go to

page 30

- b** If your wireless access point/router supports automatic wireless (one-push) setup (SecureEasySetup™, Wi-Fi Protected Setup or AOSS™)

Now go to

page 31

Connecting the Brother machine to the wireless network

! IMPORTANT

You must have the wireless settings you wrote down for your network in step 18 on page 29 before you proceed.

19 Configure the wireless settings (typical Wireless Setup in infrastructure mode)

- a** On your machine, press **Menu**. Press **5** to choose 5.Network. Press **2** to choose 2.Setup Wizard.

When WLAN Enable ? is displayed, press **1** to accept. This will start the wireless setup wizard. To cancel, press **Stop/Exit**.

- b** The machine will search for available SSIDs. If a list of SSIDs is displayed, use the **▲** or **▼** keys to choose the SSID you wrote down in step 18-a on page 29, then press **OK**. If you are using an authentication and encryption method that requires a password, go to **c**. If your authentication method is Open System and your encryption mode is None, go to **d**.

Note

It will take several seconds to display a list of available SSIDs. If a list of SSIDs is not displayed, make sure your access point is on. Move your machine closer to the access point and try starting from **a** again.

If your access point is set to not broadcast the SSID you will have to manually add the SSID name. For details, see the *Network User's Guide* on the CD-ROM.

- c** Enter the Password you wrote down in step 18-a on page 29 using the dial pad to choose each letter or number. You can use the **◀** and **▶** keys to move the cursor left and right. For example, to enter the letter **a**, press the **2** key on the dial pad once. To enter the number **3**, press the **3** key on the dial pad seven times.

The letters appear in this order: lower case, upper case and then numbers. (For more information, see *Entering Text for Wireless Settings (MFC-255CW only)* on page 45.)

Press **OK** when you have entered all the characters, then press **1** for **Yes** to apply your settings. Go to **d**.

- d** Your machine will now try to connect to your wireless network using the information you have entered. If successful, **Connected** will appear for 60 seconds on the LCD.

It may take a few minutes to connect to your wireless network.

Note

If the LCD displays *Wrong Password*, the password you entered did not match with your access point. Verify your network settings collected in step 18-a on page 29, then repeat **a** to **c** to make sure you have entered the correct information.

If the LCD displays *Connection Fail*, make sure your access point is on, and verify your network settings collected in step 18-a on page 29. Temporarily move your machine as close as possible to the access point, then repeat **a** to **c** to make sure you have entered the correct information.

If your access point does not have DHCP enabled you will need to manually configure the IP address, subnet mask and gateway of the machine to suit your network. See Chapter 6 of the Network User's Guide for details.

- e** Press **OK**.

OK! Wireless setup is now complete.

To install MFL-Pro Suite, continue to step 20.

For Windows® Users:

Now go to

Page 33

For Macintosh Users:

Now go to

Page 38

19 Configure the wireless settings using the automatic wireless (one-push) method

- a** Confirm your wireless access point/router has the SecureEasySetup™, Wi-Fi Protected Setup or AOSS™ symbol as shown below.

- b** Place the Brother machine within range of your SecureEasySetup™, Wi-Fi Protected Setup or AOSS™ access point/router. The range may differ depending on your environment. Refer to the instructions provided with your access point/router.

- c** Push the SecureEasySetup™, Wi-Fi Protected Setup or AOSS™ button on your wireless access point/router. See the user's guide for your wireless access point/router for instructions.

- d** On your machine, press **Menu**.
Press **5** to choose 5.Network.
Press **3** to choose 3.SES/WPS/AOSS.

When *WLAN Enable ?* is displayed, press **1** to accept.
This will start the wireless setup wizard.

This feature will automatically detect which mode (SecureEasySetup™, Wi-Fi Protected Setup or AOSS™) your access point/router uses to configure your machine.

Note

If your wireless access point/router supports Wi-Fi Protected Setup (PIN Method) and you want to configure your machine using the PIN (Personal Identification Number) Method, see Using the PIN Method of Wi-Fi Protected Setup in the Network User's Guide on the CD-ROM.

- e** If the LCD shows *Connected*, the machine has successfully connected to your wireless access point/router. You can now use your machine in a wireless network.

If the LCD shows *Setting WLAN*, then *Connection Error*, a session overlap was detected. The machine has detected 2 or more wireless access points/routers on your network that have the SecureEasySetup™, Wi-Fi Protected Setup mode or AOSS™ mode enabled. Make sure that only one wireless access point/router has one of these modes enabled and try starting from **c** again.

If the LCD shows *Setting WLAN*, then *No Access Point*, the machine has not detected the access point/router on your network with the SecureEasySetup™, Wi-Fi Protected Setup or AOSS™ mode enabled. Move your machine close to the access point/router and try starting from **c** again.

If the LCD shows *Setting WLAN*, then *Connection Fail*, the machine has not successfully connected to your wireless access point/router. Try starting from **c** again. If the same message is indicated again, reset the machine back to the default factory settings and try again. For resetting, see *Restore the network settings to factory default* on page 45.

LCD messages when using the SES/WPS/AOSS control panel menu

<i>Setting WLAN</i>	<i>Searching for or accessing the access point, and downloading settings from the access point.</i>
<i>Connecting SES/WPS/AOSS</i>	<i>Connecting to the access point.</i>
<i>Connected</i>	<i>The machine has successfully connected.</i>
<i>Connection Error</i>	<i>A session overlap was detected.</i>
<i>No Access Point</i>	<i>The access point detection failed.</i>
<i>Connection Fail</i>	<i>Connection failed. The machine was not able to connect with the access point. Try the configuration from c on page 31 again.</i>

Note

You can also manually configure the wireless settings following the steps starting at step **18-a** on page 29.

- f** Press **OK**.

Wireless setup is now complete.

To install MFL-Pro Suite, continue to step **20**.

For Windows® Users:

Now go to

Page 33

For Macintosh Users:

Now go to

Page 38

Install the drivers & software

(Windows® 2000 Professional/XP/XP Professional x64 Edition/
Windows Vista®)

20 Before you install MFL-Pro Suite

a Make sure that your computer is ON and you are logged on with Administrator rights.

! IMPORTANT

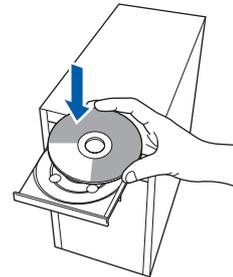

- If there are any programs running, close them.
- Make sure there are no memory cards or a USB Flash memory drive inserted into the machine.
- The screens may differ depending on your operating system.
- The supplied CD-ROM includes ScanSoft™ PaperPort™ 11SE. This software supports Windows® 2000 (SP4 or greater), XP (SP2 or greater), XP Professional x64 Edition and Windows Vista®. Update to the latest Windows® Service Pack before installing MFL-Pro Suite.

! IMPORTANT

Disable all personal firewall software (other than Windows® Firewall), anti-spyware or antivirus applications for the duration of the installation.

21 Install MFL-Pro Suite

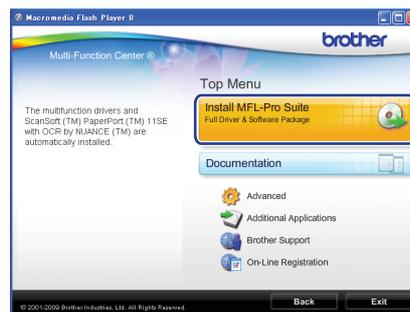

a Put the supplied CD-ROM into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

Note

If the Brother screen does not appear automatically, go to **My Computer (Computer)**, double-click the CD-ROM icon, and then double-click **start.exe**.

b The CD-ROM Top Menu will appear. Click **Install MFL-Pro Suite**.

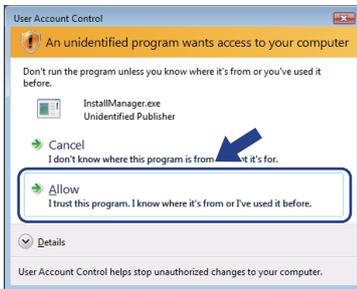

Note

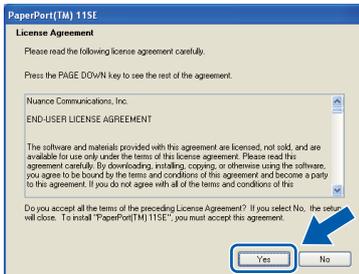

- If this screen appears, click **OK** and restart your computer.

- If the installation does not continue automatically, open the top menu again by ejecting and then reinserting the CD-ROM or double-click the **start.exe** program from the root folder, and continue from **b** to install MFL-Pro Suite.
- For Windows Vista®, when the **User Account Control** screen appears, click **Allow**.

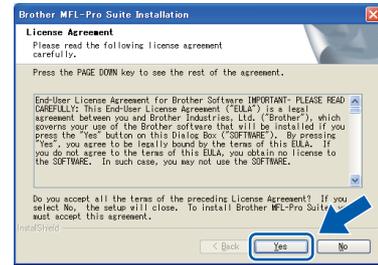

- c** When the ScanSoft™ PaperPort™ 11SE **License Agreement** window appears, click **Yes** if you agree to the Software **License Agreement**.

- d** The installation of ScanSoft™ PaperPort™ 11SE will automatically start and is followed by the installation of MFL-Pro Suite.

- e** When the Brother MFL-Pro Suite Software **License Agreement** window appears, click **Yes** if you agree to the Software **License Agreement**.

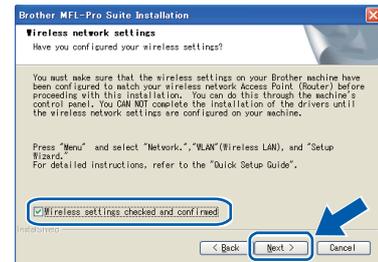

- f** Choose **Wireless Network Connection**, and then click **Next**.

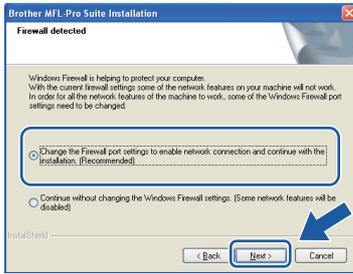

If you are using an antivirus software, a warning window might appear during the installation. If the warning dialog window appears, choose **allow** to continue installing.

- g** Click on **Wireless settings checked and confirmed** check box, and then click **Next**.

h For Windows® XP SP2 or greater/XP Professional x64 Edition/Windows Vista® users, when this screen appears, choose **Change the Firewall port settings to enable network connection and continue with the installation. (Recommended)** and click **Next**.

If you are using a firewall other than Windows® Firewall or Windows® Firewall is off, this screen may appear.

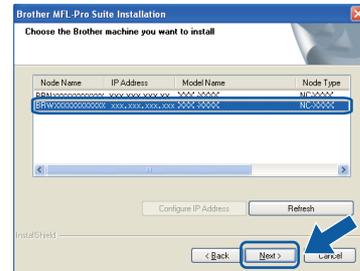

See the instructions provided with your firewall software for information on how to add the following network ports.

- For network scanning, add UDP port 54925.
- If you still have trouble with your network connection, add UDP port 137.

Note

- If there is more than one machine connected to the network, choose your machine from the list, and then click **Next**.

This window will not appear if there is only one machine connected on the network, it will be chosen automatically.

- If your wireless settings fail, an error message will appear during the installation of MFL-Pro Suite and the installation will be terminated. Confirm your settings by following the on-screen instructions. If you encounter this failure, go to step **18-a** on page 29 and setup the wireless connection again.

If you are using antivirus software or a firewall you should temporarily disable it.

- If you are using WEP and the LCD displayed *Connected* but your machine is not found, make sure you entered the WEP key correctly. The WEP key is case sensitive.
- If the IP address of the machine is not yet configured for use on your network, the following screen appears.

Click **OK** and then click **Configure IP Address**. Enter an IP address for your machine that is suitable for your network by following the on-screen instructions.

To confirm the IP address, print out the Network Configuration report by pressing **Menu, 6, 6** and **Black Start**. (For details, see Printing Reports in Chapter 9 of User's guide.)

i The installation of the Brother drivers will automatically start. The installation screens appear one after another.

! IMPORTANT

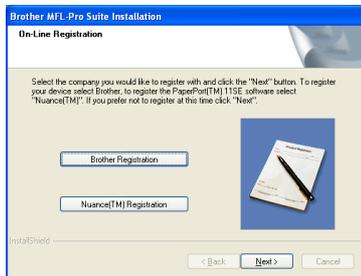

DO NOT cancel any of the screens during the installation. It may take a few seconds for all screens to appear.

Note

For Windows Vista®, when this screen appears, click the check box and click **Install** to complete the installation correctly.

j When the **On-Line Registration** screen is displayed, make your selection and follow the on-screen instructions. Once you have completed the registration process, close your web browser to return to this window. Then click **Next**.

22 Finish and restart

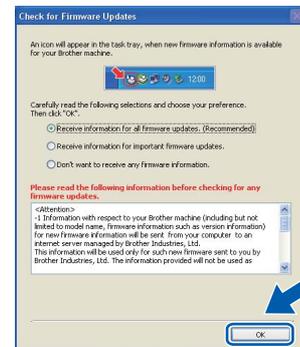

a Click **Finish** to restart your computer. After restarting the computer, you must be logged on with Administrator rights.

Note

- If an error message appears during the software installation, run the **Installation Diagnostics** located in **Start/All Programs/Brother/MFC-XXXX** (where MFC-XXXX is your model name).
- If you are using an antivirus software, a warning window might appear when using the machine. If the warning dialog window appears, allow access to continue.

b Choose the firmware update setting and click **OK**.

Note

Internet access is required for the firmware update.

23 Install MFL-Pro Suite on additional computers (if needed)

If you want to use your machine with multiple computers on the network, install MFL-Pro Suite on each computer. Go to step **20** on page 33.

Note

Network license (Windows®)

This product includes a PC license for up to 2 Users.

This license supports the installation of the MFL-Pro Suite including ScanSoft™ PaperPort™ 11SE on up to 2 PCs on the network.

If you want to use more than 2 PCs with ScanSoft™ PaperPort™ 11SE installed, please purchase the Brother NL-5 pack which is a multiple PC license agreement pack for up to 5 additional users. To purchase the NL-5 pack, contact your authorized Brother dealer or contact Brother customer service.

Finish

The installation is now complete.

Now go to

Proceed to Install Optional Applications on page 40.

Note

XML Paper Specification Printer Driver

The XML Paper Specification Printer Driver is the most suitable driver when printing from applications that use the XML Paper Specification documents. Please download the latest driver by accessing the Brother Solutions Center at <http://solutions.brother.com/>.

Install the drivers & software (Mac OS X 10.3.9 or greater)

20 Before you install MFL-Pro Suite

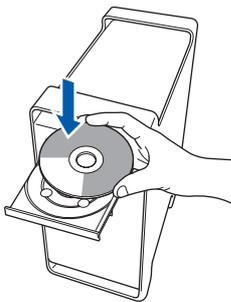

- a** Make sure your machine is connected to the power and your Macintosh is ON. You must be logged on with Administrator rights.

! IMPORTANT

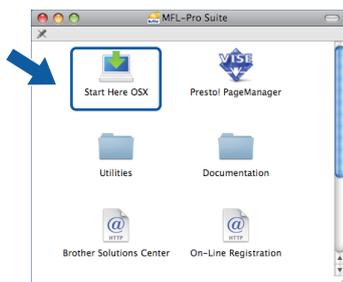

- For the latest drivers and information on the Mac OS X you are using, visit <http://solutions.brother.com/>.
- For Mac OS X 10.3.0 to 10.3.8 users, upgrade to Mac OS X 10.3.9 or greater.
- Make sure there are no memory cards or a USB Flash memory drive inserted into the machine.

21 Install MFL-Pro Suite

- a** Put the supplied CD-ROM into your CD-ROM drive.

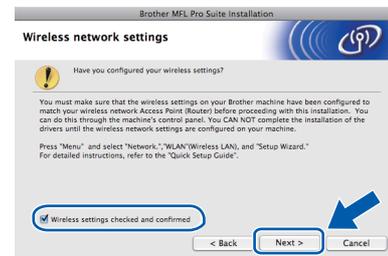

- b** Double-click the **Start Here OSX** icon to install.

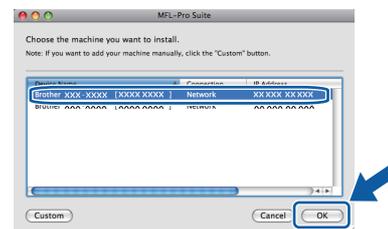

- c** Choose **Wireless Network Connection**, and then click **Next**.

- d** Click on the **Wireless settings checked and confirmed** check box, and then click **Next**. Follow the on-screen instructions.

- e** Please wait, it will take a few seconds for the software to install. After the installation, click **Restart** to finish installing the software.
- f** The Brother software will search for the Brother device.
- g** If the machine is configured for your network, choose the machine from the list, and then click **OK**.

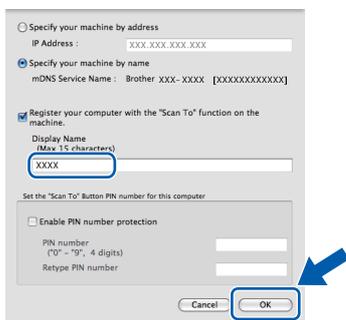

Note

- If your wireless settings fail, the installation of the MFL-Pro software will be terminated. Confirm your network settings. If you encounter this failure, go to step **18-a** on page 29 and set up the wireless connection again.
- If this screen appears click **OK**.

Enter a name for your Macintosh in **Display Name** up to 15 characters long and click **OK**. Go to **h**.

The name you enter will appear on the machine's LCD when you press the **Scan** key and choose a scan option. (For more information, see Network Scanning in the Software User's Guide on the CD-ROM.)

- h** When this screen appears, click **OK**.

- OK!** The installation of MFL-Pro Suite is now complete. Go to step **22** on page 39.

22 Install Presto! PageManager

When Presto! PageManager is installed OCR capability is added to Brother ControlCenter2. You can easily scan, share and organize photos and documents using Presto! PageManager.

- a** Double-click the **Presto! PageManager** icon and follow the on-screen instructions.

23 Install MFL-Pro Suite on additional computers (if needed)

If you want to use your machine with multiple computers on the network, install MFL-Pro Suite on each computer. Go to step **20** on page 38.

Finish

The installation is now complete.

1 Install FaceFilter Studio supported by Reallusion, Inc

FaceFilter Studio is an easy-to-use borderless photo printing application. FaceFilter Studio also lets you edit your photo data and add photo effects such as red eye reduction or skin tone enhancement.

! IMPORTANT

- The machine must be ON and connected to the computer.
- The computer must be connected to the Internet.
- Make sure you are logged on with Administrator rights.

- Open the top menu again by ejecting and then reinserting the CD-ROM or by double-clicking the **start.exe** program from the root folder.
- The CD-ROM Top Menu will appear. Choose your language and then click **Additional Applications**.

- Click the **FaceFilter Studio** button to install.

2 Install FaceFilter Studio Help

To get instructions on how to use FaceFilter Studio, download and install FaceFilter Studio Help.

- To run FaceFilter Studio, go to **Start/All Programs/Reallusion/FaceFilter Studio** on your computer.
- Click the **?** button on the upper right corner of the screen.
- Click **Check for updates** to go to the Reallusion update web page.

- Click the **Download** button and choose a folder to save the file in.
- Close FaceFilter Studio before you start the installer for FaceFilter Studio Help. Double-click the downloaded file from the folder you specified and follow the on-screen instructions for installation.

Note

To view the complete FaceFilter Studio Help, choose **Start/All Programs/Reallusion/FaceFilter Studio/FaceFilter Studio Help** on your computer.

3 Install BookScan&Whiteboard Suite supported by Reallusion, Inc

You can install **BookScan&Whiteboard Suite**. The **BookScan Enhancer** software can correct your scanned book images automatically. The **Whiteboard Enhancer** software cleans up and enhances text and images from photos taken of your whiteboard. (Internet access required.)

! IMPORTANT

- The machine must be ON and connected to the computer.
- The computer must be connected to the Internet.

a Open the top menu again by ejecting and then reinserting the CD-ROM or by double-clicking the **start.exe** program from the root folder.

b The CD-ROM Top Menu will appear. Choose your language and then click **Additional Applications**.

c Click the **BookScan&Whiteboard Suite** button to install.

Repair network connection problems for Windows® users

Correcting an offline condition

When you try to print over the network, Windows® indicates that the printer is offline and your document does not print. To resolve this issue please visit the Brother Solutions Center at <http://solutions.brother.com/>.

Go to the FAQ section for your model and search for FAQ ID: **faq002586**

Network connection repair tool (MFC-255CW only)

If you cannot print to your machine over the network, and this screen appears, do one of the following.

- Check 1 and 2, if the problem is solved, click **Complete**.
- If the problem is not solved, click **Next**, and follow the on-screen instructions. The Network connection repair tool will automatically start and try to correct your network printing problem.

Note

For Windows Vista®, when the **User Account Control** screen appears, click **Allow**.

When you have completed the instructions click on **Print Test Page** from the tool. The test page will confirm the network connection to the machine is working.

IMPORTANT

The Network connection repair tool will only repair the connection for printing. If you are using Network Scan, PC-Fax or Remote Setup you will need to reinstall the Brother MFL-Pro Suite software. Please go to **How to remove and reinstall the drivers**.

How to remove and reinstall the drivers

Before you uninstall the drivers you must first printout the Network Configuration Report. You will need the IP address information on this report when you reinstall the drivers.

How to print the Network Configuration Report

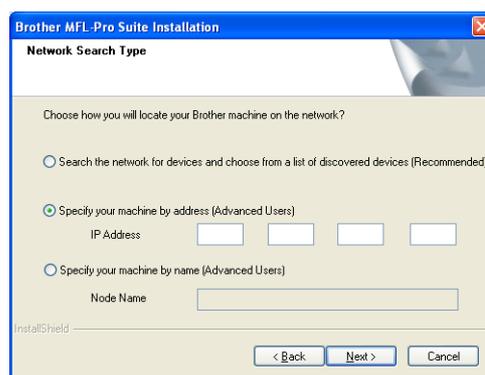

- a** Press **Menu, 6, 6** and then press **Start**.

How to uninstall

- a** Choose **Start/All Programs/Brother/MFC-XXX LAN** (MFC-XXX is your model name). Select **Uninstall** and follow the on-screen instructions.

How to reinstall

- a** Insert the CD-ROM included with your machine.
- b** Choose **Install MFL-Pro Suite**.
- c** When the **Connection Type** screen appears, choose **Wireless Network Connection** and then click the **Custom Install** check box. Then click **Next**.
- d** When the following screen appears, choose **Specify your machine by address** and enter the IP Address that is shown on the Network Configuration Report that you printed from the machine. Click **Next**.

- e** Follow the on-screen instructions to complete the installation.

BRAdmin Light utility (for Windows® users)

BRAdmin Light is a utility for initial setup of Brother network connected devices. It also can search for Brother products on your network, view the status and configure basic network settings, such as IP address. For more information on BRAdmin Light, visit us at <http://solutions.brother.com/>.

Note

If you require more advanced printer management, use the latest Brother BRAdmin Professional utility version that is available as a download from <http://solutions.brother.com/>.

Install the BRAdmin Light configuration utility

- a** Click **Advanced** and then **Network Utilities** on the menu screen.

- b** Click **BRAdmin Light** and follow the on-screen instructions.

Set your IP address, Subnet Mask and Gateway using BRAdmin Light

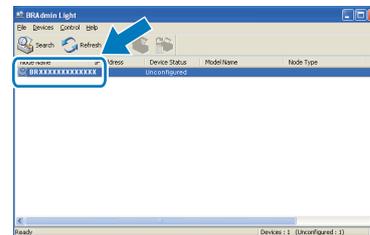

Note

If you have a DHCP/BOOTP/RARP server in your network, you don't have to do the following operation. The machine will automatically obtain its own IP address.

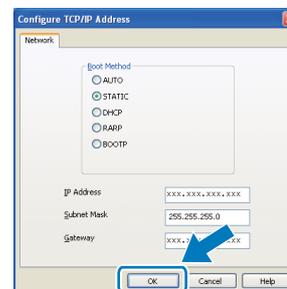

- a** Start BRAdmin Light. It will search for new devices automatically.

- b** Double-click the unconfigured device.

- c** Choose **STATIC** for the **Boot Method**. Enter the **IP Address**, **Subnet Mask** and **Gateway**, and then click **OK**.

- d** The address information will be saved to the machine.

BRAdmin Light utility (for Mac OS X users)

BRAdmin Light is a utility for initial setup of Brother network connected devices. It also can search for Brother products on your network, view the status and configure basic network settings, such as IP address from a computer running Mac OS X 10.3.9 or greater.

The BRAdmin Light software will be installed automatically when you install the printer driver. If you have already installed the printer driver, you don't have to install BRAdmin Light again. For more information on BRAdmin Light, visit us at <http://solutions.brother.com/>.

Set your IP address, Subnet Mask and Gateway using BRAdmin Light

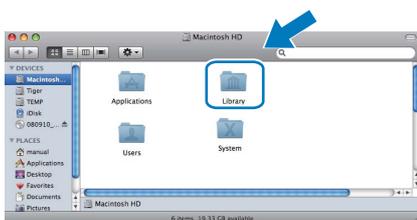

Note

- If you have a DHCP/BOOTP/RARP server in your network, you don't have to do the following operation. The machine will automatically obtain its own IP address.
- Make sure that version 1.4.2 or later of Java™ client software is installed on your computer.

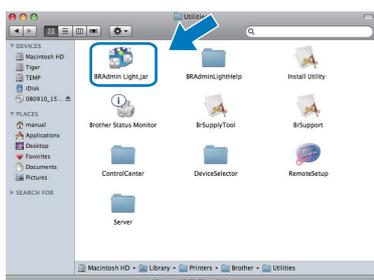

- a** Double-click the **Macintosh HD** icon on your desktop.

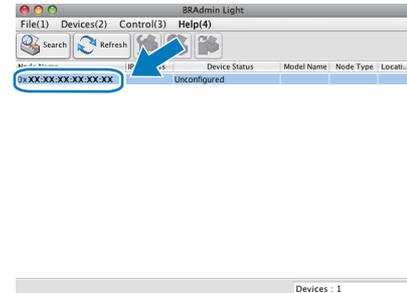

- b** Choose **Library**, **Printers**, **Brother** and then **Utilities**.

- c** Double-click the file **BRAdmin Light.jar** and run the software. BRAdmin Light will then search for new devices automatically.

- d** Double-click the unconfigured device.

- e** Choose **STATIC** for the **Boot Method**. Enter the **IP Address**, **Subnet Mask** and **Gateway**, and then click **OK**.

- f** The address information will be saved to the machine.

Restore the network settings to factory default

To restore all network settings of the internal Print/Scan server to factory default, please follow the steps below.

- a** Make sure the machine is not operating, then disconnect all the cables from the machine (except the power cord).
- b** Press **Menu, 5, 0**.

- c** Press **1** to choose **1.Reset**.
- d** Press **1** to choose **Yes**.
- e** The machine will restart, re-connect cables once this is complete.

Entering Text for Wireless Settings (MFC-255CW only)

Most number keys have three or four letters printed on them. The keys for **0**, **#** and ***** do not have printed letters because they are used for special characters.

By pressing the proper number key repeatedly, you can access the character you want.

For configuring wireless network settings

Press Key	One time	Two times	Three times	Four times	Five times	Six times	Seven times	Eight times
2	a	b	c	A	B	C	2	a
3	d	e	f	D	E	F	3	d
4	g	h	i	G	H	I	4	g
5	j	k	l	J	K	L	5	j
6	m	n	o	M	N	O	6	m
7	p	q	r	s	P	Q	R	S
8	t	u	v	T	U	V	8	t
9	w	x	y	z	W	X	Y	Z

Putting spaces

To enter a space in a name, press **▶** twice between characters.

Making corrections

If you entered a letter incorrectly and want to change it, press **◀** or **▶** to move the cursor under the incorrect character, press **Clear/Back**. Re-enter the correct character. You can also back up and insert letters.

Repeating letters

If you need to enter a letter that is on the same key as the letter before, press **▶** to move the cursor right before you press the key again.

Special characters and symbols

Press *****, **#** or **0**, and then press **◀** or **▶** to move the cursor under the special character or symbol you want.

Press **OK** to select it.

Press ***** for (space)! " # \$ % & ' () * + , - . /

Press **#** for ; : < = > ? @ [] ^ _

Press **0** for 0 \ { } ~

Replacement consumables

When the time comes to replace ink cartridges, an error message will be indicated on the LCD. For more information about the ink cartridges for your machine, visit <http://www.brother.com/original/> or contact your local Brother re-seller.

Ink cartridge

Black	Yellow	Cyan	Magenta
LC61BK	LC61Y	LC61C	LC61M
			

What is Innobella™?

Innobella™ is a range of genuine consumables offered by Brother. The name "Innobella™" derives from the words "Innovation" and "Bella" (meaning "Beautiful" in Italian) and is a representation of the "innovative" technology providing you with "beautiful" and "long lasting" print results.
