Quick Setup Guide Start Here

Before you can use the machine, read this Quick Setup Guide for the correct setup and installation. To help you get your machine ready for use as soon as possible this guide leaves most of your machine's features at their factory default settings. For detailed information on how to use all the features, change the default settings, or to troubleshoot your machine please refer to the User's Guide.

To view the Quick Setup Guide in other languages, please visit http://solutions.brother.com/.

IMPORTANT

Unpack the machine and check the components

WARNING

Plastic bags are used in the packaging of your machine. To avoid danger of suffocation, please keep these bags away from babies and children.

🖉 Note

- The components included in the box may differ depending on your country.
- Save all packing materials and the box in case for any reason you must ship your machine.
- The interface cable is not a standard accessory. Buy the appropriate interface cable for the interface you want to use (USB or Network).
- To ensure safe operation the supplied plug must be inserted only into a standard power outlet that is properly grounded through the standard electrical wiring. Non grounded equipment may cause an electrical shock hazard, and may cause excessive electrical noise radiation.

USB cable

- Please make sure you use a USB 2.0 cable (Type A/B) that is no longer than 2 metres.
- DO NOT connect the interface cable at this time. Connecting the interface cable is done during MFL-Pro installation process.
- When you use a USB cable, make sure you connect it to the USB port of your computer and not to a USB port on a keyboard or non-powered USB hub.

Network cable

Use a straight-through Category5 (or greater) twisted-pair cable for 10BASE-T or 100BASE-TX Fast Ethernet Network.

WARNINGs tell you what to do to prevent possible personal injury. A WARNING CAUTIONs specify procedures you must follow or avoid to prevent possible A CAUTION minor injuries. IMPORTANT describes procedures you must follow or avoid to prevent IMPORTANT possible machine problems or machine damage, or damage to other objects. Electrical Hazard icons alert you to a possible electrical shock. Hot Surface icons warn you not to touch machine parts that are hot. Notes tell you how you should respond to a situation that may arise or give tips Note about how the current operation works with other features. User's Guide Indicates reference to the User's Guide, Software User's Guide or Network User's Guide. Software User's Guide Network User's Guide

Symbols used in this guide

A CAUTION

When you move the machine, grasp the side hand holds that are located at the bottom of the machine. DO NOT carry the machine by holding the scanner unit.

Note Keep a minimum gap around the machine as shown in the illustration.

Install the drum unit and toner cartridge assembly

IMPORTANT

DO NOT connect the interface cable yet.

- Remove the protective tape and film covering the scanner glass.
- Press the front cover release button and open the front cover **1**.

C Unpack the drum unit and toner cartridge assembly.

C Gently shake it from side to side several times to distribute the toner evenly inside the assembly.

Put the drum unit assembly into the machine until it clicks into place.

Close the front cover of the machine.

f

Pull the paper tray completely out of the machine.

While pressing the blue paper-guide release lever 1, slide the paper guides to fit the paper size you are loading in the tray. Make sure that the guides are firmly in the slots.

🖉 Note

For Legal or Folio size paper, press the release button 1 in the bottom of the paper tray and then pull out the back of the paper tray. (Legal or Folio size paper are not available in some regions.)

C Fan the stack of paper well to avoid paper jams and misfeeds.

C Put paper in the tray, and make sure that the paper is below the maximum paper mark **1**. The side to be printed on must be face down.

IMPORTANT

Make sure the paper guides touch the sides of the paper so it will feed correctly.

- Put the paper tray firmly back in the machine. Make sure that it is completely inserted into the machine.
- **1** Unfold the support flap **1** to prevent paper from sliding off the face-down output tray.

Connect the power cord and telephone line

IMPORTANT

DO NOT connect the interface cable yet.

A Make sure that the machine's power switch is off. Connect the AC power cord to the machine.

Plug the AC power cord into an AC outlet. Turn the power switch on.

C Connect the telephone line cord. Connect one end of the telephone line cord to the socket on the machine marked **LINE** and the other end to a modular wall socket.

IMPORTANT

The telephone line cord MUST be connected to the socket on the machine marked LINE.

WARNING

The machine must be grounded using an earthed plug.

Since the machine is grounded through the power outlet, you can protect yourself from potentially hazardous electrical conditions on the telephone network by keeping the power cord connected to your machine when you connect it to a telephone line. Similarly, you can protect yourself when you want to move your machine by disconnecting the telephone line first and then the power cord.

🖉 Note

If you are sharing one telephone line with an external telephone, connect it as shown below.

Before you connect the external telephone, remove the protective cap **1** from the **EXT.** jack on the machine.

🖉 Note

If you are sharing one telephone line with an external telephone answering machine, connect it as shown below.

Before you connect the external telephone answering machine, remove the protective cap **1** from the **EXT.** jack on the machine.

Set the receive mode to External TAD if you have an external answering machine. See Choose a Receive Mode on page 8. For additional details, see Connecting an external TAD (telephone answering device) in Chapter 7 of the User's Guide.

Set your country (for Australia/New Zealand customer only)

You must set your country so that the machine works correctly on local telecommunication lines in each country.

 Check that the power is turned on by plugging in the power cord and turn the power switch on.
 Press **OK**.

> Set Country Press OK Key

Press or to choose the country (Australia or New Zealand).

> Australia Select **▲V** or OK

- C Press **OK** when the LCD shows your country.
- C The LCD prompts you to make sure of the country again.

If the LCD shows the correct country, press 1 to go to Step f.

__OR__

f

Press ${\bf 2}$ to go back to Step ${\bf b}$ to choose the country again.

After the LCD shows Accepted, the machine will restart automatically. After the restart, the LCD shows Please Wait.

Choose a Receive Mode

There are four possible receive modes: Fax Only, Fax/Tel, Manual and External TAD.

Set the LCD contrast (if needed)

If you are having difficulty reading the LCD, try changing the contrast setting.

Set the date and time

The machine displays the time, and if you set up the station ID the date and time will be added to each fax you send.

- а Press Menu.
- h Press 0.
- С Press 2.
- d

Enter the last two digits of the year on the dial pad, and then press OK.

Date&Time Year:2009

(e.g. Enter 0, 9 for 2009.)

e Enter the two digits for the month on the dial pad, and then press OK.

Date&Time Month:03

(e.g. Enter 0, 3 for March.)

f Enter the two digits for the day on the dial pad, and then press **OK**.

> Date&Time Day:25

(e.g. Enter 2, 5.)

Enter the time in 24-hour format on the dial q pad, and then press OK.

> Date&Time Time:15:25

(e.g. Enter 1 5, 2 5 for 3:25 P.M.)

h Press Stop/Exit.

Enter personal information (station ID)

You should store your name and fax number to be printed on all fax pages that you send.

- а Press Menu.
- h Press 0.
- С Press 3.
- d Enter your fax number (up to 20 digits) on the dial pad, and then press OK.

e Enter your telephone number (up to 20 digits) on the dial pad, and then press **OK**. If your telephone number and fax number are the same, enter the same number again.

Use the dial pad to enter your name (up to 20 characters), and then press OK.

Stat	ion	ID
Name	:	

Note

f

- See the following chart for entering your name.
- If you need to enter a character that is on the same key as the last character, press **>**) to move the cursor to the right.
- If you entered a letter incorrectly and want to change it, press < or > to move the cursor to the incorrect character, press Clear/Back

Press key	One time	Two times	Three times	Four times	Five times
2	A	В	С	2	А
3	D	E	F	3	D
4	G	Н	Ι	4	G
5	J	К	L	5	J
6	М	Ν	0	6	М
7	Р	Q	R	S	7
8	Т	U	V	8	Т
9	W	Х	Y	Z	9

For more details, see Entering Text in the User's Guide.

Press Stop/Exit.

🖉 Note

q

If you make a mistake and want to start again, press **Stop/Exit** and go back to step **a**.

10 Fax Transmission Report

Your Brother machine is equipped with a Transmission Verification Report that can be used as confirmation that you sent a fax. This report lists the name or fax number of the receiving party, the date, time, and duration of the transmission, the number of pages transmitted, and whether or not the transmission was successful. If you want to use the Fax Transmission Report feature see Chapter 11 *Printing Reports* in the *User's Guide*.

11

Set tone or pulse dialling mode (not available in New Zealand)

Your machine comes set for Tone dialling service. If you have Pulse dialling service (rotary), you need to change the dialling mode.

Press Stop/Exit.

The dial prefix setting will automatically dial a predefined number before every fax number you dial. For example: If your phone system requires a 9 to dial an outside number this setting will automatically dial 9 for every fax you send.

- Press Menu.
- Press 0.
- C Press 6 (For New Zealand, press 5).
- C Enter the prefix number (up to 5 digits) on the dial pad, and then press **OK**.

🖉 Note

You can use the number 0 to 9, #, * and !. (Press **Hook** to display "!".)

You cannot use ! with any other numbers or characters.

If your telephone system requires a timed break recall (hookflash), press **Hook** *to enter the break.*

Press Stop/Exit.

You can set the machine to change for Daylight Saving Time. If you choose On, it will reset the time forward one hour and if you choose Off, it will reset the time backward one hour.

a	Press Menu.
b	Press 1.
С	Press 4.
d	Press or to choose On or Off.
e	Press OK.
f	Press 1 or 2 to choose 1. Change or 2. Exit.
g	Press Stop/Exit.

Choose your connection type

For USB Interface Users

Windows[®], go to page 12 Macintosh, go to page 16

모

For Wired Network

Windows[®], go to page 18 Macintosh, go to page 22

For Windows Server[®] 2003/ 2008, see the *Network User's Guide* on the CD-ROM.

For USB Interface Users (Windows[®] 2000 Professional/XP/XP Professional x64 Edition/ Windows Vista[®])

Before you install

A Make sure that your computer is ON and you are logged on with Administrator rights.

IMPORTANT

- DO NOT connect the USB cable yet.
- If there are any programs running, close them.
- Make sure a USB Flash memory drive is not inserted into the machine.
- The screen may differ depending on the operating system.
- The supplied CD-ROM includes ScanSoft[™] PaperPort[™] 11SE. This software supports Windows[®] 2000 (SP4 or greater), XP (SP2 or greater), XP Professional x64 Edition and Windows Vista[®]. Update to the latest Windows[®] Service Pack before installing MFL-Pro Suite.
- Turn off and unplug the machine from the AC outlet and disconnect it from your computer, if you already connected an interface cable.

Install MFL-Pro Suite

Put the supplied CD-ROM into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

🖉 Note

If the Brother screen does not appear automatically, go to **My Computer (Computer)**, double-click the CD-ROM icon, and then double-click **Start.exe**.

The CD-ROM top menu will appear. Click Initial Installation.

Click Install MFL-Pro Suite.

Windows[®]

🖉 Note

d

- If the installation does not continue automatically, open the top menu again by ejecting and then reinserting the CD-ROM or double-click the Start.exe program from the root folder, and continue from step c to install MFL-Pro Suite.
- For Windows Vista[®], when the User Account Control screen appears, click Allow.

When the ScanSoft™ PaperPort™ 11SE License Agreement window appears, click Yes if you agree to the Software License Agreement.

ense Agreement	
Yease read the following license agreement carefully.

🖉 Note

i

For Windows Vista[®], when this screen appears, click the check box and click **Install** to complete the installation correctly.

When this screen appears, go to the next step.

IMPORTANT

- DO NOT connect the machine to a USB port on a keyboard or a non-powered USB hub.
- Connect the machine directly to your computer.
- Remove the label covering the USB interface connector.

Connect the USB cable to the USB connector on the machine marked with the K symbol. Then connect the cable to your computer.

18

Connect the power cord

Plug the AC power cord into an AC outlet. Turn the power switch on.

The installation of the Brother drivers will automatically start.

The screens appear one after another.

IMPORTANT

DO NOT cancel any of the screens during the installation. It may take a few seconds for all screens to appear.

When the **On-Line Registration** screen is displayed, make your selection and follow the on-screen instructions. Once you have completed the registration process, close your web browser to return to this window. Then click **Next**.

Windows[®]

Finish and restart

Click Finish to restart your computer. After restarting the computer, you must be logged on with Administrator rights.

🖉 Note

b

If an error message appears during the software installation, run the Installation Diagnostics located in Start/All Programs/Brother /MFC-XXXX (where MFC-XXXX is your model name).

If this screen appears, choose the firmware update setting and click **OK**.

🖉 Note

Internet access is required for the firmware upgrade.

The installation is now complete.

🖉 Note

XML Paper Specification Printer Driver

The XML Paper Specification Printer Driver is the most suitable driver when printing from the applications that use the XML Paper Specification documents. Please download the latest driver by accessing the Brother Solutions Center at http://solutions.brother.com/.

For USB Interface Users (Mac OS X 10.3.9 or greater)

USB

Before you install

Make sure your machine is connected to the power and your Macintosh is ON. You must be logged on with Administrator rights.

IMPORTANT

Make sure a USB Flash memory drive is not inserted into the machine.

IMPORTANT

- DO NOT connect the machine to a USB port on a keyboard or a non-powered USB hub.
- Connect the machine directly to your Macintosh.
- Remove the label covering the USB interface connector.

Connect the USB cable to the USB connector on the machine marked with the +++ symbol. Then connect the cable to your computer.

Install MFL-Pro Suite

Put the supplied CD-ROM into your CD-ROM drive.

Double-click Start Here OSX to install.

Please wait, it will take a few seconds for the software to install. After the installation, click **Restart** to finish installing the software.

🖉 Note

Please see the Software User's Guide on the CD-ROM if you want to install the PS driver. (Brother's BR-Script Driver)

C The Brother software will search for the Brother device. During this time the following screen will appear.

Brother Solutions Cente	er On-Line Registration) 4 4

Install MFL-Pro Suite on additional computers (if needed)

If you want to use your machine with multiple computers on the network, install MFL-Pro Suite on each computer. Go to step **17** on page 22.

The installation is now complete.

For Network Users

BRAdmin Light utility (for Windows[®] users)

BRAdmin Light is a utility for initial setup of Brother network connected devices. It also can search for Brother products on your network, view the status and configure basic network settings, such as IP address. For more information on BRAdmin Light, visit us at <u>http://solutions.brother.com/</u>.

🖉 Note

If you require more advanced printer management, use the latest Brother BRAdmin Professional utility version that is available as a download from <u>http://solutions.brother.com/</u>.

Install the BRAdmin Light configuration utility

Click Network Utilities on the menu screen.

Click **BRAdmin Light** and follow the on-screen instructions.

Set your IP address, Subnet Mask and Gateway using BRAdmin Light

🖉 Note

If you have a DHCP/BOOTP/RARP server in your network, you do not have to do the following operation. The machine will automatically obtain its own IP address.

Start BRAdmin Light. It will search for new devices automatically.

Searching for Devices	X
Searching network for 6 seconds.	Stop Searching
New Device: 1 (Unconfigured: 1)	

Double-click the unconfigured device.

🖉 Note

b

The default password for the machine is 'access'. You can use BRAdmin Light to change this password.

C Choose STATIC for the Boot Method. Enter the IP Address, Subnet Mask and Gateway, and then click OK.

Boot Method	
OAUTO	
STATIC	
OHOP	
ORARP	
OBOOTP	
IP Address	***.***.***
Subnet Mask	255,255,255,0
Gateway	xxx.

d -

The address information will be saved to the machine.

For Network Users

BRAdmin Light utility (for Mac OS X users)

BRAdmin Light is a utility for initial setup of Brother network connected devices. It also can search for Brother products on your network, view the status and configure basic network settings, such as IP address from a computer running Mac OS X 10.3.9 or greater.

The BRAdmin Light software will be installed automatically when you install the printer driver. If you have already installed the printer driver, you do not have to install BRAdmin Light again. For more information on BRAdmin Light, visit us at <u>http://solutions.brother.com/</u>.

f

Set your IP address, Subnet Mask and Gateway using BRAdmin Light

🖉 Note

- If you have a DHCP/BOOTP/RARP server in your network, you do not have to do the following operation. The machine will automatically obtain its own IP address.
- Make sure that version 1.4.2 or greater of Java client software is installed on your computer.
- The default password for the machine is 'access'. You can use BRAdmin Light to change this password.

Double-click Macintosh HD on your desktop.

Choose Library, Printers, Brother and then Utilities.

		Macintosh HD	
Network Network Toper Mac OS X Movies Documents Movies Movies Movies Placures	Applications Users	Ubary Depications Max 05 9	System System Folder
	8 items, 3	186.5 MB available	

C Double-click the file **BRAdmin Light.jar** and run the software. BRAdmin Light will then search for new devices automatically.

Double-click the unconfigured device.

Choose STATIC for Boot Method. Enter the IP Address, Subnet Mask and Gateway, and then click OK.

Boot Method	
O AUTO	
STATIC	
O DHCP	
O RARP	
O BOOTP	
IP Address	XXX.XXX.XXX.XXX
Subnet Mask	255.255.255.0
Gateway	XXX.XXX.XXX
	Cancel

The address information will be saved to the machine.

For Network Users

Web Based Management (web browser)

The Brother print server is equipped with a web server that allows you to monitor its status or change some of its configuration settings, using HTTP (Hyper Text Transfer Protocol).

🖉 Note

- The User Name is 'admin' and the default password is 'access'. You can use a web browser to change this password.
- We recommend Microsoft[®] Internet Explorer 6.0[®] (or higher) or Firefox 1.0 (or higher) for Windows[®] and Safari 1.3 for Macintosh. Please also make sure that JavaScript and cookies are always enabled in whichever browser you use. To use a web browser, you will need to know the IP address of the print server. The IP address of the print server is listed on the Network Configuration List.
- Open your browser.
- Type http:// printer_ip_address /into your browser (Where "printer_ip_address" is the IP address of the printer or the print server name).

You can find the IP address of the machine on the Network Configuration List. See *Print the Network Configuration List* on page 26. For example http://192.168.1.2/

See Chapter 11 of the Network User's Guide.

Print the Network Configuration List

You can print the Network Configuration List to confirm the current network settings. To print the Network Configuration List:

- Make sure that the front cover is closed and the AC power cord is plugged in.
- Turn on the machine and wait until the machine is in the Ready state.
- C Press Menu, 6, 6.
- Press Start.

The machine will print the current network settings.

Restore the network settings to factory default

To restore all network settings of the internal Print/Scan server to factory default, please follow the steps below.

- Make sure the machine is not operating, then disconnect all the cables from the machine (except the power cord).
- Press Menu, 7, 0.
- C Press 1 to choose Reset.
- Press 1 to choose Yes.
- C The machine will restart, re-connect cables once this is complete.

Options
