

Quick Setup Guide

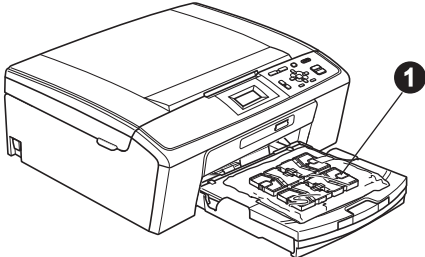

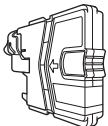

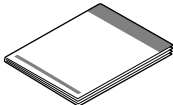

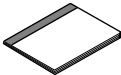

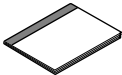

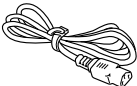

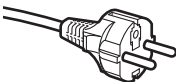

Start Here

DCP-J315W

Before you can use the machine, please read this Quick Setup Guide for the correct setup and installation.

 WARNING	WARNING indicates a potentially hazardous situation which, if not avoided, could result in death or serious injuries.
 CAUTION	CAUTION indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injuries.

1 Unpack the machine and check the components

		 <p>Inbox Ink Cartridges [x4]</p> <p>Black Yellow Cyan Magenta (Approx. 65% yield of the replacement cartridge) For details, see <i>Consumable items</i> in the <i>Basic User's Guide</i>.</p>	 <p>Quick Setup Guide</p>
 <p>Basic User's Guide</p>	 <p>Safety and Legal booklet</p>	 <p>Installation CD-ROM Documentation CD-ROM</p>	 <p>USB Interface Cable</p>
 <p>Power Cord</p>	 <p>Australia & New Zealand</p>	 <p>Hong Kong, Malaysia & Singapore</p>	 <p>South Africa</p>
 <p>Thailand</p> <p>The supplied mains plug is a grounded three pin plug.</p>			<p>The supplied mains plug is a side grounded two pin plug.</p>
<p>Make sure that the AC socket will accept the supplied grounded pin plug. This machine must be grounded. If in doubt, call a qualified electrician.</p>			

WARNING

- Plastic bags are used in the packaging of your machine. To avoid danger of suffocation, please keep these bags away from babies and children.
- To ensure safe operation the supplied plug must be inserted only into a standard power outlet that is properly grounded through the standard electrical wiring. Non grounded equipment may cause an electrical shock hazard, and may cause excessive electrical noise radiation.

- Remove the protective tape and film covering the machine, and also from the LCD.
- Remove the plastic bag  containing the ink cartridges from on top of the paper tray.
- Make sure you have all components.

Note

- The components included in the box may differ depending on your country.
- Save all packing materials and the box in case for any reason you must ship your machine.
- Please use the supplied USB cable for a USB connection.

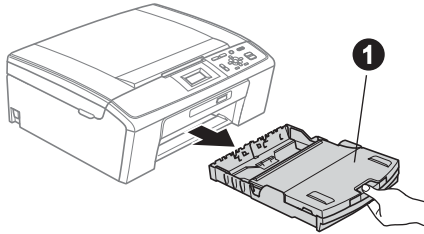

USB cable

Please make sure you use a USB 2.0 cable (Type A/B) that is no more than 2 metres long.

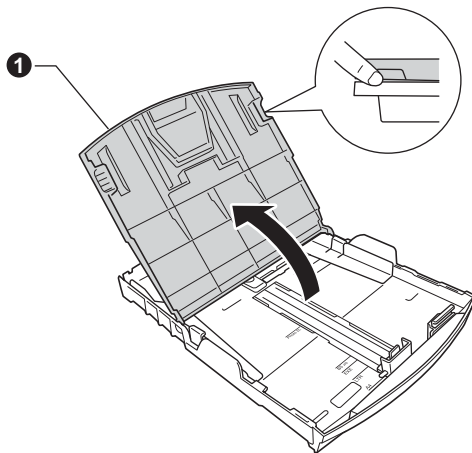

2

Load plain A4 paper

- a** Pull the paper tray **1** completely out of the machine.

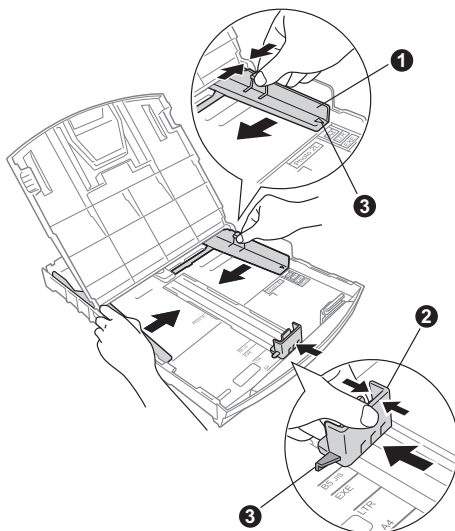

- b** Lift the output paper tray cover **1**.

- c** With both hands, gently press and slide the paper side guides **1** and then the paper length guide **2** to fit the paper size.

Make sure that the triangular marks **3** on the paper side guides **1** and paper length guide **2** line up with the mark for the paper size you are using.

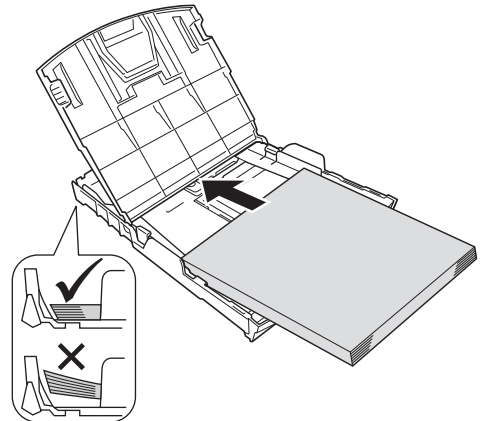

- d** Fan the stack of paper well to avoid paper jams and misfeeds.

- e** Gently put the paper into the paper tray print side down and top edge first. Check that the paper is flat in the tray.

! IMPORTANT

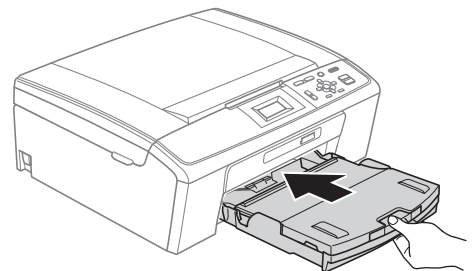

DO NOT push the paper in too far.

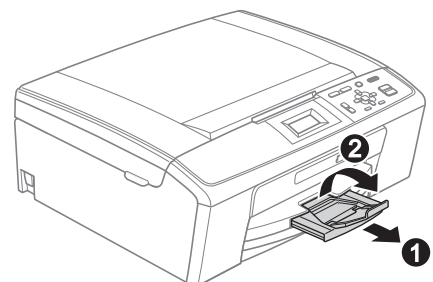

- f** Gently adjust the paper side guides to the paper with both hands. Make sure that the paper side guides touch the edges of the paper.

- g** Close the output paper tray cover.

- h** *Slowly* push the paper tray completely into the machine.

- i** While holding the paper tray in place, pull out the paper support **1** until it clicks, and then unfold the paper support flap **2**.

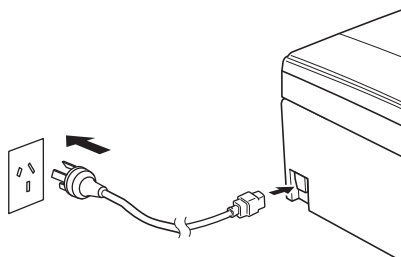

3

Connect the power cord

! IMPORTANT

DO NOT connect the USB cable yet (if you are using a USB cable).

- a** Connect the power cord.

! WARNING

The machine must be fitted with an earthed plug.

Note

The Warning LED on the control panel will stay on until you have installed the ink cartridges.

4

Choose your language (not available in Hong Kong/Taiwan)

- a** Press ▲ or ▼ to choose your language and press OK.
- b** Press ▲ or ▼ to choose Yes or No and press OK.

If you set the wrong language, you can change the language after setting the date and time. (For details, see Changing LCD language in chapter 1 in the Advanced User's Guide on the documentation CD-ROM.)

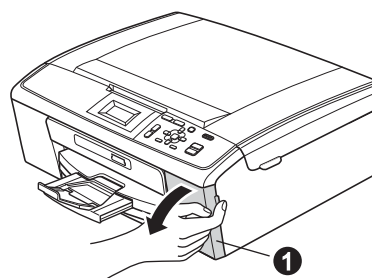

5

Install the ink cartridges

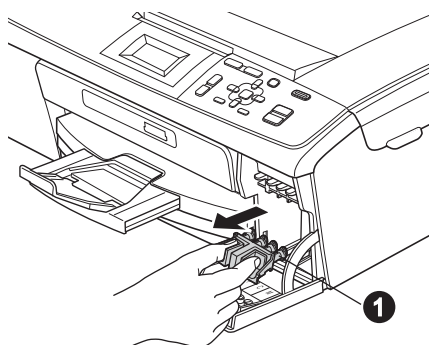

! CAUTION

If ink gets in your eyes, wash them out with water at once, and if irritation occurs consult a doctor.

- a** Make sure that the power is turned on. The LCD shows No Ink Cartridge.
- b** Open the ink cartridge cover ①.

- c** Remove the green protective part ①.

Note

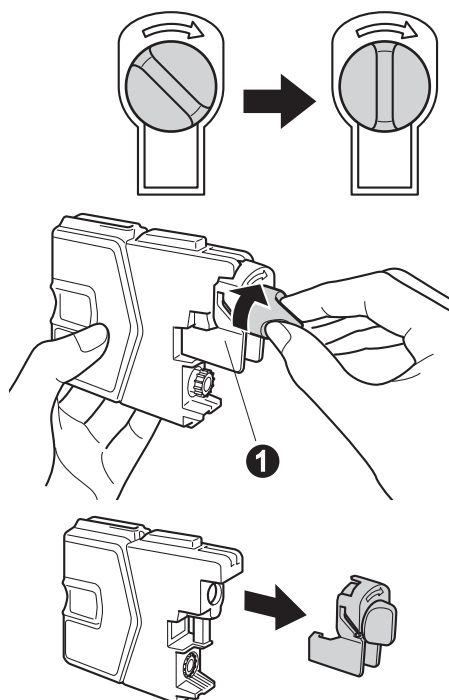

Do not throw away the green protective part. You will need it if you transport the machine.

- d** Unpack the ink cartridge.

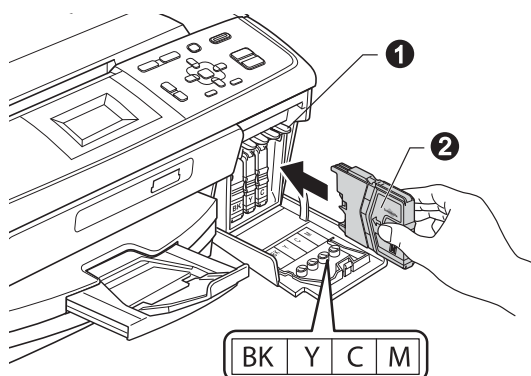

Note

Make sure you install the Inbox Ink Cartridges included with your machine first.

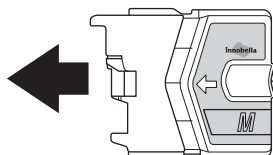

- e** Turn the green knob on the protective yellow cap clockwise until it clicks to release the vacuum seal, then remove the cap ❶.

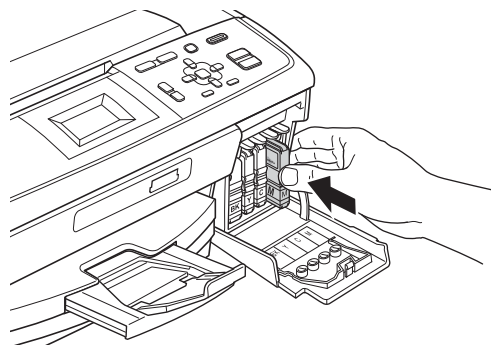

- f** Take care to match the colour of the lever ❶ with the cartridge colour ❷, as shown in the diagram below.

- g** Install each ink cartridge in the direction of the arrow on the label.

- h** Gently push the ink cartridge until it clicks. After all the ink cartridges are installed close the ink cartridge cover.

! IMPORTANT

After initial installation of the ink cartridges, the machine will start cleaning the ink tube system. This cleaning process will last approximately four minutes.

DO NOT unplug the machine from the power outlet or attempt to stop the cleaning process. Interruption of cleaning process may cause undesired print quality problems.

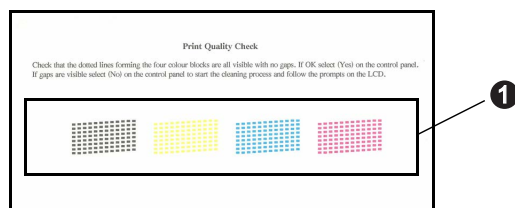

! IMPORTANT

- **DO NOT** take out ink cartridges if you do not need to replace them. If you do so, it may reduce the ink quantity and the machine will not know the quantity of ink left in the cartridge.
- **DO NOT** shake the ink cartridges. If ink stains your skin or clothing, wash with soap or detergent at once.
- **DO NOT** repeatedly insert and remove the cartridges. If you do so, ink may seep out of the cartridge.
- If you mix the colours by installing an ink cartridge in the wrong position, clean the print head several times after correcting the cartridge installation. (See *Cleaning the print head in Appendixes A of the Basic User's Guide.*)
- Once you open an ink cartridge, install it in the machine and use it up within six months of installation. Use unopened ink cartridges by the expiration date written on the cartridge package.
- **DO NOT** dismantle or tamper with the ink cartridge, this can cause the ink to leak out of the cartridge.
- Brother multifunction machines are designed to work with ink of a particular specification and will work to a level of optimum performance when used with genuine Brother branded ink cartridges. Brother cannot guarantee this optimum performance if ink or ink cartridges of other specifications are used. Brother does not therefore recommend the use of cartridges other than genuine Brother branded cartridges with this machine or the refilling of empty cartridges with ink from other sources. If damage is caused to the print head or other parts of this machine as a result of using incompatible products with this machine, any repairs required as a result may not be covered by the warranty.

6

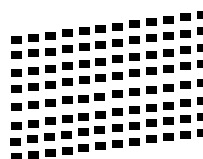

Check the print quality

- a** When the preparation process has finished, the LCD shows `Set Paper` and `Press Start`. Press **Colour Start**.
- b** Check the quality of the four colour blocks ① on the sheet. (black/yellow/cyan/magenta)

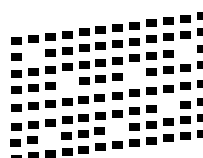

- c** If all lines are clear and visible, press **+** (Yes) to finish the quality check and go to step 7.

OK

If you can see missing short lines, press **-** (No) and follow the steps on the LCD.

Poor

7

Choose your language (if needed) (available in Hong Kong/Taiwan)

- a** Press **Menu**.
- b** Press **▲** or **▼** to choose `Initial Setup`. Press **OK**.
- c** Press **▲** or **▼** to choose `Local Language`. Press **OK**.
- d** Press **▲** or **▼** to choose your language. Press **OK**.
- e** Press **Stop/Exit**.

8 Set the LCD contrast (if needed)

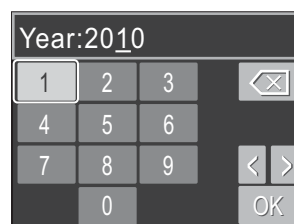

If you are having difficulty reading the LCD, try changing the contrast setting.

- a** Press **Menu**.
- b** Press **▲** or **▼** to choose **General Setup**. Press **OK**.
- c** Press **▲** or **▼** to choose **LCD Settings**. Press **OK**.
- d** Press **▲** or **▼** to choose **LCD Contrast**. Press **OK**.
- e** Press **◀** or **▶** to choose the contrast level. Press **OK**.
- f** Press **Stop/Exit**.

9 Set the date and time

Setting the date and time allows the machine to clean the print head regularly and maintain optimum print quality. It also allows the machine to name files created when using the Scan to Media feature.

- a** Press **Menu**.
- b** Press **▲** or **▼** to choose **Initial Setup**. Press **OK**.
- c** Press **▲** or **▼** to choose **Date&Time**. Press **OK**.
- d** To enter the last two digits of the year, press **▲**, **▼**, **◀** or **▶** to select a number and press **OK**. To save the year, press **▲**, **▼**, **◀** or **▶** to select  and press **OK**.

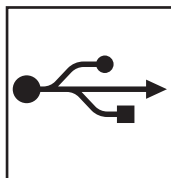

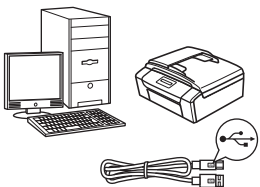

(e.g. Enter 1 0 for 2010.)

- e** Repeat for month/day/time in 24-hour format.
- f** Press **Stop/Exit**.

10

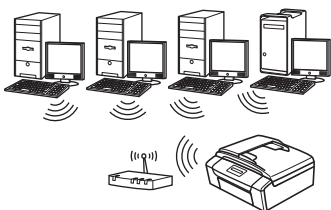

Choose your connection type

For USB interface cable

Windows[®], go to page 8

Macintosh, go to page 12

For Wireless Network

Windows[®] and Macintosh,
go to page 14

Note

For Windows Server[®] 2003/2003 x64 Edition/2003 R2/2003 R2 x64 Edition/2008/2008 R2, see the Network User's Guide on the documentation CD-ROM.

For USB interface users
(Windows® 2000 Professional/XP/XP Professional x64 Edition/
Windows Vista®/Windows® 7)

11 Before you install

- a** Make sure that your computer is ON and you are logged on with Administrator rights.

! IMPORTANT

- **DO NOT** connect the USB cable yet.
- For the latest drivers and information, visit <http://solutions.brother.com/>
- If there are any programs running, close them.
- The screens may differ depending on your operating system.

12 Install MFL-Pro Suite

- a** Put the supplied installation CD-ROM into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

Note

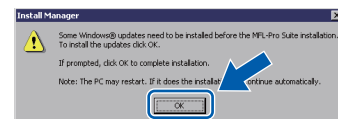

If the Brother screen does not appear automatically, go to **My Computer (Computer)**, double-click the CD-ROM icon, and then double-click **start.exe**.

- b** The CD-ROM Top Menu will appear. Click **Install MFL-Pro Suite** and click **Yes** if you accept the license agreements. Follow the on-screen instructions.

Note

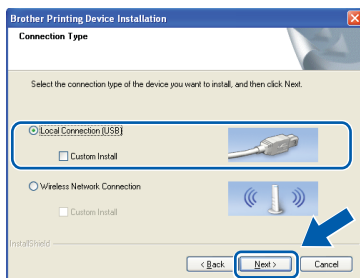

- If this screen appears, click **OK** and restart your computer.

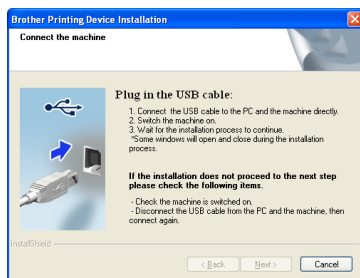

- If the installation does not continue automatically, open the top menu again by ejecting and then reinserting the CD-ROM or double-click the **start.exe** program from the root folder, and continue from **b** to install MFL-Pro Suite.
- For Windows Vista® and Windows® 7, when the **User Account Control** screen appears, click **Allow** or **Yes**.

- c** Choose **Local Connection**, and then click **Next**. The installation continues.

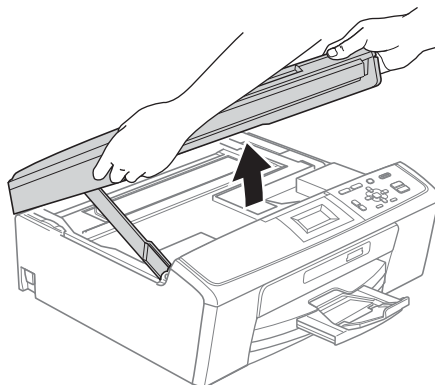

- d** When this screen appears, go to the next step.

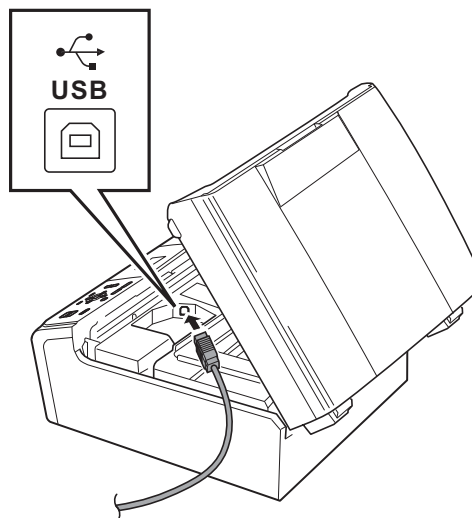

13 Connect the USB cable

- a** Using both hands, use the plastic tabs on both sides of the machine to lift the scanner cover until it locks securely into the open position.

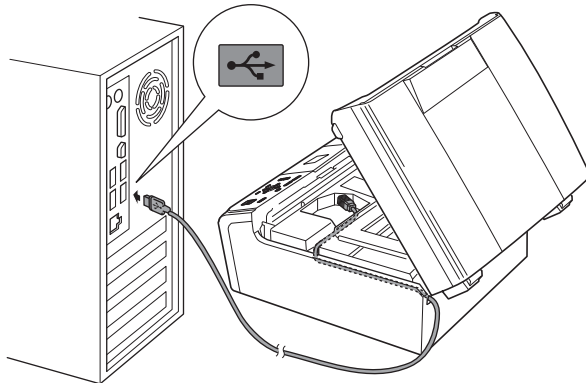

- b** Connect the USB cable to the USB socket marked with a  symbol. You will find the USB socket inside the machine as shown below.

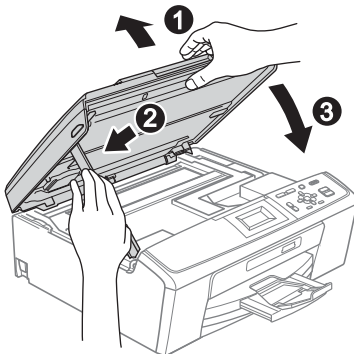

- c** Carefully guide the USB cable through the trench as shown below, following the trench around and toward the back of the machine. Then connect the cable to your computer.

! IMPORTANT

Make sure that the cable does not restrict the cover from closing, or an error may occur.

- d** Lift the scanner cover to release the lock ①. Gently push the scanner cover support down ② and close the scanner cover ③.

- e** The installation will continue automatically. The installation screens appear one after another.

! IMPORTANT

DO NOT cancel any of the screens during the installation. It may take a few seconds for all screens to appear.

- f** When the **User's Guides** screen is displayed, click **View Manuals on the Web** if you want to download the manuals and follow the on-screen instructions. You can also view the manuals on the documentation CD-ROM.

- g** When the **On-Line Registration** screen is displayed, make your selection and follow the on-screen instructions.

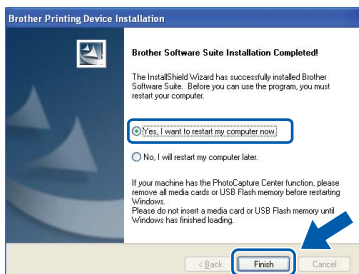

- h** If you do not want to set your machine as the Default printer, uncheck **Set as Default Printer**.

14

Finish and restart

- a** Click **Finish** to restart your computer. After restarting the computer, you must be logged on with Administrator rights.

Note

- If an error message appears during the software installation, run the **Installation Diagnostics** located in **start/All Programs/Brother/DCP-JXXX** (where DCP-JXXX is your model name).
- Depending on your security settings, a Windows Security or antivirus software window may appear when using the machine or its software. Please allow or permit the window to continue.

- b** In the **Check for Firmware Updates** screen, choose the firmware update setting you want and click **OK**.

Note

Internet access is required for the firmware update.

Finish

The installation is now complete.

Now go to

Proceed to Install Optional Applications on page 26.

Note

XML Paper Specification Printer Driver

The XML Paper Specification Printer Driver is the most suitable driver when printing from applications that use the XML Paper Specification documents. Please download the latest driver by accessing the Brother Solutions Center at <http://solutions.brother.com/>

For USB interface users (Mac OS X 10.4.11, 10.5.x, 10.6.x)

11

Before you install

- a** Make sure your machine is connected to the power and your Macintosh is ON. You must be logged on with Administrator rights.

! IMPORTANT

- For the latest drivers and information on the Mac OS X you are using, visit <http://solutions.brother.com/>
- For Mac OS X 10.4.0 to 10.4.10 users, upgrade to Mac OS X 10.4.11 - 10.6.x.

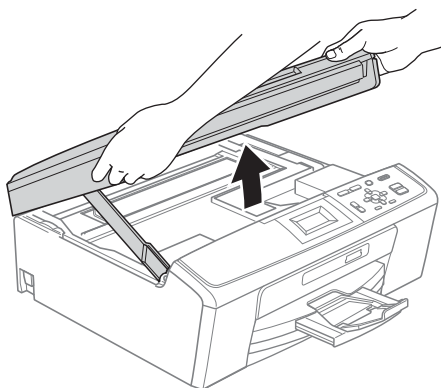

12

Connect the USB cable

! IMPORTANT

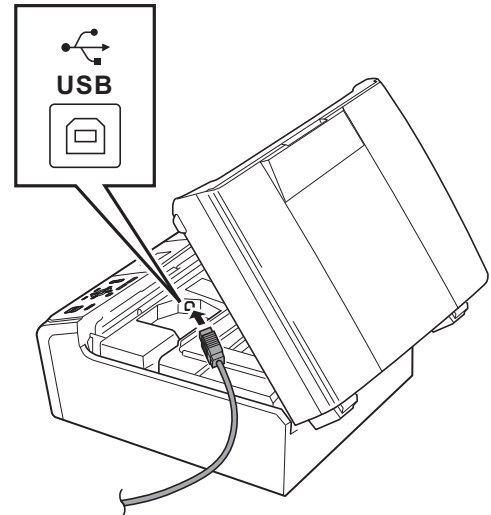

- **DO NOT** connect the machine to a USB port on a keyboard or a non-powered USB hub.
- Connect the machine directly to your Macintosh.

- a** Using both hands, use the plastic tabs on both sides of the machine to lift the scanner cover until it locks securely into the open position.

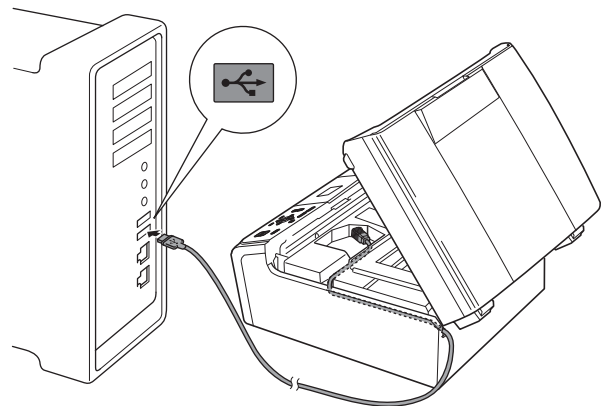

b

Connect the USB cable to the USB socket marked with a  symbol. You will find the USB socket inside the machine as shown below.

c

Carefully guide the USB cable through the trench as shown below, following the trench around and toward the back of the machine. Then connect the cable to your Macintosh.

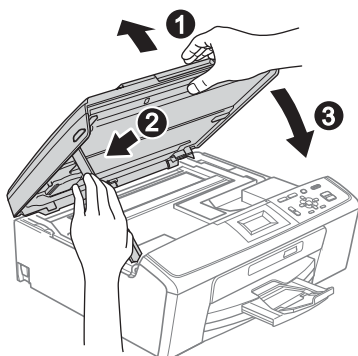

! IMPORTANT

Make sure that the cable does not restrict the cover from closing, or an error may occur.

- d** Lift the scanner cover to release the lock ①. Gently push the scanner cover support down ② and close the scanner cover ③.

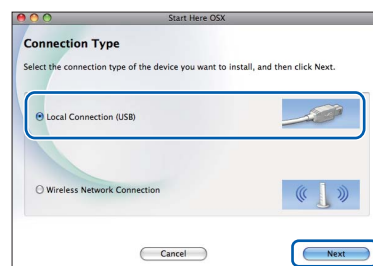

13

Install MFL-Pro Suite

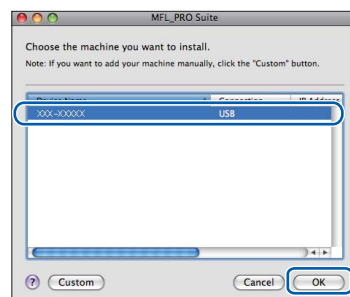

- a** Put the supplied installation CD-ROM into your CD-ROM drive.
- b** Double-click the **Start Here OSX** icon to install.

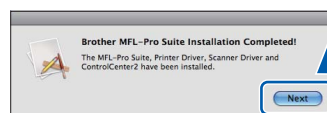

- c** Choose **Local Connection**, and then click **Next**. Follow the on-screen instructions.

- d** Please wait, it will take a few seconds for the software to install. After the installation, the Brother software will search for the Brother device.
- e** Choose the machine from the list, and then click **OK**.

- f** When this screen appears, click **Next**.

- g** When the **Brother Support** screen appears, click **Close** to finish the installation.

Finish

The installation is now complete.

Note

To use Image Capture on Mac OS X 10.6.x, please install the CUPS Printer Driver, which can be downloaded from the Brother Solutions Center (<http://solutions.brother.com/>).

For wireless network interface users

11 Before you begin

First you must configure the wireless network settings of your machine to communicate with your network access point/router. After the machine is configured to communicate with your access point/router, computers on your network will have access to the machine. To use the machine from these computers, you will need to install the drivers and software. The following steps will guide you through the configuration and installation process.

To achieve optimum results with normal everyday document printing, place the Brother machine as close to the network access point/router as possible with minimal obstructions. Large objects and walls between the two devices as well as interference from other electronic devices can affect the data transfer speed of your documents.

Due to these factors, wireless may not be the best method of connection for all types of documents and applications. If you are printing large files, such as multi-page documents with mixed text and large graphics, you may want to consider choosing USB for the fastest throughput speed.

! IMPORTANT

If you have previously configured the wireless settings of the machine you must reset the network (LAN) settings before you can configure the wireless settings again.

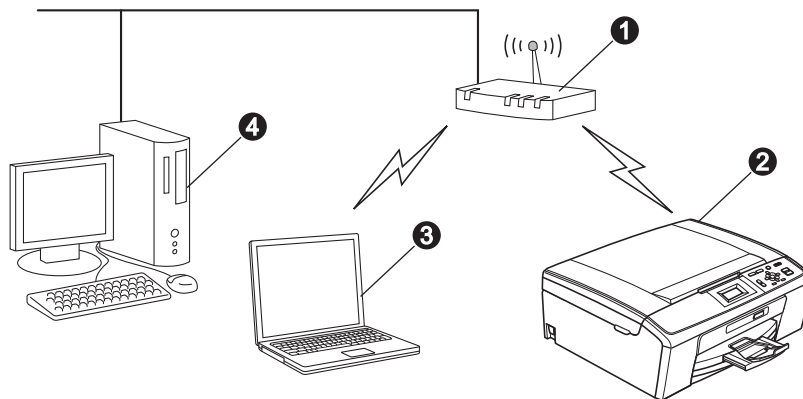

On your machine, press Menu. Press ▲ or ▼ to choose *Network* and press OK.

Press ▲ or ▼ to choose *Network Reset*, and then press OK.

Press  twice to choose *Yes*.

The following instructions are for infrastructure mode (connected to a computer through an access point/router).

Infrastructure Mode

- ① Access point/router
- ② Wireless Network machine (your machine)
- ③ Wireless capable computer connected to the access point/router
- ④ Wired computer connected to the access point/router

Please make sure the wireless network settings of the machine match the access point/router.

Note

To set up your machine in Ad-hoc mode (connected to a wireless capable computer without an access point/router) you can find instructions in the Network User's Guide on the documentation CD-ROM.

Also you can download the Network User's Guide by following the instructions below.

1 Turn on your computer. Insert the installation CD-ROM into your CD-ROM drive.

For Windows®:

2 Choose your model and the language. The CD-ROM top menu will appear.

*3 Click **Documentation**, and follow the on-screen instructions.*

For Macintosh:

*2 Double-click **Documentation**, and follow the on-screen instructions.*

12

Confirm your network environment (Infrastructure Mode)

The following instructions will offer two methods for installing your Brother machine in a wireless network environment.

- a** If your wireless access point/router does not support Wi-Fi Protected Setup (WPS) or AOSS™, **write down the wireless network settings** of your wireless access point/router in the area below.

! IMPORTANT

Please do not contact Brother Customer Service for assistance without the wireless security information. We cannot assist you in locating your network security settings.

Item	Record the current wireless network settings
Network Name: (SSID/ESSID)	
Password (Network Key)	

* The Password may also be described as the Network Key, Security Key or Encryption Key.

Note

If you do not know this information (Network Name (SSID/ESSID) and Password (Network Key)), you cannot continue the wireless setup.

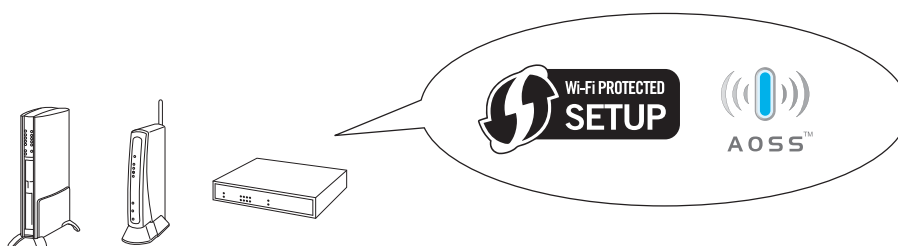

How can I find this information (Network Name (SSID/ESSID) and Password (Network Key))

- 1) You should see the documentation provided with your wireless access point/router.
- 2) The initial network name could be the manufacturer's name or the model name.
- 3) If you do not know the security information, please consult the router manufacturer, your system administrator, or internet provider.

Now go to

page 16

- b** If your wireless access point/router supports automatic wireless (one-push) setup (Wi-Fi Protected Setup or AOSS™)

Now go to

page 17

Connecting the Brother machine to the wireless network

13

Configure the wireless settings (typical Wireless Setup in infrastructure mode)

- a** On your machine, press **Menu**.
Press **▲** or **▼** to choose **Network** and press **OK**.
Press **▲** or **▼** to choose **Setup Wizard** and press **OK**.
When **Enable WLAN?** is displayed, press **OK** to accept.
This will start the wireless setup wizard.
To cancel, press **Stop/Exit**.
- b** The machine will search for available SSIDs. If a list of SSIDs is displayed, use the **▲** or **▼** keys to choose the SSID you wrote down in step **12-a** on page 15, then press **OK**. If you are using an authentication and encryption method that requires a Password (Network Key), go to **c**.

If your authentication method is Open System and your encryption mode is None, go to **d**.

Note

It will take several seconds to display a list of available SSIDs.

*If a list of SSIDs is not displayed, make sure your access point is on. Move your machine closer to the access point and try starting from **a** again.*

If your access point is set to not broadcast the SSID, you will have to manually add the SSID name. For details, see the *Network User's Guide* on the documentation CD-ROM.

- c** Enter the Password (Network Key) you wrote down in step **12-a** on page 15. Press **▲**, **▼**, **◀** or **▶** to select a letter or number, and press **OK**. (For more information, see *Entering Text for Wireless Settings* on page 27.)

When you have entered all the characters, press **▲**, **▼**, **◀** or **▶** to select **OK** and press **OK**.
Then press **+** **Yes** to apply your settings.
- d** Your machine will now try to connect to your wireless network using the information you have entered.
It may take a few minutes to connect to your wireless network.

e

A connection result message appears for 60 seconds on the LCD and a wireless LAN report will automatically be printed. If the connection failed, check the error code on the printed report and refer to *Troubleshooting* on page 18.

Wireless setup is now complete. A four level indicator at the top of your machine's LCD will show the wireless signal strength of your access point/router.

To install MFL-Pro Suite, continue to step 14.

For Windows® Users:

Now go to

Page 20

For Macintosh Users:

Now go to

Page 24

13

Configure the wireless settings using the automatic wireless (one-push) method

- a** Confirm your wireless access point/router has the Wi-Fi Protected Setup or AOSS™ symbol as shown below.

- b** Place the Brother machine within range of your Wi-Fi Protected Setup or AOSS™ access point/router. The range may differ depending on your environment. Refer to the instructions provided with your access point/router.
- c** Push the Wi-Fi Protected Setup or AOSS™ button on your wireless access point/router. See the user's guide for your wireless access point/router for instructions.
- d** On your machine, press **Menu**. Press **▲** or **▼** to choose **Network** and press **OK**. Press **▲** or **▼** to choose **WPS/AOSS** and press **OK**. When **Enable WLAN?** is displayed, press **OK** to accept. This will start the wireless setup wizard.

This feature will automatically detect which mode (Wi-Fi Protected Setup or AOSS™) your access point/router uses to configure your machine.

Note

If your wireless access point/router supports Wi-Fi Protected Setup (PIN Method) and you want to configure your machine using the PIN (Personal Identification Number) Method, see Using the PIN Method of Wi-Fi Protected Setup in the Network User's Guide on the documentation CD-ROM.

- e** A connection result message appears for 60 seconds on the LCD and a wireless LAN report will automatically be printed. If the connection failed, check the error code on the printed report and refer to *Troubleshooting* on page 18.

Wireless setup is now complete. A four level indicator at the top of your machine's LCD will show the wireless signal strength of your access point/router.

To install MFL-Pro Suite, continue to step 14.

For Windows® Users:

Now go to

Page 20

For Macintosh Users:

Now go to

Page 24

Troubleshooting

! IMPORTANT

Please do not contact Brother Customer Service for assistance without the wireless security information. We cannot assist you in locating your network security settings.

How can I find the wireless security information (SSID and Network Key)

- 1) You should see the documentation provided with your wireless access point/router.
- 2) The initial network name could be the manufacturer's name or the model name.
- 3) If you do not know the security information, please consult the router manufacturer, your system administrator, or internet provider.

* The Network Key may also be described as the Password, Security Key or Encryption Key.

Wireless LAN report

If the wireless LAN report that printed shows that the connection failed, check the error code on the printed report and refer to the following instructions.

Error code	Recommended Solutions
TS-01	<p>The wireless setting is not activated, turn the wireless setting to ON.</p> <p>On your machine, press Menu. Press ▲ or ▼ to choose Network and press OK. Press ▲ or ▼ to choose WLAN Enable and press OK. Press ▲ or ▼ to choose On and press OK. Press Stop/Exit.</p>
TS-02	<p>The wireless access point/router cannot be detected.</p> <p>1. Check the following 4 points.</p> <ul style="list-style-type: none">- Make sure that the wireless access point/router is powered on.- Move your machine to an obstruction-free area, or closer to the wireless access point/router.- Temporarily place your machine within about one metre from the wireless access point when you are configuring the wireless settings.- If your wireless access point/router is using MAC address filtering, confirm the MAC address of the Brother machine is allowed in the filter. <p>2. If you manually entered the SSID and security information (SSID/authentication method/encryption method/Network Key), the information may be incorrect. Reconfirm the SSID and security information and reenter the correct information as necessary.</p> <p>See <i>How can I find the wireless security information (SSID and Network Key)</i> on page 18 to confirm.</p>

TS-04	<p>The Authentication/Encryption methods used by the selected wireless access point/router are not supported by your machine.</p> <p>For infrastructure mode, change the authentication and encryption methods of the wireless access point/router. TS-07	<p>The machine cannot detect a wireless access point/router that has WPS or AOSS™ enabled.</p> <p>If you would like to configure your wireless settings using WPS or AOSS™, you must operate both your machine and the wireless access point/router. Confirm your wireless access point/router supports WPS or AOSS™ and try starting again.</p> <p>If you do not know how to operate your wireless access point/router using WPS or AOSS™ see the documentation provided with your wireless access point/router, ask the manufacturer of your wireless access point/router or ask your network administrator.</p> 												
TS-08	<p>Two or more wireless access points that have WPS or AOSS™ enabled are detected.</p> <ul style="list-style-type: none">- Confirm that only one wireless access point/router within range has the WPS or AOSS™ method active and try again.- Try starting again after a few minutes in order to avoid interference from other access points.												

Install the drivers & software (Windows® 2000 Professional/XP/XP Professional x64 Edition/ Windows Vista®/Windows® 7)

14

Before you install

- a** Make sure that your computer is ON and you are logged on with Administrator rights.

! IMPORTANT

- For the latest drivers and information, visit <http://solutions.brother.com/>
- If there are any programs running, close them.
- The screens may differ depending on your operating system.

15

Install MFL-Pro Suite

- a** Put the supplied installation CD-ROM into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

Note

If the Brother screen does not appear automatically, go to **My Computer (Computer)**, double-click the CD-ROM icon, and then double-click **start.exe**.

b

The CD-ROM Top Menu will appear. Click **Install MFL-Pro Suite** and click **Yes** if you accept the license agreements. Follow the on-screen instructions.

Note

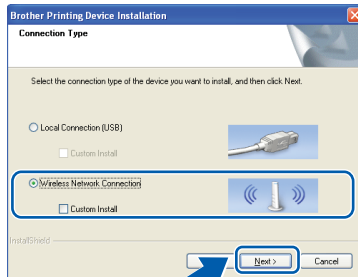

- If this screen appears, click **OK** and restart your computer.

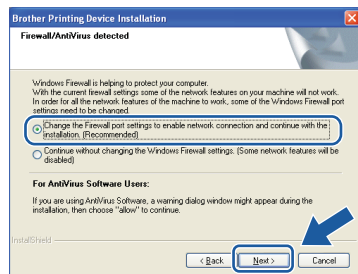

- If the installation does not continue automatically, open the top menu again by ejecting and then reinserting the CD-ROM or double-click the **start.exe** program from the root folder, and continue from **b** to install MFL-Pro Suite.
- For Windows Vista® and Windows® 7, when the **User Account Control** screen appears, click **Allow** or **Yes**.

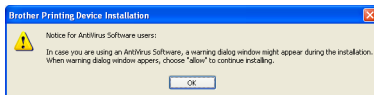

- c** Choose **Wireless Network Connection**, and then click **Next**.

- d** When this screen appears, choose **Change the Firewall port settings to enable network connection and continue with the installation. (Recommended)** and click **Next**. (Not for Windows® 2000 users)

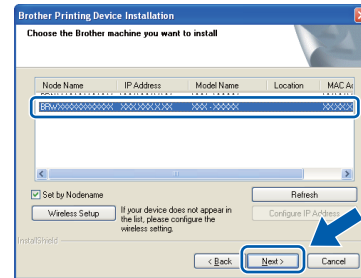

If you are using a firewall other than Windows® Firewall or Windows® Firewall is off, this screen may appear.

See the instructions provided with your firewall software for information on how to add the following network ports.

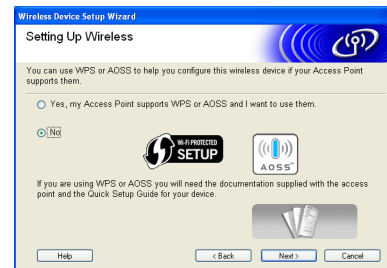

- For network scanning, add UDP port 54925.
- If you still have trouble with your network connection, add UDP port 137.

- e** Choose your machine from the list, and then click **Next**.

Note

- If your wireless settings fail, the **Wireless Device Setup Wizard** will appear during the installation of MFL-Pro Suite. Confirm your settings by following the on-screen instructions. If you encounter this failure, go to step **12-a** on page 15 and setup the wireless connection again.

- If you are using **WEP** and the LCD displayed **Connected** but your machine is not found, make sure you entered the **WEP** key correctly. The **WEP** key is case sensitive.

- f** The installation of the Brother drivers will automatically start. The installation screens appear one after another.

! IMPORTANT

DO NOT cancel any of the screens during the installation. It may take a few seconds for all screens to appear.

Note

For Windows Vista® and Windows® 7, when the **Windows Security** screen appears, click the check box and click **Install** to complete the installation correctly.

- g** When the **User's Guides** screen is displayed, click **View Manuals on the Web** if you want to download the manuals and follow the on-screen instructions. You can also view the manuals on the documentation CD-ROM.

- h** When the **On-Line Registration** screen is displayed, make your selection and follow the on-screen instructions.

- i** If you do not want to set your machine as the Default printer, uncheck **Set as Default Printer**.

16

Finish and restart

- a** Click **Finish** to restart your computer. After restarting the computer, you must be logged on with Administrator rights.

Note

- If an error message appears during the software installation, run the **Installation Diagnostics** located in **start/All Programs/Brother/DCP-JXXX** (where DCP-JXXX is your model name).
- Depending on your security settings, a Windows Security or antivirus software window may appear when using the machine or its software. Please allow or permit the window to continue.

- b** In the **Check for Firmware Updates** screen, choose the firmware update setting you want and click **OK**.

Note

Internet access is required for the firmware update.

17 Install MFL-Pro Suite on additional computers (if needed)

If you want to use your machine with multiple computers on the network, install MFL-Pro Suite on each computer. Go to step **14** on page 20.

Finish

The installation is now complete.

Now go to

Proceed to Install Optional Applications on page 26.

Note

- *If you specify an IP Address for the machine, you must set the Boot Method to Static by using the control panel. For more information, see the Network User's Guide on the documentation CD-ROM.*
- **XML Paper Specification Printer Driver**
The XML Paper Specification Printer Driver is the most suitable driver when printing from applications that use the XML Paper Specification documents. Please download the latest driver by accessing the Brother Solutions Center at <http://solutions.brother.com/>

Install the drivers & software (Mac OS X 10.4.11, 10.5.x, 10.6.x)

14 Before you install

- a** Make sure your machine is connected to the power and your Macintosh is ON. You must be logged on with Administrator rights.

! IMPORTANT

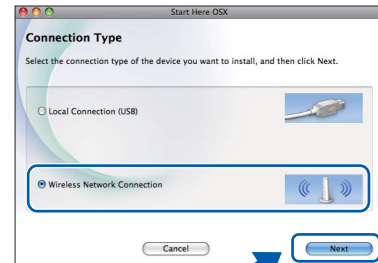

- For the latest drivers and information on the Mac OS X you are using, visit <http://solutions.brother.com/>
- For Mac OS X 10.4.0 to 10.4.10 users, upgrade to Mac OS X 10.4.11 - 10.6.x.

15 Install MFL-Pro Suite

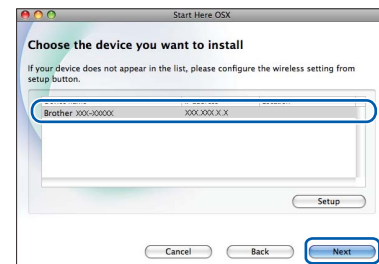

- a** Put the supplied installation CD-ROM into your CD-ROM drive.
- b** Double-click the **Start Here OSX** icon to install.

- c** Choose **Wireless Network Connection**, and then click **Next**.

- d** The Brother software will search for the Brother device in your wireless network. If the machine is configured for your network, choose the device you want to install, and then click **Next**.

Note

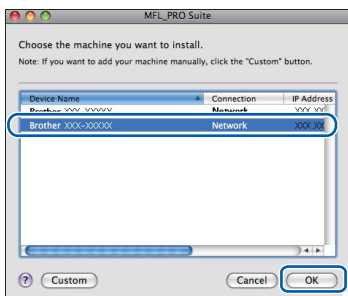

If your wireless settings fail, the Wireless Device Setup Wizard will appear during the installation of MFL-Pro Suite. Confirm your settings by following the on-screen instructions. If you encounter this failure, go to step **12-a** on page 15 and setup the wireless connection again.

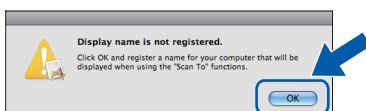

- e** Please wait, it will take a few seconds for the software to install. After the installation, this window will appear.

Choose your machine from the list, and then click **OK**.

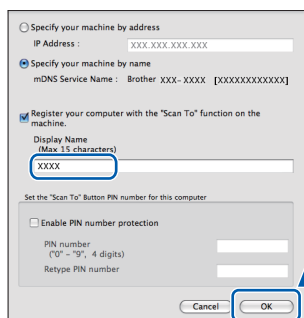

Note

If this screen appears click **OK**.

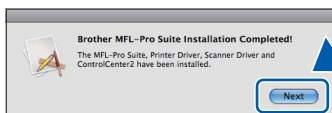

Enter a name for your Macintosh in **Display Name** up to 15 characters long and click **OK**. Go to **f**.

The name you enter will appear on the machine's LCD when you press the **SCAN** key and choose a scan option. (For more information, see Network Scanning (For models with built-in network support) in the Software User's Guide on the documentation CD-ROM.)

- f** When this screen appears, click **Next**.

- g** When the **Brother Support** screen appears, click **Close** to finish the installation.

16 Install MFL-Pro Suite on additional computers (if needed)

If you want to use your machine with multiple computers on the network, install MFL-Pro Suite on each computer. Go to step **14** on page 24.

Finish

The installation is now complete.

Note

- If you specify an IP Address for the machine, you must set the Boot Method to Static by using the control panel. For more information, see the Network User's Guide on the documentation CD-ROM.
- To use Image Capture on Mac OS X 10.6.x, please install the CUPS Printer Driver, which can be downloaded from the Brother Solutions Center (<http://solutions.brother.com/>).

1 Install FaceFilter Studio/BookScan & Whiteboard Suite supported by Reallusion, Inc

FaceFilter Studio is an easy-to-use borderless photo printing application. FaceFilter Studio also lets you edit your photo data and add photo effects such as red eye reduction or skin tone enhancement. The **BookScan Enhancer** software can correct your scanned book images automatically. The **Whiteboard Enhancer** software cleans up and enhances text and images from photos taken of your whiteboard.

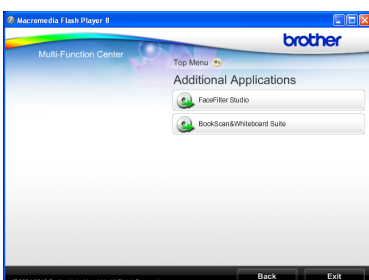

! IMPORTANT

- The machine must be ON and connected to the computer.
- The computer must be connected to the Internet.
- Make sure you are logged on with Administrator rights.
- This application is not available for Windows Server® 2003/2008 series.

- Open the top menu again by ejecting and then reinserting the installation CD-ROM or by double-clicking the **start.exe** program from the root folder.
- The CD-ROM Top Menu will appear. Choose your language and then click **Additional Applications**.

- Click the button for the application you want to install.

- Go back to the Additional Applications screen to install more applications.

2 Install FaceFilter Studio Help (For Hong Kong/ Taiwan users, installation CD-ROM includes FaceFilter Studio Help)

To get instructions on how to use FaceFilter Studio, download and install FaceFilter Studio Help.

- To run FaceFilter Studio, go to **start/All Programs/Reallusion/FaceFilter Studio** on your computer.
- Click the button on the upper right corner of the screen.
- Click **Check for updates** to go to the Reallusion update web page.

- Click the **Download** button and choose a folder to save the file in.
- Close FaceFilter Studio before you start the installer for FaceFilter Studio Help. Double-click the downloaded file from the folder you specified and follow the on-screen instructions for installation.

Note

To view the complete FaceFilter Studio Help, choose **start/All Programs/Reallusion/FaceFilter Studio/FaceFilter Studio Help** on your computer.

Restore the network settings to factory default

To restore all network settings of the internal Print/Scan server to factory default, please follow the steps below.

- a** Make sure the machine is not operating.
- b** Press **Menu**.
- c** Press **▲** or **▼** to choose **Network**.
Press **OK**.
- d** Press **▲** or **▼** to choose **Network Reset**.
Press **OK**.
- e** Press **+** to choose **Yes**.
- f** Press **+** to choose **Yes**.
- g** The machine will restart, and the reset is complete.

Entering Text for Wireless Settings
