CHN-ENG Version 0

⚠ WARNING

- **Plastic bags are used in the packaging of your machine. Plastic bags are not toys. To avoid danger of suffocation, please keep these bags away from babies and children and dispose of them properly.**
- **This machine is heavy and weighs approximately 26.5 kg. To prevent possible injuries at least two people should lift the machine. Be careful not to pinch your fingers when you put the machine down.**
- **If you use a Lower Tray, carry it separately from your machine.**
📝 Note

- Keep a minimum gap around the machine as shown in the illustration.

- The components included in the box may differ depending on your country.

- We recommend that you save the original packaging.

- If for any reason you must ship your machine, carefully repack the machine in the original packaging to avoid any damage during transit. The machine should be adequately insured with the carrier. For how to repack the machine, see *Packing and shipping the machine* in the *Advanced User's Guide*.

- The interface cable is not a standard accessory. Buy the appropriate interface cable for the interface you want to use (Network).

- To ensure safe operation the supplied plug must be inserted only into a standard power outlet that is properly grounded through the standard electrical wiring. Non grounded equipment may cause an electrical shock hazard, and may cause excessive electrical noise radiation.

USB cable
It is recommended to use a USB 2.0 cable (Type A/B) that is no longer than 2 metres.

Network cable
Use a straight-through Category5 (or greater) twisted-pair cable for 10BASE-T or 100BASE-TX Fast Ethernet Network.

2 Remove the packing material from the machine

❶ IMPORTANT

DO NOT connect the AC power cord yet.

a Remove the packing tape from the outside of the machine.

b Open the MP tray ❶, and remove the plastic sheet ❷ from the MP tray support, then close the MP tray.
c Press the front cover release button and open the front cover. Remove the silica gel pack ❶.
⚠ CAUTION

DO NOT eat Silica Pack. Discard immediately.

d Hold the green handle of the drum unit ❶ and pull it out until it stops.
e Gently pull the orange packing material towards the front of the machine to remove it.
f Remove the 4 orange packing pieces.
g Push the drum unit firmly back into the machine.

h Close the front cover of the machine.

3 Load paper in the paper tray

a Pull the paper tray completely out of the machine.
b While pressing the green paper-guide release lever ①, slide the paper guides to fit the paper size you are loading in the tray. Make sure that the guides are firmly in the slots.
c Fan the stack of paper well to avoid paper jams and misfeeds.
d Put paper in the tray and make sure:
- The paper is below the maximum paper mark (▼▼▼) ①.
  Over filling the paper tray will cause paper jams.
- The side to be printed on must be face down.
- The paper guides touch the sides of the paper so it will feed properly.
e Put the paper tray firmly back in the machine. Make sure that it is completely inserted into the machine.
🔍 For more information about recommended paper, see *Recommended paper and print media* in the *Basic User's Guide*.

4 Connect the power cord and telephone line

a Connect the AC power cord to the machine, and then plug it into an electrical socket.

b Remove the label covering the machine's power switch, and then switch the machine on.
c Connect the telephone line cord. Connect one end of the telephone line cord to the socket on the machine marked **LINE** and the other end to a telephone wall socket.
❶ IMPORTANT

The telephone line cord MUST be connected to the socket on the machine marked LINE.

⚠ WARNING

The machine must be grounded using an earthed plug.

Since the machine is grounded through the electrical socket, you can protect yourself from potentially hazardous electrical conditions on the telephone network by keeping the power cord connected to your machine when you connect it to a telephone line. Similarly, you can protect yourself when you want to move your machine by disconnecting the telephone line first and then the power cord.

📝 Note

If you are sharing one telephone line with an external telephone, connect it as shown below.

Before you connect the external telephone, remove the protective cap ❶ from the **EXT.** jack on the machine.

1 Extension telephone
2 External telephone

If you are sharing one telephone line with an external telephone answering machine, connect it as shown below.

Before you connect the external telephone answering machine, remove the protective cap ① from the **EXT.** jack on the machine.
Set the receive mode to External TAD if you have an external answering machine. See *Choose a Receive Mode* on page 7. For additional details, see *Connecting an external TAD* in the *Basic User's Guide*.

5 Choose your language (If needed)

a Press **Menu**, **0**, **0**.

b Press ▲ or ▼ to choose your language. Press **OK**.

c Press **Stop/Exit**.

6 Choose a Receive Mode

Receive modes

By factory default, the factory setting of Receive Mode is "Fax". Your machine will automatically receive any faxes that are sent to it. There are four receive modes of this machine as below.

LCD Display	Factory Default Ring Delay
Fax Only	Ring Delay: 2 times Fax detection: on
Fax/Tel	Ring Delay: 2 times Time: 30 seconds
Manual	
External TAD	

Mode	Function	Description
Fax Only	Each call recognized as fax and send fax signal. However, you can answer the call within the number of rings.	Factory setting of Ring Delay is 2 (0-10 times available, please see *Ring Delay* in the Basic User's Guide). After ringing 2 times,the fax machine send fax-receiving signals automatically; Tip: If your machine is connecting an external answering phone device, and often use it to answer incoming calls, you could set the ring time through 4 to 6 times. Within the recommended ringing times, you can use the external answering phone device to answer and talk. [1]
Fax/Tel	Automatically determine whether the incoming call is telephone or fax calls. Non-Fax call will make a fast double-ring to inform you answer the phone.	Factory setting of Ring Delay is 2 (0-10 times available, please see *Ring Delay* in the Basic User's Guide). Factory setting of F/T ring time (a fast double-ring) is 30 seconds (20, 30, 40, 70 seconds available, please see *F/T Ring Time* in the Basic User's Guide). According to incoming call after the fax machine rings 2 times: 1) For the fax call, send fax received signal; 2) For the telephone call, make a fast double-ring,waiting for you answer the phone. Tip: If your machine is connecting an external answering phone device, you could set the ringing time through 4 to 6 times to answer the call. [1]
Manual	Machine doesn't recognize each call, only as a common phone call that you need to determine after answering the phone.	Answering the call, or if the caller wants to send you a fax, press **Mono Start** or **Color Start** button (under easy mode) to receive faxes. Tip: If your machine is connecting an external answering phone device, you can use the external answering phone device to answer and talk. [1]
External TAD	The external answering machine (TAD) automactically answers every call. Voice messages are stored on the external TAD. Fax messages are printed.	Use this mode if you have connected an external answering machine to your machine. The TAD setting works only with an external answering machine. Note: Ring Delay and F/T Ring Time do not work in this setting.

[1] If the caller wants to send a fax during a call or the caller sends you a fax call, please press **Mono Start** or **Color Start** button (under easy mode) on the control panel of the machine or press ＊ **5 1** keys on the external answering phone device (you have to turn on the remote codes first, please see *Using remote code* in the Basic User's Guide) to give fax receiving signals.

To set a receive mode follow the instructions below:

a Press **Menu**, **0**, **1**.

b Press ▲ or ▼ to choose the receive mode.
Press **OK**.

c Press **Stop/Exit**.

For more details, see *Receiving a fax* in the *Basic User's Guide*.

7 Set the LCD contrast (if needed)

If you are having difficulty reading the LCD, try changing the contrast setting.

a Press **Menu**, **1**, **6**.

b Press ▶ to increase the contrast.

—OR—

Press ◀ to decrease the contrast.

Press **OK**.

c Press **Stop/Exit**.

8 Set the date and time

The machine displays the time, and if you set up the station ID the date and time will be added to each fax you send.

a Press **Menu**, **0**, **2**, **1**.

b Enter the last two digits of the year on the dial pad, and then press **OK**.

```
02.Date&Time

    Year:2011
Enter & OK Key
```

(e.g. Enter **1**, **1** for 2011.)

c Enter the two digits for the month on the dial pad, and then press **OK**.

```
02.Date&Time
    2011/XX/XX

    Month:03
Enter & OK Key
```

(e.g. Enter **0**, **3** for March.)

d Enter the two digits for the day on the dial pad, and then press **OK**.

```
02.Date&Time
    2011/03/XX

    Day:25
Enter & OK Key
```

(e.g. Enter **2**, **5** for 25th.)

e Enter the time in 24-hour format on the dial pad, and then press **OK**.

```
02.Date&Time
    2011/03/25

    Time:15:25
Enter & OK Key
```

(e.g. Enter **1**, **5**, **2**, **5** for 3:25 P.M.)

f Press **Stop/Exit**.

9 Enter personal information (Station ID)

The machine displays the date and time, and if you set up the Station ID, it will add it to each fax you send.

a Press **Menu**, **0**, **3**.

b Enter your fax number (up to 20 digits) on the dial pad, and then press **OK**.

```
03.Station ID

    Fax:_

Enter & OK Key
```

c Enter your telephone number (up to 20 digits) on the dial pad, and then press **OK**. If your telephone number and fax number are the same, enter the same number again.

```
03.Station ID
   Fax:XXXXXXXXXX

    Tel:_

Enter & OK Key
```

d Use the dial pad to enter your name (up to 10 characters for Chinese or 20 characters for alphanumeric), and then press **OK**.

```
Name:

Enter & OK Key    ▲拼
```

📝 **Note**

- You can register your name in Chinese or English in this machine, you can switch between the alphabet input mode and the Chinese-entry mode by pressing ▲ button, the current input mode will appear in the lower right corner of LCD. Simplified Chinese can be converted from Pinyin entry.

- See the following chart for entering your name.

- If you need to enter a character that is on the same key as the last character, press ▶ to move the cursor to the right.

- If you entered a letter incorrectly and want to change it, press ◀ or ▶ to move the cursor to the incorrect character, press **Clear**.

Press key	One time	Two times	Three times	Four times	Five times	Six times	Seven times	Eight times	Nine times
2	a	b	c	A	B	C	2	a	b
3	d	e	f	D	E	F	3	d	e
4	g	h	i	G	H	I	4	g	h
5	j	k	l	J	K	L	5	j	k
6	m	n	o	M	N	O	6	m	n
7	p	q	r	s	P	Q	R	S	7
8	t	u	v	T	U	V	8	t	u
9	w	x	y	z	W	X	Y	Z	9

🔍 For more details, see *Entering text* in the *Basic User's Guide*.

e Press **Stop/Exit**.

📝 **Note**

If you make a mistake and want to start again, press **Stop/Exit** and go back to step **a**.

10 Fax Transmission Report

Your Brother machine is equipped with a Transmission Verification Report that can be used as confirmation that you sent a fax. This report lists the name or fax number of the receiving party, the date, time, and duration of the transmission, the number of pages transmitted, and whether or not the transmission was successful. If you want to use the Fax Transmission Report feature see *Printing reports* in the *Advanced User's Guide*.

11 Set tone or pulse dialling mode

Your machine comes set for Tone dialling service. If you have Pulse dialling service (rotary), you need to change the dialling mode.

a Press **Menu**, **0**, **4**.

b Press ▲ or ▼ to choose Pulse (or Tone). Press **OK**.

c Press **Stop/Exit**.

12 Set the telephone line compatibility

If you are connecting the machine to a VoIP service (over the Internet) you need to change the compatibility setting.

📝 **Note**

If you are using an analogue telephone line you can skip this step.

a Press **Menu**, **2**, **0**, **1**.

b Press ▲ or ▼ to choose Basic(for VoIP). Press **OK**.

c Press **Stop/Exit**.

13 Dial Prefix

The dial prefix setting will automatically dial a predefined number before every fax number you dial. For example: If your phone system requires a 9 to dial an outside number this setting will automatically dial 9 for every fax you send.

a Press **Menu**, **0**, **6**.

b Enter the prefix number (up to 5 digits) on the dial pad, and then press **OK**.

📝 **Note**

- You can use the number 0 to 9, #, ∗ and !. (Press **Hook** to display "!".)
- You cannot use ! with any other numbers or characters.
- If your telephone system requires a timed break recall, press **Hook** to enter the break.
- If the pulse dialing mode is on, # and ∗ are not available to use.

c Press **Stop/Exit**.

14 Set the Time Zone

You can set the time zone (not summer time but standard time) on the machine for your location. For example, the time zone for Eastern Time in the USA and Canada is UTC-05:00.

a Press **Menu**, **0**, **2**, **2**.

b Press ▲ or ▼ to choose the time zone. Press **OK**.

c Press **Stop/Exit**.

15 Choose your connection type

These installation instructions are for Windows® 2000 Professional, Windows® XP Home/Windows® XP Professional, Windows® XP Professional x64 Edition, Windows Vista®, Windows® 7, and Mac OSX (versions 10.4.11, 10.5.x and 10.6.x).
Note
For Windows Server® 2003/2003 x64 Edition/2008/2008 R2, visit your model page at http://solutions.brother.com/.
For USB Interface Users

For Wired Network

Note
You can download the latest drivers and utilities for your machine from the Brother Solutions Center at http://solutions.brother.com/.

Windows®

Macintosh

Windows®
Wired Network
Macintosh

For USB Interface Users
(Windows® 2000 Professional/XP/XP Professional x64 Edition/
Windows Vista®/Windows® 7)

16 Before you install

a Make sure that your computer is ON and you are logged on with Administrator rights.

> **! IMPORTANT**
> • **If there are any programs running, close them.**
> • **The screens may differ depending on your operating system.**

> **Note**
> • The installation CD-ROM includes Presto! PageManager. This software supports Windows® 2000, Windows® XP, XP Professional x64 Edition, Windows Vista® and Windows® 7. Update to the latest Windows® Service Pack before installing MFL-Pro Suite.
> • Before installation, if the USB cable is connected to the computer, the "Found New Hardware Wizard" dialog box will automatically show, please cancel it to close the screen.

17 Install MFL-Pro Suite

a Put the installation CD-ROM into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

> **Note**
> If the Brother screen does not appear automatically, go to **My Computer (Computer)**, double-click the CD-ROM icon, and then double-click **start.exe**.

b Click **Initial Installation** and then **Install MFL-Pro Suite**.

**c** Click **Yes** if you accept the license agreements.

> **Note**
> • If the installation does not continue automatically, open the top menu again by ejecting and then reinserting the CD-ROM or double-click the **start.exe** program from the root folder, and continue from step **b** to install MFL-Pro Suite.
> • For Windows Vista® and Windows® 7 users, when the **User Account Control** screen appears, click **Allow** or **Yes**.
> • If you want to install the PS driver (BR-Script3 printer driver), choose **Custom Install** and then follow the on-screen instructions.

d Follow the on-screen instructions until this screen appears.
e Connect the USB cable to the USB connector marked with the ⟵ symbol on your machine and then connect the cable to your computer.
f Turn the machine on, and follow the on-screen instructions to complete setup.

❶ IMPORTANT

DO NOT cancel any of the screens during the installation. It may take a few seconds for all screens to appear.

📝 Note
- For Windows Vista® and Windows® 7 users, when the **Windows Security** screen appears, select the check box and click **Install** to complete the installation correctly.
- If an error message appears during the software installation, run the **Installation Diagnostics** located in **start/All Programs/Brother/MFC-XXXX** (where MFC-XXXX is your model name).

Finish **The installation is now complete.**

📝 Note
- Depending on your security settings, a Windows Security or antivirus software window may appear when using the machine or its software. Please allow or permit the window to continue.
- **XML Paper Specification Printer Driver** The XML Paper Specification Printer Driver is the most suitable driver for Windows Vista® and Windows® 7 when printing from the applications that use the XML Paper Specification documents. Please download the latest driver by accessing the Brother Solutions Center at http://solutions.brother.com/.

Windows®
USB
Macintosh

For USB Interface Users
(Mac OS X 10.4.11 - 10.6.x)

16 Before you install

a Make sure your machine is connected to the power and your Macintosh is ON. You must be logged on with Administrator rights.

❗ IMPORTANT

For Mac OS X 10.4.10 users, upgrade to Mac OS X 10.4.11 - 10.6.x. (For the latest drivers and information on the Mac OS X you are using, visit http://solutions.brother.com/.)

📝 Note

If you want to setup the PS driver (BR-Script3 printer driver), please go to the Brother Solutions Center at http://solutions.brother.com/ and click Downloads on your model page and visit FAQ's for setup instructions.

b Connect the USB cable to the USB connector marked with the ⟷ symbol on your machine and then connect the cable to your Macintosh.
**c** Make sure your machine's power switch is on.

17 Install MFL-Pro Suite

a Put the installation CD-ROM into your CD-ROM drive.

**b** Double-click the **Start Here OSX** icon. Follow the on-screen instructions.

📝 Note

It may take a few minutes for installation to complete.

c Follow the on-screen instructions until this screen appears. Choose your machine from the list, and then click **OK**.
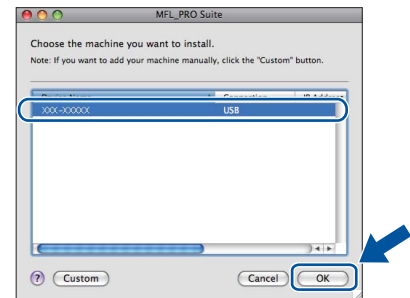

**d** When this screen appears, click **Next**.

OK! **The installation of MFL-Pro Suite is now complete.**
Go to step 18 on page 15.
18 Download and install Presto! PageManager

When Presto! PageManager is installed OCR capability is added to Brother ControlCenter2. You can easily scan, share and organize photos and documents using Presto! PageManager.

a On the **Brother Support** screen, click **Presto! PageManager** and follow the on-screen instructions.
Finish   **The installation is now complete.**

For Wired Network Interface Users
(Windows® 2000 Professional/XP/XP Professional x64 Edition/ Windows Vista®/Windows® 7)

16 Before you install

a Make sure that your computer is ON and you are logged on with Administrator rights.
> **⊘ IMPORTANT**
>
> • **If there are any programs running, close them.**
>
> • **The screens may differ depending on your operating system.**

> **✎ Note**
> • The installation CD-ROM includes Presto! PageManager. This software supports Windows® 2000, Windows® XP, XP Professional x64 Edition, Windows Vista® and Windows® 7. Update to the latest Windows® Service Pack before installing MFL-Pro Suite.
>
> • Disable all personal firewall software (other than Windows® Firewall), anti-spyware or antivirus applications for the duration of the installation.

b Remove the protective cap from the LAN connector marked with a ⊞ symbol.

c Connect the network interface cable to the LAN connector and then connect it to a free port on your hub.

d Make sure your machine's power switch is on.

17 Install MFL-Pro Suite

a Put the installation CD-ROM into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

> **✎ Note**
> If the Brother screen does not appear automatically, go to **My Computer (Computer)**, double-click the CD-ROM icon, and then double-click **start.exe**.

**b** Click **Initial Installation** and then **Install MFL-Pro Suite**.

**c** Click **Yes** if you accept the license agreements.

> **✎ Note**
> • If the installation does not continue automatically, open the top menu again by ejecting and then reinserting the CD-ROM or double-click the **start.exe** program from the root folder, and continue from step **b** to install MFL-Pro Suite.
>
> • For Windows Vista® and Windows® 7 users, when the **User Account Control** screen appears, click **Allow** or **Yes**.
>
> • If you want to install the PS driver (BR-Script3 printer driver), choose **Custom Install** and then follow the on-screen instructions.

16

d When the **Firewall/AntiVirus detected** screen appears, choose **Change the Firewall port settings to enable network connection and continue with the installation. (Recommended)** and click **Next**. (Not for Windows® 2000 users)
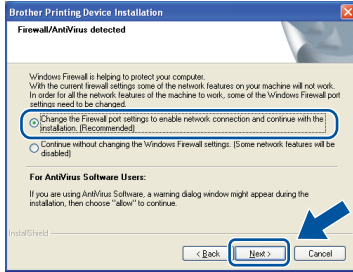

If you are not using the Windows® Firewall, see the user's guide for your software for information on how to add the following network ports.

■ For network scanning, add UDP port 54925.
■ For network PC-Fax receiving, add UDP port 54926.
■ If you still have trouble with your network connection, add UDP port 137.

e Follow the on-screen instructions to complete setup.

❗ IMPORTANT

DO NOT cancel any of the screens during the installation. It may take a few seconds for all screens to appear.

📝 Note

• If your machine is not found over the network, confirm your settings by following the on-screen instructions.

• You can find your machine's IP address and the node name by printing out the Network Configuration List. See *Print the Network Configuration List* on page 20.

• For Windows Vista® and Windows® 7 users, when the **Windows Security** screen appears, select the check box and click **Install** to complete the installation correctly.

• If an error message appears during the software installation, run the **Installation Diagnostics** located in **start/All Programs/Brother/MFC-XXXX LAN** (where MFC-XXXX is your model name).

## 18 Install MFL-Pro Suite on additional computers (if needed)

If you want to use your machine with multiple computers on the network, install MFL-Pro Suite on each computer. Go to step **17** on page 16.

Finish **The installation is now complete.**

📝 Note

• If you use a specified IP Address for the machine, you must set the Boot Method to Static by using the control panel. For more information, see *Network menu* in the *Network User's Guide*.

• Depending on your security settings, a Windows Security or antivirus software window may appear when using the machine or its software. Please allow or permit the window to continue.

• **XML Paper Specification Printer Driver** The XML Paper Specification Printer Driver is the most suitable driver for Windows Vista® and Windows® 7 when printing from the applications that use the XML Paper Specification documents. Please download the latest driver by accessing the Brother Solutions Center at http://solutions.brother.com/.

## For Wired Network Interface Users (Mac OS X 10.4.11 - 10.6.x)

16 Before you install

a Make sure your machine is connected to the power and your Macintosh is ON. You must be logged on with Administrator rights.

> **❗ IMPORTANT**
>
> **For Mac OS X 10.4.10 users, upgrade to Mac OS X 10.4.11 - 10.6.x. (For the latest drivers and information on the Mac OS X you are using, visit http://solutions.brother.com/.)**

> 📝 **Note**
>
> If you want to setup the PS driver (BR-Script3 printer driver), please go to the Brother Solutions Center at http://solutions.brother.com/ and click Downloads on your model page and visit FAQ's for setup instructions.

b Remove the protective cap from the LAN connector marked with a 🖧 symbol.
c Connect the network interface cable to the LAN connector and then connect it to a free port on your hub.
**d** Make sure your machine's power switch is on.

17 Install MFL-Pro Suite

a Put the installation CD-ROM into your CD-ROM drive.

b Double-click the **Start Here OSX** icon. Follow the on-screen instructions.
> 📝 **Note**
>
> It may take a few minutes for installation to complete.

c Follow the on-screen instructions until this screen appears. Choose your machine from the list, and then click **OK**.
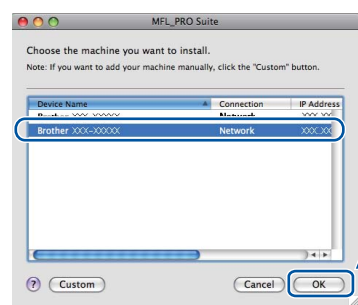

> 📝 **Note**
>
> If your machine is not found over the network, confirm your network settings. See *Before you install* on page 18.
✎ **Note**

- You can find your machine's MAC Address (Ethernet Address) and IP Address by printing out the Network Configuration List. See *Print the Network Configuration List* on page 20.
- If this screen appears click **OK**.

> **Display name is not registered.**
> Click OK and register a name for your computer that will be displayed when using the "Scan To" functions.
>
> OK

Enter a name for your Macintosh in **Display Name** up to 15 characters long and click **OK**. Go to **d**.

> ○ Specify your machine by address
>   IP Address : XXX.XXX.XXX.XXX
> ● Specify your machine by name
>   mDNS Service Name : Brother XXX– XXXX [XXXXXXXXXXXX]
>
> ☑ Register your computer with the "Scan To" function on the machine.
>   Display Name
>   (Max 15 characters)
>   XXXX
>
> Set the "Scan To" Button PIN number for this computer
> ☐ Enable PIN number protection
>   PIN number
>   ("0" – "9", 4 digits)
>   Retype PIN number
>
> Cancel   OK

- If you want to use the machine's **SCAN** key to scan over the network, you must check the **Register your computer with the "Scan To" function on the machine** box.

- The name you enter will appear on the machine's LCD when you press ▤ (**SCAN**) and choose a scan option. (For more information, see *Network Scanning* in the *Software User's Guide*.)

**d** When this screen appears, click **Next**.

> **Brother MFL-Pro Suite Installation Completed!**
> The MFL-Pro Suite, Printer Driver, Scanner Driver and ControlCenter2 have been installed.
>
> Next

OK! **The installation of MFL-Pro Suite is now complete.**
Go to step 18 on page 19.

---

18 ## Download and install Presto! PageManager

When Presto! PageManager is installed OCR capability is added to Brother ControlCenter2. You can easily scan, share and organize photos and documents using Presto! PageManager.

a On the **Brother Support** screen, click **Presto! PageManager** and follow the on-screen instructions.

> **Brother Support**
>
> **Presto! PageManager**
> Download the Presto! PageManager installer.
> Access to the internet is required.
>
> **Brother Solutions Center**
> The Brother Solutions Center is a web site offering information about your Brother product including FAQ's, User's Guides, Driver updates and tips to help get the most from your machine.
>
> Close

19 ## Install MFL-Pro Suite on additional computers (if needed)

If you want to use your machine with multiple computers on the network, install MFL-Pro Suite on each computer. Go to step **17** on page 18.

Finish **The installation is now complete.**

✎ **Note**

If you use a specified IP Address for the machine, you must set the Boot Method to Static by using the control panel. For more information, see *Network menu* in the *Network User's Guide*.

**Windows®**
Wired Network
Macintosh

Web Based Management (web browser)

The Brother print server is equipped with a web server that allows you to monitor its status or change some of its configuration settings, using HTTP (Hyper Text Transfer Protocol).

Note
- The default User Name is '**admin**' and the default password is '**access**'. You can use a web browser to change this password.
- We recommend Microsoft® Internet Explorer® 6.0 (or greater) or Firefox 3.0 (or greater) for Windows® and Safari 3.0 (or greater) for Macintosh. Please also make sure that JavaScript and cookies are always enabled in whichever browser you use. To use a web browser, you will need to know the IP address of the print server. The IP address of the print server is listed on the Network Configuration List.

a Open your browser.

b Type `http://machine_ip_address/` into your browser (where `machine_ip_address` is the IP address of the printer or the print server name).
  - For example http://192.168.1.2/
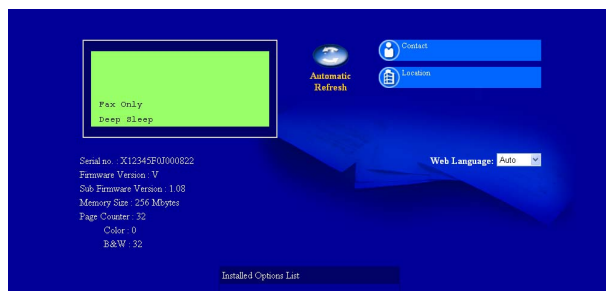

See *Web Based Management* in the *Network User's Guide*.

Print the Network Configuration List

You can print the Network Configuration List to confirm the current network settings.

a Turn on the machine and wait until the machine is in the Ready state.

b Press **Menu**, **6**, **6**.

c Press **Mono Start** or **Color Start**.

The machine will print the current network settings.

d Press **Stop/Exit**.

Restore the network settings to factory default

To restore all network settings of the internal Print/Scan server to factory default, please follow the steps below.

a Make sure the machine is not operating, then disconnect all the cables from the machine (except the power cord).

b Press **Menu**, **7**, **0**.

c Press **1** to choose `Reset`.

d Press **1** to choose `Yes`.

The machine will restart, re-connect cables once this is complete.

Other Information

Colour Correction (if needed)

Colour Calibration

The output density for each colour may vary depending on the environment the machine is in, such as temperature and humidity. Calibration helps you to improve the colour density.

Note
- If you print using the Direct Print feature or the BR-Script printer driver, you need to perform the calibration from the control panel. See *Using the control panel* on page 21.
- If you print using the Windows® printer driver, the driver will get the calibration data automatically if both **Use Calibration Data** and **Get Device Data Automatically** are on. See *Advanced tab* in the *Software User's Guide*.
- If you print using the Macintosh printer driver, you need to perform the calibration using **Status Monitor**. After turning **Status Monitor** on, choose **Color Calibration** from **Control** menu. See *Status Monitor* in the *Software User's Guide*.

Using the control panel

a   Press **Menu**, **4**, **6**.

b   Press ▲ or ▼ to choose Calibrate.
    Press **OK**.

c   Press **1** to choose Yes.

d   Press **Stop/Exit**.

You can reset the calibration parameters back to those set at the factory.

a   Press **Menu**, **4**, **6**.

b   Press ▲ or ▼ to choose Reset.
    Press **OK**.

c   Press **1** to choose Yes.

d   Press **Stop/Exit**.

Colour Registration

Auto Registration
You can adjust the print position of each colour automatically.

a   Press **Menu**, **4**, **7**.

b   Press **1** to choose Start.

c   Press **Stop/Exit**.

To adjust the print position of each colour manually, see *Manual Registration* in the *Basic User's Guide*.
