1 Unpack the machine and check the components

	Drum Unit and Toner Cartridge Assembly (pre-installed)	**Installer CD-ROM**
AC Power Cord	**Telephone Line Cord**	**USB Interface Cable**
Quick Setup Guide	**Basic User's Guide**	**Product Safety Guide**

⚠ WARNING	WARNING indicates a potentially hazardous situation which, if not avoided, could result in death or serious injuries.
⚠ CAUTION	CAUTION indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injuries.

⚠ WARNING

- **Plastic bags are used in the packing of your machine. To avoid danger of suffocation, keep these plastic bags away from babies and children. Plastic bags are not toys.**

- **When moving the machine, grasp the side handholds firmly from the front of the machine. The side handholds are located under the scanner. DO NOT carry the machine by holding it at the bottom.**
- **If you use a Lower Tray, DO NOT carry the machine with the Lower Tray as you may be injured or cause damage to the machine because it is not attached to the Lower Tray.**

📝 Note

- Keep a minimum gap around the machine as shown in the illustration.
- The components included in the box may differ depending on your country.

- We recommend that you save the original packaging.

- If for any reason you must ship your machine, carefully repack the machine in the original packaging to avoid any damage during transit. The machine should be adequately insured with the carrier. For how to repack the machine, see *Packing and shipping the machine* in the *Advanced User's Guide*.

- Illustrations in this Quick Setup Guide are based on the MFC-8510DN.

- To ensure safe operation the supplied plug must be inserted only into a standard power outlet that is properly grounded through the standard electrical wiring. Non grounded equipment may cause an electrical shock hazard, and may cause excessive electrical noise radiation.

- The network cable is not a standard accessory. Buy the appropriate interface cable for the connection you want to use.

USB cable
It is recommended to use a USB 2.0 cable (Type A/B) that is no longer than 2 meters.

Network cable
Use a straight-through Category 5 (or greater) twisted-pair cable for 10BASE-T or 100BASE-TX Fast Ethernet Network.
# 2 Remove the packing material from the machine

❶ Important

DO NOT connect the AC power cord yet.

a Remove the packing tape from the outside of the machine and the film covering the scanner glass.

b Open the MP tray ❶, and remove the packing tape ❷ from the MP tray support, then close the MP tray.

c Press the front cover release button and open the front cover. Remove the silica gel pack ❶.
⚠ CAUTION

DO NOT eat the silica gel pack. Please throw away. If ingested, seek medical attention immediately.

d Take out the drum unit and toner cartridge assembly.
e Remove the orange protective material from the drum unit and toner cartridge assembly.
f Hold the drum unit and toner cartridge assembly level with both hands and gently shake it from side to side several times to distribute the toner evenly inside the cartridge.
g Put the drum unit and toner cartridge assembly firmly back in the machine.

h Close the front cover of the machine.

3 Load paper in the paper tray

a Pull the paper tray completely out of the machine.
b While pressing the green paper-guide release lever ❶, slide the paper guides to fit the paper size you are loading in the tray. Make sure that the guides are firmly in the slots.
c Fan the stack of paper well to avoid paper jams and misfeeds.

d Put the paper in the tray and make sure:
- The paper is below the maximum paper mark (▼▼▼) ❶.
  Over filling the paper tray will cause paper jams.
- The side to be printed on is face down.
- The paper guides touch the sides of the paper so it will feed correctly.
e Put the paper tray firmly back in the machine. Make sure that it is completely inserted into the machine.

f Lift up the support flap ❶ to prevent paper from sliding off the face-down output tray.
🔍 For more information about recommended paper, see *Recommended paper and print media* in the *Basic User's Guide*.

4 Connect the power cord and telephone line

Important

DO NOT connect the interface cable yet.

a Connect the AC power cord to the machine and then plug it into an electrical socket.

b Turn the machine's power switch on.
c Connect the telephone line cord. Connect one end of the telephone line cord to the socket on the machine marked **LINE** and the other end to a telephone wall socket.
Important

The telephone line cord MUST be connected to the socket on the machine marked LINE.

⚠ WARNING

The machine must be grounded using an earthed plug.

Since the machine is grounded through the electrical socket, you can protect yourself from potentially hazardous electrical conditions on the telephone network by keeping the power cord connected to your machine when you connect it to a telephone line. Similarly, you can protect yourself when you want to move your machine by disconnecting the telephone line first and then the power cord.

Note

If you are sharing one telephone line with an external telephone, connect it as shown below.

Before you connect the external telephone, remove the protective cap ❸ from the **EXT.** socket on the machine.
❶ Extension telephone
❷ External telephone
❸ Protective cap

Note

If you are sharing one telephone line with an external telephone answering machine, connect it as shown below.

Before you connect the external telephone answering machine, remove the protective cap ❸ from the **EXT.** socket on the machine.
❶ Extension telephone answering machine (not supported)
❷ External telephone answering machine
❸ Protective cap

Set the receive mode to External TAD if you have an external answering machine. See *Receive modes* on page 7. For additional details, see *Connecting an external TAD* in the *Basic User's Guide*.

5 Choose your language (if needed)

a Press **Menu**, **0**, **0**.

b Press ▲ or ▼ to choose your language. Press **OK**.

c Press **Stop/Exit**.

6 Choose a Receive Mode

Receive modes

By factory default, the factory setting of Receive Mode is "Fax Only". Your machine will automatically receive any faxes that are sent to it. There are four receive modes of this machine as below.

LCD Display	Factory Default Ring Delay
Fax Only	Ring Delay: 4 times Fax detection: on
Fax/Tel	Ring Delay: 4 times Time: 30 seconds
Manual	
External TAD	

Mode	Function	Description
Fax Only	Each call recognized as fax and send fax signal. However, you can answer the call within the number of rings.	Factory setting of Ring Delay is 4 (0-10 times available, please see *Ring Delay* in the *Basic User's Guide*). After ringing 4 times, the fax machine send fax-receiving signals automatically; Tip: If your machine is connecting an external answering phone device, and often use it to answer incoming calls, you could set the ring time through 4 to 6 times. Within the recommended ringing times, you can use the external answering phone device to answer and talk. [1]
Fax/Tel	Automatically determine whether the incoming call is telephone or fax calls. Non-Fax call will make a fast doublering to inform you answer the phone.	Factory setting of Ring Delay is 4 (0-10 times available, please see *Ring Delay* in the *Basic User's Guide*). Factory setting of F/T ring time (a fast double-ring) is 30 seconds (20, 30, 40, 70 seconds available, please see *F/T Ring Time* in the *Basic User's Guide*). According to incoming call after the fax machine rings 4 times: 1) For the fax call, send fax received signal; 2) For the telephone call, make a fast double-ring, waiting for you answer the phone. Tip: If your machine is connecting an external answering phone device, you could set the ringing time through 4 to 6 times to answer the call. [1]
Manual	Machine doesn't recognize each call, only as a common phone call that you need to determine after answering the phone.	Answering the call, or if the caller wants to send you a fax, press the **Start** button (under easy mode) to receive faxes. Tip: If your machine is connecting an external answering phone device, you can use the external answering phone device to answer and talk. [1]
External TAD	The external answering machine (TAD) automactically answers every call. Voice messages are stored on the external TAD. Fax messages are printed.	Use this mode if you have connected an external answering machine to your machine. The TAD setting works only with an external answering machine. Note: Ring Delay and F/T Ring Time do not work in this setting.

[1] If the caller wants to send a fax during a call or the caller sends you a fax call, please press the **Start** button (under easy mode) on the control panel of the machine or press * **5 1** keys on the external answering phone device (you have to turn on the remote codes first, please see *Using remote codes* in the *Basic User's Guide*) to give fax receiving signals.

To set a receive mode follow the instructions below:

a Press **Menu**, **0**, **1**.

b Press ▲ or ▼ to choose the receive mode.

c Press **Stop/Exit**.

For more details, see *Using receive modes* in the *Basic User's Guide*.

7 Set the LCD contrast (if needed)

If you are having difficulty reading the LCD, try changing the contrast setting.

a Press **Menu**, **1**, **7**.

b Press ▶ to increase the contrast.
—OR—
Press ◀ to decrease the contrast.
Press **OK**.

c Press **Stop/Exit**.

8 Set the date and time

The machine displays the date and time, and if you set up the station ID, the date and time will be added to each fax you send.

a Press **Menu**, **0**, **2**, **1**.

b Enter the last two digits of the year on the dial pad, and then press **OK**.

```
02.Date&Time

    Year:2012
Enter & OK Key
```

(e.g. Enter **1**, **2** for 2012.)

c Enter the two digits for the month on the dial pad, and then press **OK**.

```
02.Date&Time
  2012/XX/XX

  Month:03
Enter & OK Key
```

(e.g. Enter **0**, **3** for March.)

d Enter the two digits for the day on the dial pad, and then press **OK**.

```
02.Date&Time
  2012/03/XX

  Day:25
Enter & OK Key
```

(e.g. Enter **2**, **5** for 25th.)

e Enter the time in 24-hour format on the dial pad, and then press **OK**.

```
02.Date&Time
  2012/03/25

  Time:15:25
Enter & OK Key
```

(e.g. Enter **1**, **5**, **2**, **5** for 15:25.)

f Press **Stop/Exit**.

9 Enter personal information (Station ID)

The machine displays the date and time, and if you set up the Station ID, it will add it to each fax you send.

a Press **Menu**, **0**, **3**.

b Enter your fax number (up to 20 digits) on the dial pad, and then press **OK**.

```
03.Station ID

    Fax:_
───────────────────
Enter & OK Key
```

c Enter your telephone number (up to 20 digits) on the dial pad, and then press **OK**. If your telephone number and fax number are the same, enter the same number again.

```
03.Station ID
    Fax:XXXXXXXXXX

    Tel:_
───────────────────
Enter & OK Key
```

d Use the dial pad to enter your name (up to 10 characters for Chinese or 20 characters for alphanumeric), and then press **OK**.

```
Name:

───────────────────
Enter & OK Key    ▲拼
```

Note

• You can register your name in Chinese or English in this machine. You can switch between the alphabet input mode and the Chinese-entry mode by pressing ▲ button, the current input mode will appear in the lower right corner of LCD. Simplified Chinese can be converted from Pinyin entry.
See the following chart for entering your name.

• If you need to enter a character that is on the same key as the last character, press ▶ to move the cursor to the right.

• If you entered a character incorrectly and want to change it, press ◀ or ▶ to move the cursor to the incorrect character, then press **Clear**.

Press key	One time	Two times	Three times	Four times	Five times	Six times	Seven times	Eight times	Nine times
2	a	b	c	A	B	C	2	a	b
3	d	e	f	D	E	F	3	d	e
4	g	h	i	G	H	I	4	g	h
5	j	k	l	J	K	L	5	j	k
6	m	n	o	M	N	O	6	m	n
7	p	q	r	s	P	Q	R	S	7
8	t	u	v	T	U	V	8	t	u
9	w	x	y	z	W	X	Y	Z	9

For more details, see *Entering text* in the *Basic User's Guide*.

e Press **Stop/Exit**.

Note

If you make a mistake and want to start again, press **Stop/Exit** and go back to step **a**.

10 Fax Transmission Report

Your Brother machine is equipped with a Transmission Verification Report that can be used as confirmation that you sent a fax. This report lists the name or fax number of the receiving party, the date, time and duration of the transmission, the number of pages transmitted, and whether or not the transmission was successful. If you want to use the Fax Transmission Report feature see *Printing reports* in the *Advanced User's Guide*.

11 Set tone or pulse dialling mode

Your machine comes set for a Tone dialling service. If you have a Pulse dialling service (rotary), you need to change the dialling mode.

a Press **Menu**, **0**, **4**.

b Press ▲ or ▼ to choose `Pulse` (or `Tone`). Press **OK**.

c Press **Stop/Exit**.

12 Set the telephone line compatibility

If you are connecting the machine to a VoIP service (over the Internet) you need to change the compatibility setting.

📝 Note

If you are using an analogue telephone line you can skip this step.

a Press **Menu**, **2**, **0**, **1**.

b Press ▲ or ▼ to choose `Basic(for VoIP)`. Press **OK**.

c Press **Stop/Exit**.

13 Dial Prefix

The dial prefix setting will automatically dial a predefined number before every fax number you dial. For example: If your phone system requires a 9 to dial an outside number this setting will automatically dial 9 for every fax you send.

a Press **Menu**, **0**, **6**.

b Enter the prefix number (up to 5 digits) on the dial pad, and then press **OK**.

📝 Note

- You can use the numbers 0 to 9, #, ∗ and !. (Press **Hook** to display "!".)
- You cannot use ! with any other numbers or characters.
- If your telephone system requires a timed break recall (hookflash), press **Hook** to enter the break.
- If the pulse dialing mode is on, # and ∗ are not available to use.

c Press **Stop/Exit**.

14 Set the Time Zone

You can set the time zone (not summer time but standard time) on the machine for your location.

a Press **Menu**, **0**, **2**, **2**.

b Press ▲ or ▼ to choose the time zone. Press **OK**.

c Press **Stop/Exit**.

15 Choose your connection type

These installation instructions are for Windows® XP Home/Windows® XP Professional, Windows® XP Professional x64 Edition, Windows Vista®, Windows® 7, and Mac OS X (versions 10.5.8, 10.6.x and 10.7.x).

📝 **Note**
- For Windows Server® 2003/2003 x64 Edition/2008/2008 R2 and Linux®, visit your model page at http://solutions.brother.com/.
- You can visit us at http://solutions.brother.com/ where you can get product support, the latest driver updates and utilities, and answers to frequently asked questions (FAQs) and technical questions.

(Windows® XP/XP Professional x64 Edition/Windows Vista®/
Windows® 7)

16 Before you install

a Make sure that your computer is ON and you are logged on with Administrator rights.

⚠ Important

- If there are any programs running, close them.
- The screens may differ depending on your operating system.

📝 Note

The installer CD-ROM includes Presto! PageManager. This software supports Windows® XP (SP3 or greater), XP Professional x64 Edition (SP2 or greater), Windows Vista® (SP2 or greater) and Windows® 7. Update to the latest Windows® Service Pack before installing MFL-Pro Suite.

b Turn off the machine.

📝 Note

If the USB cable is connected to your computer before the installation, the dialog box will automatically appear to inform that your computer found new hardware. Please cancel it to close the screen.

17 Install MFL-Pro Suite

a Put the installer CD-ROM into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

📝 Note

If the Brother screen does not appear automatically, go to **My Computer (Computer)**, double-click the CD-ROM icon, and then double-click **start.exe**.

b Click **Install MFL-Pro Suite**, and click **Yes** if you accept the license agreements.

📝 Note

- If the installation does not continue automatically, open the top menu again by ejecting and then reinserting the CD-ROM or double-click the **start.exe** program from the root folder, and continue from step **b** to install MFL-Pro Suite.
- For Windows Vista® and Windows® 7 users, when the **User Account Control** screen appears, click **Allow** or **Yes**.

**c** Choose **Local Connection (USB)** and then click **Next**.

📝 Note

If you want to install the PS driver (BR-Script3 printer driver), choose **Custom Install** and then follow the on-screen instructions.

d Follow the on-screen instructions until this screen appears.

e Connect the USB cable to the USB port

marked with the 🔌 symbol on your machine and then connect the cable to your computer.
f Turn the machine on.

The installation will automatically continue. The installation screens appear one after another. If prompted, follow any on-screen instructions.

⚠ Important

DO NOT cancel any of the screens during the installation. It may take a few seconds for all screens to appear.

📝 Note

For Windows Vista® and Windows® 7 users, when the **Windows Security** screen appears, select the check box and click **Install** to complete the installation correctly.

g When the **On-Line Registration** screen appears, make your selection and follow the on-screen instructions. Once you have completed the registration process, click **Next**.

h When the **Setup Complete** screen appears, check the box of the action you want to perform, and then click **Next**.

---

18 **Finish and restart**

a Click **Finish** to restart your computer. After restarting the computer, you must log on with Administrator rights.

📝 Note

• If an error message appears during the software installation, run the **Installation Diagnostics** located in **Start/All Programs/Brother/MFC-XXXX** (where MFC-XXXX is your model name).

• Depending on your security settings, a Windows® Security or antivirus software window may appear when using the machine or its software. Please allow or permit the window to continue.

Finish **The installation is now complete.**

📝 Note

XML Paper Specification Printer Driver

The XML Paper Specification Printer Driver is the most suitable driver for Windows Vista® and Windows® 7 when printing from applications that use the XML Paper Specification. Please download the latest driver by accessing the Brother Solutions Center at http://solutions.brother.com/.

Windows®

USB

Macintosh

For USB Interface Users
(Mac OS X 10.5.8 - 10.7.x)

16 Before you install

a Make sure your machine is connected to the power and your Macintosh is ON. You must be logged on with Administrator rights.
🛈 Important

For users of Mac OS X 10.5.7 or lower, upgrade to Mac OS X 10.5.8 - 10.7.x. (For the latest drivers and information for the Mac OS X you are using, visit http://solutions.brother.com/.)

📝 Note

If you want to add the PS driver (BR-Script3 printer driver), please go to the Brother Solutions Center at http://solutions.brother.com/ and visit FAQ's on your model page for instructions.

b Connect the USB cable to the USB port

marked with the 🔌 symbol on your machine and then connect the cable to your Macintosh.

**c** Make sure your machine's power switch is on.

17 Install MFL-Pro Suite

a Put the installer CD-ROM into your CD-ROM drive.

b Double-click the **Start Here OSX** icon. If prompted, select your model and then follow the on-screen instructions.
🛈 Important

DO NOT cancel any of the screens during the installation. It may take a few minutes for the installation to complete.

c Choose your machine from the list, and then click **OK**.

d When this screen appears, click **Next**.

OK! **The installation of MFL-Pro Suite is now complete.**
**Go to step 18 on page 15.**

18 Download and install Presto! PageManager

When Presto! PageManager is installed OCR capability is added to Brother ControlCenter2. You can easily scan, share and organize photos and documents using Presto! PageManager.

a On the **Brother Support** screen, click **Presto! PageManager** and follow the on-screen instructions.

Finish **The installation is now complete.**
For Wired Network Interface Users
(Windows® XP/XP Professional x64 Edition/Windows Vista®/
Windows® 7)

16 Before you install

**a** Make sure that your computer is ON and you are logged on with Administrator rights.

❶ Important
- If there are any programs running, close them.
- The screens may differ depending on your operating system.
✎ Note
- The installer CD-ROM includes Presto! PageManager. This software supports Windows® XP (SP3 or greater), XP Professional x64 Edition (SP2 or greater), Windows Vista® (SP2 or greater) and Windows® 7. Update to the latest Windows® Service Pack before installing MFL-Pro Suite.
- Disable all personal firewall software (other than Windows® Firewall), anti-spyware or antivirus applications for the duration of the installation.

b Remove the protective cap from the Ethernet port marked with a ⊟⊟ symbol.

c Connect the network interface cable to the Ethernet port and then connect it to a free port on your hub.

**d** Make sure your machine's power switch is on.

17 Install MFL-Pro Suite

a Put the installer CD-ROM into your CD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.
✎ Note
If the Brother screen does not appear automatically, go to **My Computer (Computer)**, double-click the CD-ROM icon, and then double-click **start.exe**.

b Click **Install MFL-Pro Suite**, and click **Yes** if you accept the license agreements.

✎ Note
- If the installation does not continue automatically, open the top menu again by ejecting and then reinserting the CD-ROM or double-click the **start.exe** program from the root folder, and continue from step **b** to install MFL-Pro Suite.
- For Windows Vista® and Windows® 7 users, when the **User Account Control** screen appears, click **Allow** or **Yes**.

c Choose **Wired Network Connection (Ethernet)** and then click **Next**.

✎ **Note**

If you want to install the PS driver (BR-Script3 printer driver), choose **Custom Install** and then follow the on-screen instructions.

d When the **Firewall/AntiVirus detected** screen appears, choose **Change the Firewall port settings to enable network connection and continue with the installation. (Recommended)** and click **Next**.
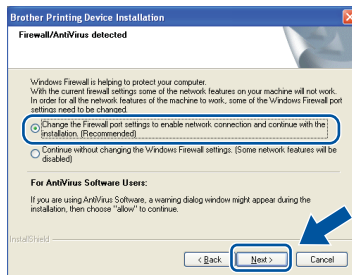

If you are not using the Windows® Firewall, see the user's guide for your software for information on how to add the following network ports.

- For network scanning, add UDP port 54925.
- For network PC-Fax receiving, add UDP port 54926.
- If you still have trouble with your network connection, add UDP port 161 and 137.

e The installation will automatically continue. The installation screens appear one after another. If prompted, follow any on-screen instructions.

❗ **Important**

DO NOT cancel any of the screens during the installation. It may take a few seconds for all screens to appear.

✎ **Note**

- If prompted, choose your machine from the list, and then click **Next**.
- If your machine is not found over the network, confirm your settings by following the on-screen instructions.
- If there is more than one of the same model connected on your network, the IP Address and Node Name will be displayed to help you identify the machine.
- You can find your machine's IP address and the node name by printing out the Network Configuration Report. See *Print the Network Configuration Report* on page 21.
- For Windows Vista® and Windows® 7 users, when the **Windows Security** screen appears, select the check box and click **Install** to complete the installation correctly.

f When the **On-Line Registration** screen appears, make your selection and follow the on-screen instructions. Once you have completed the registration process, click **Next**.

g When the **Setup Complete** screen appears, check the box of the action you want to perform, and then click **Next**.

18 Finish and restart

a Click **Finish** to restart your computer. After restarting the computer, you must log on with Administrator rights.

✎ **Note**

- If an error message appears during the software installation, run the **Installation Diagnostics** located in **Start**/**All Programs**/**Brother**/**MFC-XXXX LAN** (where MFC-XXXX is your model name).
- Depending on your security settings, a Windows® Security or antivirus software window may appear when using the machine or its software. Please allow or permit the window to continue.

Windows®
Wired Network
Macintosh

17
19 Install MFL-Pro Suite on additional computers (if needed)

If you want to use your machine with multiple computers on the network, install MFL-Pro Suite on each computer. Go to step **17** on page 16.
Finish **The installation is now complete.**

Note

XML Paper Specification Printer Driver

The XML Paper Specification Printer Driver is the most suitable driver for Windows Vista® and Windows® 7 when printing from applications that use the XML Paper Specification. Please download the latest driver by accessing the Brother Solutions Center at http://solutions.brother.com/.

For Wired Network Interface Users
(Mac OS X 10.5.8 - 10.7.x)

16 Before you install

a Make sure your machine is connected to the power and your Macintosh is ON. You must be logged on with Administrator rights.

❶ Important

For users of Mac OS X 10.5.7 or lower, upgrade to Mac OS X 10.5.8 - 10.7.x. (For the latest drivers and information for the Mac OS X you are using, visit http://solutions.brother.com/.)
📝 Note

If you want to add the PS driver (BR-Script3 printer driver), please go to the Brother Solutions Center at http://solutions.brother.com/ and visit FAQ's on your model page for instructions.

b Remove the protective cap from the Ethernet port marked with a 🖧 symbol.
c Connect the network interface cable to the Ethernet port and then connect it to a free port on your hub.

**d** Make sure your machine's power switch is on.

17 Install MFL-Pro Suite

a Put the installer CD-ROM into your CD-ROM drive.

b Double-click the **Start Here OSX** icon. If prompted, select your model and then follow the on-screen instructions.

❶ Important

DO NOT cancel any of the screens during the installation. It may take a few minutes for the installation to complete.

**c** Choose your machine from the list, and then click **OK**.
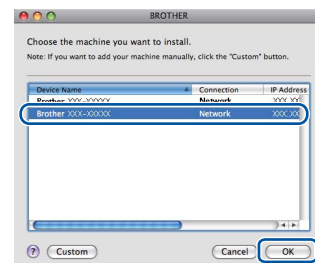

📝 Note

If your machine is not found over the network, confirm your network settings. See *Before you install* on page 19.

Note

- You can find your machine's MAC Address (Ethernet Address) and IP Address by printing out the Network Configuration Report. See *Print the Network Configuration Report* on page 21.

- If this screen appears click **OK**.
  1) Enter a name for your Macintosh in **Display Name** (up to 15 single-byte characters long).

  2) If you want to use the machine's **SCAN** key to scan over the network, you must check the **Register your computer with the "Scan To" function on the machine** box.

  3) Click **OK**. Go to **d**.
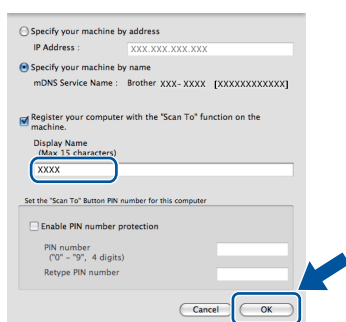

- The name you enter will appear on the machine's LCD when you press [⬆] (**SCAN**) and choose a scan option. (For more information, see *Network Scanning (For network models)* in the *Software User's Guide*.)

d When this screen appears, click **Next**.
OK! The installation of MFL-Pro Suite is now complete.
Go to step **18** on page 20.

18 Download and install Presto! PageManager

When Presto! PageManager is installed OCR capability is added to Brother ControlCenter2. You can easily scan, share and organize photos and documents using Presto! PageManager.

a On the **Brother Support** screen, click **Presto! PageManager** and follow the on-screen instructions.
19 Install MFL-Pro Suite on additional computers (if needed)

If you want to use your machine with multiple computers on the network, install MFL-Pro Suite on each computer. Go to step **17** on page 19.

Finish The installation is now complete.
For Network Users

Web Based Management (web browser)

The Brother print server is equipped with a web server that allows you to monitor its status or change some of its configuration settings, using HTTP (Hyper Text Transfer Protocol).

Note

We recommend Windows® Internet Explorer® 7.0/8.0 or Firefox® 3.6 for Windows® and Safari 4.0/5.0 for Macintosh. Please also make sure that JavaScript and cookies are always enabled in whichever browser you use. To use a web browser, you will need to know the IP address of the print server. The IP address of the print server is listed on the Network Configuration Report.

a Open your browser.

b Type "http://machine's IP address/" into your browser's address bar (where "machine's IP address" is the IP address of the Brother machine or the print server name).
- For example: http://192.168.1.2/

Note

If you have configured an optional login password, you must enter it when prompted to access the Web Based Management.

For more information, see *Web Based Management* in the *Network User's Guide*.

Print the Network Configuration Report

You can print the Network Configuration Report to confirm the current network settings.

a Turn on the machine and wait until the machine is in the Ready state.

b Press **Menu**, **6**, **5**.

c Press **Start**.

The machine will print the current network settings.

d Press **Stop/Exit**.

Restore the network settings to the factory default

To restore all network settings of the internal Print/Scan server to the factory default, please follow the steps below.

a Make sure the machine is not operating, then disconnect all the cables from the machine (except the power cord).

b Press **Menu**, **7**, **0**.

c Press **1** to choose `Reset`.

d Press **1** to choose `Yes`.

The machine will restart, re-connect the cables once this is complete.

Options and Consumables

Options

The machine has the following optional accessories. You can expand the capabilities of the machine by adding these items. For more information about the optional Lower Tray Unit and compatible SO-DIMM Memory, visit us at http://solutions.brother.com/.

For installing the SO-DIMM Memory, see *Installing extra memory* in the *Advanced User's Guide*.

Lower Tray Unit	SO-DIMM Memory
LT-5400 The lower paper tray unit can hold up to 500 sheets of paper. When the tray is installed, the machine expands total input capacity up to 800 sheets.	You can increase the memory by installing one SO-DIMM (Small Outline Dual In-line Memory Module).

Consumables

When the time comes to replace consumable items, an error will be indicated by the LCD on the control panel. For more information about the consumables for your machine, visit us at http://www.brother.com/original/ (Click "Asia/Oceania", and then click "China") or contact your local Brother reseller.
