Please read this guide before attempting to operate the product, or before attempting any maintenance. Failure to follow these instructions may result in an increased risk of fire, electrical shock, burns or suffocation. Brother shall not be liable for damage caused where the product owner has failed to follow the instructions set out in this guide.

How to use this guide:

1. Read the whole guide before using your product and keep it for later reference.
2. Carefully follow the instructions set out in this guide and always ensure that you follow all warnings and instructions marked on the product.
3. If you have concerns about how to use your product having read this guide, please refer to Brother customer service or your local Brother dealer.
4. To ensure you understand all of the instructions, study the symbols and conventions used in the documentation.
Symbols and conventions used in the documentation

The following symbols and conventions are used throughout the documentation. Follow all warnings and instructions marked on the product.

⚠️ WARNING

WARNING indicates a potentially hazardous situation which, if not avoided, could result in death or serious injuries.

⚠️ CAUTION

CAUTION indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injuries.

✅ IMPORTANT

IMPORTANT indicates a potentially hazardous situation which, if not avoided, may result in damage to property or loss of product functionality.

⚠️NOTE

NOTE specifies the operating environment, conditions for installation, or special conditions of use.

Electrical Hazard icons alert you to possible electrical shocks.

Fire Hazard icons alert you to the possibility of a fire.

Hot Surface icons warn you not to touch product parts that are hot.

Prohibition icons indicate actions that must not be performed.

**Bold** Bold typeface identifies specific buttons on the product's control panel or on the computer screen.

*Italics* Italicized typeface emphasizes an important point or refers you to a related topic.
Choose a safe location for your product

**WARNING**

Choose a location where the temperature remains between 10°C and 32°C, the humidity is between 20% to 80%, and where there is no condensation.

DO NOT expose the product to direct sunlight, excessive heat, open flames, corrosive gasses, moisture or dust. Doing so may create a risk of an electrical shock, short circuit or fire. It may also damage the product and/or render it inoperable.

DO NOT place the product near heaters, air conditioners, electrical fans, refrigerators, or water. Doing so may create the risk of an electrical shock, short circuit or fire, as water may come into contact with the product (including condensation caused by heating/air conditioning/ventilation equipment).

DO NOT place the product near chemicals or in a place where chemical spillage could occur. In particular, organic solvents or liquids may cause the casing and/or cables to melt or dissolve, risking fire or electric shock. They may also cause the product to malfunction or become discoloured.
DO NOT put the product in a location that blocks or obstructs any slot or opening in the product. These slots and openings are provided for ventilation. Blocking the product’s ventilation could create a risk of overheating and/or fire.

- Keep a gap of at least 150 mm between the product and the wall.
- Place the product on a solid level surface.
- DO NOT place this product near or over a radiator or heater.
- DO NOT place this product in a “built-in” installation unless adequate ventilation is provided.
CAUTION

This product emits some chemical substances during printing, and additionally if used for prolonged periods or in poorly ventilated areas may cause the emission of odorous gases such as ozone. Place the product in a well ventilated area for optimum performance and comfort.

Avoid placing your product in a busy area. If you must place it in a busy area, ensure that the product is in a safe location where it cannot be accidentally knocked over, which could cause injury to you or others and serious damage to the product. Also ensure that cords are secured so as not to pose a tripping hazard.

DO NOT place heavy objects on top of the product.

DO NOT place this product on an unstable cart, stand, or table. The product is heavy and may fall, causing injury to you and serious damage to the product. For MFC and DCP products, there is an added risk of injury if the scanner glass should break. Particularly, if you have children, please make sure the product is located in a safe position.

Put your product on a flat, level, stable surface free from vibration and shocks, such as a desk. Put the product near a telephone socket (MFC only) and a standard earthed electrical socket.

IMPORTANT

• DO NOT connect your product to electrical sockets controlled by wall switches or automatic timers, or to the same circuit as large appliances, such as an air conditioner, copier, shredder, etc. that might disrupt the power supply.

• DO NOT put objects on top of the product. Doing so could increase the risk of overheating should the product malfunction.

• DO NOT place anything in front of the product that will block printed documents or faxes (MFC only).

• DO NOT place your product next to sources of interference, such as speakers or the base units of non-Brother cordless telephones. Doing so may interfere with the operation of the product’s electronic components.

• Disruption of power can delete information from the product’s memory.
General precautions

WARNING

Plastic bags are used in the packing of your product. To avoid danger of suffocation, keep these plastic bags away from babies and children. Plastic bags are not toys.

(Models with Wireless LAN function only)
DO NOT use the product near any medical electrical equipment. The radio wave emitted from the product may affect medical electrical equipment and cause a malfunction, which may result in a medical accident.

For users with pacemakers
This product generates a weak magnetic field. If you experience any unusual symptoms with your pacemaker while near the product, move away from the product and consult a doctor immediately.

DO NOT use this product during an electrical storm. There may be a remote risk of an electric shock from lightning.

DO NOT put a toner cartridge or a toner cartridge and drum unit assembly into a fire. It could explode, resulting in injuries.
DO NOT use flammable substances, any type of spray, or an organic solvent/liquid containing alcohol or ammonia to clean the inside or outside of the product. Doing so could cause a fire or electrical shock. Instead, use only a dry, lint-free cloth.

DO NOT attempt to operate this product when a paper jam or stray pieces of paper are inside the product. Prolonged contact of paper with the fuser unit may cause a fire.

DO NOT use a vacuum cleaner to clean up scattered toner. Doing this may cause the toner dust to ignite inside the vacuum cleaner, potentially starting a fire. Carefully clean the toner dust with a dry, lint-free soft cloth and dispose of it according to local regulations.

Unplug this product from the wall socket before cleaning the product and the scanner glass (MFC and DCP only). DO NOT use liquid or aerosol cleaners. Use a dry, lint-free soft cloth for cleaning.
**HOT SURFACE**

After you have just used the product, some internal parts of the product will be extremely hot. Wait at least 15 minutes for the product to cool down before you touch the internal parts of the product.
**CAUTION**

(MFC and DCP only)

When moving the product, hold it by grasping the handholds at the bottom firmly from the front of the product.

(MFC and DCP only)

Some areas of the product can cause injury if covers (shaded) are closed with force. Take care when placing your hand in the areas shown in the illustrations, and DO NOT close the covers with force.
To prevent injuries, be careful not to put your fingers in the areas shown in the illustrations.

(HL only)
The top cover of the product will be hot, during and after using the product.
DO NOT touch or place anything on the top cover, shown by the shaded area in the illustration.

If the product is not being used to receive faxes, unplug it from the power outlet if it is not going to be used for a long time.

DO NOT attempt to dismantle a toner cartridge. If toner powder should leak out, avoid inhaling it or letting it come in contact with your skin. If either should happen refer to the Safety Data Sheets (SDS) at http://sds.brother.co.jp/sdsapp/index.html.

Keep the toner cartridge out of the reach of children. If-toner powder is swallowed, consult a doctor immediately and refer to the Safety Data Sheets (SDS) at http://sds.brother.co.jp/sdsapp/index.html.

We recommend placing the toner cartridge and drum unit assembly on a clean, flat surface with disposable paper underneath it in case you accidentally spill or scatter toner. If toner scatters on your hands or clothes, immediately wipe or wash it off with cold water.
Should you come into contact with toner, follow these instructions:

• Inhalation
  Obtain immediate medical attention. If toner is inhaled, remove casualty to fresh air and keep at rest.

• Skin contact
  Remove contaminated clothing immediately and wash affected skin with plenty of water or soap and water if available.

• Eye contact
  Obtain medical attention. If substance has got into the eyes, immediately wash out with plenty of water for at least 15 minutes.

• Ingestion
  Obtain immediate medical attention. Wash out mouth with water and give 200 - 300 ml (half a pint) of water to drink.

For more safety information regarding the toners used in your product, please visit the following web address to read the Safety Data Sheets (SDS) [http://sds.brother.co.jp/sdsapp/index.html](http://sds.brother.co.jp/sdsapp/index.html).

**IMPORTANT**

DO NOT remove or damage any of the caution or warning labels inside the product.

**NOTE**

The machine may emit steam during printing. This is normal behaviour and should not cause concern. It is due to a combination of paper moisture content and room temperature.
Connecting the product safely

**WARNING**

There are high voltage electrodes inside the product. Before you clean the inside of the product, make sure you have unplugged the telephone line cord first (MFC only) and then the power cord from the electrical socket. Doing this will prevent an electrical shock.

DO NOT use the AC power cord to pull or push the plug into the wall socket, use the finger grips on the plug.

DO NOT handle the plug with wet hands. Doing this may cause an electrical shock.

Always make sure the plug is fully inserted.

This product should be connected to an AC power source within the range indicated on the rating label. DO NOT connect it to a DC power source or inverter. If you are unsure, contact a qualified electrician.

This product is equipped with a 3-wire earthed plug. This plug will only fit into an earthed power outlet. This is a safety feature. If you are unable to insert the plug into the outlet, call your electrician to replace your obsolete outlet. DO NOT defeat the purpose of the earthed plug.
(MFC only)

Never touch exposed telephone wiring or terminals unless the telephone line has been unplugged from the wall socket. Never connect the telephone line cord during a lightning storm or use it if it becomes frayed or damaged. Do not use a telephone wall socket in a location that is wet or may become wet, for example, near a refrigerator or other appliances that produce condensation. Doing this may cause an electrical shock.

DO NOT place this product in a position where the cord is stretched or where strain is otherwise put on the cord. Doing so may cause the cord to become worn or frayed.

DO NOT use the product if the power cord is frayed or damaged. Doing so may cause an electrical shock or a fire.

• DO NOT allow anything to rest on the power cord.
• DO NOT place this product where people may step on the cord.
• DO NOT place this product in a position where the cord is stretched or strained, as it may become worn or frayed.

DO NOT use any undesignated cables (or optional devices). It may cause a fire or injuries. Installation must be performed correctly according to the user's guide.

Brother strongly recommends that you DO NOT use any type of extension cord.

DO NOT allow any type of liquid to come into contact with the plug or power outlet.

DO NOT allow the plug, power outlet or the product to become dusty.
### Servicing the product

#### WARNING

DO NOT attempt to service this product yourself because opening or removing covers may expose you to dangerous voltage points and other risks and may void your warranty. If you experience any problems with your product, contact Brother customer service or your local Brother dealer.

If the product has been dropped or the casing has been damaged, there may be the possibility of an electric shock. Unplug the product from the electrical socket and contact Brother customer service or your local Brother dealer.

If water, other liquids, or metal objects get inside the product, immediately unplug the product from the AC power outlet, and contact Brother customer service or your local Brother dealer.

If the product becomes unusually hot, releases smoke, generates any strong smells, or if you accidentally spill any liquid on it, immediately unplug the product from the electrical socket. Contact Brother customer service or your local Brother dealer.

#### IMPORTANT

If the product does not operate normally when the operating instructions are followed, adjust only those controls that are covered by the operating instructions. Incorrect adjustment of other controls may result in damage and will often require extensive work by a qualified technician to restore the product to normal operation.
Product Warranty & Liability

Nothing in this guide shall affect any existing product warranty or be construed as granting any additional product warranty. Failure to follow the safety instructions in this guide may invalidate your product’s warranty.

⚠️ WARNING

⚠️ ⚠️

DO NOT use this product near water, for example, near a bath tub, wash bowl, kitchen sink or washing machine, in a wet basement or near a swimming pool.

Disconnect device

⚠️ CAUTION

This product must be installed near an electrical socket that is easily accessible. In case of emergencies, you must disconnect the power cord from the electrical socket to shut off power completely.

Approval Information (MFC only)

THIS EQUIPMENT IS DESIGNED TO WORK WITH A TWO WIRE ANALOGUE PSTN LINE FITTED WITH THE APPROPRIATE CONNECTOR.

Brother advises that this product may not function correctly in a country other than where it was originally purchased, and does not offer any warranty in the event that this product is used on public telecommunication lines in another country.
We, Brother Industries, Ltd.
15-1, Naeshiro-cho, Mizuho-ku, Nagoya 467-8561 Japan
declare that this product is in conformity with the essential requirements of all relevant directives
and regulations applied within the European Community.

The Declaration of Conformity (DoC) can be downloaded from our website. Visit
http://support.brother.com and:

Your Declaration will be downloaded as a PDF file.

Declaration of Conformity for R&TTE (Radio and Telecommunications) Directive 1999/5/EC (Europe only)
(Applicable to models with telecommunications and/or radio interfaces)

We, Brother Industries, Ltd.
15-1, Naeshiro-cho, Mizuho-ku, Nagoya 467-8561 Japan
declare that these products are in conformity with the provisions of the R&TTE Directive
1999/5/EC. A copy of the Declaration of Conformity can be downloaded by following the
instructions in the Declaration of Conformity (Europe only) section.
IEC60825-1:2007 Specification (For 220-240V Models Only)

This product is a Class 1 laser product as defined in IEC60825-1:2007 specifications. The label shown below is attached in countries where required.

This product has a Class 3B Laser Diode which emits invisible laser radiation in the Laser Unit. The Laser Unit should not be opened under any circumstances.

Internal Laser radiation
Wave length: 770 - 800 nm
Output: 25 mW max.
Laser Class: Class 3B

⚠️ WARNING
Use of controls, adjustments or performance of procedures other than those specified in this manual may result in hazardous radiation exposure.

Wireless LAN
(Model with Wireless LAN function only)

This Printer/Multifunction Printer supports Wireless LAN.

Radio interference

This product complies with EN55022 (CISPR Publication 22)/Class B.
Recycling information in accordance with the WEEE and Battery Directives

The product/battery is marked with one of the above recycling symbols. It indicates that at the end of the life of the product/battery, you should dispose of it separately at an appropriate collection point and not place it in the normal domestic waste stream.

Imaging Equipment Voluntary Agreement

(This applies to new models placed on the EU market after January 2015.)

Brother warrants that service parts will be available for at least five years after the end of production.

To obtain service parts, please contact your Brother supplier or dealer.
Information regarding recycled paper

- Recycled paper is of the same quality of paper made from original forest sources. Standards governing modern recycled paper ensure that it meets the highest quality requirements for different printing processes. The imaging equipment supplied by the VA signatories is suitable for using with recycled paper meeting the EN 12281:2002 standard.

- Purchasing recycled paper saves natural resources and promotes the circular economy. Paper is made using cellulose fibres from wood. Collecting and recycling paper extends the life of fibres over multiple life cycles making the best use of the resources.

- The recycled paper production process is shorter. The fibres have already been processed; so less water, chemicals and energy are used.

- Paper recycling has the benefit of saving carbon by diverting paper products from alternative disposal routes such as landfill and incineration. Landfill waste emits methane gas which has a powerful greenhouse effect.

Unlawful use of copying equipment (MFC and DCP only)

It is an offence to make reproductions of certain items or documents with the intent to commit fraud. The following is a non-exhaustive list of documents which it may be unlawful to produce copies of. We suggest you check with your legal adviser and/or the relevant legal authorities if in doubt about a particular item or document:

- Currency
- Bonds or other certificates of indebtedness
- Certificates of Deposit
- Armed forces service or draft papers
- Passports
- Postage stamps (cancelled or uncancelled)
- Immigration papers
- Welfare documents
- Cheques or drafts drawn by governmental agencies
- Identifying badges or insignias

In addition, driving licenses and/or Certificates of Title to motor vehicles may not be copied under certain national laws.

Copyrighted works cannot be copied lawfully, subject to the “fair dealing” exception relating to sections of a copyrighted work. Multiple copies would indicate improper use. Works of art should be considered the equivalent of copyrighted works.
