You can download the *User's Guide* for your model from the Brother Solutions Center at [support.brother.com](http://support.brother.com). If your computer does not have a DVD-ROM drive, the supplied DVD-ROM does not contain drivers for your operating system, or you want to download manuals and utilities, visit your model page at [support.brother.com](http://support.brother.com).

**⚠ WARNING**

**Use only the AC adapter supplied with this product.**

- a** Remove the protective tape and film covering the machine and the LCD or Control Panel.
- b** Make sure you have all the components.

## 2

### Connect the AC adapter

#### NOTE

- Use only the power cord supplied with this product.
- Use the power cord that conforms to your country.

**a** Connect the AC adapter.

**For Windows® XP Home/XP Professional/  
Windows Vista®/  
Windows® 7/8/8.1/10 users**

## 3

### Before you install

Make sure that your computer and machine are ON.

#### NOTE

If there are any programs running, close them.

## 4

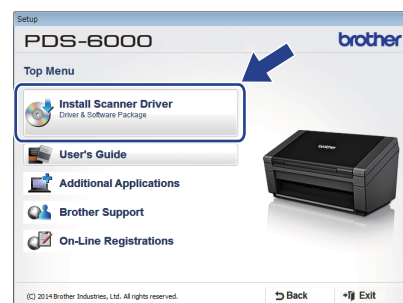

### Install Scanner Driver

**a** Put the DVD-ROM into your DVD-ROM drive. If the model name screen appears, choose your machine. If the language screen appears, choose your language.

#### NOTE

- If the Brother screen does not appear automatically, go to **Computer (My Computer)**.  
(For Windows® 8/8.1/10: click the  (**File Explorer**) icon on the taskbar, and then go to **Computer**.)
- Double-click the DVD-ROM icon, and then double-click **start.exe**.

**b** Click **Install Scanner Driver** and follow the on-screen instructions.

When prompted by the installer, connect the supplied USB cable to the USB ports on your computer (a USB 3.0 port is recommended) and machine.

#### NOTE

When you install the scanner driver, DS Capture (a scanning application) will be installed at the same time. For more information on using DS Capture, see *Use DS Capture* in the User's Guide.

## Finish

The installation is now complete and it is time to do a test scan. See **Test Scan (scan to a computer)** on page 5.

## For Mac OS X v10.8.x/10.9.x/10.10.x/10.11.x users

### 3 Before you install

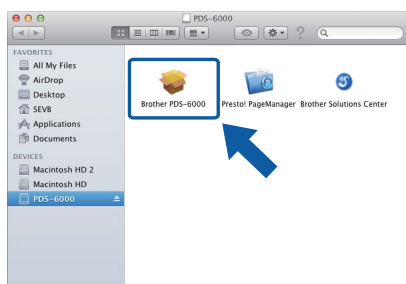

Make sure your machine is connected to the power and your Macintosh is ON.

#### NOTE

If there are any programs running, close them.

### 4 Install Scanner Driver

- a** Put the DVD-ROM into your DVD-ROM drive.
- b** Click **Driver Download** file to download the installer from the link destination product page.
- c** Double-click the **Brother PDS-XXXX.dmg** file.

- d** Double-click **Brother PDS-XXXX**, and follow the on-screen instructions.

When prompted by the installer, connect the supplied USB cable to the USB ports on your computer (a USB 3.0 port is recommended) and machine.

#### NOTE

- When you install the scanner driver, DS Capture (a scanning application) will be installed at the same time. For more information on using DS Capture, see *Use DS Capture* in the User's Guide.
- Clicking Presto! PageManager will take you to NewSoft Technology Corporation's website. Download the application from this website.

### Finish

The installation is now complete and it is time to do a test scan. See **Test Scan (scan to a computer)** on page 5.

# Test Scan (scan to a computer)

## 1

### Load your document

- a** Connect the supplied USB cable to the USB port on your scanner. Connect the other end of the cable to the USB port on your computer.
- b** Open the Top Cover **1**, and then unfold the Document Guides **2**.

- c** Pull the Output Tray out of the machine **1** and then unfold the Document Stopper **2**.

### IMPORTANT

Always open the top cover and output tray fully. Failure to do so may cause a risk of damage to the document.

- d** Fan the pages well.

## e

Place your document, face down, top edge first in the document feeder between the Document Guides until you feel it touch the inside of the machine gently. Adjust the Guides **1** to fit the width of your document.

## 2

### Scan using DS Capture

- a** Double-click the **DS Capture** shortcut on your desktop.
- b** (Windows®)  
Select your scanner model, and then click **OK**.  
(Macintosh)  
Click **Scan** or press **Scan**.  
Your scanner starts scanning.
- c** (Windows®)  
Click **Scan**. Your scanner starts scanning.

### NOTE

- To scan documents and configure various settings, please ensure you have installed the driver and connected the machine to your computer by following the instructions in this guide.
- For details about other scanning features, see *Scan using your computer* in the User's Guide.

## Symbols and conventions used in the documentation

The following symbols and conventions are used throughout the documentation:

### **WARNING**

**WARNING** indicates a potentially hazardous situation which, if not avoided, could result in death or serious injuries.

### **CAUTION**

**CAUTION** indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injuries.

### **IMPORTANT**

**IMPORTANT** indicates a potentially hazardous situation which, if not avoided, may result in damage to property or loss of product functionality.

### **NOTE**

**NOTE** tells you how you should respond to a situation that may arise or give tips about how the operation works with other features.

Prohibition icons indicate actions that must not be performed.

This icon indicates that flammable sprays may not be used.

This icon indicates that organic solvents such as alcohol and liquids may not be used.

Electrical Hazard icons alert you to possible electrical shocks.

Fire Hazard icons alert you to the possibility of fire.

Unplug icons indicate that you should unplug the machine.

#### **Bold**

Bold typeface identifies specific buttons on the machine's control panel, or on the computer screen.

#### *Italics*

Italicized typeface emphasizes an important point or refers you to a related topic.

#### Courier New

Text in the Courier New font identifies messages on the LCD of the machine.

Follow all warnings and instructions marked on the machine and AC adapter (from now on collectively referred to as "the unit").

### **NOTE**

The illustrations in this guide show the PDS-6000.

## Compilation and Publication Notice

This manual has been compiled and published to provide the latest product safety information at the time of publication. The information contained in this manual may be subject to change.

For the latest manual, please visit us at [support.brother.com](http://support.brother.com)

## Choose a safe location for the unit

Put the unit on a flat, stable surface that is free from shocks and vibrations, such as a desk. Choose a dry, well ventilated location where the temperature remains between 5 and 35 °C.

### **WARNING**

DO NOT expose the unit to direct sunlight, excessive heat, open flames, corrosive gasses, moisture or dust. DO NOT place the unit on a carpet or rug, as this will expose it to dust. Doing so may create a risk of an electrical short or fire. It may also damage the unit and/or render it inoperable.

DO NOT place the unit near radiators, heaters, air conditioners, water, chemicals or devices that contain magnets or generate magnetic fields. Doing so may create the risk of a short circuit or fire should water come into contact with the unit (including condensation from heating, air conditioning, and/or ventilation equipment that may be sufficient to create a short circuit or fire).

DO NOT place the unit near chemicals or in a place where chemical spillage could occur. In particular, organic solvents or liquids may cause the casing and/or cables to melt or dissolve, risking fire or electric shock. They may also cause the unit to malfunction or become discoloured.

Slots and openings in the casing, back or bottom of the product are provided for ventilation. The product should be placed so as not to come into contact with any wall or other device so these openings are not blocked or covered. Blocking the unit's ventilation could create a risk of overheating and/or fire.

#### IMPORTANT

- Always place the unit on a solid surface, never on a bed, sofa, rug, or similar soft surfaces.
- DO NOT place the unit in a "built-in" installation.

#### CAUTION

Make sure that no part of the unit protrudes from the desk or stand where the unit is located. Make sure that the unit is located on a flat, level, and stable surface free from vibration. Failure to observe these precautions could cause the unit to fall, causing injury.

DO NOT place the unit on an unstable or tilted cart, stand, or table, or on any tilted/slanted surface. The machine may fall, causing injury to you and serious damage to the unit.

#### IMPORTANT

- DO NOT put objects on top of the unit.
- DO NOT place the unit next to sources of interference, such as speakers or the base units of non-Brother cordless telephones. Doing so may interfere with the operation of the unit's electronic components.
- Always open the top cover and output tray fully. Failure to do so may cause a risk of damage to the document.

#### General precautions

#### WARNING

Plastic bags are used in the packing of the unit. To avoid danger of suffocation, keep these plastic bags away from babies and children. Plastic bags are not toys.

Never insert any objects into the slots in the machine's casing, since they may touch dangerous voltage points or short out parts resulting in the risk of fire or electric shock. If metal objects, water or other liquids get inside the machine, immediately unplug the unit from the electrical socket. Contact your Brother dealer or Brother Customer Service.

DO NOT use flammable substances, any type of spray, or an organic solvent/liquid that contains alcohol or ammonia to clean the inside or outside of the unit. Doing this may cause a fire or electrical shock.

# Product Safety Guide

DO NOT disassemble or modify the unit, otherwise fire or electric shock may result. If the unit requires repair, contact your Brother dealer or Brother Customer Service.

DO NOT use a damaged AC adapter.

DO NOT place heavy objects on, damage, or modify the AC adapter. Do not forcibly bend or pull the cord.

DO NOT drop, hit, or otherwise damage the AC adapter.

DO NOT touch the unit during a thunderstorm. There may be a remote risk of electric shock from lightning when the machine is used during a thunderstorm.

DO NOT use the unit near any liquids, for example, near a bath tub, wash bowl, kitchen sink or washing machine, in a wet basement or near a swimming pool.

## CAUTION

DO NOT try and pick up pages until they have finished scanning and are ejected from the machine. Doing this may cause you injury by trapping your fingers in the rollers.

Some areas of the machine can cause injury if covers (shaded) are closed with force. Take care when placing your hand in the areas shown in the illustrations.

DO NOT carry the machine by holding the top cover. Doing this may cause the machine to slip out of your hands. Only carry the machine by placing your hands under the entire machine.

Use caution when operating the machine to prevent clothing (particularly sleeves, neckties, etc.), hair, or accessories from being drawn into the machine, otherwise injury may result. In the event that an object is drawn into the machine, immediately disconnect the unit from the power source.

## Connecting the unit safely

### **WARNING**

There are high-voltage electrodes inside the unit. Before you access the inside of the machine, (for routine maintenance, such as cleaning), make sure you have unplugged the power cord from the electrical socket.

(This illustration is an example for Australia.)

DO NOT touch the AC adapter, or handle the plug with wet hands. Doing this might cause an electrical shock.

(This illustration is an example for Australia.)

DO NOT connect it to a DC power source or inverter. Doing this might cause an electrical shock. If you are not sure what kind of power source you have, contact a qualified electrician.

DO NOT use the unit if the power cord is frayed or damaged, doing so may cause an electrical shock or a fire.

DO NOT pull on the middle of the AC power cord.  
DO NOT allow anything to rest on the power cord.  
DO NOT place the unit where people can walk on the cord. Doing this might cause an electrical shock or a fire.

Brother strongly recommends that you DO NOT use any type of extension cord. Failure to observe these precautions could cause fire, electric shock, or damage to the unit.

When disconnecting the AC adapter from the machine or from the power outlet, always hold the connector, not the cable, and pull firmly. Failure to do so may result in exposed or broken power cord wires, fire, or electric shock.

Make sure that one end of the power cord is firmly plugged into a standard power outlet and the other end is plugged into the adapter block firmly. Do not use a power socket that is loose. If the power cord is not completely plugged into the power outlet and adapter block, there is a danger of the adapter becoming hot and catching fire.

Always use the supplied AC adapter, and plug the adapter into a power socket within the voltage range indicated in **Specifications** in the **User's Guide**. Failure to do so may result in injury to yourself or others, or damage to the machine or other property. Brother does not assume any responsibility for any accident or damage resulting from not using the supplied AC adapter.

DO NOT connect the supplied AC adapter to other products.

DO NOT overload the AC adapter.

If you do not intend using the unit for an extended period of time, disconnect the AC adapter from the power outlet.

## Servicing the unit

DO NOT attempt to service the unit yourself. Opening or removing covers may expose you to dangerous voltages and other risks, and may void your warranty. Contact your Brother dealer or Brother Customer Service.

### **WARNING**

If the unit has been dropped or the casing has been damaged, there may be the possibility of an electric shock or a fire. Unplug the unit from the power socket and contact your Brother dealer or Brother Customer Service.

### **CAUTION**

If the unit becomes unusually hot, releases smoke, generates any strong smells, or if you accidentally spill any liquid on it, immediately unplug the unit from the electrical socket. Contact your Brother dealer or Brother Customer Service.

## IMPORTANT

If the machine does not operate normally when the operating instructions are followed, adjust only those controls that are covered by the operating instructions. Incorrect adjustment of other controls may result in damage, and will often require extensive work by a qualified technician to restore the unit to normal operation.

## Product Warranty & Liability

Nothing in this guide shall affect any existing product warranty or be construed as granting any additional product warranty. Failure to follow the safety instructions in this guide may invalidate your product's warranty.

### **WARNING**

Use only the power cord supplied with this machine.

This product must be installed near an electrical socket that is easily accessible. In case of an emergency, you must unplug the power cord from the electrical socket to shut off the power completely.

## Radio interference

This product complies with EN55022 (CISPR Publication 22)/Class B. When connecting the machine to a computer, ensure that you use a USB cable which does not exceed 2 m in length.

## International ENERGY STAR® Qualification Statement

The purpose of the International ENERGY STAR® Program is to promote the development and popularization of energy-efficient office equipment.

As an ENERGY STAR® Partner, Brother Industries, Ltd. has determined that this product meets the ENERGY STAR® specifications for energy efficiency.

## Unlawful use of scanning equipment

It is an offence to make reproductions of certain items or documents with the intent to commit fraud. The following is a non-exhaustive list of documents which it may be unlawful to produce copies of. We suggest you check with your legal adviser and/or the relevant legal authorities if in doubt about a particular item or document:

- Currency
- Bonds or other certificates of indebtedness
- Certificates of deposit
- Armed forces service or draft papers
- Passports
- Postage stamps (cancelled or uncanceled)
- Immigration papers
- Welfare documents
- Cheques or drafts drawn by governmental agencies
- Identifying badges or insignias

Copyrighted works cannot be copied lawfully, subject to the “fair dealing” exception relating to sections of a copyrighted work. Multiple copies would indicate improper use. Works of art should be considered the equivalent of copyrighted works.

## Notice Regarding the Faithful Reproduction of Scanned Documents

After scanning a document, confirm that the accuracy and quality of the corresponding scan data meets your needs by confirming the size of the scan data, the amount of image data captured, image fidelity, colour tones, etc.

Always confirm the scan data before destroying the original document.

It is possible that a portion of the scan data may be lost or damaged, therefore, read all instructions carefully and keep the following in mind:

- Depending on the condition of the document, the document may become worn thin, distorted, dirty, or cracked during scanning. In this case, some or all of the scan data may be lost.

Confirm that the document has no wrinkles, bends, or holes.

- If the inside of the machine is dirty, the document may become worn thin, distorted, dirty, or cracked during scanning. In this case, some or all of the scan data may be lost.

Clean the inside of the machine carefully and regularly.

- The following may occur depending on the scan settings, such as document size, scanning resolution, colour-related settings, single-side or double-side scanning settings, auto deskew, blank page skip, etc:
  - Text may be illegible or unclear if image resolution is too low.
  - Scan data of a colour document may be captured in black-and-white.
  - Only one side of a two-sided document may be captured.
  - A portion of the document may not be scanned, or the size may be too small.
  - The document may only be scanned up to a certain point, after which scan data will be lost.
  - Blank pages may not be deleted, or pages may be deleted unnecessarily.
  - Margins may be added to the edges of the scan data.

Refer to the User's Guide for information about how to configure the scan settings.

- Depending on the condition of the document (such as if it has wrinkles, bends, or holes) and consumables, multiple pages of a document may be fed at once, causing some pages to be missing from the scanned data.

Confirm that the document has no wrinkles, bends, or holes.

Replace all consumables periodically.

- When scanning documents that are not within the recommended guidelines, or depending on the condition of the document (such as if it has wrinkles, bends, or holes), consumables, or the paper feeding mechanisms inside the machine, documents may become jammed inside the machine during scanning. In this case, some or all of the scan data may be lost. (Documents may be destroyed as a result of a paper jam.)

Refer to "Acceptable Documents" in the User's Guide for information about acceptable documents.

- When scanning documents that have been marked with a fluorescent marker, marked areas may not be seen correctly in the scan data, or the marker colour may not be reproduced correctly, depending on the colour and density of the marker ink.

You may achieve more desirable results by increasing the scanning resolution. Refer to the User's Guide for information about resolution settings.
