

Unpack the machine and check the components

NOTE:

- Use the appropriate interface cable for the connection you want to use. (Network cable is not a standard accessory.)

USB cable

We recommend using a USB 2.0 cable (Type A/B) that is no more than 2 metres long.

Network cable

Use a straight-through Category 5 (or greater) twisted-pair cable.

- The *Reference Guide* is available on the provided Brother Installation Disc.

Secure Network Access

Your machine's default password is on the label on the back of the machine (preceded by "Pwd"). We strongly recommend you change it to protect your machine from unauthorised access.

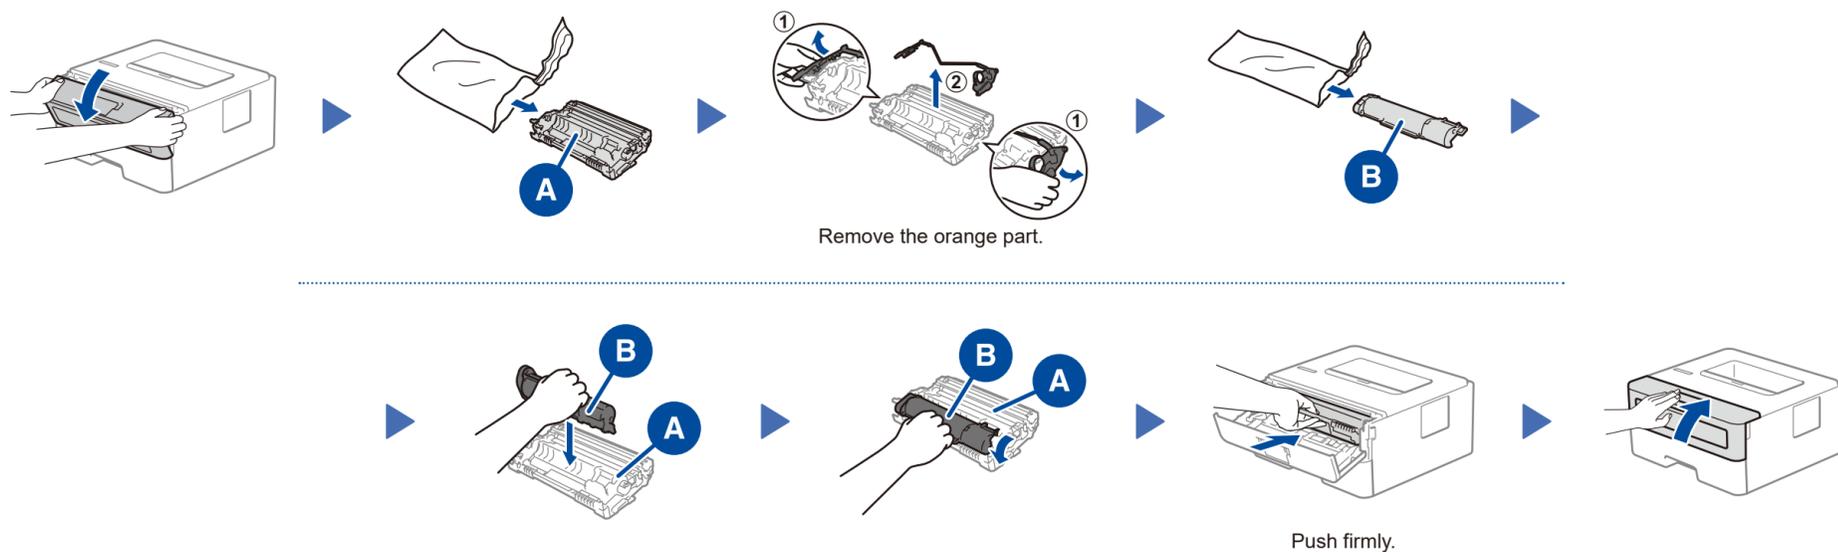

Operation Videos

**Installation
& Using
Videos**

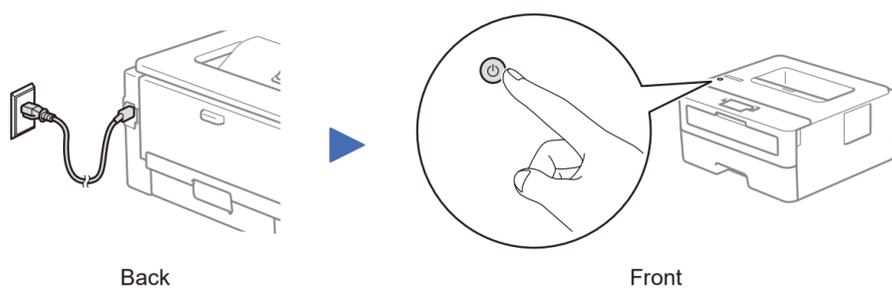

1 Remove the packing materials and install the drum unit and toner cartridge assembly

2 Load paper in the paper tray

3 Connect the power cord and turn the machine on

4 Select a device to connect to your machine

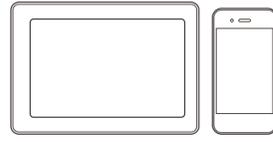

Computer

Go to **5** and follow the instructions.

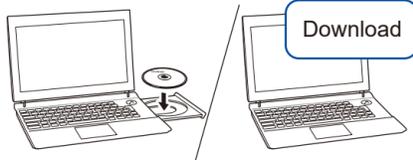

NOTE:
We recommend configuring wireless settings from your computer.

Mobile Device

Go to **6** and follow the instructions.

5 Connect your computer

Put the installation disc into your CD/DVD drive, or download the Full Driver & Software Package at:

www.95105369.com

If you are using a recently released operating system on your computer, visit the above websites for updated driver and software information.

▶ Follow the on-screen instructions and prompts.

For Windows®:
If the Brother screen does not appear automatically, go to **Computer (This PC)**. Double-click the CD/DVD-ROM icon, and then double-click **start.exe**.

For Mac:
For full driver functionality, we recommend choosing the **CUPS driver** when adding a printer.

▶ Finished

Brother regularly updates firmware to add features and apply bug fixes. To check for the latest firmware, visit support.brother.com/up5.

Can't Connect? Check the following:

▶ Disconnect the cable.

▶ Restart your machine and computer, and then go to **5**.

▶ If still not successful, visit www.95105369.com for FAQs & Troubleshooting.

6 Print using your mobile device

Your mobile device must be connected to the same wireless network as your Brother machine.

AirPrint is available for all supported iOS devices including iPhone, iPad and iPod touch. You do not need to download any software to use AirPrint. For more information, see the *Online User's Guide*.

Search Mopria from the search engine you use, then download and install the Mopria® Print Service app using your Android™ device.

Download and install our free application **Brother iPrint&Scan**.

Read the two-dimensional code (or visit www.95105369.com), click **iPrint&Scan** from the mobile application menu on the right-lower corner to enter the download page.

Optional apps

You can print from your mobile device using various apps. For instructions, see the *Online User's Guide*.
