Questions or Problems? Take a Look at our FAQs, Solutions, and Videos Online.

Go to your model's FAQs & Troubleshooting page on the Brother Solutions Center at support.brother.com

- Provides several ways to search
- Displays related questions for more information
- Receives regular updates based on customer feedback

Important Note

- This documentation is for both MFC and DCP models. Where it says 'MFC' in this User's Guide, read 'MFC-xxxx' as 'DCP-xxxx'. DCP models are not equipped with a fax function.
1. Liquid Crystal Display (LCD)
   Displays messages to help you set up and use the machine.

2. Mode buttons
   - FAX
     Press to switch the machine to Fax mode.
   - SCAN
     Press to switch the machine to Scan mode.
   - COPY
     Press to switch the machine to Copy mode.

3. Menu buttons
   - Clear/Back
     Press to delete characters or to go back to the previous menu level.
   - Menu
     Press to access the main menu.
   - OK
     Press to select a setting.
   - or
     Press to adjust the ring volume while the machine is idle.
   - or
     • Press to store Speed Dial and Group numbers in the machine’s memory.
     • Press to look up and dial numbers that are stored in the machine’s memory.
   - or
     Press to scroll through the menus and options.
   - Press to move the cursor left or right on the LCD.
4. Options
   Press to access temporary settings for copying, scanning or faxing.

5. WiFi
   Press to configure the wireless settings while the machine is idle.

6. Dial Pad
   • Use to dial fax and telephone numbers.
   • Use as a keyboard to enter text or characters.

7. Telephone buttons
   Redial/Pause
   • Press to select and redial the numbers from the Outgoing Call history or Caller ID history.
   • Press to insert a pause when dialling numbers.

   Hook
   If the machine is in Fax/Tel (F/T) mode and you pick up the handset of an external telephone during the F/T ring (pseudo/double-ring), press Hook to talk.

8. Stop/Exit
   • Press to stop an operation.
   • Press to exit from a menu.

9. Start buttons
   Mono Start
   • Press to start sending faxes in monochrome.
   • Press to start making copies in monochrome.
   • Press to start scanning documents (in colour or monochrome depending on the scan setting).

   Colour Start
   • Press to start making copies in full colour.

10. Power On/Off
    Press to turn the machine on.
    Press and hold down to turn the machine off. The LCD displays [Shutting Down] and stays on for a few seconds before turning itself off. If you have connected an external telephone or TAD, it is always available.

    If you turn the machine off using , it will still clean the print head periodically to maintain print quality. To prolong print head life, provide better ink efficiency, and maintain print quality, keep your machine connected to a power source at all times.
1. Liquid Crystal Display (LCD)
Displays messages to help you set up and use the machine.

2. Warning LED
Blinks in orange when the LCD displays an error or an important status message.

3. Copy buttons
   (DCP-T310)

   - Enlarge / Reduce
     Press to enlarge or reduce copies.

   - Copy Quality
     Press to temporarily change the quality of your copies.

   - Number of Copies (DCP-T310)

   (DCP-T510W/DCP-T710W)

4. WiFi (DCP-T510W/DCP-T710W)
Press to configure the wireless settings while the machine is idle.

5. Menu buttons
   Menu
   Press to access the main menu.

   ▲ or ▼
   Press to scroll through the menus and options.

   OK
   Press to select a setting.

6. SCAN
Press to switch the machine to Scan mode.

7. Stop/Exit
   - Press to stop an operation.
   - Press to exit from a menu.
8. Start buttons

**Mono Start**

- Press to start making copies in monochrome.
- Press to start scanning documents (in colour or monochrome depending on the scan setting).

**Colour Start**

- Press to start making copies in full colour.
- Press to start scanning documents (in colour or monochrome depending on the scan setting).

9. **Power On/Off**

Press \( \text{\textcircled{\textcolor{red}{P}}} \) to turn the machine on.

Press and hold down \( \text{\textcircled{\textcolor{red}{P}}} \) to turn the machine off. The LCD displays [Shutting Down] and stays on for a few seconds before turning itself off.

If you turn the machine off using \( \text{\textcircled{\textcolor{red}{P}}} \), it will still clean the print head periodically to maintain print quality. To prolong print head life, provide better ink efficiency, and maintain print quality, keep your machine connected to a power source at all times.
Load Paper

1. Load the paper in the paper tray as follows. 

   Fan the stack of paper well.

The paper size determines the orientation when loading paper.

<table>
<thead>
<tr>
<th>Tray #1</th>

<td></td>
</tr>
</tbody>
</table>

1. You can load only one sheet of paper into the manual feed slot at a time.
2. Supported only in some countries.

For more detailed information, see the Online User's Guide: Load Paper.

### Load Documents

Place the document in the ADF or on the scanner glass as shown in the illustration.

#### Automatic Document Feeder (ADF) (DCP-T710W/MFC-T810W)

- **Place your document face down in the ADF.**

#### Scanner Glass

- **Place the document face down in the upper left corner of the scanner glass.**
Print from Your Computer

Before attempting any printing operation, confirm the following:

• Make sure you have installed the Brother software and drivers.
• Make sure the USB or network cable is connected correctly, or that you are connected to the network using your wireless access point/router.

Print a Document (Windows®)

1. Select the print command in your application.
2. Select Brother MFC-XXXX Printer (where XXXX is the name of your model).
3. Click Print.
4. Complete your print operation.

Print a Document (Mac)

1. From an application, such as Apple TextEdit, click the File menu, and then select Print.
2. Select Brother MFC-XXXX (where XXXX is the name of your model).
3. Click Print.
4. Complete your print operation.

Various Printing

To use the various printing features, click the printing properties or preferences button to change the printer setting.

Print More Than One Page on a Single Sheet of Paper (N in 1)

For Windows®:
For more detailed information, see the Online User's Guide: Print from Your Computer (Windows®).

For Mac:
For more detailed information, see the Online User's Guide: Print from Your Computer (Mac).
Copy a Document

1. Make sure you have loaded the correct size paper in the paper tray.

2. Load your document.

   The LCD displays:
   ![LCD Display Example]

4. Enter the number of copies in one of the following ways:
   • (DCP-T310) Press Number of Copies repeatedly.
   • (DCP-T510W/DCP-T710W) Press ▲ or ▼ on the control panel.
   • (MFC-T810W) Enter the number of copies using the dial pad.

5. Change the copy settings, if needed.
   a. Press Options or Copy / Scan Options on the control panel.
   b. Press ▲ or ▼ to select the copy settings. When the setting you want appears, press OK.

6. When finished, press Mono Start or Colour Start.

To stop copying, press Stop/Exit.

Other Copy Options

You can use various copy features by changing copy settings. Press the Options or Copy buttons.

Enlarge or Reduce Copied Images

Layout Copies (N in 1 or Poster)

For more detailed information, see the Online User's Guide: Copy.
Before Scanning
Before attempting to scan, confirm the following:

• Make sure you have installed the Brother software and drivers.
• Make sure the USB or network cable is connected correctly, or that you are connected to the network using your wireless access point/router.

Scan from Your Computer
There are several ways you can use your computer to scan photos and documents on your Brother machine. Use the software applications provided by Brother, or use your favourite scanning application.

For more detailed information, see the Online User’s Guide: Scan from Your Computer (Windows®) or Scan from Your Computer (Mac).

Scan Using the Scan Button on the Machine

1. Load your document.

2. Press (SCAN).

3. Press ▲ or ▼ to select the [Scan to PC] option, and then press OK.

4. Press ▲ or ▼ to select the [File] option, and then press OK.

5. If the machine is connected over the network, press ▲ or ▼ to select the computer where you want to send data, and then press OK.

6. If the LCD prompts you to enter a PIN, use the control panel to enter the four-digit PIN for the computer, and then press OK.

7. Do one of the following:
   • To change the settings, press Options or Copy / Scan Options, and then go to the next step.
   • To use the default settings, press Mono Start or Colour Start.

   - [Scan Type] depends on the default settings. Pressing Mono Start or Colour Start does not allow you to change the settings.
   - To use scan options, a computer with either ControlCenter4 (Windows®) or Brother iPrint&Scan (Mac) software installed must be connected to the machine.

8. The machine will prompt you to set each of the following scan settings. Press ▲ or ▼ to select the desired option, and then press OK to proceed to the next scan setting.
   • [Scan Type]
   • [Resolution]
   • [File Type]
   • [Document Size]
   • [Remove Bkg Clr]

8. Press Mono Start or Colour Start.

[Scan Type] depends on the settings you have selected. Pressing Mono Start or Colour Start does not change the settings.
Before Faxing

Telephone Line Interference/ VoIP

Related Models: MFC-T810W

If you are having problems sending or receiving a fax due to possible interference on the telephone line or if you are using a VoIP system, we recommend changing the modem speed to minimise errors in fax operations.

1. Press **Menu**.

2. Press ▲ or ▼ to select the following:
   a. Select [Initial Setup]. Press **OK**.
   b. Select [Compatibility]. Press **OK**.
   c. Select [Normal] or [Basic(for VoIP)]. Press **OK**.

   - [Basic(for VoIP)] reduces the modem speed to 9,600 bps and turns off colour fax receiving and Error Correction Mode (ECM), except for colour fax-sending. Unless interference is a recurring problem on your telephone line, you may prefer to use it only when needed.

   To improve compatibility with most VoIP services, Brother recommends changing the compatibility setting to [Basic(for VoIP)].

   - [Normal] sets the modem speed at 14,400 bps.

3. Press **Stop/Exit**.

Send a Fax

Related Models: MFC-T810W

**NOTE**

This feature is available only for monochrome faxes.

1. Load your document in the ADF or place it on the scanner glass.

2. Press (FAX).

3. Enter the fax number in one of the following ways:
   - Dial Pad (Enter the fax number manually.)
     Press all digits of the number using the dial pad.
   - Outgoing call (Select a number from the Outgoing Call history.)
     a. Press **Redial/Pause** on the control panel.
     b. Press ▲ or ▼ to select [Outgoing Call]. Press **OK**.
     c. Select the number you want, and then press **OK**.
   - Caller ID (Select a number from the Caller ID history.)
(Not available for Taiwan and some countries)

a. Press **Redial/Pause** on the control panel.

b. Press **a** or **v** to select [Caller ID]. Press **OK**.

c. Select the number you want, and then press **OK**.

- [Address Book] (Select a number from the Address Book.)
  a. Select ▲ ([Address Book]) on the control panel.
  b. Press **OK**.

- To search a speed dial number, press ▲. Enter the two-digit number you want using the dial pad, and then press **OK**.

- To search alphabetically, enter the first letter of the name using the dial pad, and then press **OK**. Press ▲ or ▼ to select the name, and then press **OK**.

c. Press ▲, ▼, ◄ or ► to select the number you want. Press **OK**.

4 To change the fax settings, press **Options**, ▲ or ▼ to select the setting you want to change, and then press **OK**.

When finished, press **Clear/Back**.

5 Press **Mono Start**

6 Do one of the following:
   • If you are using the ADF, the machine starts scanning and sending the document.
   • If you are using the scanner glass, the machine starts scanning the first page.
     Go to the next step.

7 When the LCD displays [Next Page?], do one of the following:
   • Press ▲ to scan another page. Place the next page on the scanner glass,
Choose the Correct Receive Mode

You must choose a Receive Mode depending on the external devices and telephone services you have on your line.

By default, your machine automatically will receive any faxes that are sent to it. The diagram below will help you select the correct mode.

---

**Do you want to use the telephone features of your machine (if available) or an external telephone or external telephone answering device connected on the same line as the machine?**

- **Yes**
  - Are you using the voice message function of an external telephone answering device?
    - **No**
      - Fax Only
    - **Yes**
      - Do you want the machine to answer fax and telephone calls automatically?
        - **No**
          - Manual
        - **Yes**
          - Fax/Tel
  - **No**
    - External TAD

---

1. Press **Menu**.

2. Press **▲** or **▼** to select the following:
   - a. Select **[Fax]**. Press **OK**.
   - b. Select **[Setup Receive]**. Press **OK**.
   - c. Select **[Receive Mode]**. Press **OK**.

   **(For some countries)**
   - If you cannot change the **[Receive Mode]** option, make sure the Distinctive Ring feature is set to **[Off]**.

3. Press **▲** or **▼** to select the **[Fax Only]**, **[Fax/Tel]**, **[External TAD]**, or **[Manual]** option, and then press **OK**.

4. Press **Stop/Exit**.
Check the Print Quality

If faded or streaked colours and text appear or if text is missing on your printouts, the print head nozzles may be clogged. Print the Print Quality Check Sheet and look at the nozzle check pattern.

1. Press Menu.

2. Press ▲ or ▼ to select the following:
   a. Select [Maintenance]. Press OK.
   b. Select [ImproveQuality]. Press OK.
   c. Select [Check Quality]. Press OK.

   The machine prints the Print Quality Check Sheet.

4. Check the quality of the four colour blocks on the sheet.

5. The LCD asks about the print quality. Do one of the following:
   • If all lines are clear and visible, press ▲ to select [Yes].
     Press Stop/Exit to finish the Print Quality check.
   • If lines are missing (see Poor, below), press ▼ to select [No].

<table>
<thead>
<tr>

```
7 Do one of the following:

• If print head cleaning is needed, press Colour Start to start the cleaning procedure.

• If print head cleaning is not needed, press Stop/Exit to finish the Print Quality check.

8 After the cleaning procedure is finished, press ▲. Then, press Colour Start.

The machine prints the Print Quality Check Sheet again. Check the quality of the four colour blocks on the sheet again.

If you clean the print head at least five times and the print has not improved, try cleaning the print head again up to three more times. If the print has not improved, contact Brother customer service or your local Brother dealer.

IMPORTANT

DO NOT touch the print head. Touching the print head may cause permanent damage and may void the print head's warranty.

When a print head nozzle is clogged, the printed sample looks like this.

After the print head nozzle is cleaned, the horizontal lines are gone.

For more detailed information, see the Online User's Guide: If You Are Having Difficulty with Your Machine.

Check the Print Alignment from Your Brother Machine

If your printed text becomes blurred or images become faded after transporting the machine, adjust the print alignment.

1 Press Menu.

2 Press ▲ or ▼ to select the following:
   a. Select [Maintenance]. Press OK.
   b. Select [ImproveQuality].
      Press OK.
   c. Select [Alignment]. Press OK.

3 Press Mono Start or Colour Start.

The machine starts printing the Alignment Check Sheet.
Select the number of the test print in one of the following ways:

- **DCP-T310/DCP-T510W/DCP-T710W**
  
  For pattern (A), press ▲ or ▼ to select the number of the test print that has the fewest visible vertical stripes (1-9), and then press **OK**.

- **MFC-T810W**
  
  For pattern (A), press the number of the test print that has the fewest visible vertical stripes (1-9).

In the example above, row number 6 is the best choice.

Repeat this step for the rest of the patterns.

When the print alignment is not adjusted correctly, text looks blurry or crooked, like this.

![Image of blurry text](image)

After the print alignment is adjusted correctly, text looks like this.

![Image of clear text](image)

Press **Stop/Exit**.
Use this section to resolve problems you may encounter when using your Brother machine.

Identify the Problem

Even if there seems to be a problem with your machine, you can correct most problems yourself. First, check the following:

- The machine’s power cord is connected correctly and the machine’s power is on.
- All of the machine’s orange protective parts have been removed.
- The Scanner Cover and the Jam Clear Cover are fully closed.
- Paper is inserted correctly in the paper tray.
- The interface cables are securely connected to the machine and the computer, or the wireless connection is set up on both the machine and your computer.
- (For network models) The access point (for wireless), router, or hub is turned on and its link button is blinking.

To find the error and the solution, check the LCD or the machine’s status in Status Monitor on your computer.

<table>
<thead>
<tr>
<th>Using the LCD</th>
<th>Using the Status Monitor</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Follow the messages on the LCD.</td>
<td>• Double-click the 🔄 icon in the task tray.</td>
</tr>
<tr>
<td>2. See the instructions in the following Error and Maintenance Messages table.</td>
<td>• Each colour of the icon indicates the machine’s status.</td>
</tr>
<tr>
<td>3. If you cannot resolve the error, see the Online User’s Guide: Error and Maintenance Messages.</td>
<td>• Click the Troubleshooting button to access Brother’s troubleshooting website.</td>
</tr>
</tbody>
</table>
### Error and Maintenance Messages

The most common error and maintenance messages are shown in the table. For more detailed information, see the *Online User's Guide*.

You can correct most errors and perform routine maintenance yourself. If you need more tips, go to your model’s **FAQs & Troubleshooting** page on the Brother Solutions Center at [support.brother.com](http://support.brother.com).

</table>
| **DR Mode in Use** (For some countries) | The machine is in Distinctive Ring mode. You cannot change the Receive Mode from Manual to another mode.  
Set Distinctive Ring to Off.  
For more detailed information, see the *Online User's Guide: Turn off Distinctive Ring*. |
| **High Temperature**               | After cooling the room, allow the machine to cool down to room temperature. Try again when the machine has cooled down.               |
| **Ink Low**                        | The amount of remaining ink in one or more of the ink tanks is low.  
Look through the window of the ink tank to confirm the actual amount of remaining ink.  
If the remaining ink level is at or below the lower line under the minimum fill mark, refill the ink tank.  
For more detailed information, see the *Online User's Guide: Refill the Ink Tanks*.  
• You can still scan even if the ink is low or needs to be refilled. |
| **InkBox Full**                    | The ink absorber box must be replaced. Contact Brother customer service or your local Brother Authorised Service Centre to have your machine serviced. |
| **InkBox NearFull**                | The ink absorber box must be replaced soon. Contact Brother customer service or your local Brother dealer.  
• The ink absorber box absorbs the small amount of ink emitted during print head cleaning. |
| **Low Temperature**                | After warming the room, allow the machine to warm up to room temperature. Try again when the machine has warmed up.                 |
| **No Caller ID** (Not available for Taiwan and some countries) | There is no incoming call history. You did not receive calls or you have not subscribed to the Caller ID service from your telephone company.  
To use the Caller ID feature, contact your telephone company.  
For more detailed information, see the *Online User's Guide: Caller ID*. |
| **No Paper Fed**                   | Do one of the following:  
• Refill the paper tray, and then press **Mono Start** or **Colour Start**.  
• Remove and reload the paper, and then press **Mono Start** or **Colour Start**.  
The paper was not inserted in the centre position of the manual feed slot.  
Remove the paper and reinsert it in the centre of the manual feed slot, and then follow the LCD instructions.  
For more detailed information, see the *Online User's Guide: Load Paper in the Manual Feed Slot*.  
The Jam Clear Cover is not closed correctly. |

Enter Text on Your Brother Machine

- The characters that are available may differ depending on your country.

**DCP-T310/DCP-T510W/DCP-T710W**

You may need to enter text on your machine.

**Entering numbers, letters and symbols**
- Press ▲ or ▼ repeatedly to select the number, letter or symbol you want to choose, and press OK to enter that character. Repeat for each character until the number or name is complete and then press OK.

**Inserting spaces**
- To enter a space, press ▲ or ▼ repeatedly to select the space, and press OK.

**Making corrections**
- If you entered an incorrect number or letter and want to change it, press Enlarge / Reduce, Number of Copies (DCP-T310), or Copy / Scan Options several times to move the cursor under the incorrect character. Then press ▲ or ▼ repeatedly to re-enter the correct letter.

**MFC-T810W**

When you are setting certain menu selections, such as the Station ID, you may need to enter text on your machine. Most dial pad buttons have three or four letters printed on the buttons. The buttons for 0, # and * do not have printed letters because they are used for special characters.

Press the appropriate dial pad button the number of times shown in this reference table to access the character you want.
