### **Quick Setup Guide**

Read the *Product Safety Guide* first, then read this guide for the correct installation procedure. Keep this guide next to your machine for quick reference.

CHN-ENG Version A

You must follow steps 1 to 6 to complete the setup.

# 1

### Unpack the machine and check the components

Inbox Ink Bottles\*4

Remove the protective tape and the film covering the machine.

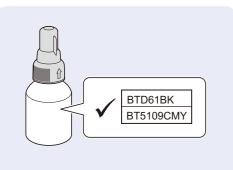

#### NOTE

- Save all packing materials and the box in case you must ship your machine.
- We recommend using a USB 2.0 cable (Type A/B) that is no more than 2 meters long.

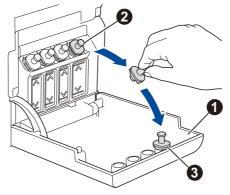

# 2

#### Fill the ink tanks with inbox ink

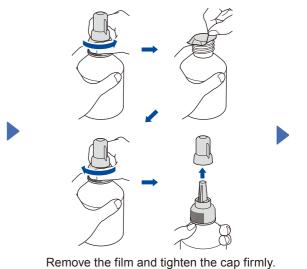

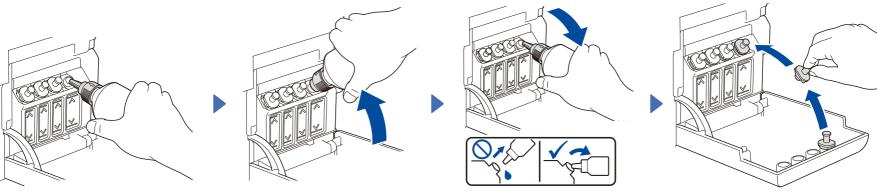

#### IMPORTANT

Check the ink bottle model name on the label. Using the incorrect ink may cause damage to the machine.

Open the ink tank cover ①, remove the cap ②, and place it on the back of the cover ③.

Remove the nozzle cap and insert the bottle nozzle firmly into the ink tank so that the ink does not spill.

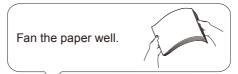

The bottle is self-standing and the ink fills automatically until the bottle is empty. To fill the ink tank faster, squeeze the bottle on both sides.

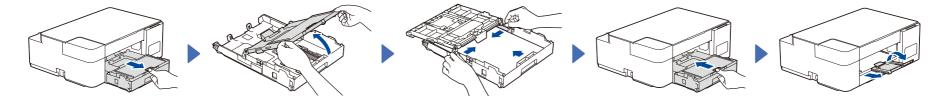

When finished, remove the bottle, pointing the nozzle upward so the ink does not spill.

Replace the ink tank cap. Repeat step 2 for the other ink tanks, and then close the ink tank cover.

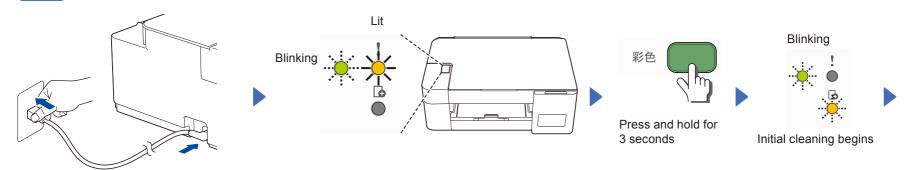

#### Load plain A4 paper in the paper tray

# 4

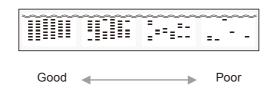

#### Start the initial cleaning

The machine prints the Print Quality Check Sheet.

Check the Print Quality Check Sheet.

To improve the print quality, clean the print head. See *Improve Print Quality* in this guide.

### **Charge printable pages**

Make sure you have installed WeChat to your mobile device.

Visit <u>setup.brother.com</u> and install **Brother** Mobile Connect to use your machine and charge printable pages from your mobile device.

Start Brother Mobile Connect on your mobile device.  Follow the on-screen instructions to register your machine to Brother Mobile Connect.
 When the registration is completed, the Home screen of Brother Mobile Connect displays your model name as shown on the right.

If the registration fails, try to set up the connection manually. Visit FAQs and troubleshooting tips, search for the keyword "WPS".

- 4. Tap Charge Function Settings on the Home screen.
- 5. Follow the on-screen instructions to add an administrator's account for charging.
- 6. Charge the number of printable pages using WeChat Mini Program for charging. The print feature becomes available after charging.

#### **Connect with your PC (if necessary)**

Visit <u>setup.brother.com</u> to download and install Brother software with your computer.

Follow the on-screen instructions and prompts.

## **Setup Complete**

#### **Connect with WeChat**

Your machine can print through an applet of WeChat, which is called "兄弟畅享印".

"兄弟畅享印" lets you wirelessly print photos and documents without the need to install an app or a driver.

Binding your printer before using WeChat print function for the first time. Please scan the two-dimensional code on the right for operation instructions.

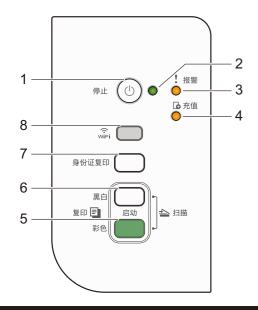

For detailed machine operation including scanning and troubleshooting tips, see the Online User's Guide:
