Operation Manual Addendum

## Features Added with Update Ver. 4.50

Artspira App Compatible

Functions have been added for the Artspira App. With these functions, you can transfer content published on the app to the sewing machine and enjoy creating original works using the functions on the app.

For more information about the app, refer to the official website. For details on how to operate the sewing machine using the app, see the Artspira Quick Guide on Artspira support page (https://s.brother/csyai/).
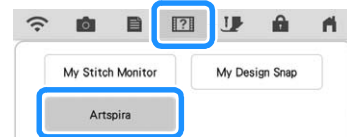

■ Artspira

You can link with the Artspira app on page 13 of the settings screen. For details about the registration method, refer to the Artspira Quick Guide.

■ App Guide

The Artspira app has been added to the App Guide in the Machine Help key.

■ Retrieving Embroidery Pattern

Artspira has been added to the embroidery pattern recall destinations. You can recall transferred patterns from the Artspira app.
