### About this Guide

This guide (PDF) is included on the CD-ROM.

In this guide, when the mouse pointer changes to  $\sqrt[h]{}$  you can just click to jump to the corresponding pages. For the basic functions of Adobe<sup>®</sup> Reader<sup>®</sup>, see the Adobe<sup>®</sup> Reader<sup>®</sup> Help files.

### Symbols used in this Guide

The symbols used throughout this guide are as follows:

This symbol shows information or directions that should be followed. Ignoring them may result in injury, damage, or failed operations.

This symbol shows information or directions that can help you better understand and use the machine more efficiently.

## **Creating Labels**

## How to use the P-touch Editor for Windows<sup>®</sup>

This section explains the procedure for starting P-touch Editor. With P-touch Editor, you can create various kinds of labels.

See the P-touch Editor Help for samples of various kinds of labels and details on creating, printing, and saving the labels. The following is the example for Windows Vista<sup>®</sup>. Read the printer name (XX-XXXX) in each image as your purchased machine model name.

To download the latest driver and software, please visit the Brother Solutions Center at: http://solutions.brother.com

## Starting P-touch Editor

**1** Click [Start]-[All Programs]-[Brother P-touch]-[P-touch Editor 5.0].

- You can also start P-touch Editor using the following methods (only if you created the shortcut during installation):
  - · Double-click the shortcut icon on the desktop.
  - · Click the shortcut icon on the Quick Launch bar.

When P-touch Editor is launched, the [New/Open] dialog box appears, allowing you to choose whether you want to create a new label layout or open an existing label.

To specify how the P-touch Editor works when it starts, click [Tools]-[Options] of the menu bar on the P-touch Editor to display the [Options] dialog box. In the [General] tab, you can choose the setting in the [Operations] list box in the [Startup Settings]. Normally, choose [Display New/Open Dialog Box].

#### **2** Choose an option in the [New/Open] dialog box and click <u>.</u>.

- You can choose the label printer and media size.
- When you choose [Open File], the [Open] dialog box appears. You can choose and open the file you have created and stored previously.
- When you choose [View History], the [History] dialog appears. You can choose from recently created labels.
- · When you choose [New], choose either vertical writing style or horizontal writing style.
- When you choose [Select by Use], you can choose by label applications.
- When you choose [Help-How To], the P-touch Editor Help appears. The Help files allow you to learn step by step how to create a label layout.
- The [Check for Updates] button will link to the default page for your machine on Brother Solutions Center.

U

#### Layout window

#### Express Mode

This mode provides easy label creation with texts and images. The layout window consists of the following sections:

#### Professional Mode

This mode provides all label design features for creating label templates. The layout window consists of the following sections:

## Start P-touch Editor Help

This section explains how to start P-touch Editor Help for Windows<sup>®</sup>. The following is the example for Windows Vista<sup>®</sup>.

#### Start from Start button

To start P-touch Editor Help, click the Start button on the task bar and, point to [All Programs]. Click [Brother P-touch] and [P-touch Editor 5.0 Help].

#### Start from New/Open dialog

When you start the P-touch Editor 5.0 and the New/Open dialog box appears, click <u>Help-How To</u>.

#### Start from P-touch Editor

Ø

Click Help menu and choose P-touch Editor Help.

Express Mode

Professional Mode

Right-click the mouse and choose P-touch Editor Help.

### Printing the Help description

The information given in P-touch Editor Help can be printed. Use your normal printer to print the P-touch Editor Help information.

<b>1</b> In the [Contents] tab, choose any topic you want to print.					
2 Click					
3 Choose the range of topics to be printed, and click <u></u> .	Print Topics       Image: Comparison of the selected topic or all the topics in the selected heading. What would you like to do?         Image: Print the selected topic       Image: Print the selected heading and all subtopics         Image: OK       Cancel				
<b>4</b> Specify the [Printer] and click					
() Choose a normal printer that supports general paper	sizes, such as Letter.				

Creating Labels

Appendix

## Creating labels with other applications

When installing the software, if you choose the Add-In function, a P-touch icon will be automatically added onto the Microsoft<sup>®</sup> Word, Excel<sup>®</sup>, and Outlook<sup>®</sup> toolbar. (Only if Microsoft<sup>®</sup> Word, Excel<sup>®</sup>, Outlook<sup>®</sup> are already installed on your computer.) The Add-In function is valid for Windows<sup>®</sup> only.

In each application, by choosing the text you want to print and clicking on the P-touch icon, you can create and print labels quickly and easily.

Depending on the setting, the character string that is downloaded by using Add-In function will be registered to Label List. Label List is a database for exclusively P-touch Editor. To display Label List, click [File]-[Database]-[Label List].

 The Add-In function supports the following applications: Microsoft<sup>®</sup> Word 2002/2003/2007/2010, Microsoft<sup>®</sup> Excel<sup>®</sup> 2002/2003/2007/2010, and Microsoft<sup>®</sup> Outlook<sup>®</sup> 2002/2003/2007/2010

For details about the Add-In function, label design or installation information, see the P-touch Editor Help.

#### Registering and canceling the Add-In function

Before running this program, close the Microsoft<sup>®</sup> Word, Excel<sup>®</sup> and Outlook<sup>®</sup> programs.

#### The following is the example for Windows Vista<sup>®</sup>.

1 Click [Start]-[All Programs]-[Brother P-touch]-[P-touch Tools]-[P-touch Editor 5.0 Add-Ins Utility]. The [Brother P-touch Add-In Settings] dialog box appears.

2 Select the checkboxes for the Microsoft application where you would like the P-touch Editor add-in function button to be installed.

[Apply] is used to specify what action is taken when the (Add-In button) is pressed in each application.

- Express Mode : Starts Express Mode.
- Professional Mode : Starts Professional mode.
- Print Immediately : Prints the label.

Appendix

# Intro

# Ť

**2** On the Microsoft<sup>®</sup> Word ribbon/standard toolbar, click @.

With the Add-In function, you can directly copy the text in Microsoft<sup>®</sup> Word to a label layout.

If Microsoft<sup>®</sup> Outlook<sup>®</sup> is running and Microsoft<sup>®</sup> Word is chosen as the standard editor, you won't be able to use the Add-In function in Microsoft<sup>®</sup> Word. Exit Microsoft<sup>®</sup> Outlook<sup>®</sup> and restart

For details on how to automatically add the text to a Label List, see "How to add Microsoft<sup>®</sup> Word text to the Label list shown in the database Window" described below.

### How to add Microsoft<sup>®</sup> Word text to the Label list shown in the database Window

Microsoft<sup>®</sup> Word

1

Microsoft<sup>®</sup> Word.

Creating labels using Microsoft<sup>®</sup> Word

from your word document.

Open a Microsoft<sup>®</sup> Word document and select the text you want included in the label

For first time use, the message "Record data in the Label List?" is displayed. If you click Yes, new records are automatically created in the Label List and the text is added to each field shown below from next time you register the text: Each time you add new information into your label list it also records the following information for your reference.

The text	Added field
Date of creation	Date field
The first line	Title field
All lines including the first line	Body field
Detected ZIP/Postal code	Code field

Example of label list data being stored in the database window in P-touch editor screen

Date	Title	Body	Code	Memo1	Memo2	Memo3	Memo4	Memo5	Memo6
7/19/2007	Mr. Walter Freeman	Mr. Waiter Freeman ABC Transporting Corporation 4555 Cumberland PKWY Anytown, USA 95093	95093						

If you click No in the message "Record data in the Label List?" is displayed and want to register, go to [Tools]-[Options], and check "Automatically Record Data Imported With Add-In." in the [Label List] tab.

#### Microsoft<sup>®</sup> Excel<sup>®</sup>

With the Add-In function, you can directly copy text in Microsoft<sup>®</sup> Excel<sup>®</sup> to a label layout.

### Creating labels using Microsoft<sup>®</sup> Excel<sup>®</sup>

1 Open a Microsoft<sup>®</sup> Excel<sup>®</sup> worksheet and select the cells of text you want included in the label from your Excel spreadsheet.

	🥙 Home Insert Page Li	nyout Formulas Data Review View	Add-Ins					- 7	×	
6	Brother P-touch

If you clicked No when the message "Record data in the Label List?" is displayed, but want to register, go to [Tools]-[Options], and check "Automatically Record Data Imported With Add-in."

Introduction

Appendix

### Microsoft<sup>®</sup> Outlook<sup>®</sup>

With the Add-In function, you can directly copy the text in Microsoft<sup>®</sup> Outlook<sup>®</sup> to a label layout. Items you can import are: Contacts, Calendar items, Deleted Items, Drafts, Inbox, Journal, Notes (text in the Notes dialog box is not available), Outbox, Sent Items and Tasks windows.

### Creating labels using the Contacts data in Microsoft<sup>®</sup> Outlook<sup>®</sup>

#### Open Microsoft<sup>®</sup> Outlook<sup>®</sup> Contacts and highlight the contact information you want to include.

In Microsoft<sup>®</sup> Outlook<sup>®</sup>, you can include not only the Contact data but also the text in a message, as you can do in Microsoft<sup>®</sup> Word.

Creating Labels

## How to use P-touch Transfer Manager & P-touch Library (PT-9600/9700PC/ 9800PCN only)

P-touch Library: This application allows you to manage P-touch label templates and other data on the computer. You can print a label from the P-touch Library using the machine.

P-touch Transfer Manager: This application can transfer label template data to the printer's main unit and can make backups of data transferred to the printer's main unit.

Transfer function is needed to use P-touch Template. For details on P-touch Template, download P-touch Template manual (English only) from the Brother Solutions Center: http://solutions.brother.com

[Select your region/country]-[Choose your product]-[Downloads]. (PT-9700PC/9800PCN only)

To transfer the templates via network, you need to prepare BRAdmin Professional. Download it from our website. (For Network models only)

## Starting up P-touch Transfer Manager

 Click the [Start] button, then choose [All programs] - [Brother P-touch] - [P-touch Tools] -[P-touch Transfer Manager 2.1].

P-touch Transfer Manager starts up.

#### Layout window

P-touch Library     All Contents     Filter     Invouts	Name	Size Type	Date Location	
Botabases     Images     Recycle Bin     Search Results				
Transfer Manager     PC (Brother XX-XX)     Source Statement of the second	00			
PC (Brother XX-XX)     Gronfigurations     Backups     Brother XX-XXX	x)	are selected		
	No contents	are selected.		
				I.

#### 1 Menu bar

Commands are categorized into each menu (File, Edit, View, Tool, and Help) by function.

#### 2 Toolbar

There are icons for frequently used commands. Click on one to access that command.

Selecting the printer model (Only for P-touch Transfer Manager)

Select the printer model to send data to. When you select a printer, only the data that can be sent to the selected printer is displayed in the list view.

#### 4 Folder view

Displays a list of folders. When you select any folder, the data in the folder selected is displayed in the list view on the right.

#### 🔁 List view

The data in the selected folder is displayed.

#### OPreview

The label templates selected in the list view are displayed as a preview.

#### **Explanations of the lcons**

Icon	Button name	Function
	Transfer (Only for P-touch Transfer Manager)	Transfers the label templates and other data on your PC to the printer (when connecting USB interface cable).
<b>†</b>	Backup (Only for P-touch Transfer Manager)	Backs up the data you have transferred to the Brother printer using the P-touch Transfer Manager.
	Open	Edits the selected data.
	Print (Only for P-touch Library)	Prints the selected label template with the printer.
	Search	Searches the data managed with the P-touch Library.
	Display Style	Changes the file display format.

### Transferring label templates from the PC to the printer via USB

(!) Make sure to disconnect the network cable when transferring templates via USB.

### **1** Select the printer to transfer data to.

Before transferring data, check that the PC and the printer are correctly connected with a USB cable and that the printer power is On.

2 Right click the [Configurations folder], then select [New] and create a new folder. Here, as an example, we create the folder "Transfer".

Treater Dates	Open Se	arch Display Style	Printer: All Printers	×		
P-touch Library	Nome	See	Type	Date	Location	
All Contents	Actinch shipping	¢ I. 18KB	Layout	2005/05/16 22:39:24	C#Documents and .

Becacia film						
Search Repulto						
Fransfer Manager						
PC (Sother X000000)						
Contensione						
The Manual Annual Annua						
The Content of Content						
Bar Propertieg.						

#### **3** Drag the transfer data to the folder you iust made.

Drag the transfer data from All contents or from Layouts or some other folder under Filter. When transferring multiple sets of data, move all the transfer data to the folder you made.

#### **4** Key Assign numbers are automatically assigned to transfer data within the folder you made in previous step.

To change a number, right click the data name in the list view, then select key assign number.

- Key Assign is necessary for transfer of data other than message texts.
- If you change the Key Assign number used for data already transferred to the printer main unit, it is overwritten. You can check the Key Assign number used for data already transferred to printer by backing up the data as explained in "Backing up label templates" (page 20).
- You can click the data name for transfer data and change to a new name. Depending on your printer model, there may be restrictions on the number of characters that can be used in a data name.

#### **5** Select the data or folder you want to transfer, then click

The transfer confirmation message is displayed.

#### 6 Click [OK].

The data in the folder selected with the folder view is transferred to the printer.

If you have selected specific data in the list view, only that selected data is transferred to the printer.

### Transfer the templates to the printer via network (PT-9800PCN only)

To transfer the templates to the printer via network, you need BRAdmin Professional. Download it from our website first.

The printer names and pictures in the following screens may differ from your purchased printer. The screens may vary depending on the model.

**1** Create the template you want to transfer with P-touch Editor 5.0, then choose [File]-[Transfer Template...] menu to register.

**2** Click 🦛 to save the registered template in .blf format.

#### **3** Start BRAdmin Professional.

Choose the printer and click on the [Control] menu. Select [Load Firmware].

**4** Choose Load Firmware function of the BRAdmin Professional.

Choose [TFTP PUT] and click [OK] button.

Load Firmware	X
	ОК
	Cancel
O TFTP GET	
O NetWare GET	

**5** Choose the file in .blf format which you saved in step 2 and load it to the printer.

Choose .blf file and click [OK] button.

The default password is "access".

Introduction

## Backing up label templates

This transfers label templates and other data in the printer to the PC.

- Valid only when connecting USB cable.
  - Backed up data cannot be edited on the PC.

• For some printer model specifications, it may not be possible to retransfer backed-up data to a printer of a different model than the one the data was originally backed up from.

**1** Connect the PC and the printer by USB cable and switch On the printer power.

The printer model name is displayed in the folder view.

If you select a printer model name in folder view, the current data transferred to the printer is displayed.

## 2 Select the printer to back up from, then click . The backup confirmation message is displayed.

**3** Click [OK].

New folder with a name containing the date is created under printer folder, and all the printer's data is transferred to that new folder.

### Deleting all the printer data

**1** Connect the PC and the printer by USB cable and switch On the printer power. The printer model name is displayed in the folder view.

2	Right click the printer, then select
	[All Delete].
	The confirmation message is displayed.

#### **3** Click [OK].

All data in the printer is erased.

P-touch Transfer Manager	×
All data will be deleted from the prin OK to continue?	ter.
Cancel	

## Starting up P-touch Library

You can start up the P-touch Library and edit and print labels.

## Click the [Start] button, then choose [All programs] - [Brother P-touch] - [P-touch Tools] - [P-touch Library 2.1].

The P-touch Library starts up.

#### Opening and editing data

The application associated with the data is opened and you can edit the data.

The application that starts up depends on the data. For example, for a P-touch template, P-touch Editor starts up.

#### Printing labels

## Choose the label templates you want to print, then click 7

Print, then click

The label is printed by the connected printer.

Creating Labels

Introduction

Appendix

### Searching labels

You can search label templates registered in the P-touch Library.

1 Click Control of the second second

#### **2** Check the items to be used as search conditions and set the search items. The search items that can be set are as follows.

Settings	Details
Multiple Parameters	This sets the method for combining multiple search items. If you choose AND, files are searched for those that satisfy all the conditions. If you choose OR, files are searched for those that satisfy any one of the conditions.
Name	Inputs the data name to search for.
Туре	Chooses the data type to search for.
Size	Sets the data size to search for.
Date	Sets the date at which the data to search for was last modified.

**3** Click [Begin Search].

The search is started.

Close the [Search] dialog. The search results can be checked in the Search Results in the folder view.

You can register the data in the P-touch Library by dragging and dropping to the All contents folder or its list view. To have label templates created with P-touch Editor automatically registered in the P-touch Library, use the following method.

- 1. From the P-touch Editor menu, choose [Tools] [Options].
- 2. In the [Options] dialog box [General] tab, click [Registration Settings].
- 3. Choose the timing for registering label templates created with P-touch Editor, then click [OK].

## How to use P-touch Editor Lite LAN (PT-9800PCN only)

With P-touch Editor Lite LAN, you can create various simple label layout quickly and easily.

**1** Double click the

P-touch Editor Lite LAN starts.

#### Layout window

🕅 🗎 占		P. Louch	<u></u>
Arial	▼ 30 ▼ <b>A</b> A		
12 mm	▼ 🛃 23.0 mm (A	uto)	0% • +

#### Command Toolbar

lcon	Function
<b>1</b>	Displays the New screen for creating a new label.
2	Opens a saved file with P-touch Editor Lite LAN.
	Saves the data to your PC, etc, but not to the labeler.
A	Inserts a new text box (convenient when creating labels containing both single and multiple lines of text).
	Inserts an image onto your label. <b>From file</b> : Inserts an image stored on your PC. <b>Screen capture</b> : Inserts the selected area of the PC screen as a graphic. <b>Symbol</b> : Inserts one of your PC's built-in symbols.
	Inserts a frame.
•	Displays the menu. The menu includes all P-touch Editor Lite LAN functionality.
-	Minimizes P-touch Editor Lite LAN.
×	Exits P-touch Editor Lite LAN.

#### 2 Property Toolbar

lcon	Function		
Arial	Click 💽 to change the font.		
24 <b>• A A</b>	Click I to specify the font size. You can adjust the font size up or down one level by clicking A or A.		
AAA	Specifies the font style: A Bold A Italic A Underline		

Icon	Function
E.	Specifies the alignment of text in a text box.
12 mm	Sets the width of the tape. Click to automatically detect the width of the inserted tape.
23.0 mm (Auto)	Sets the length of the label. Click is to automatically adjust the length of the label to accommodate the entered text. Sets/cancels the label direction
A	to vertical.
- 100 % - +	Click $\checkmark$ to set the zoom factor for the Label View. You can also change the zoom factor by clicking $\bigcirc$ or $\oplus$ .
	Click Current to print normally or to print with options. Auto Cut: Each label is automatically cut after printing. Half Cut:Only the label tape is cut without cutting the backing, making it easier to remove the label backing. Chain Printing: Uses the least amount of tape when printing more than one label continuously. The last label printed is not cut. After printing, press Feed & Cut button to cut the last label. Special Tape: Select when you use a tape which cannot be cut with this cutter blade, such as Fabric Tape or Strong Adhesive tape etc. Mirror Printing: Prints a mirror image of the label. Copies: Prints multiple copies of a label.

#### **8** Label View

Display	Function				
a Auto	This label view is displayed when the software is started. The width of tape currer set is displayed on the left of label image. When "Auto" is shown on the right, the length of tape is automatically adjusted to the length of text.				
auto ■	You can drag the label border to manually change the length and width of the label. Move the pointer to the label area's border. When the blue line appears, drag to the desired length or width.				
PT-9800PCN	You can adjust the size of the P-touch Editor Lite LAN window. Simply move the pointer over an edge of the P-touch Editor Lite LAN window and drag to adjust the size once the pointer changes to an arrow.				
	Guidelines are sometimes displayed when moving objects. They are shown when the object is aligned at the left, right, top, or bottom edge of Printable area, or in the center. In the illustration to the left, the guidelines indicate that the object is centered at the top edge of the tape.				
Auto	Inserted text boxes, images, and frames are treated as objects. Objects are surrounded by handles (indicated by eight blue points).				
Auto	Indicates that an object is selected.				
Auto	The pointer changes to an arrow when moved over a handle. You can change the size of the object by dragging.				
Auto	You can move objects by dragging when the pointer is a crosshair. For text objects, the pointer only changes to a crosshair over the border of the object.

Creating Labels

## **Printing directly from other applications**

You can use this machine to print directly from most Windows<sup>®</sup> applications, by installing the printer driver.

Because the paper size for this machine is different from other regular printers, you may not be able to print even after installing the driver and application software, unless the application software allows the correct label size to be set.

### Setting the Printer Driver

In the following steps, you will see XX-XXXX. Read "XX-XXXX" as your printer name. The printer names in the following screens may differ from your purchased printer name. The screens may vary depending on the model.

- For Windows Vista<sup>®</sup>/Windows<sup>®</sup>7
   From [Control Panel], go to [Hardware and Sound] and open [Printers (Windows Vista<sup>®</sup>) / Devices and Printers (Windows<sup>®</sup> 7)].
  - For Windows<sup>®</sup> XP
     From [Control Panel], go to [Printers and Faxes].

For details, see Windows<sup>®</sup> Help.

**2** Choose "Brother XX-XXXX", and right-click and select [Select printing preferences].

The [Brother XX-XXXX printing preferences] dialog box appears.

	Name	Documents	Status	Comments	Location	Model	
Documents Pictures Music Recently Changed Searches		Brother XX-XXXX Ready Microsoft XPS Doci Writer	ument	Fax 0 Ready Send To 0 Ready	OneNote 2007		

### **3** Choose each item and click **—**.

• [Basic] Tab

• [Advanced] Tab

Format".

This tab is used to set the paper size, number of copies, quality and cut option.

The cutting options will vary according to the model.

You can set graphics options ("Halftone", "Brightness" and "Contrast") and "Label

Refer to "User's Guide" about "Distributed Printing" (PT-9700PC/9800PCN only).

**4** Close the [Printers] window.

## Printing from other applications

We will use Microsoft<sup>®</sup> Word as an example.

In the following steps, you will see XX-XXXX. Read "XX-XXXX" as your printer name. The printer names in the following screens may differ from your purchased printer name.

The screens may vary depending on the model.

#### 1 Click 🖲 and 嬶.

The [Print] dialog box appears.

**2** Choose "Brother XX-XXXX".

You can change the settings of the Printer Driver from the [Properties] dialog box which appears by clicking \_\_\_\_\_.

ntroduction

Creating Labels

Appendix

**3** Click **E** to close the [Print] dialog box.

**4** When you click [Page Layout] the ribbon / standard toolbar appears. Then click the mark to the right of Page Setup.

The [Page Setup] dialog box appears.

**5** Click the [Paper] tab, and choose the paper size that you want to print.

**6** Click the [Margins] tab, and set the page (label) margins.

#### **7** Click **—** to return to your document.

The size of the Microsoft<sup>®</sup> Word window is adjusted to the paper size that you have just chosen. Edit the document as needed.

28

#### 🎖 Click **၍** and 🚑, then click 📼.

The specified labels are printed.
