Safety Precautions

AWARNING Indicates a potentially hazardous studio which, if not avoided, studio which with the control of the c could result in death or serious

Follow these guidelines to avoid the risk of fire, burns, injury, electric shocks, rupture, overheating, abnormal odours or smoke. Always use the specified voltage and the suggested AC adapter (AD-24ES/AD-24ESA/AD-24ESAW/AD-24ESA-01/AD-24ESAW-01) for the label maker to prevent

24ESAND-24ESAN

Do not overload the power cord.

Do not place heavy objects on, or damage the power cord or plug. Do not forcibly bend or pull the power cord. Always hold the AC adapter when disconnecting from

Make sure that the plug is fully inserted to the power outlet. Do not use an outlet that

is louse.

Do not allow the label maker/AC adapter/power plug/batteries to get wet, for example, by handling them with wet hands or spilling beverages on to them.

Since loss of eyesight may result when leaked fluid from batteries gets into your eyes, immediately rinse your eyes with a large amount of clean water, and then seek Do not disassemble or modify the label maker/AC adapter/batteries

Do not disassemble or modify the label maker/AC adapter/batteries.
Do not allow a metal object to contact both the plus and minus ends of a battery.
Do not use sharp objects, such as tweezers or a metallic pen, to change the batteries.
Do not throw the batteries into fire or expose to heat.
Disconnect the AC adapter and remove batteries immediately and stop using the label maker if you notice abnormal odor, heat, discoloration, deformation or anything unusual while using or storing it.
Do not use a damaged or leaking battery as the fluid may get on your hands.
Do not use a deformed or leaking battery or one whose label is damaged. There is a possibility of generatine heat.

When replacing batteries or tape

cassettes, make sure the power is

Ni-MH batteries, not included.

This label maker requires six (6) AAA

alkaline batteries or six (6) fully charged

turned off.

General Precautions

o not drop or hit the label maker/AC adapter.

ACAUTION Indicates a potentially hazardous situation which, if not avoided, may result in minor or moderate injuries.

Follow these guidelines to avoid personal injury, liquid leakage,

When the label maker is not being used, store it out of the reach of children. In

addition, do not allow children to put the label maker parts or labels in their mouths. If any object has been swallowed, seek medical attention. Do not touch metal parts around the print head immediately after printing.

If leaked fluid from batteries gets on your skin or clothes, immediately rinse them with

clean water. Remove the batteries and disconnect the AC adapter if you do not intend to use the

Do not use a battery other than that specified. Do not use combinations of old and

new batteries or combinations of different types, different charging levels, differen manufacturers or different models. Do not insert a battery with its plus and minus

Do not press on the LCD display.

Do not press on the LCD display.

Do not put your finger inside the label maker when you close the cassette cover.

Before using Ni-MH rechargeable batteries, carefully read the instructions for the batteries and battery charger, and be sure to use them correctly.

When using Ni-MH rechargeable batteries, charge the batteries with a specialized battery charger before using the batteries.

 Depending on the location, material, and environmental conditions, the label may unpeel or become irremovable, the color of the label may change or be transferred to other objects. Before applying the label, check the environmental conditions and the material.

Denote the color of the label is the color of the label in the color of the label. The color of the label is the color of the label in the label in the label is the label in the la Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which Do not use the label maker in any way or for any purpose not described in this guide. Doing so may result in accidents or damage the label maker.
Use only Brother TZe tapes with the label maker. Do not use tapes that do not have

Only use a soft, dry cloth to clean the labeler; never use alcohol or other organic solvents.

Use a soft wipe to clean the print head: never touch the print head. Do not put any foreign objects into the tape exit slot or AC adapter connector or battery compartment, etc.

Tape Exit Slot

 Do not place the label maker/batteries/AC adapter in direct sunlight or rain, near heaters or other hot appliances, in any location exposed to extremely high or low temperatures (e.g., or the dashboard or in the back of your car) or high humidity, or **2** BASIC USAGE

Do not apply excessive pressure to the cutter lever.

Do not try to print if the cassette is empty; it will damage the print head.
 Do not pull the tape while printing or feeding; it will damage the tape and the label

Any data stored in memory will be lost due to failure or repair of the label maker, or it

any text files stored in the memory will be cleared.

the battery expires.

The label maker is not equipped with a charging feature for rechargeable batteries.
The printed text may differ from the text that appears in the LCD.

Resetting the P-touch

Reset your label maker when you want to initialize the settings, or in the event it is not working properly. Resetting clears all the text, settings, and stored files.

- 1 Turn off the label maker, hold down Ashirt and R, and then press (b) to turn the label maker back on.
- **2** First release the power button, and then release (\(\partial shift \) and (R). The label maker turns on with its internal memory reset.

If you have questions or need information about your Brother product, please visit us

	 The batteries may be weak. Replace them. When power is disconnected for more than three minutes, all text and formats in the 		4	
	display are cleared. Language and Unit settings will also be cleared.		5	
	There maybe some dust on the print head. Remove the tape cassette and use a dry		6	
	cotton swab to gently wipe the Print Head with an up-and-down motion.		7	
			8	
			9	
	 Refer to the Resetting the P-Touch section in this guide. 		10	
			11	
	The batteries may be weak. Replace them.		12	
	Check that the batteries are correctly inserted.		13	
	 The wrong AC Adapter is used. We recommend using the AD-24ES/AD-24ESA/AD-24ESAW/ AD-24ESA-01/AD-24ESAW-01 Adapter. 		14	
	Check that the end of the tape feeds under		15	
	the tape guides. The Tape Cutter Lever is pressed while		16	
	printing. Do not touch the Tape Cutter Lever during printing.		17	
	David and and and		18	
	• Press \(\partial Shift \) + \(\) and select \[\] [Text&Format].		19	
	Refer to the Initial Settings section in this		20
