

## **Important Security Information**

You can connect your printer to your computer or mobile device directly to print or use the printer's embedded web server for admin support or configuring the NETWORK WI-FI SETUP. Use your computer or mobile device to select the printer's SSID. No password is required. The default admin password required for changing network settings is located on the bottom of the printer and marked "Pwd:".

### **Factory Default Enabled Network Services**

<b>Service</b>	<b>Protocol</b>	<b>Description</b>
Web server	HTTPS	The web server is used for viewing and changing the printer's information and settings through Web Based Management. It also supports printing using AirPrint.
SNMP	SNMP v1/v2c	SNMP is used for viewing the printer's information.
Port 9100 (Raw Port)	Port 9100	Port 9100 is primarily used for printing. It also supports viewing the printer's information through the mobile Apps and driver using a custom protocol.  Only viewing is enabled.
Name resolution	NetBIOS/mDNS	These protocols are used for name resolution.

You can disable Port 9100 through the admin web page. Port 9100 uses unencrypted Wi-Fi network transmission. Printed data may potentially be exposed under certain conditions. Please ensure that it is used only in a controlled environment, such as at home or in an office.

## **Product and Data Security**

### **Product Installation**

Unauthorized users may physically access or remotely manipulate the product through the network. Make sure you install the product in a secure location.

### **Personal Information**

There is no personal information stored in the product. Print image data from the mobile Apps and PC Wi-Fi driver is transmitted unencrypted using Port 9100. The print image data is received and resident in the printer until the print is complete, and then deleted.

## **Other Information**

### **■ Important**

- Available features depend on the printer's model. For more information, see your product's User's Guide.

### **■ Trademarks**

- Wi-Fi is a registered trademark of Wi-Fi Alliance®.

- AirPrint is a trademark of Apple Inc., registered in the U.S. and other countries.

**Any trade names and product names of companies appearing on Brother products, related documents and any other materials are all trademarks or registered trademarks of those respective companies.**
